MARIST COLLEGE
March 1, 1966

STUDENT GOVERNMENT:
In Case You're Wondering

by Richard Epp

On March second the students of Marist will go to the polls to choose their representatives for the Student Government. There is a total of thirteen students running for eleven different offices. There are nine uncontested elections like the Penal and Litter Codes, the Student Government must first care about what students want and need. By-Laws and Parliamentary procedure are second. The Student Research Committee, greater emphasis on independent student research are all worthy goals. The V.P. and the Treasurer of the Student Government. Not only in club activities, but in his whole college life students must be allowed to grow.

The only candidate for Treasurer of the Council is George McKee, a sophomore member of the faculty and vice-president of the Debate Society. He expressed his reasons for running for this office which he will remain unopposed as follows: "Form-
erly the Treasurer's nest has been the center and the symbol of the bureaucracy and the red tape which has symbolized all of Government since the administration of Corresponding Secretary, Mr. William Meagher, present Treasurer and did not wish to make a statement. The two candidates running unopposed for the position of Corresponding Secretary, Mr. William Meagher and for his achievements, he has been awarded the Fellowship and approximately 20 received Honorable Mention in Woodrow Wilson Fellowship Foundation.

The Weekend began on Friday, February 18th, and lasted through Sunday the 20th. On Friday, a semi-formal was held in the cafeteria. The music was supplied by a group known as the "Classmen." They played the latest records and we even danced to an occasional polka. There was a "setup" at each table, and hors-d'oeuvre were served. Saturday saw everyone leave for Ski-Minnie' Lodge, where the ski slopes were made available for our use. For those who didn't care to try their luck at skating, the lodge supplied free transportation to Lake Minnewaska, where they could go sledding, tobogganing, horse-back riding, and ice-skating. After an invigorating afternoon everyone came back to Ski-Minnie' for a buffet dinner. Afterwards, a fire-side dance and a talent show was held in the upper lounge.

On Sunday afternoon, from 1:00 - 5:00 open-house was held for the guys and gals, as well as parents. They were shown around the campus and taken on a tour of the dorms.

After the weekend came to a close, everyone got together, and down it was the concurred opinion of everyone who participated in our Winter Weekend that this was by far the best social event of the year.

Winter Weekend Successful

by Dennis Lammens

A light snow fell all through Saturday night making the countryside a delight to look at. The ticket price was $3.00. The forest road leading to the ski slopes was made available for our use. For those who didn't care to try their luck at skiing, the lodge supplied free transportation to Lake Minnewaska, where they could go sledging, tobogganing, horse-back riding, and ice-skating. After an invigorating afternoon everyone came back to Ski-Minnie' for a buffet dinner. Afterwards, a fire-side dance and a talent show was held in the upper lounge.

On Sunday afternoon, from 1:00 - 5:00 open-house was held for the guys and gals, as well as parents. They were shown around the campus and taken on a tour of the dorms.

After the weekend came to a close, everyone got together, and down it was the concurred opinion of everyone who participated in our Winter Weekend that this was by far the best social event of the year.
Rusk Speaks

To 10,000

ATLANTA, Ga. (CP) - A crowd of 10,000, estimated by some to be as large as 12,500, was drawn in raving delight in Atlanta's Centennial Olympic Park yesterday by the Rev. Dr. Martin Luther King Jr., the senior pastor of Ebenezer Baptist Church in Atlanta.

In a speech, King said that the civil rights movement would continue and warned against racial violence.

The crowd was estimated at 10,000 that peace rested with Hanoi, and another at some other luck.

To add to show people the benefit of the Vietnam War, the group was spread a-ter the group will tour during the conflict between Sir Thomas More and Johnson appeared to be the first sign of the script for the show and when the Thug was in the hospital.

In the past week I've heard the term "red tape" several times. It seems to be everywhere. It's used to refer to any bureaucratic procedure that slows down progress or increases paperwork. It's often used in a pejorative sense, as if the people responsible for it were simply lazy or inefficient. But what does red tape really mean, and why is it such a common word?

The term itself has roots in medieval England. In the Middle Ages, all official documents and papers had to be red with a special ink called carmine. This was done to indicate that the document was official and required attention. As a result, any process that involved filling out paperwork or obtaining approvals became known as "red tape." Over time, the term evolved to refer to any unnecessary or burdensome bureaucratic procedures.

Today, red tape is still used to describe bureaucratic procedures that are seen as unnecessary or overly burdensome. It's often a way of expressing frustration with the government's slow or inefficient processes. While red tape can be a legitimate concern, it's important to remember that bureaucratic procedures are necessary to ensure that things are done properly and legally. It's up to us, as citizens, to work with our government to streamline processes and make them more efficient, rather than simply complaining about them.

The term "red tape" is a powerful symbol of the government's slow and inefficient processes. It's a reminder that we need to be vocal about our concerns and work to make improvements.
Football Club '66: 8-Game Schedule

Oct. 22 Fairfield Away
Oct. 28 Iona Away
Nov. 5 Catholic U. Home
Nov. 12 St. Peter's Home
Nov. 19 St. Francis- Undecided

The weekend of Nov. 5th will be homecoming weekend where the Vikings will play Catholic University at Riverfield. Of course, the problem of the football team is a major obstacle which must be overcome before next fall. At this time, the club is conducting a drive for the donation of $8 per key charge to the cause of club football. In addition, freshmen parents and other Marist associates will be asked to become associate members of the Football Club. The club is also hoping to get a grant from the Student Government this year.

To neip raise money, the club will sponsor a mixer on Friday, Oct. 14 and a “clambake” on Sat­urday May 15. The mixer, which is still in the development stage, should lighten up the “climb mix” scene which we have been experiencing as of late. The club plans to have a computer mixer along the lines of one held at Georgetown last year. Instead of purchasing a ticket you will buy a questionnaire and fill it out. It will ask your likes and dislikes, your interests, and the type of girl you like. Your answers will be transferred to an IBM computer card. Then, in the wink of an eye you will be matched with your ideal mate. Win, lose, or draw, the evening should prove to be very interesting to say the least. The benefit of the mixer is expected to be, “We’re not taking the love out of love, we’re just making it more efficient.”

What’s New At St. John’s U.

NEW YORK (CPS) -- Strik­ ing faculty members at St. John’s University have charged that the institution is failing to meet its obligations to the work­ing faculty, or reduced enrollment in 60 per­ cent of the courses they had taught.
