Student Government Constitution Approved

On Friday, April 3rd, the day division students of Marist College Community had the opportunity to approve or disapprove the constitutional proposal initiated by the 1973 Student Government. The constitution proposal offered several new concepts that would hopefully shift the S.G. students' outlook from "static to dynamic". Concepts like the paying of salaries to the four major S.G. officers, increasing the role and powers of both the Financial and Policy Boards, and finally the proposal was structured in a feasible manner enabling the Student Government to amend it more easily.

The students of Marist approved the 1973 constitution proposal with the "enthusiastic" voting of 13 percent of the student body. In total, 230 students voted for, while 70 students voted against the one abstension. With this response, the constitution was declared valid, according to Robert Rammon, and went into effect on Friday, April 6, 1973 at 12:00 p.m.

The Nixon Budget

Re: College Education

There are three federally funded programs which have been very vital to both students and Marist College. These are the National Direct (Defense) Student Grant (NDSL), the College Work-Study Program (CWSP), and the Opportunity Grant (BOG). These programs are designed to be initiated this year, the Basic Opportunity Grant (BOG). The program proposal is to channel the funds directly to the student. The new program, the BOG, will begin to disburse funds directly to the student.

President Nixon has sent his budget proposals to the Congress. The NDSL and the BOG programs are not included in Nixon's budget. The Administration that the need for these programs can be aban­doned by the new BOG program and expanded guaranteed student loan (bank loan) program.

Chart 1 explains this outlook with regard to BOG.

1972-73 1973-74
NDSL 288 million 5 million
CWSP 129 million 26 million
BOG 238.1 million 1

Marist College's participation in these programs can be seen in Chart II.

1972-73 1973-74
TOTALS 474,003 75,000

The next item for discussion by the faculty is one that concerns the Marist students, any inter­ested in education. The issue that is presented with the question of an Academic Affairs Committee.

Basically, the Academic Affairs Committee is established by action of the planning faculty and by the action of the students.

If the proposal passes in a vote that is scheduled to take place on May 4, students will be given the opportunity to play an integral part in establishing Academic Policy by having two student voting members on the present confrontation Policy Committees and the unprecedented power of the new committee. The students' issues brought forth for faculty ap­proval.

The reluctant will take place in Donnelly Rm 246. All students are invited to attend.

The performances are scheduled for Friday and Saturday, April 13 and 14, at 8:30 p.m. and Sunday, April 15, at 3:30 p.m. in the Marist College Theatre.

Student Government Election Platforms

Presidential

James Elliott

In the past, the role of student government has been to represent the student body of the Marist College. However, this role has been underutilized and not fully realized. The purpose of this platform is to introduce a new and effective student government organization. New and effective student government will be achieved through the structured organization and娱乐圈. This would provide the student body with the opportunity to be more involved in the decision-making process and have a voice in the future of Marist College. This would also allow the student body to be more aware of the policies and practices of Marist College.

Richard Green

The primary thrust of my campaign is to bring about unity. This is achieved by promoting a sense of community among the student body and the faculty. This will be achieved through various methods: (a) more active participation of the student body in the decision-making process; (b) more involvement of the faculty in the decision-making process; (c) more communication between the student body and the faculty; (d) more interaction between the student body and the administration; (e) more interaction between the student body and the alumni; (f) more interaction between the student body and the students of other colleges.

Richard Green

Was Marist Ready?

This is an interview given to five of the Marist College students to determine their impression of Marist College.

Q. What did the name Marist mean to you when you first heard it?
A. Marist offered a challenge. It had a strong tradition of academic excellence and a high standard of living. It was also a place where you could meet new people and have a good time.

Q. In your opinion, was Marist College as you had expected it to be?
A. It was better than expected. It was a place where you could learn and grow, meet new people, and have a good time.

Q. What was the most important change you noticed during your time at Marist College?
A. The most important change I noticed was the growth of the students. When I first arrived, they were all shy and reserved, but as time went on, they became more involved and outgoing.

Q. What were the most important lessons you learned at Marist College?
A. The most important lessons I learned were to be independent, to think for myself, and to be open to new experiences.

Q. Do you think Marist College is ready to be taken as it is by people who are not students of it?
A. Yes, I think Marist College is ready to be taken as it is by people who are not students of it. It is a place where you can learn and grow, meet new people, and have a good time.

Natural Rheingold

We naturally know you better.

Natural Rheingold

Not a natural beer: a beer without any additives or chemicals. It tastes natural and real, and has the taste of a true natural Rheingold. It is a real Rheingold.
The "Original Fifty"

By Rosemarie Emery

I had the privilege, last semester, of participating in a consciousness raising group which was started by Dr. Peter O'Keefe.\n
Dr. O'Keefe's consciousness raising group was partly my idea and partly Dr. O'Keefe's. Dr. O'Keefe introduced the course to the faculty, and I applied in my junior year. I was one of the first three students to participate in the group. The group was quite an enlightening experience for me. I learned to understand my own role as a woman in society and to understand the role of men in society. The group was partly a social experience, and partly a personal experience. As a result of participating in the group, I have a new appreciation for the role of women in society.

We learned to understand the role of women in society and to understand the role of men in society. The group was partly a social experience, and partly a personal experience. As a result of participating in the group, I have a new appreciation for the role of women in society.

**Education At Marist**

**BY M. L. MICHIE**

Discussion with students and faculty on campus had led to the conclusion that before there are a number of people interested in the program, and if the program isn't aware of these interests, it cannot be brought to the attention of the college. We have heard from Dr. McGowan that the program, which can be called "new" or "revolutionary," is not widely known or understood. To make this program known or understood, a number of people interested in it must be present at the college. In order to do this, the program must be well publicized. By publicizing the program, and at least some of those who are interested in it, we can at least bring the program to the attention of the college.

**Letters To The Editors**

First, the program is not well enough known, and second, it is not well understood. If the program were better known, and if the program were better understood, the program might be more successful. The program is not well enough known to the general public, and the program is not well understood by the general public. If the program were better known, and if the program were better understood, the program might be more successful.

Heavies Bow To Syracuse

The season opener was a disappointment for three Marist crew teams last Saturday. The Varsity, J.V., and Freshman crews boated to Syracuse to take on some powerful crews. The net result was the loss of 41 Wagnered crew shirts, a respect for the Syracuse crews and more hard work for the crews.

The J.V. was close to a shaky start in the first 900 meters and were never really in the race. The Orange men brought a wide lead and finished at 5:14. Marist time was 7:43.

The seating of the boat was Mike Faisori, Dan Murphy, Fred Krampe, Tim Murphy, who set a new school record and boosting their record over the 500-meter mark in its history. It was the start of a new confidence for the players. Riding a two game winning streak is a new feeling for the team and they are looking optimistically towards the future. The game marked the end of a losing attitude with the team. They proved many things to themselves in coming from a 6-3 deficit to score 4 goals to the last 8:3 period.

The Marist attack was led by senior Jim Streibel getting the first hat trick in Marist Lacrosse history. The first half was an even battle as Vassar hit the first two goals. Marist however came right back with goals by Streibel and Bill Eggen. The half ended with Vassar leading 3-2. The second half started with Marist scoring for the last 6:3. Marist went into the 4th period down 7 goals. When Vassar took over. The Marist offense finally together and showed the promise Marist coaches have been waiting for all year. Backed up by excellent defense by goalie John Merlino, the offense exploded. Final score was 13-7, in the first 6:3 period. The J.V. crew had Walbridge, Cot, Tom Duffy, Bill Haur, Mike Aladsson, Randy Phillips, Mike Belter, Bob Creeden and John Carberry, Jim Diedtich and John Pastalkowski, bow.

The Freshman race was even better, with 4 goals. It was there was bigger and stronger Syracuse at 24 strokes per minute while Marist Freshman streaked at 30 strokes per minute. The final times were Syracuse 6:57, Marist 7-1:4. The Freshman consisted of Glenn Gallagher, Cook, Scott McDonald, Mike Bell, Nick Mancuso, Dan Daido, Dave Orlando, Paul Monier, Kevin Sonar and Jim McCabbe, bow.

Heavyweights put in long hours of preparation

Marist Crews Open 1973 Home Season

Saturday, when it entertains Wesleyan, Fordham, Iona and the U.S. Merchant Marine Academy. The 2000 meter races will start at 10:45 with the Lightweights. The varsity race is scheduled for 11:00 a.m., J.V., 11:30 and the freshman race is at 11:45.

The 2000 meter races will start at 11:00 a.m. Last year the Varsity lost to Wesleyan, Fordham, Iona and U.S. Merchant Marine Academy. The lightweight first four all four. Neither team has a win this year and both are fighting confidently towards Saturday.

By Marty McGowan

On a cold wet afternoon in New Paltz, the outdoor track team defeated Westminster and Brooklyn College in a double dual meet last Tuesday. The scores were Westminster 88 - Brooklyn 41, and Marist 79 - Westminster 74. The deficit of Westminster in the last years opening meet was a welcome reversal for the losing that the Red Foxes forgot the Brooklynites last spring. Football came on the heels of fifteen first places in the last 18 event card. Heroes of the blustery day include the 440 yard relay of Tom McCloud, Dan Faisori and Tim Murphy, who set a new school record with a swift 4:43.8 clocking in the one-lapper.

The seating of the boat was Mike Faisori, Dan Murphy, Fred Krampe, Dan Murphy, and Tim Murphy, who set a new school record with a swift 4:43.8 clocking in the one-lapper.

By Dave Phillips

On Friday afternoon, the lightweight varsity and the "what four" Lightweight crew finished on the Charles River, Mass., to take on the powerful M.I.T. crew team. Conditioning was definitely the difference as the Red Foxes were defeated in both races on the Charles River. Marist strategy was to row to its own race over the 2000 meter course. Wesleyan was defeated in both races. The varsity race was won by the Red Foxes. The Lightweight race was lost by the Marist lightweight crew. The Lightweight team has won the Lightweight race in the last fifteen minutes. Then, just as it would also the man broke through the mark for a short time, allowing Dom Muccio, Marist's best discus thrower to step into the fading man's shadow. Marcia was also near Whitney, un- corking a first place home of 113 feet 3 inches, adding to his other first place in the hammer throw, earlier in the afternoon. It was this toss that assured the slim victory.

Journals and Boosters can also be utilized. Money should be the only determinant of our

Financial Matters

1. I believe that the tide of change is approaching once again for the student body. For a number of years I have worked to help ensure that Student Government at Marist has been in a state of flux. But, now that we are starting a new era, I am hopeful on your decision.

Some students, some faculty, and some administration feel that we have lost our way and that this is the "old days." I disagree. I know we have the bill and power to lead us. The choice is yours and I am hopeful on your decision.
