Committee Formed To Aid Handicapped

by Mitchell Williams

A committee to aid handicapped students at Marist College has tentatively been formed. Dean Ed Walters informed the committee that a special services grant of $50,000 was received by Marist. An unknown percentage of this grant will be used to aid the students involved. Currently, negotiations are being made with the United States Office of Education in regards to this issue.

The aim of the committee is to assist these students in any way possible, and to enhance the social and academic atmosphere here at Marist for them. The positions to be filled are: intensive tutors, attendants, counselors, and an assistant director. These positions are necessary to achieve academic fulfillments and to attempt to restructure and regroup the present standards set for the handicapped here at Marist.

For example, blind, partially-sighted, deaf, and partially-handicapped students need intensive tutoring in many instances to complete their term projects and write assignments. Counselors will be available for students to assist in various aspects of their academic endeavors. Recreation or entertainment for example, could be dealt with by these means in a practical way.

Intensive tutors are also necessary to aid in the physical handling of such students. Many problems arise for them which become hardships over a period of time if continually neglected. Tutors, of course, will assist in the academic endeavors of these students in a broad sense. Their usefulness can be seen at an early light of the mobility problem faced by many.

An assistant director, however, will be part of the personnel whose purpose would be to assist in directing the various other positions which are necessary for advice, and also for positive change in the direction of the program.

In general, the committee will take an overview of the problems as they exist, deciding together upon the possible solutions to these problems. By discussing and analyzing these problems, the best possible action will be executed. This will allow both a social and an academic living experience for the students concerned.

These problems must be examined and closely analyzed. In order to bring about the best answers to them, as well as follow-up control over any such problems, it would be necessary to have a personnel committee to say, "What we want to do is to find out from the handicapped students themselves what their problems are, what their concerns are, and then we will deal with these problems and concerns operating within the terms of the grant. The committee will act towards its removal.

However, no further funds have been requested for this endeavor. Paul Mezzner, chairman of the Financial Board, said that the EDC would "pressure maintenance into the near future with the special services grant."

Of the pieces of art are also to be questioned as a matter of safety. Paul told the Circle, "I do not think that anyone would question a job of campus design."

Some of the projects could be purchased, but there seems to be "a lack of jobs as of yet for the students." The committee is "very optimistic that more followers are interested in this project."

This window and rock is representative of the rising vandalism on campus. (See Editorial P. 4.)

Groups Form To Beautify Campus

by Mary Beth Pfister

It appears that the fruits of the class of '77 are early bloom this fall with the birth of the Environmental Design Committee. The group takes its origins from a freshman orientation workshop on environmental problems, where it was noticed that the Marist environment did indeed have a problem. Paul Mezzner, who represented the Committee at an interview with the Circle, said that the main point discussed in the dialogue was the central mall in front of Champagnat, which appeared "very barren" and "...didn't do anything to help."

"The group consists of twenty-five to thirty students, mainly freshmen, who are very optimistic that more followers are to come, "...once the ball gets rolling." Up until now the Committee has received little or no publicity among the student body.

Their main objectives are for a "long-term organized land use plan" and promotion of "the environmental aesthetics of the Marist College community and its environs."

"They are working towards a channel of communication between student body and administration promoting mutual betterment of environmental design," Paul told the Circle. "This was suggested that this be done by the formation of an Environmental Design Committee."

"Although this task is still un­easy, the Commuter Union felt that, Excluding the deficit, 2,000 and two silver maple trees are to be purchased and installation of trees about the campus. The budget also includes expenses to be put towards a student poll of the present artwork. Tentatively, the sixteen hundred ballots to be distributed will have photographs of the various pieces of sculpture and students will be asked to check them from .2 to +2 or from extra-

Financial Board Continues Allocations

by Tom Page

The Financial Board of the Student Government met Tuesday, September 17, to begin its allocations of the $77,000 dollars used by the various clubs and organizations on campus.

Although this task is still un­easy, a rundown of the major proceedings thus far is to order.

The Commuter Union, a major group on campus, was scheduled to meet with the Financial Board at 10 o'clock that evening. However, due to previous delays, their turn did not come up until 10:40 and this was accompanied with an apology. Before getting into the matter of money, Joe Tiedemann, president of the Commuter Union, questioned the constitutionality of the Financial Board. He protested its validity concerning the appointed members, and this was to be sent to the Judicial Board. However, the next day a meeting was held at which both sides were present along with Dean Wade. The matter was reviewed and the Commuter Union was to bring forth its budget Tuesday, September 25.

In talking to both sides about this matter, it seems that both are willing to work together to solve the problem. Ed Kistling, chairman of the Financial Board, said, "It's because of this problem that the Commuter Union and the Student Government are now working together."

Another problem facing the Financial Board is that of the yearbook. The budget they are left with is 10,000 dollars, the most the budget committee would be necessary. He also said that the Financial Board has an open mind for the yearbook but that it cannot hinder the other problems.

In general, there have been tentative figures made on the allocations, but these would not be made available. However, as was stated by Kistling, "For the most part, no budgets will be presented for is around 10,000 dollars. This is meant to be more than last year's and some will be less."

The Financial Board's basic policy this year will concentrate on keeping close check on student checking accounts thereby giving them $590. Their initial and most costly project as outlined in the budget would be to purchase and installation of trees about the campus. The budget also includes expenses to be put towards a student poll of the present artwork. Tentatively, the sixteen hundred ballots to be distributed will have photographs of the various pieces of sculpture and students will be asked to check them from .2 to +2 or from extra-

Financial Aid Budget Cut

The financial aid programs sponsored by the New York State Education Department have been used predominantly for students who have been oppressed or disadvantaged or who have demonstrated a need for financial assistance during the application process. However, the programs have been reduced in recent years due to budget cuts. The Education Department has announced that it will be reducing the budget for financial aid programs by 10% in the upcoming fiscal year.

Marist Services Community

When And Where

Thursday, September 27: 12:15 p.m., C.U. B. Fine Arts Presentation, Seibert Hall, Marist College.
Friday, September 27: 11:00 a.m., School of Business, Seibert Hall, Marist College.
Saturday, September 27: 9:00 a.m., School of Nuclear Science, Seibert Hall, Marist College.
Sunday, September 27: 11:00 a.m., School of Education, Seibert Hall, Marist College.

Criminal Justice Series Begins

The series will consist of six lectures, each focused on a different aspect of the criminal justice system. The lectures will be held on different days of the week, and each will be followed by a discussion session. The series will be led by a variety of experts in the field, including police officers, lawyers, and judges.

Drug Problems Can Have a Solution

Shout It Softly

Dr. Leonard Sulmasy

Dr. Sulmasy is the director of the Center for Bioethics and Human Values at Marist College. He has been involved in the study of bioethics for many years and is a recognized expert in the field.

New Developments For Marist

The College has announced several new initiatives aimed at improving the student experience and increasing the number of students who enroll. These initiatives include a new scholarship program, a new campus center, and an expanded student support system.

The Circle

SEPTEMBER 27, 1973
by Dr. Ron Rapaport

Five years ago the problems of the student revolutionary movement raised the question of whether the great women workers of previous generations, and those of today, are faced with the same kind of struggle, and are they? Marist University of California - who is the campus of the National Student Association. TheObject of this Three Dimension Man becomes mesmerized. He is a union organizer, and was read by the Marist Student Union. His name was Little Red Smith.

Marist business practices - put business practices into the eyes of a worker - the revolution is the power of the worker. Revolutionaries are those who are responsible for understanding the conditions of the present situation, and who are identifying revolutionary strategies - to react to the present (what is) for the sake of the future (what might be). The need is present.

The Marist Women workers need to be more aware of that situation that they have to live and that the situation is not what it is. They are grossly underrepresented.

"Art contains the realization of the highest aspirations of professional and social groups, the Gross Rigidity of the past. In the portrait against which there is nothing," Monroe, that creates, that is, large enough and, the UN report.

The art is not only to be an authentic medium of artistic expression, but also to be able to influence the opinion of the society. It is not only to be an authentic medium of artistic expression, but also to be able to influence the opinion of the society.

A survey of over 100 major corporations in New York State reports that only 5 percent of the management positions are occupied by women. It is obvious that women held only 3.8 percent of the management positions, and 4.7 percent of the managerial salaries.

The letter stresses the need for the formation of more groups not only among students, but also among workers. "If the student revolutionary group is to prove anything to the world, it must prove that it is not a group of individuals, but a group of people, that is, a group of people that is able to influence the opinion of the society.

Artistic symbols which refute the rule of repressed society, history teaches, is the time used to protest against the time used to protest against the rule of repressed society. The majestic dimensions and awe of medieval life. The haphazardness of medieval life.

In its more advanced form, it is the Great Refusal - negation. In its more advanced form, it is the Great Refusal - negation. The Soviet regime. Protests were for the United Mine Workers and expressed solidarity with the workers who are working the 13 gears on the diesel engine.

Marist Abroad Program Jumps To $800 Yearly

by Maryanne McQuade and Gary Trouble

Registration fees for Marist Abroad Program are now $800. The college has increased the fee due to some financial changes made.

Karen Almen, director of the program, explained, "We have increased the fee due to some financial changes made.

Karen Almen, director of the program, explained, "We have increased the fee due to some financial changes made. We have been able to maintain the program as a program for students who are interested in Marist Abroad but would not have been able to afford it otherwise."

Currently, Brother Belanger said that the program has been running for the past year and the student feedback has been positive. He said that in the fall session, the Marist students were cushioned for $1,000.

The need for a part time professional secretary to handle large amounts of correspondence is not a major problem of the program. This primarily results in keeping in touch with the students who are currently enrolled in the program. The time used to protest against the rule of repressed society. The majestic dimensions and awe of medieval life. The haphazardness of medieval life.

In its more advanced form, it is the Great Refusal - negation. In its more advanced form, it is the Great Refusal - negation. The Soviet regime. Protests were for the United Mine Workers and expressed solidarity with the workers who are working the 13 gears on the diesel engine.

- A New Marist Abroad student, this view of New Delhi, new every time it was taken last year.
I was in love with a girl named Cathy.
I killed her.

Every year 8,000 American people between the ages of 15 and 25 are killed in alcohol-related crashes. That's more than combat. More than drugs. More than suicide. More than cancer.

The people on this page are not real. But what happened to them is very real.

The automobile crash is the number one cause of death of people your age. And the ironic thing is that the drunk drivers responsible for killing young people are most often your young people.

I haven't been that happy since.
Jaspers Stun Vikings
25-22 At Gaelic Park

by Jim Donnelly

The Manhattan College Jaspers stunned the No. 1-ranked Marist College Vikings by a score of 25-22 in one of the biggest upsets in club football history. The thriller was marked by a fourth quarter Manhattan touchdown which reversed a 22-7 deficit with 3:15 to play. Leading the Jaspers was running back Steve Holmes who gained 279 yards and scored three touchdowns.

The Vikings first offensive play from scrimmage foreshadowed a long day of stuffing. Manhattan's Steve Holmes, with 28 carries for 180 yards and three touchdowns, was longest an 85-yard pass to Tim Murphy. Linebacker Jim Joyce stopped the Manhattan drive with an interception. Running back Mike Cassidy over the middle for 15 yards to the 17. Then on a beautiful roll out pass, Murphy found a wideopen Mike Cassidy over the middle for a 44-yard touchdown scamper by Steve Holmes. The quarter ended with Manhattan leading 7-0.

Then the second quarter saw Marist lose the tightest and biggest gain of the game. After a Marist goal line stand held Manhattan on the two, the Viking offense exploded. Quarterback Ed Bennett hit tight-end Mike Cassidy over the middle for 15 yards to the 17. Then on a beautiful roll out pass, Murphy found a wideopen Mike Cassidy over the middle for a 44-yard touchdown scamper by Steve Holmes. The quarter ended with Manhattan leading 7-0.

The wild fourth quarter was started off by a 80-yard Marist touchdown. Williams, with 33 carries for 282 yards and a touchdown, was longest an 80-yard drive. The drive was stopped on the one by the Marist defensive line.

The Vikings jumped on their next opportunity to score with another 80-yard drive. The big play was a 30 yard run by Holmes, and a 26 yard pass to tight-end John Powel. Holmes scored his third touchdowns on a blast from the 1 yard line. Marist was back in the game trailing 22-19.

With less than four minutes to go, the Viking offense was stopped and Murphy was forced to go out with the field position. Holmes once again spearheaded the attack this time coming all the way to the 2 yard line with a critical screen pass reception to the tight-end Mike Cassidy. Behind Bars Smith, quarter QB QB Smith hit and Jim Joyce for the clincher. Quarterback Mike Cassidy over the middle for 15 yards to the 17. The kickoff the conversion, and Marist had converted 22-7 lead at the end of three quarters.

The wild fourth quarter was started off by a 80-yard Marist touchdown. Williams, with 33 carries for 282 yards and a touchdown, was longest an 80-yard drive. The drive was stopped on the one by the Marist defensive line.

The Vikings jumped on their next opportunity to score with another 80-yard drive. The big play was a 30 yard run by Holmes, and a 26 yard pass to tight-end John Powel. Holmes scored his third touchdowns on a blast from the 1 yard line. Marist was back in the game trailing 22-19.
