Joe Hines is a student at Marist, now in his third year, majoring in American Studies. In itself, this involving a police officer. Hines is suing the City of Poughkeepsie for one million dollars in damages as a result of injuries sustained.

The steps that took Mr. Hines from Vassar Hospital for six months, Joe was faced with — reportedly a result of injuries sustained. He was thrown thirty feet; broke every major bone in his body, and was blinded when spindles of bone in his face, cut the optic nerve. After being in a coma for over a month, and being in Vassar Hospital for six months, Joe was faced with a serious problem. How was he to be self-sufficient and do everything a man has to do in life that blind? Previous to the accident, he had been a first-year student in Poughkeepsie, and in the Bronx for six years. He was blind? Previous to the accident, he had been a first-year student in Poughkeepsie, and in the Bronx for six years. He was blind? Previous to the accident, he had been a first-year student in Poughkeepsie, and in the Bronx for six years. He was blind?

The "steps that took Mr. Hines from Vassar Hospital..."
How Students View Drugs
by Robert Rutter

About three weeks ago I circulated a questionnaire to the student body of Marist College in which a number of people participated. The questionnaire was part of a term paper on the subject of the "student movement." The students were asked to answer the questionnaire in writing, with the answers to be returned to me.

To start off, I decided not to find out what just students thought the term "student movement" meant. The survey was designed to determine what it was that most students thought the term meant. I thought that there was a need for such a survey, and that most students would have an opinion about the term. Therefore, I decided to ask them to write their answers to the following question: "What is the term student movement?"

In order to determine if a person saw a U.S. without any serious "student movement" existing, I asked: "Is there a student movement in the United States?" Then, I asked "If there is a student movement in the United States, what is it?" I then asked: "What are the primary goals of the student movement?" Finally, I asked: "What is your opinion of the student movement?"

The questionnaire was distributed to the students in the form of a letter. The students were asked to write their answers to the questionnaire on a separate sheet of paper and return it to me within a week. The questionnaire was designed to be as simple and straightforward as possible, in order to ensure that the students would be able to understand the questions and answer them accurately.

This is 'The Game'

Marist Faces Arch-Rival Iona

The Marist College basketball season will open at Nyack College, Nyack, N.Y., Dec. 2. The team coached by James Foster looks very promising, that your deepest lack of height. What the team lacks in height it makes up for in quickness and their teamwork. The freshman team had their first scrimmage on Nov. 18, against Dutchess Community College. The final score was Dutchess 69, Marist 71. The score however, is not the main event. The players were still battling and driving until the final buzzer.

Despite their lack of height, the team still managed to pull down 20 rebounds, and their quickness helped the freshman to make numerous steals throughout the scrimmage. The high scorer for the scrimmage was Bill Thomas with 10 points, followed by Al Fairhurst with 14 points. The high man in rebounds was Joe Cirnella with 10, followed by Brian McCullough with 15.

The probable starting lineup for Thursday night's game is Joe Cirnella 6'2" at center, Brian McCullough 6'2" at Forward, Ed Kovinski 6'6" and Greg Wojcieszko 6'7" at the other forward and Bill Thomas 6'10" and Al Fairhurst 5'11" at the general position.

The Marist Red Foxes begin their defense of the Central Atlantic College Conference Championship tonight in an important league contest at Nyack Missionary College. The Fighting Parsons are led by Head Coach Jim Petro who will depend heavily on Seniors Ray Clarke and Joe Scott, team captain. Clarke, who last season was named to the Eastern College Athletic Conference's All-Ohio Team, will be the spark plug of the team's offense. Clarke, at six-foot-three is also able to help out with the team rebounding. Joining Clarke in the back will be five-foot-ten forward Jackson, a sophomore. Jackson, who attended University High School, Deer Park, New York, did not play at Atlantic College Basketball last season in order to concentrate on his studies. The mainstay of the front court will be captain Joe Scott. The six-foot-five forwards will be the team's leader on and off the court. Scott will be joined at forward by six-foot-three Senior Brian McGowan and six-foot-tall Freshman Mike Hart. Hart, who spent last year at the University of Madrid, Madrid, Spain, will be the probable starter if he recovers from a pre-season ankle injury. If Marist is unable to start, Mike Hart will be more than an adequate replacement. Hart played last year at Roy C. Ketcham High School, Wappingers Falls. While at Ketcham, Hart earned All Dutchess County honors.

For the average basketball fan the Marist-ious will be no more than an individual contest. But, this contest is the deciding moment of the season and will be more than a successful overall season.

1971-72 Basketball Schedule

Marist Faces Nyack Tonight

Mike McMaster, a 6'2" senior will be starting at the other forward. McMaster, a unanimous selection to the All-Central Atlantic College Conference All-Star Team last season is the team's leading scorer and is also known for his defense. His defensive skills have been impressive. McMaster's rebounder Joe Scott away from the basket.

The Marist Red Foxes will be led by Ray Clarke, a Central Atlantic Conference All-Star selection, and by Captain Jim Petro in the defense of the league championship.
