New Scientific Theory Disclosed At Lecture

On Tuesday night, November 22, a special lecture on 'Antimatter' was presented in the Campus Theatre. Dr. Clyde Cowan, a prominent physicist and author, discussed his research on antimatter. Dr. Cowan's lecture, which was a part of the annual lecture series, generated widespread interest among the student body. Dr. Cowan's topic was announced as a surprise to the audience, and the discussion revolved around the nature and potential uses of antimatter.

The Faculty Reviews Attendance Policy

In an effort to enhance the academic environment, the faculty reviews the current attendance policy. The policy has been under consideration for several weeks, and various teachers have been consulted about the possible changes.

The Question: Responsible or Irresponsible Student Attitude?

With the recent rise in the percentage of students missing class, the faculty polled the students about their attitudes towards attendance. The survey aimed to determine whether the students were responsible or irresponsible in their approach towards attending classes.

Youthful Artist Muses Over Student "Brainwashing"

On Monday, November 4, a local artist, Al Miller, presented a lecture on "Art and the Impact of Modern Society." He discussed the role of art in modern society and the challenges faced by artists in today's world.

Open House Scheduled

Bro. John Jones, Director of the Academic Assistance Program, has announced a day of open houses for the College. The event will take place on Thursday, December 8, and continue through the afternoon. All members of the college are invited to visit the campus and participate in the activities planned. The open house is an opportunity for the community to learn more about the college and its programs.
Concert Planned For December 12

The Yellow Rolls Royce

by L. Carter

Last year, on the second floor of Champagnat, a group interested in music decided to form a group. The group, called "The Yellow Rolls Royce," was set up by Bro. Joseph McGinty, to meet in one room to study and work on music. The group consisted of a piano, a violin, a guitar, and a trumpet, and the members were free to bring their own instruments. The group met on Monday nights at 8:00 p.m., and at the end of the year, they began to give concerts. The group continued to meet and perform until the end of the year, and upon the completion of the year, the group disbanded. The group's name, "The Yellow Rolls Royce," was chosen because of the car's association with music and the group's desire to have a name that reflected their passion for music.

New French Club Founded

by Bill Reilly, F.M.S.

Last year, in the second floor of Champagnat, a group interested in French decided to form a club. The group, called "New French Club," was set up by Bro. Joseph McGinty, to meet in one room to study and work on French. The group consisted of a group of people who were interested in learning French, and the members were free to bring their own materials. The group met on Monday nights at 8:00 p.m., and at the end of the year, they began to give presentations. The group continued to meet and perform until the end of the year, and upon the completion of the year, the group disbanded. The group's name, "New French Club," was chosen because of the club's association with French and the group's desire to have a name that reflected their passion for French.

WHERE FOOD RIOTS at one time came few and far between, 46 years ago, with the end of the war, a change in the attitude of young people, and a desire for more freedom, the concept of food riots became more commonplace. The concept of food riots became a way for young people to express their dissatisfaction with the world around them, and to challenge the authority of those in power.

Now I'll lay me down to sleep... if there's a place in this world where I can find peace

Wishing to hear of the nature of the Marist Radio Program offered.

Marist College was founded in 1916 by the Religious of the Sacred Heart. The college is affiliated with the Catholic Church and is located in Poughkeepsie, New York. Marist College is a private, coeducational, Catholic institution of higher learning.

The Marist Radio Program, known as WMCS (600 kc.), airs nightly from 7 to 8 p.m. from Monday through Thursday. The program features a variety of content, including music, discussions, and interviews. Music is played from 7 to 8 p.m., discussions from 8 to 9 p.m., and interviews from 9 to 10 p.m. Interviews are conducted by the credit manager of both establishments and are designed to give these individuals an opportunity to discuss their lives and their work.

![Interview with Mike Drake, last April.](image)

The audience was left "up in the air" after the interview with Mike Drake last April. Plans were made for the program to continue, with discussions and interviews to be held on various topics. From 7 to 8 p.m., music will be played, from 8 to 9 p.m., discussions will take place, and from 9 to 10 p.m., interviews will be conducted. The program is conducted from the studio in the Radiation Building and is broadcast to the students of Marist College.

CAGE SEASON OPENS
THURSDAY AT HOME

RICK SCHNEIDER
Forward...20-year old junior from Floral Park, N.Y. ... 6'1" ... 160 lbs ... played three years at Holy Cross High School ... co-captain of Marist Frosh squad ... played for Marist Varsity last year.

JOHN MURPHY
Center...20-year old senior from Manhasset, N.Y. ... 6'3" ... 205 lbs ... played two years at St. Mary's in Manhasset ... last year, John averaged 16.3 points a game. Barring injuries, he could join Fred Weiss in the single-digit circle of Marist 1000 Pointers to wind up a successful four-year career.

ERNIE INCITTI
Forward...19-year old sophomore from Schenectady, N.Y. ... 6'4" ... 205 lbs ... played one year of varsity ball at Linton High School ... second best rebounder for Frosh team last year ... looking much trimmer, Ernie could be a dangerous threat under the boards this year.

RICK DIPIATRI
Guard...19-year old sophomore from Camden, N.J. ... 5'9" ... 170 lbs ... averaged 10.5 points for Marist Frosh squad last year ... honorable mention All South Jersey Parochial team in his senior year at St. Joseph's ... a good defensive player with tremendous spirit.

TONY POWERS
Guard...20-year old sophomore from Camden, N.J. ... 5'9" ... 164 lbs ... elected to the All South Jersey Parochial team after playing four years at St. Joseph's ... an excellent playmaker, Tony paced last year's Frosh squad in scoring and assists.

Basketball Outlook

Mr. Ron Petro is an anxious man. He has to be -- he wants to field a winning basketball team this year. He has the credentials: B.S. in Physical Education, member of the 1962 and 1963 Metropolitan All Star Team, a three-year member of the 1962 Eastern College All Star Team, played three years of varsity basketball at Manhattan College, scored a scoring record at M.C. for a 22-game season, and is one of the six players from Manhattan to score 1,000 points. But with all this, he is still an anxious man. Getting to know the strong point-guard shortcomings of fifteen individuals in a matter of weeks is no small chore. But Ron feels that, with a little bit of luck and a lot of sacrifice and team spirit, Marist can have an exceptional squad this year.

"Hustle is the key to our success," he said. "We have to employ the fast break because we have sacrificed height for speed." So said Ernie Incitti and John Stritzi in exclusive interviews. Petro knows what hustle and speed can do for a team -- he has played against some of the best teams in the nation. The last two years have been an opponent on the scoreboard, and a psyched-up spirit can break an opponent down on the court. Ron has confidence in his offensive and defensive strategy and confidence in his ballplayers.

This year's schedule will include a Christmas tournament with Albany State, New Paltz, and Siena on December 27-28 at a site yet to be announced. All home games will be played at Lourdes High School -- the first being this Thursday against Danbury State -- with the J.V. beginning at 6:30 and the Varsity following at 8:00. The remainder of the schedule can be found elsewhere on page seven.
