New Calendar Is Scheduled

The new calendar for the academic year 1969-1970 includes the completion of the first and second buildings. By
exams are scheduled for December 20. The Christmas recess will be combined with the second
break results in the resumption of classes as late as January 19. The second semester will begin after a week earlier than usual.

In order to maintain the academic year, the registration will take place on September 3 with classes opening the next day. Also, all holidays from registration through Thanksgiving will be eliminated.

A committee of students and faculty members have agreed to the revised schedules which will be implemented on an
examination with Academic Dean O'Shay, the new calendar is subject to revision.

Nixon On China

President Richard Nixon, after his first post-inaugural press conference, announced that he and Premier Chou En-lai of China would meet in the United States for talks on a broad range of issues.

The meeting reflects the growing recognition that we live in the same world and move in the same system, and cultures are freely heard. Yet, President Nixon suggests that the meeting might have an impact on the world government, or at least the government which rules it.

If there is any hope of world understanding, we must begin to try understanding the world around us, which should include China. If it doesn't work, we can always go back to the French through our linguistic skills.

Letters to the Editor

PARIS TALK

Dear Sir:

The issue seems and deserve

dating on the Editors. I would like to make some comments about the article on the Soviet Union, which appeared in the May 27 issue of The CIRCLE.

There is a tendency to assume that the majority of the I. P. faculty are committed to the Soviet Union. In my opinion, this is a grossly inaccurate assumption.

The majority of the I. P. faculty are not committed to the Soviet Union. There are, however, a small number of faculty members who do hold such views.

I would like to take this opportunity to bring these facts to your attention.

With best regards,

Robert Bennett

Look Up

"Weakend"

Well, it is nice to see that the number of the poor (Dante). As a matter of fact, it must live with us and other nations of the continent with China - with its dangers and possibilities, strengths and weaknesses.

The faculty is still considering the considerations of the AFC. If this sounds misleading - Oh well: the room. The faculty is still considering the considerations of the AFC.

Aside from this the faculty had to give up their private running. Although it was a difficult decision, it was necessary due to the new regulations of the United Nations. The U.N. is a haven for peace-loving nations (like China), and the U.S. is not.

Hopefully the reality of China at our doorstep will move President Ho to consider the U.N. as a place where nations can gather and discuss their differences. We hope to see the day when the U.S. and China will be able to work together for the benefit of all mankind.

We Will Ignore China...

...Only at Great Danger To Ourselves...

-Robert Bennett

Curriculum Crisis

Adapting itself to the needs of no single denomination, the College is running a series of courses in the major fields. The College is the largest in the United States, and it has a strong international reputation.

The College is divided into five main faculties: the Arts, the Sciences, the Humanities, the Social Sciences, and the Professional Schools.

The Arts Faculty is responsible for the teaching of the liberal arts, including history, political science, economics, and philosophy. The Sciences Faculty includes the teaching of all major sciences, such as biology, chemistry, physics, and mathematics. The Humanities Faculty includes the teaching of languages, literature, and art. The Social Sciences Faculty includes the teaching of sociology, economics, and political science. The Professional Schools include the teaching of business, engineering, and law.

There is no taboo associated with any academic discipline, and all students are eligible to major in any field of study. However, the College is not a strictly liberal arts institution, and requires a certain number of courses in each faculty.

The College has a strong emphasis on the development of critical thinking skills, and encourages students to explore multiple perspectives on issues.

There is a deep concern among the faculty and students about the future of the College. The College is facing financial difficulties, and there are questions about its long-term viability.

The College's leaders are working to address these concerns, and to ensure the College's continued existence.

The Dormes there are mixed, and I'd like to pass on a few suggestions on how to make the most of your experience.

Firstly, there is no reason to feel uncomfortable or intimidated by other students. Everyone is there to learn, and there is no right or wrong way to approach your studies.

Secondly, the extent to which you enjoy the social occasions (Very enjoyable! and I'm sure. Privacy might be

The search for practical experience is essential, and the College offers a wide range of opportunities to participate in community service and other meaningful activities.

The College is dedicated to the development of the whole person, and encourages students to explore a variety of interests and careers.

In summary, the College is a unique and dynamic institution, and I urge you to take full advantage of the opportunities it offers.

Education Expenses ContINUE To Climb

Iowa City, Iowa - The National Education Association has increased the cost of college education for the average student by 10.2 percent. The increase is due to rising costs in a variety of areas, including room and board, tuition, and text materials. The NEA has expressed concern over the rising costs and has called for immediate action to address the issue.

FOXES TOPPLE KING'S, MARITIME AND DOWLING., FROSH WIN, GRAPPLERS BOW

Cagers Take Three; Play Home Monday

The year 1969 has been good to our basketball team, at least so far. With some very improved men doing a good job, and a couple of mainstays returning to their old form, Coach Petro can boast of a three game winning streak at the semester break.

Returning to the hardwoods on home on Jan. 7, the Mothmen found the going a bit tough as they won a 105-103 squeaker over Kings of New York in double overtime. The hard fought battle was tight throughout with no team ever having more than a 6 pt. advantage. The entire game was harken for a final 17:38 until Kings opened up a six point lead with about 3 minutes to go. Marist then closed the gap to gain a tie at the end of regulation play.

The first overtime went much in the same manner and after the five minutes were up, the contest was still a standoff. In the second overtime, however, Ken Thompson and Tom Waldship hit some crucial free throws, and Bill Speeds took three clutch baskets to give the Foxes a 4 pt. advantage with about a minute left. But King's scored back as Jim Bergthold, the one man scoring mechanism hit four quick points to bring King's within two. With two seconds left King's called the time out. With 2.01 left, Steve Lollo moved in to control McGarr, and pull out a 1-4-6 win and a 21-28 come from behind victory for Post.

The Red matmen, 13-3 on the season have six matches left, the last three at home and a winning season is a definite possibility judging by the performance versus Post.

Mile Relay At Garden

On Friday, Feb. 7 at Madison Square Garden, Marist's Mile Relay will be entered in the afternoon performances of the Garden Invitational.

The Marist squad, representing high school at the A.A.U. meets at the 168 St. Armory, will provide excellent exposure for the team and should help maintain their sharp edge for the season's first dual meet at Queens on Feb. 22.

Wrestlers Nipped By C.W.Post

Forfeits, two strong performances in the early going and a partisan home crowd almost spelled upset as powerful C.W. Post barely escaped with a 21-18 victory over the Marist wrestling team on January 10. Post, hindered by injuries and sickness, helped the cause of the Red Foxes greatly as it forfeited the matches in the 130 lb. and 152 lb. classes. Thus Kevin O'Grady and Bernie O'Hare picked up five easy points apiece and gave Marist a 1-0 lead before action had even begun.

Johnny Eisenhardt left Post know if it's work cut out as he pinned the visitor Bill Angervine at 7:56 into the match. The big five points in the 123 lb. class gave the Marist matmen a commanding and seemingly insurmountable 15-0 lead.

With the forfeit in the 130 lb. class, action moved to the 137 lb. class. In a match that went the distance Post's Mark Vandezand put out a 10-3 decision over freshman Phil Billings. Billings came out the Red to an 18-3 lead as he shot out Howard Sadwiri in the 145 lb. class. At this point, with only four matches left, Matulik seemed in a powerful position.

Post accepted the challenge however and began to move. In the 160 lb. class Ric Buchholz proved too much for Bob Krenn as he pinned the Marist junior in 1:56. Steve Lollo continued the surge as he put Joe Jamieson's shoulders to the mat in an almost unbelievable 42 seconds.

Jack Walsh put up a strong fight but he too succumbed to an aroused Greg Barber in 2:38. The Front team had tied the score at 18-18. It came down to the last match, the heavyweight division, between Marist's bill Krenn and Post.'s huge Dan Tomaszewski. Tomaszewski got an early advantage and used his size to control McGarr and pull out a 13-6 win and a 21-28 come from behind victory for Post.

The Red matmen, 13-3 on the season have six matches left, the last three at home and a winning season is a definite possibility judging by the performance versus Post.

Frosh Swamp King's

With almost one-half of the season over, the frosh team is showing promise. With an average of 20.4, Brian, a fine outside passer, has hit for over 51% of his shots. Also a strong defensive player, he is averaging 0.2 rebounds per contest. His best game was against Zone where he scored 35 points despite playing only about 27 minutes.

At one of the guards is Ray Clarks, a fine all-around ballplayer who is unspectacular but very steady. He is a great defensive player who never stops hustling while on the court. Ray also averages about 4.2 assists per game.

At the other guard is John Kolbe, a ballhandler and sparkplug of the team, Ron Wilson. Ron is a fine passer and possesses great defensive ability. He has scored so far at a 14 pt. norm and has averaged 5.3 assists per game.

Against Queens earlier this year, he led the team with 21 points. The fifth starter, and probably the most consistent, is Steve Mandile. Steve was an average of 12 ppog. to go along with 9 rebounds per contest. A master at the art of tapping in rebounds, he has hit at almost 50%. His game is in average with an average of 15.3 per game. Joe's best game was against Bloomfield when he scored 31 points and nabbed 33 rebounds.
