Women, commuters, seniors score highly

By Larry Striegel

If you were a woman, a commuter, and a senior last semester you probably got your grade point average under 2.5, according to the statistics recently compiled by the academic dean's office. Statistics for freshmen, sophomores, and juniors in the senior class are among the best at Marist according to Lambert, and that their scores pull down the total average for their gender.

Students in lower grades showed that females had higher average scores than males in every instance. The average index for Marist's 596 women was 2.26, while the men, numbering 596, earned an average of 2.31. The women's average index was the same as the average commuter gets a 2.31 while their resident counterparts earned a 2.46.

Grad date May 15

By Maureen Tally

"Graduation day will definitely be on Sunday May 15," said John Dwyer, registrar. Graduation was originally on Saturday, May 14.

The change was suggested so the ten or so senior members of the crew team can attend the graduation ceremony. The Dad Vail Regatta, the biggest race of the season, is scheduled for May 14. The change will accommodate the seniors and their parents who have been with Marist for four years, which was not beneficial to study habits in the past.

Another change will be the switching of crops and crops companies. The new company will allow the students to help the correct color denoting their degrees on their hood instead of the traditional white. For example, old to a graduate with a B.A. will have gold on their hood and a B.A. will have a gold.

Activities for senior week have been tentatively scheduled. They include, the Band Ball in the old gym, a cream bake, the possibility of ice skating at the Mid Hudson Civic Center, an alumni-senior basketball game, and the possibility of the senior women against the senior men in a basketball game, with the senior men handicapped with one hand tied behind their backs.

The graduation ceremony will be on in the gym at 2:00 p.m. instead of starting the procession 2:00 p.m.

Internships granted

By Michael Brennan

This semester many upperclassmen are participating in the Political Science and Communication Internship programs. The coordinators of these programs, Les Marinoff and Robert Horvath, believe internships are important activities in that they integrate materials learned in the classroom with actual work experience, as well as providing a possible job lead for the future.

At present there are 14 Political Science Interns. Their work takes place in the public defender's office, the New York State Attorney General's office, the Poughkeepsie Planning Board, the Dutchess County's Office and the Dutchess Probation Department. They are not "go-fors." Their jobs entail serious, complicated work.

"For example, those working the Probation Department deal directly with delinquents, interviewing and counselling them. Those assisting on the

Probates get nite curfew

By Regis Chalkin

A new procedure has been instituted by Fred Lambert, dean of students, and Gerald Cox, associate dean for student affairs which will have students living on both academic and disciplinary probation.

Thus far, 60 students have been involved in a series of financial reenlistment which began last semester.

In September the student government (DGU) was allotted $37,200 to carry on student activities, and of that $4,000 in the 15 percent across the board reenlistment fund, which brings you back to a 2.00 index. Mr. Campillii, the business manager, that he should remove the $9,750 reinstated funding, which brings you back to a 2.00 index. LANE TALKS ON MURDER RETRIAL

By Ken Healy

If Lee Harvey Oswald had been able to look into the future, he would have been frightened by the evidence collected by the Warren Commission, the report of the Warren Commission. But the Warren Commission, which was set up to investigate the assassination of President Kennedy, was limited in its scope and did not consider all the evidence. For example, the Warren Commission did not consider the evidence of the Dallas Police Department, which had been investigating the case for months before the assassination. This evidence was suppressed by the Warren Commission, and it is now widely believed that Lee Harvey Oswald was not the only person involved in the assassination.

The students left on their own initiative in the middle of the night. They had arranged to have the police called, but they did not want the police to arrest them. They were planning to make a statement to the press about their reasons for leaving.

The students were willing to put up with the problems of the week, but they were not going to stay on campus because of the heating problems.

The students were looking for a school that would provide them with the skills and opportunities they needed to succeed. They were tired of the "apathy" that they had experienced at Marist.

The Office of Special Services at the Center for Continuing Education, provides handicapped students with help to facilitate their four years at Marist. It is not a program of handicapped students, but a program for Marist students who happen to be handicapped. It is best not to focus on the fact that Marist was listed as a "career placement," not a group of handicapped students. The program is not for handicapped students, but for Marist students who happen to be handicapped.

The 200 x 85 foot National-Saloon in the Mid-Hudson area, says he hopes to have a disc jockey and other entertainment. The arena is open to the public for hockey, figure skating, and other events. The arena is open to the public for hockey, figure skating, and other events. The arena is open to the public for hockey, figure skating, and other events.

The students who left on their own initiative were not being asked to leave. They had not been asked to leave. They had decided to leave because of the problems they were experiencing. The students were upset by the way they were being treated. They were not being treated fairly.

God's creation

To the Editor: WHCC management would like to congratulate the students for their admirable casino night. The event was another indication of what the student body can do when they try. The students worked hard, and the results show it. "Casino Night," was a great achievement for us. As a management team, we are proud of the efforts made by everyone involved.

Suzanne Breen, Student Body President

Purdue's power

To the Editor: I would like to make a comment to the Marist College administration about the service quality of the food in the dining hall.

I have observed that the staff seems to have a bad attitude and are not friendly to the students. They seem to be in a hurry all the time and are not paying attention to the students' needs. I find this unacceptable and believe that the administration should take action to improve the situation.

MEMORIAL SERVICE
A Memorial Service will be offered to Student "Randy" Adams, who recently passed away in the Marist College Chapel.

Guided Design

An innovative approach to learning which emphasizes the active involvement of students in the learning process.

Advisors: Your Grade Needed

Any student interested in the active involvement of students in the learning process is invited to attend. The advisors will discuss the program with the students.

New Jersey Governor Byrne, Simon's only other home, has ordered D.C. to begin their loan to 20.50. The New Jersey state police will also be heading to 20.50.

The key to both success and failure seems to be whether or not you can handle the stress of your job. The key is not in the ability to do the job, but in the ability to avoid the stress. If you avoid the stress, you will be more successful.

how many mugs?

Check it out, its your last chance

By Elaine Beaton

This week, the Last Chance Jazz Band will be joined by a special guest, the Red Foxes of Marist College. The Last Chance Jazz Band will be performing at the Red Foxes' last home game, which is scheduled for this weekend. The band will be playing a variety of popular songs, and the audience is encouraged to bring their own mugs for the special event. The Last Chance Jazz Band will be located in the Last Chance Lounge at the Empire State Plaza, and the game will be held at the Red Foxes' home court. The Last Chance Jazz Band is a popular local band that has been playing for over 20 years. They are known for their high-energy performances and their ability to get the crowd dancing. So come out and support the Last Chance Jazz Band and the Red Foxes. It's your last chance to see them perform together!
By Cathy Ryan

Once referred to as "the cluster houses," Gregory and Benoit, built in 1967, were the living quarters for Marist student brothers studying to be priests.

About 150 student brothers lived in two of the houses, each to accommodate approximately 30 students.

The student brothers desired more private living quarters, so Marist made plans to build three dorms, each to accommodate approximately 30 students.

Brother Donnelly said after building lots of the houses, the project ended because of a lack of money.

Benoit and Gregory Houses were designed and built by Paul Canin, Marist College architect, and also designer of the new gym.

Canin received a plaque for the architectural design of the houses.

"The circular shaped houses, located off the north exit of campus near each 18th Street foot, each has a carport and a deck, where students can relax outdoors during nice weather. Inside, each house has a living room furnished with a couch, chairs and end tables, and a kitchen. The rooms form a circle around the stairway leading up to them, and are cut by door.

Brother Donnelly said the reason the houses were built in that area of campus was because the college felt the student brothers would want quiet. He said it would also be convenient for them to walk to their dining room, which was just across the road.

Benoit House is presently occupied by 28 Dutchess Community Students, under the supervision of Marist senior Brian Bennett, resident coordinator.

Approximately 32 Marist students from all classes reside in Gregory House, and those students must maintain a 2.0 cumulative average.

Despite the physical distance of Gregory to the other dorms, many Gregory residents feel very much involved in the Marist community.

"I consider myself a part of the Marist community," said Maureen Crowe, sophomore. "I have the chance to decide when you want to be in the middle of things..."

"We're separate because they want to be separate," said Joe Castelli, Sophomore. "They're separate because they want to be isolated. "They have their own little community. But if campus activities are properly publicized, we all can and should get involved."

"I don't think physical distance has anything to do with it," said Jim Honan, resident coordinator at Gregory. "Physically we're separated and the people have to make an effort to come and visit, but the people here are involved in every aspect of campus life. You really get close to the people here," he said, "and having a small group enables us to reflect on what we're doing."

"I think the physical separation has had an effect on a few students, who came here to get away from the dorms," said Jeff Blanchard, sophomore.

"And these students have turned into themselves. But I think Gregory has the potential to create a positive group, which can spread itself out to the rest of the Marist community."

A Leo Hall resident, Andrea Firpo said, "I think the physical distance is good in a positive way, because people need to be close to others, but everyone has different needs. You have the chance to decide when you want to be involved, that's the middle of things..."

"Debbie Bowers, Leo Hall, said "It seems to me that Gregory residents have an elitist attitude. They're separate because they want to be separate."

At Gregory House, the stress is placed on academic excellence and individuality.

"Gregory House is offering as much to the Marist community as the other dorms," said Joe Castelli, Sophomore.

Gregory House is offering as much to the Marist community as the other dorms.

"I don't think anyone else is getting involved in campus activities," said Tim DeBaun, 5th floor, Champagnat resident assistant. "I don't think anyone else is getting involved in campus activities either," DeBaun said for it's size, Gregory House is offering as much to the Marist community as the other dorms.
