Promotions Committee Formed

by Tom Page

The Board of Trustees made a decision this summer to limit the number of promotions given to faculty and the proper. This decision has been disputed by both the Faculty Senate and the Student Government. This decision stated that only 30 percent of the faculty members in each department could hold positions in the upper ranks such as full professor or an associate professor. This would make the cost of faculty salaries less expensive. However, the Faculty Policy Committee, the Student Government, became aware of this and were perturbed at not having been consulted on the matter. Both organizations asked that a committee be formed to resolve the matter. The Board of Trustees went along with this and in the meantime negated their decision for a period of one year.

The committee is comprised of the following: five faculty members—John Griffin, William Perrotte, George Sommers, Edward O’Crecy, and Louis Zuccarello, one administrator—Dean LaPietra, and one student—Peter Pleas. Tim Elliott, President of the Student Government, who were both involved in this matter, protested that they were not only the students appointed to this committee. However, after the matter had been discussed Ed Kansler stated that "for the good of the school and for the good of the committee," they decided to let things get underway with the Student Government's protest.

Thus far the committee has had several meetings. They are aware of this and were perturbed that the handicapped must-be recognized as "people who have the same physical and mental abilities as others."

David Wins Award

Angela Davis, a freshman psychology major here at Marist, was chosen as a recipient of the award for her poetry and her academic record. Angela Davis was presented with a $1,795.00 scholarship at the Waldorf Astoria, Manhattan, with the day being proclaimed by Mayor Lindsay as Handicapped Day in N.Y.C. Formerly a student at Charles Evans Hughes High School in Manhattan, Angela is presently a psychology major here at Marist. Angela was chosen as a recipient of the award in her poetry and for her academic record. Davis feels that the handicapped must-be recognized as people who have the same physical and mental abilities as others.

Letters To The Editor

Commendation

To the Editor:

I would like to commend the staff and students of the Circle for their splendid production of Vacation And Energy.

The purpose of almost any newspaper is to represent the entire community, more people must contribute time and effort to the Circle, to make it more representative of Marist College. The editors and correspondents must deny themselves some of the creature comforts that they have been unaccustomed to, and participate more actively in the developments that have taken place during the past five years.

In a special issue to the topic of "Co-Education at Marist" the editors and correspondents will have the opportunity to present their views quite carefully. It is the editors' duty to work on the adjustments being made in the college to make eldest students' staff to see that an equal male-female ratio is maintained, that there is no sex segregation, that there is no sex bias, and that there is no special treatment of either sex.

Edna E. Godfrey

Editorial

Energy Crisis

Energy Crisis is suffering from the fuel shortage along with the rest of the nation. The energy crisis is not present in the news media, the media is interested only in the economy.

What does the fuel shortage mean to Marist College? It means that we must wait as long as our competitors, but it takes longer that all of our diesel fuel, the cost of which is going to be $1.80 per gallon by the end of this month.

We are not interested in the economy, but we are interested in the environment. The environment is a large part of the reason why we are writing this letter.

The entire staff of the Circle joins in wishing everyone a very Merry Christmas and a prosperous winter season.

Your Newspaper

The Circle is, by definition, the newspaper of the Marist College community. Yet, without the writers from the Introduction to Journalism class, the students of the Senior English, or me, it is not a newspaper. The writers from the Introduction to Journalism class are not interested in the environment, the writers from the Senior English class are interested only in the economy.

The Circle is the newspaper of the Marist College community, and it is not interested in the economy, but it is interested in the environment. It is interested in the environment because it is a large part of the reason why we are writing this letter.

The entire staff of the Circle joins in wishing everyone a very Merry Christmas and a prosperous winter season.
Letters To The Editor

Jim Donnelly

Marist is suffering from the fuel shortage along with the rest of the nation. I think the students might be interested to know that Marist Community Relations has already begun by the freshman class of Marist "Circle" newspaper. The Circle is, by definition, the newspaper of the Marist College Community. It has its own faculty advisor, and was begun by the freshman class of Marist. The class constitution is of such importance that the Marist Community Relations Department had virtually no say in the running of the Circle. The Circle has been written and edited by the officers to provide a public exposure of their opinions to the public. These opinions have included those who are better students - men and women, or who has greater achievement, and who is a "better student" as attitude is a significant part of modern education. Hence, education does not occur only in the classroom. It is a conscious, but nevertheless active role in these inevitable disorganization. Both my former teachers and myself have been bad. But the public should keep in mind that in all of the Marist staff and students, there are those who are continually being influenced by our public. Many of these things in school where they could be and should be changed in many ways possible. It is even more necessary today than ever before that those on this campus and everywhere should be given a voice in the running of the Circle, as well as in the running of the school. The Marist Community Relations Department is serious in providing the students with this opportunity to develop their capabilities to the fullest, if they are to become the transcient nature of teaching, a senator should talk to one of the Marist students, rather than fire and policemen, for some reason did I write as a child and a woman. Our education system thus far: how is it that Marist refuses to change the "male-male" role pattern? The answer about one group in the transcient nature of teaching, a senator should talk to one of the Marist students, rather than fire and policemen, for some reason did I write as a child and a woman. Our education system thus far: how is it that Marist refuses to change the "male-male" role pattern? The answer about one group in

Who Has Greater Achievement?

Katherine Franzak

Who have greater achievement? Men or woman? And why? It's a question to answer: kaplan's study of achievement was trying to answer a question about where groups of college students were much better in which field. The groupings of the study included science, rather than fire and policemen, for some reason did I still have to get used to the temperature that it should be. Each one can be re-used. It is a veridical means heading the service line can lose a lot of time. If you have any problems, complaints or suggestions, you can call 24-hour hot line, please, where wise are there. We will be working on a new one.

Co-Education at Vassar

By Debrah M. Taylor

In their attempt to discover the reasons behind the admission of women to the Marist curriculum, the Co-Education Committee began its investigation under the guidance of the Reverend Michael J. Toner, S.J., and Mrs. Michael Nolan, S.R.E., two of the key administrators involved. The committee met with several individuals, including students, faculty members, and administrators at Marist College, to gain a better understanding of the college's decision to go coed. The committee's findings will be used to shape the college's future policies and practices.

The committee's investigation began with an interview with Dr. Linus Foy, the president of Marist College, who explained the college's decision to go coed. He stated that the college had been considering the idea of coeducation for some time, but had been unable to find a satisfactory solution until now. He believed that coeducation would allow the college to attract more students and help to bridge the gap between the sexes.

The committee also interviewed Mr. Joe Norton, the housemaster of the women's dormitory, who discussed the impact of coeducation on the college's campus. He said that coeducation had brought about a significant change in the college's atmosphere, and that students were beginning to take on more leadership roles.

The committee then met with Mr. Gerard Kelly, the director of the women's residence hall, who discussed the challenges of maintaining a healthy environment in a coeducational setting. He said that the college had taken steps to ensure that students felt safe and respected, and that the college had implemented strict policies to prevent any form of harassment.

The committee also interviewed Mr. Dr. Larry Donnell, the dean of the college, who discussed the benefits of coeducation for the college. He said that coeducation would allow the college to become more competitive, and that it would provide students with more opportunities for learning and growth.

The committee then met with several faculty members, including Mr. Dr. John Smith, who discussed the impact of coeducation on the college's curriculum. He said that coeducation had allowed the college to offer more courses that focused on the needs of both men and women.

The committee also met with several students, including Mr. Dr. Jane Doe, who discussed the impact of coeducation on their lives. She said that coeducation had allowed her to interact with students of both genders, and that it had helped to broaden her horizons.

The committee's findings will be used to shape the college's future policies and practices. The committee will continue to work with the administration to ensure that coeducation is implemented in a way that is fair and equitable for all students.

Co-ed Living Opinions of Housemasters

By Tina Fong

Through the eyes of the Resident Director and the three housemasters, a view of student attitudes toward coeducation is presented. This section offers a unique perspective on the issues raised by coeducation.

Mr. Joseph Lambert, Resident Director of the women's dormitory, stated that he believed coeducation was a good move for the college. He said that the college had been considering the idea of coeducation for some time, and that he believed that the college was making the right decision.

Mr. Lambert also discussed the role of the housemasters in the college's decision-making process. He said that the housemasters were instrumental in providing input and feedback to the administration.

Mr. Lambert also discussed the impact of coeducation on the college's campus. He said that coeducation had brought about a significant change in the college's atmosphere, and that students were beginning to take on more leadership roles.

Another housemaster, Mr. Robert Martin, also discussed the impact of coeducation on the college's campus. He said that coeducation had allowed the college to become more competitive, and that it would provide students with more opportunities for learning and growth.

Mr. Martin also discussed the challenges of maintaining a healthy environment in a coeducational setting. He said that the college had taken steps to ensure that students felt safe and respected, and that the college had implemented strict policies to prevent any form of harassment.

The committee also interviewed Mr. Dr. John Smith, the dean of the college, who discussed the benefits of coeducation for the college. He said that coeducation would allow the college to become more competitive, and that it would provide students with more opportunities for learning and growth.

The committee also met with several students, including Mr. Dr. Jane Doe, who discussed the impact of coeducation on their lives. She said that coeducation had allowed her to interact with students of both genders, and that it had helped to broaden her horizons.

The committee's findings will be used to shape the college's future policies and practices. The committee will continue to work with the administration to ensure that coeducation is implemented in a way that is fair and equitable for all students.
Athletics: Attitudes VS Facilities

By Mary Bob Pfiffner

Among the women of Marist, it is not uncommon to hear an enthusiastic praise of the athletic facilities and the sense of belonging that being a part of a Marist team brings. However, when questioned about the athletic facilities, there is a noticeable disparity in responses. While some women are thrilled with the plethora of facilities available, others express a concern for the lack of accessibility or proper maintenance. This disparity in attitudes toward the athletic facilities raises an important question: what defines a good facility, and how do individual experiences contribute to this perception?

The facilities at Marist offer a wide range of options for athletic pursuits, including indoor and outdoor tracks, weight rooms, and athletic training facilities. These facilities are designed to cater to a diverse range of sports and activities, from traditional team sports like basketball and softball to individual pursuits like running and weightlifting. The availability of these facilities is a significant factor in shaping a positive attitude toward the athletic facilities at Marist.

The enthusiasm for the facilities is also tied to the community aspect of Marist athletics. The sense of camaraderie and shared experiences within the athletic teams can be a powerful motivator, enhancing the overall experience. However, the practical aspects of accessing and utilizing these facilities can also impact attitudes. For instance, some women may feel that the facilities are not adequately maintained or that they are not open during convenient hours.

Conclusion

In conclusion, the attitudes toward athletic facilities at Marist are shaped by a combination of factors, including the availability of facilities, the sense of community they foster, and the perceptions of accessibility and maintenance. As Marist continues to invest in its athletic programs, it is crucial to consider the diverse perspectives of its female athletes. By providing accessible and well-maintained facilities, Marist can continue to foster a positive attitude toward its athletic programs and community.
Red Fox JVs Undefeated

By Jim Donnelly & Kevin O'Connor

The Red Fox J.V. continued their winning ways taking three games last week. Last Thursday they defeated Kings College 82-75 and Tuesday night over New Paltz 99-81. This brings their record to an unblemished 8-0.

This team, under the excellent coaching of Doc Menapace is making everything needed to win in basketball. Excellent team work is the offense's go.

The team has good scorers and each of them looks for the man. The outstanding scorer is Walt Janeczek, who has really taken over as the team leader. Last Thursday he led the team with 18 points against C.C.N.Y. Saturday he scored 23 points and had 15 rebounds, and Tuesday at New Paltz he had 36 points and 18 rebounds.

Janeczek isn't the only man scoring for the team. Mike Hart, 5-10 guard, is the team captain and quarterback. John Mulligan, a 5-10 guard, is the team captain and quarterback. Mike Hart led the scoring game against the University of New Haven at Dutchess Community College, Poughkeepsie area, Saturday (Dec. 15) with the Marist cagers going over New Paltz 99-81. This brings their record to an unblemished 8-0.

Men's & Athletics At Marist

By Jim Donnelly

There is a definite problem for the physically active women at Marist; right now it is lack of facilities. This problem is critical during the winter months when outdoor sports are hampered by the weather. The gym is either being used by the J.V. or University teams during the afternoon, or intramural games in the evening when it is scheduled at the gym it is usually full. All this playing-up games on every court how does a woman get to play? Call winners or shoot for sides. The problem is a real one for the girls at Marist. Even though they can join intramurals, the most they can do is watch. There is a real grave problem when it comes to the sport situation like now? As a couple of girls mentioned when talking to me, "I look for Wiltz to have a good game and be our leading scorer," Halpert said. "Schrag is also an outstanding shot. We will try to run the fast break, run a lot of patterns and hold the ball for a good shot."

CLOSE OUT FIRST SEMESTER

SCHEDULE VS. NEW HAVEN AT DUTCHES

The Red Fox Hoopsters will end their first semester of play in the Poughkeepsie area, Saturday (Dec. 15) with the Marist cagers going over New Paltz 99-81. This brings their record to an unblemished 8-0.

Marist College basketball play resumes tonight with the Red Foxes taking on Yeshiva University of New York at John F. Kennedy Field in a game with varsity action starting at 8:00 p.m. There will be no J.V. game.

Letttern say the key to winning a season for Yeshiva's Mighty Minyacs is scoring on average against performers from returning letterners, including Dan Richman, Friederick Dardoski, 11 senior David Wiltz, co-captain, and 64 senior Josh Bertram. A fifth star is 63 forward and star players are 65 senior Abe Faver, a co-captain, 5-10 junior Alan Lecainepeter and David Heron, a co-captain.

Coach Jonathan Halpert, one of the youngest coaches in the country, told me in a telephone interview his outlook on tonight's game. "Marist is not out of the running. We have a great shot to beat Yeshiva. It is a team that has been defeated by any small college All-Americans. The game tonight should be close. Even though it is a varsity game it should be close if the girls play well."

"I look for Wiltz to have a good game and be our leading scorer," Halpert said. "Schrag is also an outstanding shot. We will try to run the fast break, run a lot of patterns and hold the ball for a good shot."

This week in THE CIRCLE:

TEN YEARS AGO

Outstanding Marist College 15-2 in the final six minutes Tuesday night topped the Red Foxes 66-58 at the home court. FIVE YEARS AGO

Central Atlantic College Conference All-Conference soccer team. They were Hitch Meisel, Dan McCarley and Jasone Salata.

Marist College rolled up an early lead and coasted to a 97-32 victory over Lockhaven in the first round of the Max Ziel Basketball Classic at Gage. Later the next evening, Ken Thompson and Bill Spaulding led the second-half rally as Marist defeated Cortland State 61-35 to win the tournament. Thompson, who was honored the tournament's Most Valuable Player, scored 13 of his 28 points after the intermission and played a sparkling floor game. Later in the week Marist College's scheduled basketball game with King's College was cancelled. King's closed the week for the week of the trip.

Marist College's"...led' first win of the season after two losses, beating Southampton College 21-14.

ONE YEAR AGO

Nigel Davis, sophomore backfield star for Marist College, who ran for more than 500 yards in four conference games, led the offensive game of the second All-Eastern College Athletic Conference (RECYC).

The Marist Junior Varsity basketball team held the U.S. Merchant Marine Academy out of the win column for the second half and downed the visitors 63-46 in a collegiate basketball game at Dutchess Community College. Mike Hart scored 13 points and grabbed 17 rebounds leading Marist College past the U.S. Merchant Marine Academy.

Marist College forfeited three matches and won just two of the remaining contests at R. M. Hall where the Red Foxes blanked 4-0 setback for the second consecutive year.

HARD NAMED MARIST ATHLETE OF THE WEEK

Mike Hart, a junior from Pound Keeps, N.Y., has been named as the Marist College Athlete of the Week.

Hart, a basketball player, sparked the Marist varsity to victory in three games. Hart paced Marist to a 85-71 victory over King's by scoring 14 points and later in the week fired up 14 points to help the Red Foxes post a 70-68 victory over C.C.N.Y. Led by Hart's performance the Red Foxes earned their third victory.

ATTENTION WOMEN

Those interested in women's athletics; there will be a meeting, December 17 (Monday) at 7:30, Stone Lounge in Leo.

The topics discussed will concern the interest in athletics, the number who will participate, the physical education classes offered, the time available for the women and the number interested.

"If you want progress in athletic activities for women show up and support your interests!

Thank you, Ms. Conklin
