Fire And Bomb Scare Disrupt Marist

By Daniel Dromm

A fire, two false alarms and a bomb scare plagued Marist last week.

The fire which started in the dryer in the laundry room of the gym last Tuesday caused over $1,000 worth of damage. False alarms were reported on the third and fourth floor Leo and a bomb threat was called in to the switchboard in Donnelly Hall last Monday.

According to Philip McCready, director of security, the fire was started when safety pins in a student's clothing fell off and caught in the dryer. The pins caused a short circuit.

The fire was noticed by someone in Greystone who called security. The Fairview Fire Department put the fire out within an hour. Two doors and eight windows were broken and the dryer was totally destroyed.

On Sunday night, a false alarm was pulled on the fourth floor Leo around 12:30 a.m. One student was fined $20.00 for refusing to leave the building.

Dr. Lanning received promotion

By Claudia Butler

A week ago last Saturday a false alarm was pulled on the third floor Leo. Two students were pulled on for refusing to leave the building. The student who pulled the alarm turned himself in and was dismissed from the college.

He was a Dutchess Community College student.

According to McCready, any student who pulls a false alarm is subject to the "severest punishments" from the school and may face legal action in the courts punishable by one year in jail.

"When a false alarm is pulled it goes directly to the fire department," Dr. Lanning said. However if it is discovered to be a false alarm the person who called and told not to come.

Sometimes that doesn't work and the firemen arrive anyway. "If a fireman is hurt on the way to a false alarm and the person who pulled the alarm is caught that person can be arrested for manslaughter," McCready added.

On Monday morning a bomb threat was called in to the switchboard by someone with a male voice. Two minutes later a person at Donnelly Hall pulled the alarm. Donnelly Hall and Poughkeepsie police responded.

No bomb was found and the area was allowed to re-enter.

Threat was made to dorms for the night on the Blood Bank. Of the 117 donors only four were members of the administration and faculty.

As for the experience of giving blood, a donor had this to say: "I felt that the nurses were really nice to you. It was not all that bad. I was a little nervous and I didn't feel anything... I was feeling much better."

The blood from the Blood Bank proceeds from Mariar to Manhattan where it is typed and tested for VD and hepatitis. It is then distributed to hospitals in need.

"You can save somebody's life," when you give blood, a Red Cross employee said.

Students Save Lives

By MARY BETH PFEIFFER

If somebody wasn't nice to you Monday, it was probably because you didn't give blood at the Red Cross Blood Bank in Firestone Lounge. Not enough people pulled it.

The projected turnout of 150 donated blood was just 33 short of anticipated figures.

At 3:30 a.m. a last minute rush filled the Blood Bank only 38 students had donated and a Red Cross volunteer questioned about the turnout said, "don't ask," another said, "it could be better.

Although a lesser amount turned out to donate blood, a female English major who sponsored the Blood Bank, felt it was a good count.

Security Asks for Budget Increase

A proposal that calls for increased security on the Marist campus has been submitted to Anthony Campilli, the college's business manager, by Philip McCready, director of security.

'Too premature to comment," said Campilli, in releasing refusal details of the proposal.

The CIRCLE in an editorial Feb. 5 criticized the security system. McCready, who said he has been asked by Mr. Campilli to not release the proposal, has been critical of the CIRCLE editorial. McCready maintains he does not have enough men to properly patrol campus. Instead the CIRCLE should have considered this before editorializing against the system.

McCready said that under the present arrangement, security police have no authority to patrol, the dormitories. Dormitory crimes are under the jurisdiction of the town police. McCready said this is the responsibility of Resident Coordinators and Ambassadors.

He has asked other colleges for information on their security system in an effort to improve security.
TV Show Is Course

By Daniel Dromm

The University Center Television (VTC) show "Colorburst," which is now being shown weekly on WNET-TV, channel 13, will soon become a required course and, for the first time, will be taught. The show is directed by Daniel Dromm, and the course will be taught by him.

The new course will be titled "TV Show Is Course." It will cover the production, writing, and editing of television shows. Students will learn how to develop storylines, write scripts, and edit footage. They will also learn about the history of television and the role it plays in society.

The course will be offered to students who are interested in pursuing a career in television production. It will be open to students from all majors, and no previous experience is required. The course will meet once a week, and students will be expected to complete assignments and participate in class discussions.

The course will be taught by Daniel Dromm, who has over 20 years of experience in television production. He has worked for major networks and has produced numerous shows. He is also the creator of "Colorburst," which has been shown on WNET-TV for the past two years.

The new course will be offered during the spring semester, and it will be available for all students. The course is expected to fill quickly, so interested students are encouraged to enroll as soon as possible.

Student Gov't News

By Candace Davis

The president of the Student Government, said the policy and finance board will be abolished and replaced by a new organization, the Student Senate. The new organization will consist of two representatives from each of the 22 student organizations, and the president and president-elect of the Student Senate.

The Student Senate will meet weekly to discuss issues affecting the student body. It will be responsible for the budget of the Student Senate and make decisions about the future of the Student Senate.

Benito Restructures

By Jim Kennedy

Benito is to become "an innovation center" according to the Assistant Dean of Benito, Dr. William O'Keefe.

Dr. O'Keefe has involved himself in "the total operation" of Benito. He has been working with the Benito committee to replace Dr. Stephen Panko. Dr. O'Keefe says that the restructuring of Benito will include an increase of $100,000 to total over $200,000 in grants received so far.

The program is funded by "the Mellon Foundation and the Educational Development Fund." Benito is used to open new educational vistas, according to Dr. William O'Keefe.

Other programs included in Dr. O'Keefe's restructuring are the Bridges program, which aims high school students to college, and the Outreach Centers program, which allows high schools to receive grants for their students.

Through the Office of Continuing Education and Lifelong Learning, Benito's work is inextricably linked to the university. The program is designed to reach students who may be interested in pursuing a degree at Marist College.

Belanger Publishes

By Regina Kargem

Dr. Joseph Belanger has just published his first book, "The Sublime in Renaissance Philosophy: The Concepts of Beauty and Creation." The book was published by the University of Notre Dame Press.

Dr. Belanger's book is the first comprehensive study of the concept of the sublime in Renaissance philosophy. He explores the idea of the sublime in the works of such philosophers as Descartes, Spinoza, and Leibniz.

Dr. Belanger's book is a valuable contribution to the field of Renaissance philosophy. It is a must-read for anyone interested in the history of philosophy, the concept of beauty, and the sublime.

TV Lacks Space

By David Roberts

It was once a dream to have a 17-foot ceiling in the AV-TV center, but now that the center has been updated, the space is no longer needed. The AV-TV center is now being used for other purposes, and the ceiling height has been reduced to 9 feet.

The AV-TV center was originally designed to be a space for lectures and presentations. However, as the university has grown, the space has become too small. The AV-TV center now serves as a space for overflow lectures and presentations.

In conclusion, the AV-TV center is no longer needed for its original purpose. The university has found other ways to use the space, and the ceiling height has been reduced to 9 feet.
Letters To The Editors

Stiffled by Smoke!

Editors:

To the Editor-at-large in the February 14 issue of Saga, "Stiffled by Smoke!":

The following is an article from the February 14 issue of Saga, "Stiffled by Smoke!":

It's not that students can't smoke in the Public Forum. It's just that there are many who aren't given the proper information of the effects of cigarette smoke.

The effects of cigarette smoke are not only dangerous to the smoker, but to others as well. The smoke contains many toxic substances that can cause injury to the lungs and other parts of the body. It is important for students to be aware of the dangers of smoking and to make informed decisions about their own health.

The staff of Saga is committed to providing accurate and relevant information about the effects of cigarette smoke. We encourage students to make informed decisions about their health and to be aware of the dangers of smoking.

We hope that our readers will consider the information provided in this article and make informed decisions about their own health.

Yours truly,

The Staff of Saga

Student Views Life Within Institution

By RHODA CRISPELL

I was born and raised in Fishkill, New York. My mother and father were both nurses and my mother worked at Dutchess County Hospital in Fishkill when I was growing up. She was a stabilizer for me growing up, especially in times of need. She made sure I had a place to go when I needed help and she always made sure I was taken care of.

She had a great influence on my life and I always felt safe and loved when I was with her. She was my rock and my hero and I will always love her.

I recently had the opportunity to visit my childhood home and it was bittersweet. It was like visiting a place from the past and it was hard to see how much time had passed. But it was also great to see how much my family has grown and how much we have accomplished.

It was a special moment for me and I hope to visit my childhood home again in the future.

Track Improvement Not Enough

By Ernestino Arroyo Jr.

Frank's is the best place in town for good Italian food. The staff is friendly and the prices are reasonable. The food is cooked to order and it's always delicious. The ambiance is cozy and inviting, making it a great place to relax and enjoy a meal. Overall, Frank's is highly recommended for anyone looking for great Italian cuisine.

Promo Bridge Program Offered

By Ernestino Arroyo, Jr.

Marist College and area schools are promoting a Bridge Program to help students transfer. This program is designed to assist students in completing a freshmen college degree. In addition to the Marist faculty, the program includes courses from the high schools. Students who participate in the program will be able to continue their education at the college.

The big news is that the program will be offered at both the Marist and area high schools. Students who participate will be able to transfer credits to Marist and receive a degree.

JUNIOR VARIETY SLOWED BUT NOT STOPPED

Dowling earned the distinction Saturday of being the first team in four games to hold Dowling J.V. to under 100 points. But the Red Foxes won anyway, 74-63, to run their winning streak to seven and overall record to 7-2 before Tuesday's game at Siena.

The coach also praised the play of Diesel, who led the winners with 17 while Herzenko added 14 apiece. "Doc" Goldman-, "This game was a real strong showing after a poor performance the week before and faced Dowling again on Saturday, Feb. 21 - Basketball: at Monmouth; Women's Basketball: at Orange Coast - 7:30 p.m.; J.V. Basketball: at Monmouth - 8 p.m. - Varsity only.
