Top Frosh Elections

PERMANENCY ASKED
For Election Commission

As a result of the confusion which has occurred in recent elections, Mr. Nehe, the co-
ordinator of the Student Government, has drawn up an article which we hope will
be added to the constitution.

Mr. Nehe has taken the structure of the Judiciary which calls for three members, one
from each of the various colleges involved.

The problem of discipline among Marist students is in a
stage of serious reconsideration. There is a large possibility of some disciplinary matters con-
cerning students being handled by other students.

The reasoning behind the proposal is to extend the realm of student responsibility to the area of
discipline. In this way, we believe, the responsibility for every student to decide what sort of
conduct he desires in the student body.

Although no definite plans have been decided on, opinions of the three, most directly
affected, have been sought. Both Dr. John O'Connell of Marist, Charles. Cochrane, President of
St. Rose, and Mr. Alphonsus Rooney, President of College of St. Rose, have expressed their opin-
ions in an interview with Charles Be Sagma.

To Extend Responsibility

New Changes Proposed
For Student Judiciary

By Bro. Frederick Brand

The principle of students judging students is in a stage of serious reconsideration. There is a large possibility of some disciplinary matters concerning students being handled by other students.

The reasoning behind the proposal is to extend the realm of student responsibility to the area of discipline. In this way, we believe, the responsibility for every student to decide what sort of conduct he desires in the student body.

Although no definite plans have been decided on, opinions of the three, most directly affected, have been sought. Both Dr. John O'Connell of Marist, Charles Cochrane, President of St. Rose, and Mr. Alphonsus Rooney, President of College of St. Rose, have expressed their opinions in an interview with Charles Be Sagma.

Plans For Joint
Blood Bank Outlined

By Steve Gorer

The idea which Mr. Nehe has taken is that each college would be asked to participate.

When a person donates a pint of blood, his name will be added to the list of donors. This list will
be used in an attempt to discover their familial blood type. Each member will receive a membership card
that will expire every three years. It will be necessary for the donor to be examined by a hospital technici-
An Conference
Other Colleges Impressed With
Marist Structure

At the conference of students and student leaders, which was held at St. Rose College, the se-
lected structure of the Marist Student Government, was examined by representatives from other colleges.

President said, "I am certain that we are learning to use many of the things that we already had.

Joe Brown, President of the Student Government, also agreed with Mr. Nehe. The purpose of the con-
ference was to obtain student rights for all the student bodies of the various colleges involved.

These colleges included St. Rose College, the College of St. Rose, and the Montessori Method.

In Lecture

PSI DELTA To Present
Montessori Method

The PSI DELTA Society will present a lecture on the Montessori Method, which will be
held in the Firehouse Lounge by Mr. John P. Halsey, Head of the Whitby School of Greens-

The Whitby School is a member of the American Montessori Society and is the center of regen-
eration of interest in the Montessori Method of education in this country. Mr. Halsey will speak on the philosophy and pedagogy of the Montessori Method, with special emphasis on child development.

The Montessori Method is basically one of a "prepared environment." The child is placed in a
room and is given a certain order and sequence to the tasks he is to develop according to his own cap-
ability.

The College Community is invited to attend this lecture.

The Society has announced that the students from the various colleges who will participate in the event will be present. The two films will be shown within the week of the lecture. The films will deal with abnormal psychology, abnormal behavior, and will deal with abnormal psychology. The first film, "A Study in Material Antiquity," is entitled "A Study in Material Antiquity."
Pass Fail...

Adviser's Non-Role "No Small Challenge"

Last month's editorial in this paper was inspired by Mr. Howard, a member of the freshman class. It presented an argument that the present student government is inadequate and suggested that a new council be elected. The editorial was based on the idea that the current government is not doing an adequate job of representing the student body.

Following the editorial, our President, Mr. Johnson, responded by stating that the student government is doing an adequate job and that any student who is unhappy with the current government should consider running for office. He further stated that the present council is responsible for making important decisions and that new members should be able to contribute to these decisions.

While we appreciate Mr. Johnson's response, we believe that his statement is not a valid defense of the current government. The student government is responsible for making important decisions, but it is not necessary or desirable for all students to be actively involved in these decisions. The current government is not doing an adequate job of representing the student body, and a new council should be elected.

We encourage all students to consider running for office and to actively participate in the decision-making process of the student government.
Coach Ron Petro begins his second season at the helm of the Marist College Varsity Basketball Team of Poughkeepsie, New York, with the naming of a twelve man roster. Coach Petro has cut to twelve in an endeavor to have his players think and react as a unified team. There are seven lettermen from last year's varsity which posted a 9 and 16 record. Among those returning to the lineup, only two have had extensive experience in playing varsity ball.

Captain Rick Schneider leads the Marist squad in his third year as a varsity ballplayer. A forward last year, he accumulated an 8.9 scoring average. He is known for his constant hustle and desire, and in order to utilize his experience, he will be alternated between the forward and guard positions.

Backing up Rick will be the second leading scorer from last year's team, Bill Gowen. At 6'2", he will probably command one of the forward positions. Last year Bill averaged 12.5 per game, and was the team's second leading rebounder. He has improved his offensive moves, and should lead the Red Foxes in the attack this year.

The other returning lettermen are all fighting for starting berths. John Stritzl and Jim Brady have the inside track for the backcourt positions, and are expected to be more experienced in their second year on the team. Both are expected to be smarter ballplayers as a result of last year's experience. Pushing for starting positions in the backcourt will be sophomore Pete Farrell and junior Kevin Lover. Lover is a newcomer to this year's squad and has shown periods of excellent basketball knowledge and ability. Farrell averaged 10.8 for the Marist Freshmen and could be a big help in the backcourt.

The competition for the forward positions is hot and heavy. A key man along with Bill Gowen will be last year's Mr. Everything on the Freshman team, Bill McKinstry. He averaged over twenty points per game and was the Frosh team's leading rebounder. He has improved his offensive game, and should lead the Red Foxes in the attack this year.
