President Foy On Marist Future

By Joe Terranova

"Marist students must realize, when they say, 'Future', that is present progressions, the priorities systems, and the authority. The pressure is on to the pressures of fund distribution. Interviewed by the "CIRCLE", President Foy explained some important advantages for Marist. What must work hard in hand for any decent schools? These projects is an agreement on priority, from the students to the trustees. Dr. Foy stated that the priorities of the students will be seriously considered.

Among the changes mentioned by President Foy was the "probable" moving of Spellman Library to Fontaine Hall. Commissioned that the library is growing, over 400 books per day. The library is not the way of using old material, transformed into inter-library loan. Marist will develop a strong emphasis on library literature. Using much of Fontaine Hall, the growing library could be conformed with study and type halls, conference facilities, are some sort of snack and refreshment and food.

Other foreseeable projects include the much-talked new sports complex, a new field house, lights for the athletic field, and more computing programming space, and more computers.

The sports-complex will include tennis, basketball, wrestling, and many other advances over current athletic facilities. Dr. Foy is not in favor of the suggestion to knock down the existing gymnasium or use the building for another purpose. In the sports-complex and the 9.00, there would be enough offices until midnight, rather than having a sparkling new building which doesn't serve the students.
Students Desire New Courses

By Robert Lee

As a result of a recent petition signed by more than 100 Marist students, the University is considering the addition of new courses to the curriculum. The motivation for this proposal is the desire of students to expand their educational opportunities and enrich their academic experiences.

Graduate Schools: The Undergraduate Benefits

By Lynn Hartline

One of the key benefits of graduate programs is the opportunity to explore new subjects in depth. This can be particularly valuable for undergraduates interested in pursuing advanced degrees.

From the Italian Society

Around eighty enthusiastic football fans packed boxed homes and crowded into the gymnasium to attend the meet the Great Italian Society, heading the St. Louis Boat Club. The event began with a special benefit dinner at the Boat Club, followed by a dance at the Royal Italian Society, and concluded with a special benefit at the Boat Club. The goal was to raise funds for the Italian Society's scholarship program.

Winter-Berger To Speak On Government Corruption

By Ed O'Connell

Being the first resident graduate student at Marist, Robert Winter-Berger has been selected to speak in an upcoming address. The event is scheduled to take place on Monday, October 26th, from 6:00 PM to 8:00 PM in the Commons. Robert Winter-Berger is a professor at Marist College and has spent many years studying government corruption and its impact on society.

Subjectivity

By Stuart Grant

Polls have always fascinated me. The way in which they are conducted, the questions that they ask, and the way in which they present the results, all contribute to the subjectivity of the data. It is crucial to understand the underlying assumptions and biases that may influence the results.

Student Poll Favors Nixon

The results of the recent student poll at Marist College show a strong preference for Richard Nixon in the upcoming election. Of the 100 students surveyed, 60% expressed a preference for Nixon, while only 40% supported the Democratic candidate. These findings suggest a growing support for Nixon, especially among younger voters.

The First Resident Graduate Student

By Ed O'Connell

### From 15 Concerned Students

The outcome of the 1972 Presidential election is crucial, whether the war in Vietnam is halted or not.

Presidential elections will determine whether the Supreme Court will be ultra-barbaric aerial bombarding the problems of the poor and the rich in public school policies for our students and working youth.

Threats to our right to privacy and our inalienable right to vote are caused by the McGovern campaign and the failure of the Nixon forces in Poughkeepsie.

We, therefore, insisted that the McGovern forces in Poughkeepsie continue to carry on the campaign intensively throughout the state.

---

### Circle Editorsials

#### Dogs On Campus

In the past few years, Marist College has undergone many changes. Of course, our President, Dr. McVay, has always been open to change and growth on campus. However, the problems of the poor and the rich in public school policies for our students and working youth are of utmost importance.

The outcome of the November election will determine whether there is more bugging, smear, or shooting.

---

#### Rebuttal To: On Pushers

I would like to address the questions posed by Professor Henry Hammer in his article "On Pushers." In the October 5th issue of the College Theater, Professor Hammer asked, "What is the extent of the drug problem on our campus?"

I believe organized crime is a drain on our society. I agree with Professor Hammer on this point.

---

#### Elementary Education

Where are your credentials of Elementary Education? We know that there are many students who have received special courses in this field. We would hope it the College financially at a time when it could be otherwise. This is a problem that could affect the College Community, but a possible step in the right direction.

---

#### Stepping Forward

As an editor in last week's Circular it was sincerely stated that we should consider the problems of the poor and the rich in public school policies for our students and working youth. Our members have stepped forward and their action resulted in the recovery of the mini air ports.

---

#### Yoga Workshop

To the Marist Community: The Free University is presently sponsoring a Free Yoga Workshop every Monday evening in the University Club.

I believe organized crime is a drain on our society. I agree with Professor Hammer on this point.

---

#### Natural Science

A proposal has been made by Dr. Stiles Brown, head of the Physics Department, to offer a course on the human body, titled "A glimpse into the body." The course will be offered to Marist College students.

---

#### Engineering Program

Marist College cooperates with the Universities of Dartmouth and the State University of New York at Stony Brook.

A panel of experts will discuss the problems of the poor and the rich in public school policies for our students and working youth.

---

#### Career Conference

There will be an all day and all evening career conference at the College Theater on December 11th.

---

#### The Truth Of Dolf Drago

Dolf Drago was a well-known basketball player who had been traded to the New York Knicks. He was known for his aggressive style of play and his desire to be traded to a better team.

William Shakespeare has said, "A man is known by his friends." Dolf Drago was known for his friends, including his teammates.

---

#### Yoga Class

Yoga classes are present on campus, offering a variety of classes for students. These classes focus on the physical and mental well-being of students.

---

#### Circle

"The Circle" is a publication that focuses on current events and issues affecting the Marist College community. It is a platform for students to express their concerns and ideas.
A Short Story

By Des Spalding

He climbed the small hill that he could see from his bedroom window. The sun was setting on the other side of his cottage, a golden orb that shone bright and warm. He noticed the sound of children playing in the distance. His thoughts drifted to the past, to simpler times.

Shaping The Shapeless Into Community

By Ivy G. Lothcott

The school picnic on Sunday, October 1st, was predictably喧闹 with the usual mix of food, games, and music. The event was well-organized, and the location was ideal. The field was open, the air was fresh, and the weather was perfect. It was a day to enjoy the company of others and to appreciate the beauty of nature.

It's All Over
But It's Not

by John Radonak

Had Southampton been less ciain in this splinter of a community would have simply continued with the same old people who are always complaining about something. But Southampton doesn't just give you another chance; it gives you a chance to succeed. The community is never satisfied with the old and the same. There is always something new and different happening in the community.

Harriers In C.A.C.C. Championship

the Marist Running Red Foxes will seek to capture the 1972 C.A.C.C. Championship, a goal that was not achieved last year. The team is young and hungry, and it is ready to take on the challenge.

Alumni Race

Last Saturday, the alumni of the Marist College track and field team held their annual alumni race. The event was attended by alumni from various eras, and it was a wonderful opportunity for everyone to come together and relive the memories of their college days.

The Marist Running Red Foxes

The team is composed of athletes from the class of 1972, and it is led by coach Jay Doyle. The team has a strong tradition of excellence, and it is always looking for new ways to improve.

E.T.S.

PRINCETON, N.J. A new program for high school students designed to help the minority groups is underway this fall. The program is called "E.T.S. (Educational Testing Service)" and is part of a larger initiative to increase enrollment of minority students in higher education institutions.

Cancer Detection

"Take Time Out for Life," an annual event, has been held on the campus of Marist College to raise awareness about cancer detection and treatment techniques. The event is open to the public and offers various seminars and workshops on cancer prevention and early detection.

The Locater Service

The locater service is open to undergraduate students across the country. It is a service that connects students with other students who are seeking to be served by their schools' graduation program.

Runners Lose To Nyack, Top New Paltz

Tuesday, the Marist Running Red Foxes were victorious in their women's cross country division. The team defeated the New Paltz women's team, and it set new personal records.

Alumni Race

The MARIST is a new program presented Thursday evening; special filming of "The Clouds of Sils Maria" will be performed.

The作為: is a new program presented Thursday evening; special filming of "The Clouds of Sils Maria" will be performed.
Harriers Defeat Kings And Brooklyn

The Marist Running Reds, currently ranked number one in the country, by using its fullest - the Triple Option - defense can pressure and intimidate their opponents. Basically, Fairfield is not big but they do have some fast running backs. They run from a variety of offensive sets including the Wishbone, Formation, Split backs, and other things that the Triple Option defense should not be able to handle.

The Marist-Nyack dual meet at Concord Park was conducted Saturday. Marist was to meet Nyack for the third time in three years, and large-sized squad, which the Vikings Win Seventh Straight crushed them 29-0. The Big Red Machine has been winning for a long time now, and it appears that the game is far from over. The Marist defense should not be able to handle the option, and it will show a good offensive line in the future.
