Credit Requirement May Be Lessened

There is a possibility that the required credit hours for graduation will be less in the near future. The President of the college has been sent a letter from the Academic Policy Committee recommending that graduation in 1968 be with 120 credits, in 1969 with 128 credits, and thereafter with 132 credits. In all cases, it would be required that all major field and core requirements be fulfilled.

The reasons are many. The State of New York has made a directive to all colleges to consider making the requirements for a degree 120 credits. In Marist, in an attempt at uniformity with the state. In this manner, a uniform credit load of 15 each semester would be needed for graduation. The change also appears to be financially beneficial for the college, in that less courses will have to be offered.

The phenomenon of 120 credit requirements seems to exist mostly in private schools, with the additional requirements being Theology and Philosophy. The letter to Brother Foy recommended a cut in required courses in various fields, not only in Theology or Philosophy.

Tuition Increase Voted For 1969

The Board of Trustees has voted an increase in tuition to $50.00 per semester and a raise in $50.00 per semester to $210.00. This will probably take effect in September of this year. Despite recent increases, the Board felt it was necessary for the improvement and development of school facilities.

It had been reported that the fiscal year 1968 would have a loss of $80,000.00 but the actual loss was only $244,000.00. The current year, due to the increase in tuition and room and board, is projected to realize a $191,000.00 profit. The additional revenue from the new increases will be spread through several areas: campus life, maintenance, development of new programs with added means of operation and funds to attempt to make up the deficit.

Students and Faculty Consider Possibilities For Co-Education

Changes in policy on co-education in years to come have brought back to Marist talk of Co-Education. In a recent interview with Brother Edward Cashin, this subject was discussed.

Last year there was plan of installing a Nursing Program here at Marist due to the possibility of Marist, in the past and in the future, accommodating female students. Student opinion, which was sought by Joe Zuccarello, seemed to be strongly in favor of the admittance of female students.

A recent decision was made by Mount Saint Mary's that they will accept male students. Mount Saint Mary's has indicated that it may be the only way in which to continue as an institution. From a point of view of cooperation, it may be beneficial for Marist to follow the same path.

Bro. Foy Places Four Students On Budget Committee

Four students, at the invitation of Bro. Foy, have been named to the committee which reports to the Board of Trustees on the college's annual budget. This innovation is probably the most-startling and revolutionary occurrence of Marist's current liberalizing trend. The committee, consisting of Trustees, Administration, Faculty and students, reviews the budget submitted by the President, Bro. Foy, and either recommends the president's budget or submits its own to the Board of Trustees for approval.

Students Given Voice on College Budget

The Mu Zeta Chapter of Phi Alpha Theta, the National History Honor Society, has announced that it is now accepting applications for induction in the Spring of 1968. To be eligible for acceptance, a prospective candidate must have a minimum of 12 credits in History. This includes core requirement courses and must have a 3.0 index in all of his History courses. He must also have at least 90.0 credit hours and must be in the top one-third of his class.

For further information see either Bob Scott, president of the chapter, in room 220 Leo, or Mr. George Bush in his office in De Sales Hall.
Three Faces Of Grief

Three faces of grief—three faces of the same grief—of a student. They are all scenes of one face, of one grief. Each one of these faces is a part of a whole. But each one is also a separate thing.

The first of these faces is that of a student who has lost a loved one. He is grief-stricken because he knows that the loved one is really gone, and he can't help but remember the past. The second face is that of a student who is grief-stricken because he knows that the loved one is still alive, but he can't help but remember the past. The third face is that of a student who is grief-stricken because he knows that the loved one is still alive, but he can't help but remember the past. These three faces are all scenes of one face, of one grief. Each one is a separate thing, but they are all a part of a whole.

Academic Changes

At the recent meeting of the Student Academic Committee, the members discussed the possibility of making courses in the curriculum more flexible and accommodating to the individual needs of the students. It was recommended that the university consider implementing a system of “pass/no pass” grading, which would allow students to choose the grading system that best suits their learning style. Additionally, the committee suggested exploring the possibility of offering more online courses to accommodate students who prefer or require flexibility in their academic schedules.

Letters

Co-ed Considered

Continued from Page 1

The letter-writer from the previous page raises some valid points, but it is important to consider the broader implications of co-ed policies and how they may affect the campus community as a whole. The benefits of co-ed environments can include increased diversity, broader perspectives, and potentially more open-mindedness among students. However, it is equally important to address any concerns and to find ways to create a supportive and inclusive environment for everyone.

"Responsible" Attendance Questioned

TheStudent Government, in response to the question of "responsible" attendance, has made the following statement: "The Student Government believes that responsible attendance is a matter of individual responsibility and that it is the student's duty to make a conscious effort to attend class regularly and to be present for all important activities. Moreover, the Student Government emphasizes the importance of punctuality and the need for students to arrive on time for classes and events.

...and the consequences of this decision. The university has decided to bring an end to the current semester and requires students to return home, in order to maintain the safety and well-being of the campus community.

Blood Needed

The 2nd Blood Drive will be on the Marist College campus. Students, faculty, and staff are encouraged to donate blood, with the aim of providing a crucial resource for those in need.

Job Placement Pushed By Student Government

The Student Government has taken action to address the issue of job placement for students upon graduation. They have proposed initiatives aimed at enhancing connections with local employers and preparing students for the job market. The Student Government is actively working to ensure that students have access to opportunities for employment and are well-equipped to enter the workforce.

Cagers Make Thrust

The Red Foxes of Marist were defeated by the Big Red in the annual Ivy League contest but not before setting back four successive opening day losses and giving the Red Foxes a much needed morale boost. That victory proved even better and became the only Ivy League win in Marist history to date.

On January 9, Coach Ron Petro led his team to Danbury, Conn., where the win was a great aid to the Marist thrust. Special not must go to Bernie Eisenhardt, Bill Moody, and Mike Andrew have insured that the

Field events by taking first place in both the discuss and the javelin. Ted Walzer ran superbly in his specialty, the quarter mile, beating three scholarship runners from Iowa. Strong points were shown by the mile relay of Bill Boardis, Art Quickenton, Walzer, and Joe Koeth.

The competition was tougher two weeks later in the New York State Freshman Invitational at Cobleskill State University. However, once again Marist made its presence known. Joe Koeth, who excelled in previous track meets, placed second in the half mile with a time of 1:56.5.

Motips

220 men turned in an excellent 880 relay. As was expected, there was still no match for Joe Dell in the discuss and javelin events.

The highlight of the spring meets took place at the Midtown Invitational Relay. Carnival arrived as an all but unknown host of track powers, and proceeded to score overwhelmingly white only entering two events. The mile relay blasted to a second place finish being topped only Cornell University. The team came back to take some more at a second place in the Sprint Medley, which took place at the Carnival.

As can be seen by team accomplishments, its words are far from empty. Yet the development of its potential still lies in the future and the obstacles in its path are numerous.

Sports Around Campus

Much news and interesting talk has been blowing down Route 9 about Don Duffy's new position in charge of basketball Intramurals. It seems Mr. Duffy will steal the scene with classic regattas and championship tournaments.

Since the start of the new year, over 800 students who make up 22 teams, have been battling each other for campus honors. The turnout was most welcome and the enthusiasm and energy to revitalize interest in basketball Intramurals. The novice and the veteran greatly benefitted, and all who played served the cause of Kiddles have provided, provided untold fun as well.

The answer to Ivy League attractions this year will be the Marist sponsored President's Cup. This spring season of Classic shell races will be staged in states from Ohio to Florida, the parcels will be in such famous regattas as the Reel City, God-Val and Cyprus Garden.

Since the beginning of February the Red Foxes oarsmen have been slowly building confidence. Coach Petro, the man who is aiming for a birth seat on the number one boat. If the Red Foxes can repeat the spirit of the crew, the Fox Eight will be on their way to a successful season.

Frosh Dominated

Frosh hogs team has compiled a 8-3 record with one draw for Limitola's wrestling experience before this year. Nonetheless, they have been sweating-off extra pounds and toning up their muscles. Each man will be aiming for a birth seat on the number one boat. If the Red Foxes can repeat the spirit of the crew, the Fox Eight will be on their way to a successful season.

Two Days Later the Cagers Hosted NYU who proved to be most formidable opposition. After a tie at the half, 29-29, Williams' 25 points and Moody's 17 points carried the Cagers to a 43-37 win over Columbia. The game was very close early on, with the Cagers leading 26-24 after the first half.

The Frosh bounced off this defeat to completely demolish Danbury, Conn., 83-76, behind Bongt's 22 points and Thompson's 25 points.

Back at home for the next seven games, the Frosh won by a record breaking 155-41 over the Scranton's. Mike Buday had 22 points. Bill McKinstry was high for Marist.

After semester break, the Frosh continued their winning roll at RPI, 84-71, with Thompson showing the way with 23 markers.

Coming off the heels of a highly successful season, the Marist Track Team is looking forward to its second year with a great deal of optimism.

Taking over the reigns as coach, will be Dr. Howard Goldman. The Frosh veterans have been indoctrinated in the art of running. The Frosh hogs team has compiled a 8-3 record with one draw for Limitola's wrestling experience before this year. Nonetheless, they have been sweating-off extra pounds and toning up their muscles. Each man will be aiming for a birth seat on the number one boat. If the Red Foxes can repeat the spirit of the crew, the Fox Eight will be on their way to a successful season.
