**Attesting: OUtRAGE Ous by Bill Daily**

Upon investigating all walking of curiosity line inevitably finds its own way to the brain. With a mental, spiritual, and physical faculty it makes its way to the heart. Here, the heart is holding its breath with fear of the unknown. For the unknown is terrifying. It is the unknown that has the power to change our lives. The unknown is the most powerful force in the universe.

In every walk of life, there are people who have walked before us. Their footsteps have created a path for us to follow. But the unknown is the greatest force in the universe. It is the unknown that has the power to change our lives. The unknown is the most powerful force in the universe.

Wade, Adherlolt, Student Gov. Discuss Security Problems

"Not enough people on this campus know that we are fortunately blessed in having a student governor," said Vincent A. Adherlolt, Jr. "A few do know about me, but there is a fair number who are not aware of the activities I am doing here at Marist College." Mr. Adherlolt, who is both a junior and a member of the Marist debate team, is the first student ever to be elected as student governor.

Mr. Adherlolt said that he has been especially interested in the state of security on campus. "Many people are concerned with this subject on a daily basis," he said. "I have been working to improve the security situation on campus and to make it more comfortable for students and faculty." Mr. Adherlolt has been working with the administration to increase the number of security officers on campus and to improve the communication between students and security personnel.

He added that he has been working to make the campus more welcoming to visitors. "I believe that we need to show guests that they are welcome and that they are being treated with respect," he said. "I have been working with the administration to make sure that visitors feel comfortable on campus and that they are treated with dignity." Mr. Adherlolt said that he has been working to improve the communication between students and visitors.

He added that he has been working to make the campus more environmentally friendly. "I believe that we need to show guests that we are committed to protecting the environment," he said. "I have been working with the administration to make sure that visitors feel that we are committed to protecting the environment." Mr. Adherlolt said that he has been working to improve the communication between students and visitors.

I stopped and watched the barber doing his daily task in combination picture of the Sacred Heart of Jesus in the background. The barber was busy, cutting hair, and seemed content. The price sticker was visible, and it showed that he had just given a haircut.

The barber, with his black apron hanging around his waist, and the scissors in his hand, was focused on his work. I admired his skill and precision. I wondered if he had been a barber for a long time.

I'm not sure how he could be a good barber if he didn't know how to cut hair. He seemed to be an expert, but then again, I didn't know much about him. He was busy, cutting hair, and seemed content. The price sticker was visible, and it showed that he had just given a haircut.

The barber, with his black apron hanging around his waist, and the scissors in his hand, was focused on his work. I admired his skill and precision. I wondered if he had been a barber for a long time.

Redmen Puncture Balloon: 30-20

by Steve Van Buren

The Vikings of Marist were defeated by St. John's University Redmen Nov. 23 by a score of 30-20. It was the first loss of the season for the Maristmen, who had compiled an outstanding regular season record of 8 wins and no defeats. Close to two thousand Marist fans traveled to the Metropolitan Bowl in Mount Vernon to witness one of the most exciting games in club football this year.

The Redmen led by the able quarterbacking of Bill Laidlaw grabbed a quick 13-0 first quarter lead on two TD passes. The Vikings would break the game open to 39-30, but in the second half of the game, the Hoosiers suddenly exploded, taking over with a vengeance to score 21 points and tie the game at 50.

Injuries played a key role in the game, as both teams had to substitute heavily due to injuries. The Redmen were without their starting quarterback, while the Vikings lost several key players due to injuries.

Despite the loss, the Maristmen's defense was able to hold the Hoosiers to only 20 points in the second half. The Redmen's offense was able to score 30 points, with 10 touchdowns and 2 field goals.

The game was a tough one, with both teams playing their best. The Maristmen fought hard, but in the end, they were just not able to overcome the Hoosiers' strength.

The loss was a setback for the Maristmen, but they remain in the top 70-40. The brunt of the blame falls on the defense, which was unable to stop the Hoosiers' offense.

The game was a hard-fought one, with both teams playing their best. The Maristmen fought hard, but in the end, they were just not able to overcome the Hoosiers' strength.
