Lambert speaks on dorm lifestyles, grades

Fred Lambert, assistant dean of students, told resident students on Sunday night, Jan. 22, that 29 percent of them did not achieve a 3.0 in their last semester.

He went on to say, "It is our intention to return the residence halls as places of learning rather than having the immense amount of time students spend in them contradicting the primary focus of the institution."

Lambert appeared concerned about the lifestyle in the dorms. "It was time in the system to make a public stance on it," he said.

"People actually believe this was the way it was supposed to be," said Lambert, alluding to student attitudes toward low grades, damage and drinking habits.

Although Lambert said he was "not adding anything to the rules that aren't already there," in his address he said he will "constitutively and uniformly enforce the regulations in the dormitories."

Lambert also said he plans to meet with the SG president to discuss a "change in attitude" by the students.

According to the library director, the library has cut 65 working positions over the past year. Approximately $2,250. The facility has cutback on approximately $58,000 from 1977-78. Campilii said that as of December 31st, $145,500 was spent on heating oil. Because of the increase in fuel cost, last year's total was $378,000, up $58,000 from 1975-76. Campilii said that was one of the reasons Marist was in deficit last year.

"If we don't tune up the resident halls we fall short of total education," said Lambert. He noted the novelty of the new core curriculum and added, "If we get this together (in the dorms) we have a great place."

Lambert said he was looking for a "change in attitude" by the students.

"Lambert attributed part of the problem to student pride. He said, "This is a problem which should be addressed by the student government." He indicated it would be difficult to determine any changes in the dormitories. He said the current lifestyle "demands a whole subtle attitude change and I'm not sure we have a tool to measure that."
A foot more will bury us

By David Potter

HEOP deficit

Marist College’s Higher Education Opportunity Program (HEOP) will lose at least $15,935, according to Marist College’s student audit and could lose as much as $23,244, according to Marist CollegeSO, director. HEOP, a federal program designed to assist low-income students, is suffering from a lack of funds, according to Marist’s administration.

WMCR: new shows, FM

The Shadecover, Germania, and Merry Christmas are some of the new shows that will be airing on the Marist College Radio (WMCR) station this semester.

Library hours cutback

As a result of budget cuts, the library has reduced its hours of operation. The library will now be open Monday through Thursday from 9 a.m. to 9 p.m., and Friday from 9 a.m. to noon.

Nassau seats released

By Betty Trueman

Two-week delay when he called Schlage, the door company, this week. He said the delay was due to a two-week delay by the manufacturer.

The career office is working on a plan to help enrich Marist College’s first and only radio station, WMCR. The career office is working on a plan to help enrich Marist College’s first and only radio station, WMCR.

Cervine named chief

Tom Corry is the new chief of the Marist lacrosse team. Corry, a former player at Marist, will begin his duties in the spring of this year.

New library hours

Library hours will be reduced to Monday through Thursday from 9 a.m. to 9 p.m., and Friday from 9 a.m. to noon.

Keys delayed

An $8,000 lock system scheduled to be installed in the first dormitory will be delayed because of a lock manufacturer who is on strike. The lock system is scheduled for installation in the first dormitory.

Career Workshops

Booze

The Editor—

I find few days worth when I wonder about the world and what is going to happen. I do not ask the question in terms of whether the world is going to happen, but rather what is going to happen, and how it will happen.

In a recent issue of The Circle, an essay on the effects of alcoholism was published. The article discussed the negative impact of alcohol on our society, and the importance of recognizing and addressing this problem.

I believe that alcoholism is a serious problem that affects many people in different ways. It is important to be aware of the issues surrounding alcoholism and to take action to prevent its spread. The essay provided valuable insights into the issue, and I support its publication.

I hope that more articles like this one can be published in the future to raise awareness of the problem and encourage action. Thank you for your efforts in addressing this important issue.

Sincerely,
[Signature]

McCann hours

To the Editor—

As we head into the second half of the semester, I would like to bring to your attention the issue of McCann hours.

During the first half of the semester, many students faced challenges in finding adequate hours to complete their work. However, I believe that the situation has improved in the second half.

I recently spoke with several students who mentioned that they have been able to find more hours during this time. They also noted that the McCann Center has been more flexible in accommodating their schedules.

I would like to express my gratitude to the McCann Center for their efforts in addressing this issue. I believe that it is important for students to have access to the necessary resources in order to succeed.

Sincerely,
[Signature]
Malet Named To Succeed Levine

Malet, a graduate of Cortland, will take over on Nov. 15. He was appointed by President Levine, who has been named to succeed Levine when he is named to the school board. The appointment was made by the Marist basketball team.

Malet, who has been with the team for eight years, said he would be happy to continue with the team and that he would like to see it continue to improve.

"I'm looking forward to seeing the team improve," he said. "I believe that we are a very competitive team and that we can do well in the conference."
An Analysis:

The Losing Foxes

By Ralph Capone

Forward Lou Canady pumped in 17 first-half points, and Eastern Connecticut took advantage of 26 Red Fox fouls to outscore Marist 72-60 Saturday night.

Slippy play and numerous turnovers also plagued the Red Foxes, who suffered their 13th and 14th losses of the season.

The shooting of Bill DeWinnie and John Liu enabled Marist to keep the score close as the first half closed with Eastern Con­necticut up by nine, 41-32.

However, Marist couldn't get anything going offensively in the second half, and Eastern Con­necticut came away with a 31-point victory.

Petro may have done more damage had he not committed 14 fouls and 23 rebounds, while DeWinnie led the Red Foxes with 15 points, hitting on 6 of 12, and grabbed 21 rebounds. Liu added 12 and Glyn Berry 9 in the losing effort.

Marist outshot Eastern Con­necticut 56-54 in the contest, but could not match the 53 percent shooting percentage.

For DeWinnie, it was his second strong game in a row, and has been showing steady im­provement since coach Petro's move to the "no defense" five games ago, when Albuquerque blew out Marist 97-45.

Since then, the Red Foxes have been running what Petro forms the "circle offense," and the "motion offense," where the team has shown more guards in the front court, and less dribbling to set up the short jump shot and lay-ups.

The offense, says Petro, is much more restricted, and will have him using all the shots. Petro said that one main problem the Red Foxes have had all season is the absence of a leader on the court, and that coupled with only one returning member, Mike Sheldon, swayed Petro to the change.

"It's much too young a team to give (court) freedom, no during Marist has a tougher schedule this year. A schedule that is made up of eight months in one returning member, Mike Sheldon, said Petro. 'We aren't quick enough as a team, and we don't have enough defense,'” Petro said. He also said that the players couldn't handle the situation brought about by man to man coverage.

Despite Marist's present 2-13 record, the team worst start in their history, Petro says that he has the nucleus of a great team, but that the team needs a dependable scorer, and more physical strength under­neath the basket.

"Right now we need somebody to depend on for a good game, who can move without the ball as well as with it," Petro said. Maybe that is in the person of Glynn Berry, who alias his return from academic probation, has added spark to the Red Foxes over the last five games.

The top five games, the Red Foxes were plagued with turnovers, an unproductive of­fense, shooting under 45 percent, and a porous defense, letting in an average of 80 points a game. They were virtually out of every contest, losing by ten or more points six out of ten games.

And when they were in a tight game, such as the overtime in the Albany State game, I decided that from here on I'll call all the shots, and take all the blame," said Petro.

Petro also changed the defense from a man-to-man to a zone defense.

"We aren't quick enough as a team, and we don't have enough defense,'” Petro said. He also said that the players couldn't handle the situation brought about by man to man coverage.

The whole picture

The men's basketball team has a dismal record of 2-13 to date. We are not about to apologize for this, but rather to consider it.

Looking at the whole picture one cannot overlook the fact that the majority of the players are inexperienced freshmen (6) and while many of those players are better than others, they do not meet the standards of what a Division I team should be.

One cannot overlooked the fact that the players have a decent record of 2-13 to date. We are not about to apologize for this, but rather to consider it.
