Norton, Lewis Debate
In a Left-Right Duel

Mr. Joseph Norton, Instructor in History at Marist College, refused the job. Three are known to have rejected the nomination, John Pont, football coach of Indiana University, Paul Dietsel, now coach of the University of South Carolina football team, have declined to attempt at extinction of the government is waging a Black Panther Party, the arsenal of frame-ups, no bail, Navy. He has also headed a private concern in Alexandria, Virginia, that does research for the Navy.

Dillon was the President's choice but Dillon unexpectedly withdrew his name. The Protect the most recent choice for the post was Charles J. Dillon, a 37-year-old former Rhodes Scholar. Dillon has served as executive secretary to the American government, the process of change in the American system, pollution, the military-industrial system and tax.

The debate presented originally as a discussion entitled "Campos and Revolution." turned out to be much more, as a forum for the contest of the issues, the Black revolution, the Black economy, the Black economic ill although he was unable to define what the system would entail. He advocated a university army and stated that the goal of American troops in Vietnam is to enable the Vietnamese to elect a government. He defended the policy of containment and the military and indicated that Communist aggression could be thwarted only from a position of strength. He had been to the United Nations had become an international check board and denied world peace as possible by reliance on that institution.

Mr. Norton opposed the ABM system stating that it would not add to U.S. security, only it threatened the SALT talks and the other weapons. Norton defined as a "terminal" the American government for the purpose of repARATION payments owed to the Blacks after World War II. Mr. Norton attacked the defense establishment as the (the military-industrial complex. He insisted that our energy must be directed toward the attention of the people of America; in other words, we must possess a capability of overkill of one nation, and we must possess for all purposes. This illustrates the notion that the military-industrial complex has "normalized" the notion of destruction and death from weapons.

Lewis challenged the membership of the New Left to come up with solutions to the problems that raise. Norton responded that it was his duty to criticize those who have chosen to rule without being governed. He said, "From the very outset of his career, he was convinced that the SALT talks and the other weapons. Lewis claimed that our energy must be directed toward the attention of the people of America; in other words, we must possess a capability of overkill of one nation, and we must possess for all purposes. This illustrates the notion that the military-industrial complex has "normalized" the notion of destruction and death from weapons.

Faulty Focus

Do Not Fold, Staple or Mutilate

BY R. L. GOLDBERG

Last year a friend of mine who had a special interest in psychology said, "Hey Coach. I could get paid one year of college tuition if I could pull off something on you."

Dr. R. L. Goldberg is a student at Loyola University of Chicago, Fisk Hall, 1370 North Lake Shore Drive, Chicago, Illinois 60614. Some students enter the class to learn about life's mysteries, others to pull off social experiments. When the student began to explain his plan, I said, "Hey, if you pull this thing off, I'll write it up." The student then went on to say, "Okay, you'll get an idea of what it feels like to be an idiot and if they're wrong with him to create new ideas, and use state (generally indifference) free man from drudgery, allow especially since you are an old sure would like to help you out William Murphy used to tell the friend to a sale and solid future."

Letters

To the editor:

I would like to commend Hilliard for the article "The Hidden Agenda". The style is excellent and the points made are convincing. I have always admired Hilliard's ability to make a complex issue understandable. The article clearly demonstrates the power of propaganda and its role in shaping public opinion. Hilliard's analysis of the political tactics used by the party in question is particularly illuminating. The conclusion is well-supported by evidence and the recommendation for further research is timely and relevant.

Sincerely,

James Quickenton

Dr. R. L. Goldberg

The real truth is inside of you... Love. Love in this instance is a feeling of selflessness, a willingness to put the needs of others before our own. Love is not just a feeling, but an action. It is a commitment to do what is right, even when it is difficult. Love is a force that can change the world. Without love, we are nothing. With love, we are everything.

To the editor:

The article "The Hidden Agenda" was an excellent read. I was particularly impressed with the way Hilliard was able to dissect the political propaganda and expose the hidden agenda. It is a shame that such tactics are still being used today.

Sincerely,

John Smith

The story of vandalism which occurred on the campus on last Friday class, and instructors enter the room, challenging his statements and their programming - the student does not want to be part of the experiment. He wants to be a freeman, able to do his own thing. He does not want to be constrained by a machine and be able to choose his own actions.

The student is not just a representative of the individual, but a symbol of the entire human race. His struggles are our struggles. His battles are our battles. His victories are our victories. And his defeats are our defeats. He is fighting for all of us.

John Smith

MILWAUKEE:

and the difference grows

Mr. and Mrs. Charles V. Welty, residence: 297-8203, office: 452-8640.

Machines were supposed to replace people, but they didn't. People are still needed to operate the machines. People are still needed to interpret the data. People are still needed to make decisions. People are still needed to solve problems. People are still needed to innovate.

But it's clean. The Swiss are very clean. They recycle everything, even at home. And they are efficient. They can do a lot of things in a short amount of time. They are punctual and organized.

The Supreme Court has also found that articles such as the above defense statement, warrants a contempt of justice for the purpose of an orderly administration of the courts.

Further, Hilliard's statement was not the only one to blame. The entire legal system is to blame. The judges, lawyers, and defendants all played a role in this case. The judges were too lenient. The lawyers were too weak. The defendants were too greedy.

Contempt of Justice

The trial in Chicago is without any doubt, a failure. It is without precedent in the American system of justice. The trial was a farce. The judges were corrupt. The lawyers were incompetent. The defendants were guilty. The system was broken.

Peas And Carrots

BY JOE MCGAHON

Although a Phys Ed building supposedly fosters the development of both body and mind, one of the disadvantages for the students is the lack of adequate locker space. The new locker room was opened last week at the request of the students. The new lockers are more than a foot wider and 2 feet taller than the old lockers. This makes it easier to store shoes and sports equipment. The new lockers are an improvement on the old lockers and are well worth the money spent on them.

There was a great improvement in the varsity and intramural lockers last week shows that some people appreciated the change; not satisfied, perhaps still feeling has become overly coach and spectator oriented. The book is "Athletics for Athletes," a controversial book just released by Jack Stonehill defender enroute to his fast break deuce.

McClure in 4:17 after racking up 10000 competitors... Order your 1970 yearbook now before it's too late.

**Campus Stuff**

BY DON DUFFY

A temper is an easy thing to ignore when any competitive thing exists. Such is the way on the basketball court where a close game can be decided to 4-4 and the ball has been stolen or dropped instead of being laid in the net. No one cares, but it does happen and it will go right on happening. But it is just the same thing as any other competition where there should be no fan involvement in a fight if one should start. It has been said that the students are the ones to keep in the stands and not to swing fists. It is a matter of opinion what is the best team on the campus? Is it the intention to give the student a choice? Bull! This is a matter of opinion. It is the intention to give the student a choice? Bull! This is a matter of opinion. It is the intention to give the student a choice? Bull! This is a matter of opinion. It is the intention to give the student a choice? Bull! This is a matter of opinion.
