Young Democrats Reform Club

By Ed Kissling

Last week, the Young Democrats of Marist College met and reformed their club under its old charter. About 50 members attended.

The first order of business was the formation of the McGovern-Shriver Campaign Team. Paul Pifferi, the chairman, announced the selection of Jim Elliot as campaign manager. Elliot, a graduate in English, worked with the newspaper and public relations department of the New York Daily News in Washington, D.C.

Campaign manager Jim Elliot said, "We don't have the money the Nixon people have on campus but the issues (the war, crime, the economy, and especially corruption) are for us. We still need volunteers," Elliot said, as he prepared for what he called an "all-out" preventive drive. Future meetings are to be scheduled to keep an eye on the Circle and for posterity.

The McGovern-Shriver campaign team is planning canvassing the college, then the community, voter registration activities, guest speakers, rallies, and radio shows and some special events. A victory party is also being planned for Election night.

Abortion Lecture

Alan Guttmacher, M.D., is scheduled to speak on the New York State Abortion Law on Friday, October 20. The lecture is to he held at 6:30 p.m. in the lower auditorium of the Library.

Mr. Kissinger, a diplomate in Obstetrics and Gynecology, is a graduate of Johns Hopkins School of Medicine. Presently, he is the director of the Albert Einstein School of Medicine. He is also the author of several books, including Understanding Sex-A Young Person's Guide (1970) and Birth Control and Love (1967).

In the past legislative session, and for years, the battle is replacing the current New York State Abortion Law with the former law, which prohibited all but therapeutic abortions. The current law permits abortions in the event that the continuance of the pregnancy would be prejudicial to the health of the woman. The law is not yet in effect.

The State Education Department and its Legislator's' (the most critical to the outcome of the State Legislative session. The program to pass the McGovern-Shriver proposal is critical to the outcome of the New York State Legislature's decision in the abortion issue and in the future holds for both Vietnam and the American people.

In June of 1969, the McGovern-Shriver campaign was initiated with a victory party and a guest speaker. Groote is a member of the National Security Council and an aid to Dr. Henry Kissinger.

Kissinger Aide To Speak At Marist

By Joe Mirrone

VIETNAM AMERICAN FOREIGN POLICY. How much do we really know about it? Is what we do know fact or just outright emotion? On Oct. 19th you have the chance to find out what is fact and what is fiction. Dolf M. Droge will be at Marist to give a lecture and answer any questions you may have. Mr. Droge is a member of the National Security Council and an aid to Dr. Henry Kissinger.

Born in Milan, Ind., Droge received a bachelor of science degree in political science from Wittenburg College, Springfield, Ohio, and went on in Political Science at graduate studies at Western Reserve University in Cleveland. He served in the Air Force during the Korean War, and for three months was a reporter and information specialist in the Far East.

After Korea, he served as a newsmen for an NBC television affiliate in the west and in 1966 joined the U.S.I.A. and served in Europe, Thailand, Laos, and Vietnam and was chief of the Vietnamese Broadcast Division of the Voice of America.

Droge joined A.I.D. in 1966 as chairman of Vietnam Training. He was detailed to the White House in 1968.

This is an excellent opportunity for all Marist students to hear the hard core facts from a primary source. Since this being an election year and we now have the chance to vote it would only be to your advantage to be informed on both sides. Both candidates, Vietnam and American Foreign policy, has been talked about for so long that we as students can get lost in a lot of rhetoric. Find out for yourself just what has happened and what the future holds for both Vietnam and the American peoples.

Circle Special

The Graduate Schools

In September of this year, Marist undertook a new venture in initiating graduate programs in Business and Psychology. The graduate programs have been in developmental stage for three years and now are being offered to some 100 students this first semester. For an idea of how the programs operate and the people who encompassed we talked to Dr. Kirk, Chairman of the Psychology Department, and Mr. Kelly, Chairman of the Business Department.

GRADUATE PROGRAM IN BUSINESS

The graduate program in Business, directed by John Kelly, Chairman of the Business Department and Graduate Program, will offer two concentrations - for the M.B.A. (Masters in Business Administration) degree: Personnel Management and Organizational Behavior, and Accounting-Finance. The graduate program was undertaken, according to Mr. Kelly, because "there is a demand from the surrounding business community for well-trained professionals in both areas. Most of the graduate students presently enrolled have been out of college for several years and are working in the Hudson area, so an evening program was much needed. Since Marist already offers the only four-year program in Business Ad

GRADUATE PROGRAM IN PSYCHOLOGY

The focus of the Psychology Graduate Program is community psychology, an innovative approach to analyzing and influencing the social systems that shape human development. The two concentrations offered are Clinical-Social and Experimental-Social psychology. Dr. Daniel Kirk, Chairman of the Psychology Department and Graduate Program, explained that "our M.B.A. program is the only one of its kind in the county. The State Education Department has refused to authorize any new graduate psychology programs which do not offer something more than the standard graduate curriculum. [We] were granted authorization because of the unique approach we've undertaken.

One of the primary purposes of the program, as stated in the graduate catalog, is "to provide the student with an orientation toward, and a knowledge and understanding of community organization and activity. It is intended that a 'community sense' and knowledge will lead to action. Specifically, the Counseling graduate will prepare to work with human service alliances and move toward utilizing the totality of community human service services to meet the needs of an individual or a group in the community.

Mr. Kelly emphasized that the graduate students are actively involved in determining the future direction of the program. He concluded, "We feel that the graduate students are as much responsible for the program's success as the chairman's department."
Circle Interview: Andrew Pavelko

Andrew Pavelko Talks About Maintenance

Mr. Pavelko: What happened to the bathrooms near the Dutchess County Airport?

Mr. Pavelko: Well, this was a point of focus, but we really got containers, because we were evaluating the possibility of having a private cart carrying company move in and keep it operating, and if that happened, the problem of garbage disposal would be solved. However, they have not been able to make a decision about this yet. Mr. Pavelko: The bathrooms are open every day. If we don't open them, the persons using the bathrooms are not able to go to the bathroom. If you have a choice between having less than one or not having any, then it's a choice between having less than one and not having any. Mr. Pavelko: Because there have been situations where there have been people visiting the Circle that were not using the bathrooms or the sleeping area, and then they were using the bathrooms and sleeping area because they were going to other people in the dormitory. Mr. Pavelko: Once you have them out of the way, and then they can be reused. That's the most basic way to say it. Mr. Pavelko: We're going to get them all used, and then we'll get rid of them. Mr. Pavelko: Maintenance has never been a change of guards every 45 minutes. Whenever the Brothers are on the floor, they have a period of time every third day. Mr. Pavelko: If you have that many people in one location, you cannot really do all of your work. Mr. Pavelko: Yes, actually. Time is the only thing we have to do in the rooms.

Mr. Pavelko: How many bathrooms are there?

Mr. Pavelko: We are re-piping the main to prevent corrosion. I understand that some of the pipes are corroded. Mr. Pavelko: We are working on a particular floor. This means that they will be made available to the students. Mr. Pavelko: Mr. Pavelko: These were some of the rats that we have seen, and they are being baited. We know that these are the rats that are being caught. Mr. Pavelko: Yes, actually. We are going to do something about them. Mr. Pavelko: Maintenance is here because of the job that they do. Mr. Pavelko: We have had a huge garbage disposal problem, and we are working on it. Mr. Pavelko: We are working on a particular floor. This means that they will be made available to the students. Mr. Pavelko: What are they supposed to do in the rooms?

Mr. Pavelko: Well, this was a point of focus, but we really got containers, because we were evaluating the possibility of having a private cart carrying company move in and keep it operating, and if that happened, the problem of garbage disposal would be solved. However, they have not been able to make a decision about this yet.

From The President

By Maria St. George

The year the College Union Building (CUB) opened was 1968. Nearly 10 years later, the CUB was opened in 1978. Today, the CUB is still functioning as the college community. Since then, there has been a decrease in the number of students attending CUB.

The Student Government (SG) Finance Board is responsible for developing an understanding of its financial situation and its obligations. The SG Finance Board is also responsible for providing a forum for discussion of financial issues.

The SG Finance Board is divided into three groups: The Executive Committee, the Finance Committee, and the Budget Committee. The Executive Committee is responsible for determining the policies of the SG Finance Board and for maintaining the interests of the SG Finance Board. The Finance Committee is responsible for preparing the budget for the SG Finance Board and for maintaining the financial records of the SG Finance Board. The Budget Committee is responsible for approving the budget of the SG Finance Board and for maintaining the financial records of the SG Finance Board.

The SG Finance Board is an integral part of the college community. It is a platform for students to voice their concerns and for the SG Finance Board to address those concerns.

Yearbook

Sittings

Sign up this evening for the 1973 Yearbook. The first day of school was August 20 and the final day of school was May 15. The yearbook is published by the yearbook committee, which is comprised of students from various majors.

Miniature Refrigerator

The Miniature Refrigerator is a unique experience to be had at the CUB. It is located on the sixth floor of the CUB, adjacent to the Coffee House. The Miniature Refrigerator is open to all students and is available for use.

RESEARCH MATERIALS

All topics for research are available in the library. The library is open from 8:30 a.m. to 5:00 p.m. Monday through Friday. The library is located on the first floor of the CUB.

ITALIAN SOCIETY

For Italian students interested in participating in the Italian community, the Italian Society is a great place to start. The Italian Society meets on the third floor of the CUB, room 320.

The Time for Introspection has Come when Certain Elements within the Society of Theta Epsilon Sigma need to be addressed.

The inaugural issue has been brought to you by the editorial staff of the Circle. It is our hope that this issue will provide a platform for discussion and introspection.

In this issue, we will be discussing the importance of introspection and its role in personal and societal development. We will also be featuring articles on the importance of self-reflection and the benefits of engaging in introspective activities.

Please join us as we explore the significance of introspection in our daily lives and the ways in which it can contribute to a more fulfilling and meaningful existence.

Comprehensive Health Management.
The best team effort in the history of Marist College Football was set up by a most-impressive 16-44 victory over usually tough Fairfield University at the Marist campus Monday. The meet, which was originally scheduled for last Saturday but postponed because of the heavy winds and rain, was run in cool and windy weather before a good Marist crowd.

Jay Doyle won his second race of the three outings by clipping out a 2:53:54, exactly one minute faster than his time of the course record set by Mike Redmond of Nyack last year. He was followed by Bob Salamone 2:58:18, Mark Helvitta 2:58:38, and Marty McGowan 2:59:42. This assured a Marist victory. Amazingly, only 48 seconds separated Marist's first four runners in this meet. Freshman Mike Duffy, running his third race for the Red Foxes, came in sixth overall in a splitting time of 27:11. He will undoubtedly be a big asset to the Marist harriers as the season moves on, and especially in the C.A.C.C. Conference Championships. Bob Nelson placed sixth for Marist and eighth overall clocking his best time ever of 27:29 and closed within eight seconds of Bob Mayerhoff's best Marist time ever. Jim McCasland, continuing to show constant improvement with his added cross country experience, finished the Marist scoring with a 27:46 timing and ninth place in the race. Bob Salamone, Marty McGowan, Mike Duffy, Bob Nelson and Jim McCasland all ran their best times ever in this meet.

This was the best time ever recorded in the ten-year history of cross country at Marist for the top five runners and the top seven Marist runners.

The Running Red Foxes, now 4-2 on the young season, are next scheduled to take on Kings College, a CACC team, at the Marist campus Tuesday at 3:30 p.m. The final home meet of the season is in Annapolis, October 14, with Bryn Mawr College and Siena College invading the campus for a 2 p.m. meet. The meet with Siena should be a very close one and a good crowd is expected to view the Running Red Foxes in their final 1972 effort at home.

Salamone, McGowan Finale Saturday

This Saturday, October 14, the Marist Running Red Foxes will conduct their final home meet of the 1972 cross country season. But the weather may just be more than that. It will mark the end of the season for runners who ever run on the Marist course. It marks the end of the fantastic home meet run by Coach Rich Stevens.

Senior Bob Salamone ran four years of cross country and track in high school and when he came to Marist he wanted to run. As a freshman, he also went out for the football team. Earning a varsity letter, he did not compete during his sophomore year, but returned last year as a junior in what could be called a natural step for the "Comeback of the Year" Award. Not only did he compete, but he was chosen co-captain of the running team and placed third for the harriers on the season. He was more than one long drive behind the freshman last year than he had as a freshman.

This year Salamone was re-elected as co-captain, and quite easily so. "He's a born leader," says Coach Rich Stevens. "He is a natural leader of the group's greatest potential. All of the runners put a great deal of respect in him, I respect his opinions and often have used his advice to settle issues which we were debating. Coach Stevens continued.

Without a doubt, Bob has been the most improved runner of the team. He now earns the honor for two reasons: (1) He has improved more than any other runner for an average of 5 yds. per race (2) He has improved more during this season than anyone else. Bob has made remarkable improvement this year. He has shown constant improvement every meet and has jumped to the number two spot on the team only 24 seconds behind super Jay Doyle in his record-shattering run." Coach Stevens continued.

The Marist College soccer team, now with Fairfield University Saturday (Oct. 14) at 2:00 p.m. at Leonard Field. Fairfield (0-4)- will be looking for their first victory of the season, having recently decided to depart the CACC. The Soccer team will meet with Siena College invading the campus for a 2 p.m. meet. The meet with Siena should be a very close one and a good crowd is expected to view the Running Red Foxes in their final 1972 effort at home.

The leader of the offense is sophomore Nigel Davis and Mike Cassedy with two touchdowns apiece.

Nigel Davis has been the key to the Viking rushing attack, as he statistics indicate. He has recorded 229 yds. for over 120 yds. per game. Davis has been impressive despite the fact that every team, remembering his explosive running a year ago, has been keying on him. The second leading scorer on the team has been sophomore Ed Bennett. Making apt use of his ability to catch outside on the option, Bennett has picked his individual game by 120 yds. in only 16 carries for an average of 5 yds. per carry.

Bonnett has also been more than capable in the passing department, completing 25 passes in 64 attempts and 4 touchdowns. His favorite receivers have been wide receiver Tim Murphy (10 passes for 183 yds.) and tight end Mike Cassidy (7 passes for 89 yds. and 2 TD's). The team has gained 1065 yds. while earning 43 first downs.
