Development Expands Existing Facilities

By Gary Norman

The Marist College Development Program is a committee that will be used to help Marist College expand and upgrade existing facilities.

The program is formed of the college's Board of Trustees and President's Council and it is under the direction of Mr. Wayne Strasbaugh.

The purpose of the program is to raise funds for all of the expected developments on campus. Some of these developments are the relocation and expansion of the campus library, the new student center, and improvements to the physical education center. Remodeling of present buildings to create more space for classrooms, faculty offices, and academic departments is also included in the program. The goal is to create a more efficient campus that can better serve the needs of students.

The estimated cost of the expansion program is $5,178,000. Anyone interested in obtaining more information about the program can contact Mr. Strasbaugh or anyone interested may contact Mr. Strasbaugh in the Development Program Room located in Fontaine Hall.
Counseling Takes Active Part In Workshop Weekend

The Marist College Counseling Center is sponsoring a workshop weekend for counselors and guidance professionals on October 11-12. The workshop will be held at Marist College and is open to all students, faculty, and staff of the college.

Work Begun On "Lark"

By Debbie Mykle

The Marist College Theatre Guild has begun its preparation for the production of "Lark" by Jeanne Joseph, and will present it in the spring. The play takes place on the campus of a Boston preparatory school and explores the conflicts between generations. The production is under the direction of John Schapiro, and will be presented in the spring.

Smith Street Provides Community Contact

By Julie Schott

Alumni Weekend Planned

The Marist College Alumni Association has planned an alumni Homecoming Weekend to be held on October 11 and 12. The weekend will include a variety of activities such as a football game, a cocktail party, and a banquet.

Student Government Sponsors "State of College" Address

Dr. Stephen M. Panko has been appointed the first director of continuing education at Marist College. He will be responsible for developing and implementing programs that provide educational opportunities for students and professionals.

Science Grants Available

The National Research Council has announced the availability of Graduate Fellowships for the 12-month period beginning in March 1975. The fellowships are available to graduate students in the fields of mathematics, science, engineering, and the humanities.

Panko Appointed To Newly-Created Directorship

Dr. Panko has had numerous years of experience in higher education and is currently serving as the president of a large private university. He is a member of the Board of Directors of several national organizations and has published extensively on the topics of higher education and community service.

Calendar

October 10-11, 1974

Letters To The Editors

Free University

To the Editor,

I would like to thank you for your prompt reply to a letter in last week's paper. However, for a better understanding of your program, I would like to make a few clarifications on the article.

Student Government

In your article, "A Student's View," you state that the Student Government is dead. I must disagree. The Student Government is a living, breathing entity that serves the needs of the students. It is the responsibility of the Student Government to represent the students and to make their voices heard. I urge each advisor to talk to their students and to carefully consider each one's schedule.

Corrections

During the past week the CIRCLE has received many comments on the editorial "Free University," written in last week's paper. However, we would like to take this opportunity to state that the CIRCLE did not print this editorial. The Editorial Board has decided to withdraw the editorial and to apologize for any confusion it may have caused.

Misquotations & Misrepresentations

To the Editor,

I have been reading your newspaper for several years, and I am writing to correct some inaccuracies that I have noticed in the past. In particular, I would like to correct the following errors:

Common Core

I feel it important to clarify the nature of the article on my new position, which appeared in last week's CIRCLE. The section is question referred to the duties of the Common Council President and Student Senate President. The articles of the nature of the article read as the Common Council President and Student Senate President.

I feel it is my duty to clarify the nature of the article on my new position, which appeared in last week's CIRCLE. Code 99

By Ry. Gabriel

I recently learned about the situation at Marist. I was shocked to hear of the group of students initiating such an angry protest for the supposed unfairness of the "living" arrangements. I understand that Marist is a college where students are required to purchase a meal plan, but it seems that the situation was taken to an extreme. I hope that the administration will address this issue and find a solution that is fair to all students.

Commentary

By Greg Cnockel

For those students who are unaware, the Marist College Student Government has been an active and influential organization for many years. It is a place where students can express their opinions and bring attention to issues that matter to them. The Student Government has been the subject of much controversy, but it has also been a driving force for positive change on campus.

Announcement

By Dr. David Blake, Saint Mary's College

The purpose of this announcement is to inform students about the upcoming changes to the counseling services at Marist College. The changes are being made in response to feedback from students and staff, and they are intended to improve the quality and accessibility of counseling services.

The changes include:

1. Increasing the number of counselors available on campus.
2. Expanding the hours of operation for counseling services.
3. Adding more resources and support materials.
4. Enhancing the online counseling options.

These changes are part of an ongoing effort to ensure that students have access to the support and resources they need to succeed academically and personally. We encourage students to take advantage of these new services and to reach out to counselors if they have any concerns or questions.

Council Changes; Restructuring

By Tim DeJesus

The Inter-Phase Council is restructuring this year, a response to the changes made in recent years. This restructuring is aimed at improving the effectiveness and efficiency of the council, and making it more representative of the student body.

The council will be divided into five main committees:

1. Academics
2. Campus Life
3. Diversity and Inclusion
4. Student Representation
5. Sustainability

Each committee will have a chairperson and a vice-chairperson, and will be responsible for addressing specific areas of concern on campus.

The council will meet weekly to discuss issues and prioritize projects. The purpose of the council is to ensure that students have a voice in the decision-making process, and to work towards creating a more inclusive and vibrant campus community.

First Of Two Parts

By Carlyn Harrison

The fall semester at Marist College is filled with excitement and anticipation for the upcoming academic year. As a first-year student, I am eager to begin exploring the various options available to me.

One of the most exciting aspects of college is the opportunity to choose your own schedule. At Marist, students have the flexibility to design their own programs of study, with a wide range of courses and majors to choose from.

The college offers a variety of majors and minors, including Business, Communications, Liberal Arts, and more. Students can also pursue individualized programs that align with their interests and goals.

In addition to academic coursework, there are numerous opportunities for extracurricular activities. Students can join clubs and organizations, participate in sports, and engage in community service projects.

Marist College also offers a variety of honors programs and opportunities for research, which can be a great way to challenge yourself academically.

Overall, Marist College is a vibrant and dynamic place, offering a wealth of resources and support to help students achieve their goals. Whether you are a first-year student or a returning one, there is something for everyone at Marist.

Oral contraception is the most commonly used form of birth control pill, but it can be interrupted by missing doses. In the event that a missed pill is taken, effective contraception can be reinstated by starting a new pack of pills. The pill must be taken at least 12 hours after the missed dose to continue effective contraception.

The pill is also contraindicated for certain medical conditions, including blood clots, liver disease, and certain types of cancer. It is important for students to consult with a healthcare provider before starting the pill to ensure that it is safe for them to use.

In conclusion, oral contraception is a highly effective form of birth control, but it requires careful management to be most effective. By understanding the risks and benefits, and working with a healthcare provider, students can make informed decisions about their contraceptive options.

The Marist Running Red Foxes had an excellent week of running last week, breaking three opposites in their regular season.

First the Marist harriers beat one of the top teams in the state when they won a meet at state 20-31 on Saturday. Marist also shut out New Paltz 15-0 to set a record for most shutouts in a single season, this being the Ch'ampagnat parking lot.

The week started off with a bang when the Marist booter, Tim Trotta moves in on a shot in Saturday's victory.

Foxes Excel In Running Week

The Marist coach's response.
