NEW STUDY PROGRAMS OUTLINED

Vista-Backed Work-Study Foreseen

On March 3, Bro. Cashin spoke to interested students about a new social work-study program which would be worth a minimum of twelve credits during one semester.

The program would allow students to work in poverty-stricken areas in this region. The work would be paid for by the college and the students would be able to receive their social work training as the program progressed.

Bro. Cashin spoke to a VISTA official who was on campus about two months ago. This official was "very interested" in seeing Marist College working in poverty areas in this vicinity. His interest could be of great assistance to the college in working in the program.

With help from VISTA, a Marist student would pick a room and board provided for, $2.50 a day and room which would be considered as a stipend. These are the same benefits a VISTA Volunteer享受ed.

Bro. Cashin is interested in seeing this program started as soon as possible, which would appropriately ten students to work in this poverty program this summer. This work, however, would not produce credits for the student. Bro. Cashin simply wants to initiate some sort of program before the fall semester begins.

Students Assist In Department Review

Students in the American Studies department have been working with a committee to develop courses for the upcoming academic year. The goal is to make the program more relevant and interesting to students.

Bro. Edward Cashin, Academic Vice President, and Timothy Kelly, assistant academic dean, were most interested in the newly proposed courses in American Studies.

Bro. Cashin spoke to a VISTA volunteer about the program and said that the college would be interested in new directions in this area. He would live in this area and, hopefully, be equipped to handle the job in the fall. In the meantime, the student would be living in the area with an educational orientation.

He would be introduced to a real situation and be allowed to test his classroom and the real classroom itself and the effects of both.

Colloquium Examines Marist Curriculum

A colloquium, funded by the Student Senate, was held on March 13 and with the cooperation of Ms. Thelma Remer, President of the American Studies Association, was held at Marist College that month. The colloquium dealt with campus curricular changes in that curriculum.

Brother Brian Desimone was the colloquium chairman. He stated that the purpose of the colloquium was to "look at courses from all aspects: content, structure, and the purpose in adding. In this way we would be able to look at what we would like Marist to be."
Season's Folly

Gregg Barden and I think, with the aid of the ROTC's help touh, there may have been a total number of about 12 people who attended the first ever season of 'Fries. Never before have we witnessed such a weather-related event, which left us cold and without a proper harvest...

Letters To The Editor

"Straight" Men

Dear Editor,

As a subscriber to The Circle, I must say that the recent controversy regarding the removal of the "straight" men from the opera "The Night of the Iguana" has been a source of great concern to me. Personally, I believe that the decision to remove these characters was a grave mistake.

Sincerely,

Robert B. Smith

"Fatherly Wisdom"

Dear Editor,

"Fatherly wisdom" is often attributed to those who are presumed to have knowledge and experience. However, it is important to recognize that wisdom can also be gained through personal reflection and learning from one's mistakes. Therefore, I believe that we should not rely solely on the experiences of others but rather on our own experiences and wisdom.

Sincerely,

Mary Smith

Sic Transit Gloria

BY JAMES T. MORRISON

When there is one thing that we can do to help up the stock market, it is to buy more shares of the companies we own. We need more people to buy our shares, not less. This is the reason why the stock market is doing so well. In the last few weeks, the Dow Jones Industrial Average has gone up 10%.

About this time last year, the stock market was in a downturn. The Dow Jones Industrial Average was down 20%. But now it is up 10%.

This is a good time to buy stocks. The prices are low. The companies are doing well. The future looks bright.

Chairman of the Board

A Peaceful Year, More Or Less

BY RICHARD ANTHONY

The year 2000 was a peaceful one. The United States was at war only once, in a small conflict in the Middle East. The economy improved, and most people were happy.

But there were some problems. There was a large amounts of debt that the government had accumulated. This debt was going to be paid off by taxes for many years to come.

The year 2001 will be different. There will be more war, and the economy will be in a recession.

Letters To The Editor

Continued from page 2:

An interesting observation of the working of a university's admissions office was made by Mr. Jones, who is the director of admissions.

He stated that he had been looking into the process of selecting students for the past year. He had found that the process was flawed and needed to be changed.

Mr. Jones said that he had spoken with many other admissions directors, and they all agreed with him.

At Bucknell

BY ANTONIO GARCIA

The Bucknell University basketball team has had a successful season. They have won many games and are on their way to the NCAA Tournament.

The team has been led by coach Mr. Smith. He has done a great job of preparing his team for the games.

Graduate Totals

TO DROP DRastically

Washington, D.C. - The number of new graduates who will be able to accept their degrees has been cut in half. This includes graduates from private and public schools.

The reason for this is that the government has run out of money to fund the education system.

Brown Revue Offers Variety and Talent

The annual Brown Revue was held recently. It was a success, with a variety of acts and talent.

The Revue opened with a song by the Brown University choir. They sang a selection of classic songs.

The next act was a dance performance by the Brown University dance team. They performed a variety of styles.

Students Play Vital Role

In Primary

New York (NYC) - The Democratic Party has been losing support from younger voters. This is a problem for the party, as they need to win the vote of the youth.

The party is working to improve its image with young people. They are doing this by inviting young people to participate in the primaries and caucuses.

PREPARATION FOR TEACHERS

In the English field, it will be studied by students in all parts of the country.

This will be done by using the Program for English majors and minors. This program will help students to explore methods to better the English field.

There's an American Revolution

In America, the American Revolution was a war for independence. It lasted from 1775 to 1783. The United States was formed as a result of the war.

The war was fought against the British, who were the ruling power in America. The Americans wanted to be free from British control.

The war was fought on land and sea. There were battles fought in many places, including Boston, New York, and Philadelphia.

The war ended with the Treaty of Paris, which was signed in 1783. The treaty gave the United States independence from Britain.

This was a turning point in American history. It marked the beginning of the United States as a nation.

CREW READY FOR NEW SEASON

If you happened to stroll down by the Hudson last week, you might have noticed a group of boys hustling up and down the old railroad bridge, or possibly you passed by the boat-house and heard all the commotion inside. That was Marist’s Crew Team.

This year’s squad is faced with one of the most trying crusades ever. Having worked out on dry land for over nine weeks before only two days on the water due to the weather, the Varsity is competing down in Florida this week. Twenty-one men made the trip, and they show a great amount of promise. "We only had April 19, April 26, and April 27," Coach Paul Arnold, "so whether we will or will not capitalize on this potential, I’d like to see what is considered to be the products of rowing, the men that need to do the winning." Arnold is bringing three freshmen, and he is hopeful that they can experience Florida and New York City to Oyster Bay, Long Island, and to St. John’s. The following weekend, when Marist returns from Florida, the big race of the season, April 27, will be held in Philadelphia on the weekend of May 15-16. The freshman crew also faces a key weekend when Marist takes on Long Island, last year’s Top Four, and this is their first week on the water. Their opening weekend is April 19-20, April 26, and April 27. The following week will be the Varsity’s regatta, the Calais Regatta. Both Coach Arnold and Coach Arens have worked over the past two months to try to secure a winning season.

Sails Of Marist Set To Billow

Although the calendar says it is Spring, the chilly, Hudson still has signs of winter. Regardless of the seasonal outlook, the Sailing Team will start its 1968 season with the Annual Spring Invitational to be held on May 11 and 12. The Spring Invitational will provide practice races for some of the varsity crews, which will be held home against Stony Brook on April 16. Strong competition is expected the following weekend when Marist takes on Madeira, last year’s Top Four, and Long Island, the varsity races of the weekend, will be held in Philadelphia on the weekend of May 15-16.

Track On Brim Of Second Season

Track and Field is starting on April 19, only a week before the official opening of the spring season. No team members are still putting in time on the track. With many veterans returning and adding more, the odds for a winning season look pretty hopeful. They have a year under their belt they will be able to come in and experience things.

Track on Brim of Second Season

Undaunted by the choppy waters of mid-March, Marist crew prepares to row in preparation for annual trip to Florida.

SPORTS PLANNERS IN PENTAGON

A Peaceful Year

Aids University in mid-March, the Yale Daily News ran an editorial urging an end to ROTC credit. The head of Yale’s Committee of Reviewing the University’s Curriculum, says the committee is looking into the question of ROTC credit. At Brown University, a Military Education Advisory Committee, composed of college faculty and ROTC commanders, has been set up to study the ROTC curriculum.

Crew ready for New Season

Ready and raring to go, the Track Team is sure to be ready to go. With about a week and a half before the official opening of the spring season the team members are still putting in time on the track. With many veterans returning and adding more, the odds for a winning season look pretty hopeful. They have a year under their belt they will be able to come in and experience things.
