Major repairs done; doors need sanding

By Lark Landon

All of last year's residence hall damage charged to students has been repaired except the sanding of doors, according to Andrew Pavello, physical plant director, and student assistant Terry Moore. The 30 doors in Champagnat need sanding at the cost of $27.50 per door, totallying $825 paid by resident students, will be sanded over the semester recess, said James and Pavello.

James said the doors had not been sanded during the fall semester because it would require taking doors off hinges which could leave rooms unprotected. Sanding could not be done in the hallways because the accumulation of dust and use of chemicals in the process could damage student possessions. Both Pavello and James said they are projecting the completion of all of last year's damage to be repaired during December.

Common damages that occurred during this semester will be assessed by a room inspect of residence directors in December, according to Gerry Kelly, assistant director of students. Kelly said the students will be asked to sign for "reckless use of campus damages" to their rooms, wings or houses, on the inspection sheet when they come into any area in violation of the damage charged to them. Sanding could not be done in the hallways because the accumulation of dust and use of chemicals in the process could damage student possessions. Both Pavello and James said they are projecting the completion of all of last year's damage to be repaired during December.

Disappointed

To the Editor:

I am very disappointed with the article that appeared in the December 16th edition of the Circle. The article was about the upcoming Christmas event and the discussion surrounding it. The article was very one-sided and only presented one side of the story. I felt that the article failed to capture the true spirit of Christmas and the community that it represents.

Sincerely,

[Name]

Conference draws crowd

By Valerie Proctor

More than 80 people attended Marist College’s fifth annual Psychology Undergraduate Research Conference, held January 13-15.

The conference, which is a joint venture of the Psychology Department and the Marist Psychology Department, is a way for students to present their research in a professional setting. The conference was organized by the Psychology Department and the Marist Psychology Department.

The conference featured a variety of presentations, including research on topics such as psychology, neuroscience, and cognitive science. The conference was a success, with many attendees expressing interest in attending future events.

Many students expressed their appreciation for the opportunity to present their research. One student said, “I was able to present my research on the effects of exercise on mental health. I was able to connect with other students who were also interested in the same topic, which was very rewarding.”

In conclusion, the conference was a great success, and it provided an opportunity for students to showcase their research in a professional setting. The conference was well-attended, and many students expressed their interest in attending future events.

Sincerely,

Austin switches from names to games

By Anne Neighbors

William Austin is switching from names in games. The former Marist Director of Alumni Affairs is now just a regular of all sports at Marist. He wrote the university a letter last month saying that he was moving on to a job in his home town of Austin, Texas. It's a small town, but one with a lot of potential for sports. Austin is the home of the University of Texas, which is a powerhouse in college sports.

Although he is now working for Marist, Austin still helps out with some of the athletic events. This year he is helping to organize the Marist College Nite at Studio 54, one of the hottest dance clubs in New York. The event is being held in December and will feature performances by the Marist cheerleading squad and the men's and women's basketball teams.

"It's exciting to get a new business started..." Austin said. "I'm looking forward to seeing how it all works out."

The bigger we get, the brighter we shine:

Austin has decided to leave his job at Marist to pursue a new opportunity in Texas. He said he is excited about the prospect of working with a new set of people and new challenges.

Hang around the house.

This Christmas vacation:

$260 roundtrip. Reserved seats. No standing in line.

Take advantage of National Airlines' "inter-National" fare from New York to Amsterdam this vacation. This isn't a stand-by fare. It's on a regularly scheduled National Airlines nonstop transatlantic flight. It's a guaranteed reserved roundtrip seat with lightest seat service. It's on a big, beautiful National wide-body DC-10 jet.

So why hang around the house when you can hang around the mellow "brown cafes"? Why fight crowds on the ski slopes? Why spend a fortune at the Continental Champion hotel? Why waste a weekend at the big, expensive New York hotels? Why pay for expensive meals when you could be eating at Studio 54, one of the most student-oriented clubs in Europe? It's one of the most student-oriented cities in Europe, where English is everybody's second language.

This "inter-National" fare is good on a substantial, but limited, number of seats on every National flight to Amsterdam. The bigger the flight, the better the deal. Last year the University of Idaho won the college nite tournament. This year you can be there too.

National Airlines

Marist students compete in Budweiser sports tournament

By Pat Larkin

Sixty-four Marist students playing in eight teams will be competing in the Budweiser College Nite Black Slam, Marist's 20th anniversary celebration this year and tomorrow in the McCallum Center. Approximately 500 students from across the country will compete in this intramural tournament. Each school has a tournament, with a total of 16 teams participating.

The winner from Marist will be competing in other "inter-National" events in Europe, or Amsterdam in the state championship.

The tournament will begin today and end Sunday. The top two teams from the nation will meet the other top team from across the country in Beach Gardens, Florida for the final. Budweiser is paying all expenses.

Imaginary finals tonight

The Budweiser College Nite Black Slam is an annual tournament sponsored by Budweiser. It is a national tournament for college students and is considered one of the top intramural sports.

In the intramural foul shooting championship, a Marist student will be vying for the title. The championship will be held in the McCallum Center and will feature a final match between two of the top teams.

College Nite Every Thursday at

$1.00 admission and 2 free drinks with College ID

Season's Greetings
Men win in Garden; record stands at 1-2

By Dave Powers

Despite some fine individual performances by Bill DeWinne and freshman Todd Hassler, the Marist College women's basketball team has a 1-2 record.

The team opened its 1978-79 season on a disappointing note losing an 84-62 overtime heartbreaker to Pratt Institute. Marist led throughout the contest and even built up a twelve point lead with less than eight minutes remaining in the game, only to have the game turned on the outside shooting of Hassler and John Boylan along with the inside shooting of DeWinne.

However, Marist seemed to lose its composure as Pratt went to work with guard Tim Cleve (18 pts.) and forward Dennis Lines (15 pts.) supplying the offensive surge. With 21 seconds remaining in regulation play, Cleve hit a twenty foot jumper sending the game into overtime.

In the overtime period, Marist's inability to get the ball in to DeWinne cost them the game. Also, poor foul shooting down the stretch (17-36 for the game) hurt the Red Foxes. DeWinne led the Marist scorers with 26 while Hassler scored 25 in his Marist debut.

Last Saturday, in its first trip to Madison Square Garden, Marist put together a strong 80-63 win over Montclair State.

Marist led 21-15 at the half, after scoring with 1:27 on the clock. The game was tied, 15-15, with 2:19 remaining in the first half when DeWinne dropped in a layup.

From that point, Marist was never behind as it built a six point halftime lead 38-32 and led by as many as 18 in the second half. Coach Ron Petro was very pleased with the victory and said "It's great to win at Madison Square Garden."

Once again DeWinne and Hassler led the scoring with 22 and 17 points respectively. Captain John Boylan added 12 before fouling out with 11 minutes left in the game. Sophomore Barry Jamison and Freshman Ian Davidson came off the bench and turned in solid performances. Jamison scored 13 points and Davidson directed the Marist offense while scoring six.

Against Hartwick College on Monday, Marist ran into a cold shooting night, shooting only 39 percent from the field, while losing 82-63. Once again DeWinne and Hassler shouldered most of the offensive load as they combined for 33 points. Hartwick was led by Lou Carpenter with 26 points.

Marist plays Southampton College Saturday at 6 p.m. The Red Foxes are 1-1 in Big Apple Conference play. Through the first three games DeWinne's 5-7 sophomore is averaging 21 points and 14 rebounds per game while freshman guard Todd Hassler is averaging 18.6 points per game.

Women lose home opener; rebound to crush Iona

By John Mayer

Kris McDonald and Anita Marano combined for 41 points to lead the Marist women's basketball team to a 85-56 victory over Iona Saturday night.

The victory gives the Red Foxes a 1-1 record in the young season, after Marist dropped their opener to C.W. Post 78-63 last Wednesday.

Iona jumped out to a quick 12-5 lead by capitalizing on numerous Iona turnovers and poor Red Fox shooting. Marist was 26-38 with 8:30 to go in the half, but McDonald scored eight points in just over two minutes to regain the lead. The Red Foxes went to the locker room ahead 40-28.

The Gaels started out a fast-paced, run-and-gun style of play through the second half led by the game's high scorer, Linda McCleary (16 points), but were never able to close the margin by more than 11 points.

"We were expected," said Marist head coach Linda Rogers. "We played as a unified team. It sure was a nice way to win my first college game."

Patty Petro stepped up to the challenge by scoring in double figures for the Red Foxes as they put in 13 points apiece.

Petro also led the Red Foxes in rebounding with seven while Barbaras Torres and Pam Greene had seven and five each.

In season opener, 44 turnovers and foul trouble seemed to do in Marist according to Rogers. "We had the same number of field goals, but they scored 20 points at the line, while we scored only 8 points.

The C.W. Post Pioneers were led by Patrice Walker (19 points, seven rebounds) and Darlene Crowe (17 points, 10 rebounds). Green led 16 points and pulled down 10 rebounds in the losing effort. Other double figure scorers for the Gaels were: Linda McCleary (16 points), Linda Rogers (13 points) and Darlene Crowe (17 points, 10 rebounds).

POST BOUGHS. Marist committed only 11 turnovers vs Iona; the Red Foxes shot 41 percent from the floor, and 51 percent from the line. Kris McDonald was led by 18 points, and 11 rebounds. Anita Marano was credited with seven steals and assists in the Iona contest; Marist was scheduled to take on Siena yesterday at the McCann Center. Their next two games will also be at home; on the 8th they take on Lehman at 2 p.m., and on the 12th they will face Ramapo College at 6 p.m.

Athlete of the Week

Bill DeWinne, a 6'7" sophomore has been named athlete of the week.

DeWinne, the starting center on the men's basketball team, has scored 33 points and grabbed 46 rebounds in Marist's first three games this season.

Head Coach Ron Petro attributes DeWinne's improvement over last season to his excellent attitude and his willingness to work hard. Petro said DeWinne has matured physically by lifting weights throughout the year. He also said DeWinne shot about 50 hook shots at each practice last season, to improve his scoring ability. A large percentage of the center's points this season have come from hook shots.

DeWinne, 19, says his goal for this season is to help the Red Foxes attain a winning season, and he has been in the three games.

He also added the team was really excited about playing in Madison Square Garden which enabled the Red Foxes to win a game in the season. He cited last year's poor start as the main reason for the team's poor showing.

The economics major from Wyckoff, New Jersey likes to collect stamps and play ping pong. He has been collecting stamps for eight years and he admits he's getting pretty good at ping pong.

HIGH ON SPORTS

by Ken Healy

Today's biggest sports event was the closing of the first varsity football season. Although the past season was not as successful as some had wished, hopefully the ground work has been laid for future teams to build on.

If the Red Foxes are to continue to develop as an N.C.A.A. Division III team, they will have to make up the difference, but now Van Buren and Malet want football to be treated like any other varsity sport, getting more money from the school to run the team with.

Malot feels that since football has brought many students to Marist over the past several years that the team should get a smaller percentage of the revenue it brings to the school. He points to the fact that as freshman said the reason they chose Marist over other comparative schools was because Marist has football on the varsity level. Assuming that these 25 football players are paying $4,000 each (this could total $12,000 per year between the two players pay to Marist in tuition and fees. Over four years assuming again that costs will rise, those 25 students will
