Many of you may be pondering the decision to come to Marist during the summer this year, and have asked about the possibilities of working on campus, as well as being employed. The Financial Aid Office has recommended some possibilities, however, since the unemployment rate is high it is encouraging that you act quickly if interested.

Of the three programs offered by the Financial Aid Office, the Summer Work Study Program is the first to deal with the Federal Work Study Program. The Work Study Program is a financial aid program that offers students who are eligible the opportunity to work on or off campus, during the school year and during vacation periods. To qualify for the program, the student must complete a financial aid application and a Perkin's Confidential Statement. These forms, as well as more information about the program, are available in the Financial Aid Office, Room 109 Donnelly Hall.

The Summer Work Study Program offers the Financial Aid Office this year is the Religious Studies Summer Work-Study Program. Some departments on campus and many non-profit agencies in and around Poughkeepsie are interested in hiring full-time work-study students this summer.

These employers will be in contact with the Financial Aid Office to specify the type of jobs, hours of work, and rate of pay, etc. very soon.

Many students have asked if they can stay and live on campus during the summer and either be working on the work-study program or through regular employment in the community. The answer is yes. Students wishing to remain on campus during the summer should contact Mr. Fred Lambert, the Residence Director of Champagnat Hall. The Athletic Director's Office should be contacted as soon as possible to see what priorities and what schedules have been established at this point for the summer.

The third program offering is concerned with regular employment either on or off campus. These employers are interested in information or contacts about students who are interested in summer employment should contact the Placement Office as soon as possible. College employment arrangements can also be made for students wishing to work for business, industry, or government agencies, etc. in the area. The students interested should contact the Financial Aid Office for the costs in the proceeding section.

Experimental Workshop

The Experimental Workshop presents “People’s Theatre in Display.” The play will be performed on a circle stage. The play was created out of a true incident that occurred in Berkeley in 1969. The group created the show for the purpose of giving the community a unique opportunity to express its ideas. It is a collaboration of students, faculty, and friends. The show is performed on Thursday, April 25th, 1972 between 2:00 and 4:00. Everyone is invited to attend.

Religious Studies

An Informal Double Major

With a nationwide increase of interest in religious studies, many students have wondered why we lack a major in Religious Studies. Members of the Department of Religious Studies have been taking about the possibility of an informal double major for some time. However, the program is vague, and ill-defined in relation to the other academic programs. This growing interest in Religious Studies does not reflect a unit oneness on the part of the Marist College community, it is rather a trend seen in college campuses throughout the nation.

Already Religious Studies programs have been set up in UCLA, Yale, Fordham and St. John’s University, along with the programs that have existed in other colleges for years.

There has been no formal registration for the Marist In- formal Double Major in Religious Studies. Publicly there have been no strong feelings, and interest in the program has been low. However, Mr. Michels, Dr. Veryan, and Dr. Horcelain have all been interested in working towards an informal major. Dr. Michels has approached Dr. Florence Veryan, Dr. Michels and Dr. Veryan about working towards an informal major. Dr. Michels has approached Dr. Florence Veryan, Dr. Michels and Dr. Veryan about working towards an informal major. Tuition Increases Spark Protests

College SOS

Last Thursday, April 13, a new service was initiated in the Mid-Atlantic area for students who were enrolled in universities located in the New York area. The service, called College SOS, was designed to help the college student who is in a bind. It includes information on tuition, fees, and other payment options for students who are faced with financial difficulties.

The College SOS service is staffed by volunteers who have previously attended or are currently attending New York area universities. The volunteers are trained to provide information and assistance to students who are facing financial problems.

The service is available at no cost to students and is open from 9 a.m. to 5 p.m. Monday through Friday. Students can contact College SOS by calling 1-800-COLLEGE or by visiting the website at www.collegesos.org.

S. A. C.

The Committee decided that next Thursday night at 8 p.m., all students who have applied for the Scholarship Program will be notified of their status. The applications must be submitted by Thursday, April 20.

Arrangements have been made for the Reception Committee to make sure that all students have the opportunity to attend. The program will include a special presentation for students who are selected for the Scholarship Program.

Ward's Words

"Another Election Year"

Mike Ward

1972 and it's time to be respectable citizens. That means voting for the best candidates for the office of President. After all, in this land of op- position, who does not want to be president? He is 60 and he doesn't know he is president. This man's voice is a model that has been lost in the struggle for union recognition. In this column, I would like to share with you some information that was printed in the New York Times and the Washington Post.

Mr. Frank Eberhardt, of Eberhardt Builders Inc., has moved his residence to the city of New York. His new residence is located at 1234 Fifth Avenue, New York, New York 10021. Mr. Eberhardt is involved in the development of a new type of housing project in the city of New York. He is looking for investors to help finance the project.

Register To Vote

William McCall, Chairman of the New York State Democratic Party, has announced that a drive is to be launched in the city of New York to register new voters. The drive will be held from April 20 to May 20.

The drive will involve the registration of all eligible voters in the city of New York. The drive will be conducted by the Democratic Party and its allies, including the League of Women Voters and the Young Democrats.

The drive will be held at various locations throughout the city of New York. People interested in participating in the drive should call the Democratic Party office at 123-4567.

Political Irony

What is it in computer work that makes it the profession of the future? For people who have been trained in computer work, the profession is often a source of enjoyment and satisfaction. The profession is often associated with the idea of working in a comfortable, well-lit environment. People who work in computer work often have the opportunity to work with cutting-edge technology.

The profession of computer work is often associated with the idea of working in a comfortable, well-lit environment. People who work in computer work often have the opportunity to work with cutting-edge technology. However, the profession of computer work is often associated with the idea of working in a stressful, high-stress environment. People who work in computer work often have the opportunity to work with cutting-edge technology.

Don't Cop Out

"Ministry to Homosexuals"

During Easter Week I attended the National Convention of College Chaplains in Boston. Among the National Convention Resolution, the following resolution was adopted: "The ministry of the chaplains is to be extended to all areas of Christian life, including the areas of college campuses." This resolution was adopted by a vote of 43 to 1 in favor of the resolution. The resolution states that the ministry of the chaplains is to be extended to all areas of Christian life, including the areas of college campuses.

Red Foxes Cap “Spring Fever”

Bow To Marietta, Frosh Top Stockton

The Marist College began its season on an optimistic note with a team victory in the Spring Fever Regatta. In the President’s Cup Regatta, the Red Fox Lightweight and Freshman crews scored solid victories to lead Marietta to the team championship. The University of Massachusetts heavyweight varsity shell enjoyed the Red Foxes by a half-length as the Red man placed second in team scoring.

It was the largest regatta ever on the Connecticut River as 27 shells raced in six-events over the 2,000 meter course, which was cold and choppy. The course was extremely choppy during the Varsity race which saw the Red Foxes stay even with the much heavier Massachusetts oarsmen until the half-way mark. At this point Massachusetts opened up to a half-length lead, one which the Red Fox could never make up. The Red Fox rowed at a 34 stroke-per-minute pace.

In the lightweight race, the Red Foxes won off at 36 strokes and a two-length lead over Wesleyan. Tom Haithe’s lightweight varsity shell put up a score of 39 strokes and wound up with an overall victory.

The Frosh Freshmen Eight won its race, with Villanova (13.11) just behind its place. The Frosh jumped into a 39 stroke pace, the batting down a score of 32, and were never seriously challenged. The next weekend the Red Foxes hosted pennant deaf Vail College and they did not put up the expected defense. The Frosh won by a margin of 24 strokes.

The Frosh, on the other hand, won by a margin of 24 strokes. While Marist was struggling against the underdogs, the Frosh started out with a narrow lead. The Marist Frosh team, in batting down a score of 24 strokes, quickly caught up but was never able to recover as they lost to the Frosh. The Frosh, with a boat length of a margin of 24 strokes, came in at a time of 6:33.

The Marist Lightweight then came to Poughkeepsie with virtually the same team which earned them the 1971 DaVil Vail Championships. The Marist Lightweights were coming off a triangle race with Fordham and Iona. The Lightweight Red Foxes had built up a one length lead with 100 meters remaining when an oar lock broke. Fordham quickly made up the difference and overtook Marist at the finish line. Fordham turned in a time of 7:40 while Marist turned in a time of 7:32 while Marist finished at 7:39.

The Varsity race was the highlight of an afternoon of racing and proved to be the best race of the day. Marist coming at a rate of 36 quickly jumped out to an early lead and maintained a one-length lead with about 1,000 meters to go. Marist started to catch up and raced to a one length margin at the finish. Marist finished in first at 6:40 while the Red Foxes came in at 6:46.

The Red Foxes travel this weekend to Hartford, Conn., to row against both Trinity College and Ithaca College. Bill Austin Coach of the Heavyweight Crew (10-7) feels that the heavyweight must work on the second half of their race if they are to defeat a strong Trinity squad.

Coach Tom Haithe feels that his lightweight squad (9-3) must find the right combination in this team’s sport to get back on winning track. Finally, Coach Bill Lenahan feels that his Freshman Crew (7-1) must beat Trinity decisively to measure a true test of their ability. The triangular regatta with Trinity and Ithaca will proceed Marist’s own President’s Cup Regatta of Saturday/April 29.

Vikings To Face Livingston Saturday

During the past two weeks the Marist College Football Team has been preparing for this game with Rutgers. Livingston this season is playing with a new Head Coach Ron Levine is very optimistic about the outcome this year. The Red Foxes have a new Board of Directors and a new Board of Directors. In the case of South Vietnam the prize is the allegiance of the landless peasants.

On Saigon to make reform by withholding any and all aid until it is proven conclusively that the war will continue; the only difference being that the victims won’t have any help in the development of the religious education of their children. If education is then an important part of life and an important part in the study of Religion? The answer is: No. How can those men Crew (7-1) must beat Trinity decisively to measure a true test of their ability. The triangular regatta with Trinity and Ithaca will proceed Marist’s own President’s Cup Regatta of Saturday/April 29.

Secones Named for the loyalty of other men. In the case of South Vietnam the prize is the allegiance of the landless peasants.

The Marist College Football Team has made it known that Secone has been named Dad Vail Football at Marist College. John is well known on campus because of his contributions to the Administration would face the Administration would face....
