FOY ANNOUNCES JULY TUITION INCREASE

The tuition at Marist College will be raised to $1350 per semester for the academic year starting on September 1, 1969, it was announced today by Brother Louis Richard Foy, President. There will be no change in fees and charges, which will be a uniform $450.00 per semester.

As was done last year, funds will be budgeted for students for whom the increased tuition would be an impossible financial burden. Efforts will be made to submit a financial statement. Special consideration will be given to next year's seniors and juniors, for whom this increase is expected to be most affected by the recent inflation.

President Foy stated that the increase had been voted on by the Trustees at their meeting on September 6, 1968. Announcement had been delayed at the president's request to give him time to explore alternative methods of financing the 1969-1970 academic year. It has now become clear that the other measures tried and that delay announcement would serve neither the interests of the college nor those of the students involved.

Chief among the alternative methods considered was the possibility of granting colleges $400 per annum, effective July 1969, it was announced today by Brother Linus Richard Foy, President of Marist College. This proposal has been recommended by the National Education Association, the American Federation of Teachers, and the American Federation of State, County, and Municipal Employees.

EDITORIAL

A "Fellow American"

The following is a letter that was sent to the president of the Peace and Freedom Party (PFP), Mrs. Maris, by a member of the Chicago American Legion. It states some of the reasons that the writer believes Americans should be "Fellow Americans:" that there should be a "broader consciousness of Americans" and that there should be "a spirit of unity and cooperation among the people of America." The letter also includes a request for information about "American Legion activities" and suggests that the reader consider joining the organization.

Dear Sir:

I am writing to you as a member of the Chicago American Legion. I believe that there is a need for a "broader consciousness of Americans" and that there should be "a spirit of unity and cooperation among the people of America." I also believe that the American Legion has a role to play in promoting these goals.

I would like to know more about American Legion activities and how to join the organization. Please let me know if you have any information on these topics.

Sincerely,

LETTERS TO THE EDITOR

COMMUNALISM AND THE INDIVIDUAL

By VINCENT RUROA

Once again the "spit" of the month maneuver is to be observed and replaced in American society by the "spit" of the month maneuver which brings another "spit" of the month maneuver. This is extremely unfortunate. The "spit" of the month maneuver is "individual freedom to be achieved by the individual's own efforts alone." I am a staunch advocate against this maneuver and am opposed to the "spit" of the month maneuver. In my opinion, it is not expedient to exploit "spit" of the month maneuvers with others.

The "spit" of the month maneuver is a physical maneuver. It is a maneuver that is too easy to use. The maneuver can be used against anyone and it can be used against the Los Angeles police department. The maneuver is a physical maneuver and it can be used against the Los Angeles police department.

The maneuver is a physical maneuver and it can be used against anyone. The manipulation of the Los Angeles police department is a physical maneuver and it can be used against anyone.

The maneuver is a physical maneuver and it can be used against anyone. The manipulation of the Los Angeles police department is a physical maneuver and it can be used against anyone.

THE SPIRIT OF SUSPICION

By JOHN ALVERNS

Once again the "spirit of suspicion" maneuver is to be observed and replaced in American society by the "spirit of suspicion" maneuver which brings another "spirit of suspicion" maneuver. This is extremely unfortunate. The "spirit of suspicion" maneuver is "individual freedom to be achieved by the individual's own efforts alone." I am a staunch advocate against this maneuver and am opposed to the "spirit of suspicion" maneuver. In my opinion, it is not expedient to exploit "spirit of suspicion" maneuvers with others.

Everyman's Responsibility
by Richard F. Borrow

In the past issues of the Circle we've found an interesting contrast in the way a problem is handled. On the one hand, there are the students who are in good standing and are seeking support for their cause. On the other hand, there are the faculty members who are less likely to line up behind the students. This contrast is clearly illustrated in the current issue of the Circle.

The students are seeking support for their cause, but the faculty members are less likely to line up behind the students. This contrast is clearly illustrated in the current issue of the Circle.

Choice of Direction

**Methods of Contraception discussed by Dr. Stall**

Doctor Seymour Stall, a physician from the greater metropolitan area, lectured on the subject of contraception. Dr. Stall stressed the importance of contraception as a means of controlling the population growth.

Dr. Stall stated that contraception is a method of preventing conception, and it is one of the most effective means of family planning. He mentioned that the ideal contraception is the one that is 100% effective, simple, and acceptable to the individual. The doctor also mentioned that the need for contraception is increasing in the society, especially during the weekend.

Dr. Stall emphasized that the need for privacy and quiet for dorms is dominant in the social atmosphere for men. Areas should be allocated where students can study or enjoy privacy.

Football Club Holds Banquet; Kramer And Conroy Honored

On Wed. night, Dec. 11, the Football Club held its banquet with honored guests including head coach Ron Levine, his assistants, and their wives. Also sitting at the dias was WHW Commentator Bob Norman who presented a delightfully amusing and entertaining address. A total of 23 presenters spoke on the importance of the game and the guests were treated to dinner. The event was a great success and was enjoyed by all present.

This Viking was never in uniform as such, but he probably will wear the Viking blazer he was presented by the players, and raise his mug presented by the coaches with great pride knowing that he above all is responsible for taking the team from near bankruptcy to their return to the gridiron. Truly Sean O'Neill deserved all he received as probably "one of the most valuable Vikings."

Coach Levine spoke about the new look on the helmets for next season. The numbers will be on the back instead of the side and for those players that earn them there will be decals.

Continued on Page 7

The Marist Frosh ran all over Iona, Wednesday night, Dec. 11, 106-89, at the Mt. St. Michael's gym. This marked the first time the Frosh had met their match. Thompson, Ray Manning and Spenla, to the bench well before the game was over.

One of the high points in Marist College basketball history was reached this weekend with the ball in the air and the crowd all up. The Frosh defeated Lock Haven 74-97, before knocking off Cortland in the finals 81-75. In that semi-final game, it was all Marist as Coach Ron Petruco cleared the bench well before the game was over. In that mismatch, co-captain Bill Gowen led the way with 23 points. He was followed by Bill Spenla (18), Ken Thompson (16), Ray Manning (15), co-capt. Jim Brady (10), and Dave Bushill (8). The balance in scoring is a clear illustration of the all-round attack Marist made use of.

In the meantime, Cortland was beating the host, Oswego, 82-68, with their mighty center, Frank Kraemer, leading the way, scoring 35 pts. This set the stage for the second, and final day of the tournament.

In the consolation game, Oswego, suffered another defeat, beating Lock Haven 74-47. Only the final game, Marist against Cortland, was yet to be played.

For his efforts, Thompson was chosen MVP of the tourney, and he was selected, along with Manning and Spenla, to the tournament all-star squad. Also named was Lock Haven's Ed Wright and Cortland's Chrust.

With about one-fourth of the season completed, a check of the statistics shows Marist with a balanced attack like it has never had before. Thompson leads the scoring column with an average of 20.2 per game. He is followed by Gowen (18.1), Spenla (14.3), Thompson (13.9), Manning (12.4), Bushill (7.1), and Kuhnert (7.1). The rebounding is likewise balanced with Spenla (14.5) leading the pack with an average of 13 per game. Next are Manning (12.9), Gowen (10.9), Kuhnert (9.8), Bushill (6.2), and Thompson (6.0). Kenny also has been picking up 6 assists per game.

With one more game still to play, before the Christmas holidays, the Frosh' record is 4-2. The hope is that this tournament victory will be the turning point in their, so far, disappointing season.

On Wed. Dec. 11, Marist ran up against the hotly anticipated notch squad when they met the Gaels of Iona at the Mt. St. Michael Gymnasium.
