Hike of 8% approved by workers

By Larry Striegel

Marist College service employees voted unanimously to accept a contract providing an eight percent raise and benefits at a meeting Tuesday in the campus center.

The contract, effective Sept. 1, 1977 until March 1, 1979, provides an eight percent wage hike for the first year, and a four percent raise for the next year and a half.

The pact was negotiated by college administrators and employees, along with representatives of the General Service Employees Union, Local 206 of the AFL-CIO.

The contract, including 17 cafeterias and 37 maintenance staff members, voted June 28 to unite. They are the first group in Marist history to adopt a union.

The contract also includes increased benefits, including additional "sick" and "personal" days off. It will provide a worker who has been at the college for one to five years with two weeks vacation time. Those here from five to 10 years will get three weeks, and four weeks for those with 10 or more years experience.

Other conditions include coverage by a union health and life insurance plan, and grievance procedures.

Chairman of John Hennessy, an employee representative, college administrators and the union met five times since the union was adopted in June. He said the groups met for 12 and a half hours on Oct. 19 and for six hours last Thursday to design conditions of the pact.

The administrators involved were Vice President Edward Waters, Assistant Dean Gerard Kelly, and Ann Hagerty, personnel director. Hennessy, Leroy Scott, Jerry Scully and Art Campbell represented the employees.

At Tuesday’s meeting, Hennessy was elected president of the group, while Campbell was picked as sargeant-at-arms, Scott was elected to the secretary-treasurer post, and Deicle was chosen as vice president.

Shop stewards were picked for three groups. Charlie Deicle will represent cafeteria employees, George Johnson will act for grounds and mechanical workers and Vernon Green will represent housekeeping staff members.

Panel chosen for forum

By Victor Small

Panel members for the discussion on the proposed time schedule have been chosen, according to Student Government President Jeff Blanchard.

The panel, of three students and three faculty, will meet Nov. 8 in the theatre at 2:15 p.m.

Student members of the panel are: Virginia Dix, a senior English major, Peter McFadden, junior political science major, and Cathy Cornish, a commuter student.

Faculty members will be: Dr. Daniel Kirk of the psychology department, Dr. Richard Plank, chairman of the English and communications arts department, and Dr. Hugh Turvey of the biology department.

The college refused to comment on the schedule until they talked with Blanchard about the panel.

Blanchard said questions regarding the schedule will be made available to students in the cafeteria and the commuter lounge.

John Dowey, the registrar, said there will be a questioning period before the discussion.

Academic Dean Louis Sculco was picked to head the discussion.

Panel members will be picked from the cafeteria employees, George Johnson will act for grounds and mechanical workers and Vernon Green will represent housekeeping staff members.

Fire hazards abound in campus buildings

By Joe Ford

Gregory, Benedict and the library don’t have a fire warning system linked to the Fairview fire department, according to Joseph Waters, director of campus security at Marist College.

This means if a fire would start in these three places, it could burn for hours unnoticed before the Fairview Fire Co. would be notified. This is thought to be the case in the fire in the chapel that occurred last Easter.

According to Waters, the B & W Alarm Co. has been brought in to do an inspection and to determine the price of tying in the alarm systems of these buildings to the Fairview fire department. Waters did not give any specific date for the hook-up, saying only, “We will get it done when we can do it.”

Many other hazards exist. There are accumulations of grease on stoves, cluttered boiler rooms and a broken fire door in the Benedict Chapel, according to a fire marshalls report recently presented to Waters.

Circle reporters finally discovered a fire extinguisher in the Donnelly Hall boiler room, located behind large cabinets, approximately two feet from the doorway leaving it difficult to reach in case of a fire.

It was also discovered there is a three foot drop at the rear exit from the basement of Leo Hall. According to a source, fire alarm systems in the dormitories are antiquated and do not work properly.

There is an accumulation of papers and other flammable materials in linen chutes in Leo and in heating vents in Benedict.

It was also discovered that exposed wiring is present in the main electrical switchboard in Donnelly Hall. There is a blackboard in front of the switchboard making it difficult to reach.

To insure fire safety on campus Waters has hired two fire marshalls and a third has volunteered his services.

Tom Hall, a retired New York City firefighter on pension, is assisting in fire safety inspections and is also working on emergency escape routes for the campus center, according to Waters.

Geoff Phillips, a senior, and supermoore Jim Kenney are student fire marshalls.

Schedule proposal would not affect library use

By Jimmy Perez

The proposed new schedule change should have no substantial impact on library usage, according to Dr. Vincent Toscano, director of the Marist College Library.

Toscano gave several other factors which would affect library usage, the attitude of the instructor in organizing courses so that students have to use the library, the quality of resources available, and the degree of integration of vital parts of the library.

Toscano said the library is used less on Wednesday mornings than any other morning because there are fewer classes and many students party on Tuesday nights and get up late on Wednesdays.

“If we supported those who critique the present schedule then we wouldn’t have to open the library on Wednesdays until noon,” said Toscano. He added classes meeting three times a week might increase the library usage on Wednesdays.

Rena Guay, audio-visuals clerk believes the new schedule will not significantly affect AV usage.

“Students have the time to come out to our facilities,” Guay said if the students don’t know about the materials the AV learning resources center has to offer, and therefore the students don’t know. She said if they did, it might mean a higher rate of usage.

Betty Weatherwax, secretary to Toscano also believed the new schedule will not increase library usage.

She said, “If students have a 45 minute break, they won’t want to come to study, it’s too short a time”. Weatherwax added she is in favor of the new schedule. “As you get out in life, you’re not going to get a break in the middle of the week.”

Open electrical switch box in Donnelly is a fire hazard.
Four rooms burglarized

By Mary Yankovich

There were five burglaries in Leon Hall and one in Brian Hall during the long weekend. The residences affected were 132 and 133 Leon, and 132 and 133 Brian.

Joe Waters, director of security, said the rooms burglarized were Leo 321,112 and 311, and 102 in Brian. Waters added some of the rooms have been restored.

Waters noted the burglarized rooms were Leo 321,112, and 311, and 102 in Brian. Waters said it is presently under investigation how Wright and Smith entered the rooms.

According to police, Waters said he was apprehended by Poughkeepsie police.

Poughkeepsie Town police said the burglarized room was in Sheahan Hall. According to police, Waters said it is presently under investigation how Wright and Smith entered the room.

According to police, Waters has been arrested and charged with the other two.

Waters said some of the stolen items have been recovered.

The amount the parent can afford.

If you can't eat it all, just say, "no thanks." He really got me going," Waters said. Waters added some of the drinks were wasted.

By Maria Troiano and Bob Weaver

Unlawful resident student was caught after returning to the residence in the middle of the night with others.

No Ivory Tower

It might offend some people, the sight of a young man, dressed in a black Catholic priest's coat, stepping out of a building labeled "Mcann Commons," the center of student life at Marist College in Poughkeepsie. But I don't care; I really do not care, not to press something to the point. This is a beautiful sight.

Approximately 70 wheelchair athletes from six states competed in swimming, track and field events at the McCann Center, the first invitational at the Marist College. What a sight it was to see the athletes, in the real sense, are athletes. They span the generations. These people are what this college community should be thanking for a job well done. The students, are responsible. Yet, the administrators of this college, who have not been in service for 36 months of 4 years: we have seen evidence of having understood that a community should be rehabilitation. Therefore, I'd like to see someone do something about this.

Several of our Government concerning the exuberances are just a ploy to the soul of Senator Charles Percy (his fear of rationing can only be considered one of fear, disappointment and loss of power). The money will come from the $1M debt on that function.

If that is true, where are the people in athletics and the area. It's the first of its kind in the Mid-Hudson Area. It was adopted in 1968 by Mr. and Mrs. Thomas Wade, development director of the United States, she could not be interviewed on that function.

Letters...From page 4

There are many examples of women who have been equal to men in all branches of knowledge and talent. Women have equal reasoning ability, and do not, without question, prove their worth in science, art, literature and politics. Women have been equal in all things except politics. The art of choosing a mate, is the art of choosing a good wife. The art of choosing a mate, is the art of choosing a good wife.

I feel that the wrong of this act and in itself is testament to the ingenuity of this young woman. It's the first of its kind in the Mid-Hudson Area. It was adopted in 1968 by Mr. and Mrs. Thomas Wade, development director of the United States, she could not be interviewed on that function.

The 17 year old says her name means "best little one" because she doesn't know.

First win vs. Redmen

By Ken Daily

A 54 yard touchdown run by Jeff Bickert in the third quarter and a 33 yard field goal by Steve Miller gave the Marist Vikings their first win in 14 years over the John Jay Indians. The Vikings improve to 5-3, 1-2 in conference and are in the thick of the Mid-Hudson OAC chase. The John Jays fall to 3-5, 0-3 in conference.

Motivation keeps Coufing running

By Larry Brindig

Joe Coufal, a 5' 11" running back with 463 yards rushing, has the ability to put a whole team on notice. Coufing is the heart of the Marist attack and his determination to win is inarguable.

Harriers finish 10-5

By Joe Mayer

In last two meets, the Marist Men's cross country team managed to defeat 9 of 10 teams in the MHC to claim their first regular season championship. The team's impressive showing comes on the heels of their second place finish at the MHC Championships.

The race was won by Marist Catholic's Paul Lynch with a time of 26:16. The team's time of 1:37:33 is a new meet record.

The team's win was due in large part to the efforts of juniors Eamonn Gorman and Mark Hickey who finished first and second respectively. Gorman's time of 26:37 is a new meet record as well.

Stark's personal exhibitions. Many of the racers are in the area because they are in the midst of their season and hoping for the opportunity to compete in the NCAA Championships.
Booters down Siena despite poor play

By Ralph Capone

Googie Rich Heffernan recorded a goal against the Siena Golden Eagles this past Saturday at the school's field for their fourth straight win following the 1-0 setback to Quinnipiac two weeks ago. However, the style of play that led to both victories is something that Heffernan said impressed coach Howard Goldman at all.

"They didn’t play any defense," Heffernan said the disappointed coach after the game. "They played terrible." It was probably their worst game, according to assistant coach Rich Lott.

The only consolation for Goldman, besides the 49-0 score, was the 15 goals of shots on net by the Red Foxes. Matt Lovecchio gave Marist a 1-0 lead with his first goal of the game just before the 2.7 mile-long course in 16:58.

In the collegiate eights competition, Marist was 10th of 19 boats. Clifford and Mason, winners of the pairs competition at the Head of the Connecticut Regatta and the Head of the Charles, lost in the fastest time of the day, finishing 19th out of 24 teams. However, they were penalized a minute because they were forced off of the course. Pairs Boat No. 2 won the race with a time of 18:31.

In the collegiate eights competition, Marist’s men’s heavyweight eight was fourth in 14:39. The members of the boat were: cox Mary Sue Vinall, Frank Hildenbrand, Mike Ball, Brian Welsh, Steve Deleskiewicz, Steve Welsh who was 62nd. Running Red Foxes’ top finisher, placing 12th. He ran the five mile course in a time of 28 minutes flat. The race was won by Rick Carstens of Wartwick College in a time of 25:14. The winning team was C.U.P. Three.

The next Marist halfback to the field was Matt McAndrew, Jeff DeCarlo, Ed Williams and Steve Deleskiewicz.

Next season was looking promising for the runners nationwide, is suffering from a mild case of monomaniac. He will be lost to the team when Marist competes Saturday at the N.Y.S. Intramural Track and Field Association Championships. The meet will be held at the Univ. of Rochester. At Albany Schoddy was the Marist’s first win. "They have played well all year," said line coach Steve McAndrew. "They are a lot smaller than expected."

The next Marist harrier placing 12th. He ran the five mile course in a time of 28 minutes flat. The race was won by Rick Carstens of Wartwick College in a time of 25:14. The winning team was C.U.P. Three.

"No comment," when asked about Petro’s remarks.

"They didn’t play any style," Petro said McKee reported to the Petro said he did not cut the team to 15

"We have’ better shooters and more like the Red Foxes should be putting together the best Offensive Line Also Honored

"He needed to keep Heffernan’s shot intact. "They took the game much too lightly," Goldman said. "They just weren't mentally prepared for the game."

Marist outshot Siena 24-6 while raising their record to 9-2-1. The three other victories in the Red Foxes four game streak were a 2-0 win over Western Connecticut. Vito Aprigliano and John King both scored goals in the game on two goals by Marist. The Red Foxes also had a 2-1 win over NYC Tech on November 22, and a 7-0 laugher over Nycack on November 19, the streak on November 19.

In the game, John Metzger talked about his part in the week he scored his goal on the night of a penalty shot against Rensselaer Polytech Saturday at 1:30 p.m.

Pair sixth at Schuykill

Tom Clifford and Be Mason placed sixth out of 15 crews Saturday at the Thomas Bakin Head of the Schuykill Regatta in Philadelphia. The Marist heavyweight eight was 11th out of 19 boats. Clifford and Mason, winners of the pairs competition at the Head of the Connecticut Regatta and the Head of the Charles, lost in the fastest time of the day, finishing 19th out of 24 teams. However, they were penalized a minute because they were forced off of the course. Pairs Boat No. 2 won the race with a time of 18:31.
