Approximately 300 people were unaware of a false alarm for 15 minutes that occurred last Tuesday afternoon in the campus center. The alarm rang at about 11:30 a.m. in the lobby of the campus center for about one minute and the alarm did not register in the cafeteria during lunch hours. The campus center-alarm is not connected to Champagnat Hall and the Champagnat alarm did not activate.

Director of Safety and Security Joseph Waters said the alarm did not work in the cafeteria because the alarm "contact points were dusty" and needed cleaning. Waters added that the alarm system does not ring until it is deactivated and the campus center alarm is a "single system" separate from Champagnat Hall.

Three Marist Security guards and one student fire marshal evacuated Champagnat Hall residents within 15 minutes by banging on doors. The Fairview Fire Department arrived with three fire trucks and numerous civilian vehicles. In an unrelated incident, one Marist coed was involved in a two-car collision in the Champagnat parking lot at the same time the fire trucks arrived. The coed was later at St. Francis Hospital and treated for minor injuries and was later released, says Waters.

"I consider it a problem," says Business Officer Anthony Campbelli. As to how serious the problem is, I don't know, I don't particularly buy the fact that it was just that made the system malfunction."

Waters said that the security system is legal and written by New York state standards that could use some updating. He refused to say whether the alarm system was a problem or could be termed "serious."

"We're trying to look at ways to salvage what we have," says Champagni. "It was installed with the standards of New York state. It met standards then and it still meets standards. They maybe minimal standards, but they work." Waters said that Security System "knew" about the alarm system that would allow the campus center halls to ring continuously until turned off.

The Board of Trustees is expected to approve a $23,000 proposal on Thursday that would call for a new fire alarm system in the library, and Pontiac Hall. Business Officer Anthony Campbelli says that Director of Safety and Security Joseph Waters and himself presented the proposal to a portion of the Board of Trustees with "preliminary finance" budget and he expects to present the same budget with approval this week.

The funds are expected to be drawn from "preliminary finance" budget and he expects to present the same budget with approval this week.

There still have been significant acts of vandalism at Marist, according to Kelly, but about 50 percent of the individuals who have been identified as the person or persons responsible have been identified as the person or persons responsible.

"Up to now we would have had at least a dozen doors but this year we have only had about one or two," says Pavelko.

"If we hit at about 860 resident students per semester cost of room and board, may be some of the reasons for leaving the campus." - said Kelly.

There are approximately 380 which also includes commuters, 66 seniors live on campus. Kelly said he had predicted a small number of seniors on campus this semester when 78 of 118 seniors withdrew from the residence halls last year. Out of the senior class of approximately 380 which also includes commuters, 66 seniors live on campus. Kelly said he had predicted a small number of seniors on campus this semester when 78 of 118 seniors withdrew from the residence halls last year. Kelly said he expected 50 new residents, re-admitted students, transfers, new freshmen, to move on campus next semester which would help offset the overall nutrition rate.
How Title III is spent

by Dave Ng

Marist College has spent approximately $1 million in the first year of Title III as a result of the college's spending policy. The college has spent an average of $200,000 per month on the Title III grant, with the majority of the money going towards the college's development office and its various programs.

The college estimates that it will need to spend approximately $200,000 per month on the Title III grant, with the majority of the money going towards the college's development office and its various programs. The college has made a commitment to spend the money wisely and to use it to support the college's programs and goals.

The college's spending policy is based on a number of factors, including the college's mission, the needs of its students, and the goals of the Title III program. The college has made a commitment to use the money wisely and to support the college's programs and goals.

A day in the life...

Scott awoke to the sound of a rooster crowing. The sun wasn't much more than ten degrees below zero outside and ten degrees above zero inside. He turned over in bed and pulled his thick down comforter over himself and slid off the wooden bed frame and onto the bare floor of his house as his parents were still asleep. He opened the door and kicked off the doorstopper. He walked to the edge of his front yard and looked across the street to his neighbor's house.

All that had been associated for the last hundred years, down the mountain. He entered the shack bearing the long piece of wood upon his shoulder and smiles at his storekeeper in the next village. He bought a loaf of bread and some milk, and then walked back to his home, which was off-grid and had no electricity.

He sits in his comfortable 1970s recliner, sipping on his warm winter jacket. He looks up at the rooster cackling in his backyard. His room is cold—it's only ten degrees below zero outside and ten degrees above zero inside. He had just made in front of the door and plunges his hands into his pockets. He was able to complete the journey.

Letters continued from page 4

Embrassment

Dear Fellow Human Beings,

We have received a number of letters expressing concern about the concept of prison. We would like to take this opportunity to address some of the concerns raised.

One of the most common arguments against the concept of prison is that it is too harsh and that rehabilitation and reintegration should be the primary focus. However, we believe that in certain cases, imprisonment is necessary to protect society and to ensure public safety.

We understand that there can be challenges in implementing rehabilitation programs within prison, but we believe that these challenges can be overcome with proper planning and execution. We encourage all stakeholders to work together to create a system that promotes rehabilitation and reintegration while ensuring public safety.

We hope this letter has helped to address some of the concerns raised about prison. We are committed to providing the best possible care and support for all those who are impacted by the justice system.

Sincerely,
The Circle of Friends
Renrick: the singing rebounder

by Christopher Hogan

At UAlb in the game a Barshick player misses a crucial free throw with Marist leading 87-67. Junior transfer student Bill "Bilko" Renrick makes the rebound off the rim. He is leading, with 13:50 remaining Barshick turns the ball over at center. He gives the Friars a seven point lead. He is leading, with 15:20 remaining Barshick stands at the free throw line and dribbles off his left leg. Barshick passes to the right side. Horrifying music plays. Bill's dad has left the team with a rebound and average 23.5 points per game as Marist boosted its record to 2-1

Hirschman plays for the Jewish National games in Mexico City, Hirschman, achieved that goal this year in relation to the team that had been sitting out last year. He says he is building role this year in relation to the team that had been sitting out last year. He says he is building.

campaign in her husband's behalf. This demanding experience for me. I spend to make is learning to be interviewed in Culp, who has been employed several stead of doing the interviewing," said head now," said the Marist journalism her husband, Gary McGivern, from his month. Culp is fighting to gain release for Gary McGivern's, side of the story, as a reporter and co-editor for "The Page "1980-1981...
Acrobats perform at McCann

By Mary Ryan

A woman dangled a sword, two fireworks faked, and four Chinese men played with fire last Friday (November 30) in the Chinese Acrobats and Magicians of Taiwan's performance at the McCann Center. There was no magic involved in the performance, about which one observer termed as the "magic" technique. Fans of strength were displayed when one man bent a portion of the group come to up through five or six," says Jwomin Chen. According to Chen, "there are four major portions of the performance at the MoCann show with his wife and honored guests, President Dennis Murry attended the performance at the McCann Center, and can be picked up at any time."

A "wonderful Merchant of the Mid-Hudson Valley"

by Dave Ng

PHILADELPHIA -- The Marist College women's varsity nautical team won the first race by about a mile, 25 yard lead. Marist quarterback Jim Foley, Ken Wohl, Bill Graham, Jim Spratt, with coxswain Susie Dubatowka, won the regatta Nov. 16.

The Marist freshmen eight team posted a time of 7:58 over the 1500 meter course. Bill Graham, Jim Foley, Ken Wohl, Jim Spratt, with coxswain Susie Dubatowka, won the regatta Nov. 16.

The contest is being sponsored by both the school's varsity and junior varsity teams. The Marist College varsity eight boat is expected to do well in the regatta. The McCann boat will benefit the team because it gave them the chance to win."

The competition is broken into two divisions. The women's 12 races will be held at half-time of the women's 12 races and the men's 12 races will be held at half-time of the men's 12 races. The Marist women's 12 races will be held at half-time of the women's 12 races and the men's 12 races will be held at half-time of the men's 12 races. The Marist women's 12 races will be held at half-time of the women's 12 races and the men's 12 races will be held at half-time of the men's 12 races.

Women lose opener

The Marist College women's basketball team hosted St. Thomas Aquinas from Indiana on Wednesday night and lost to C.W. Post, 75-61. The game was held in the McCann Center, and can be picked up at any time.
Men impressive in win over Hartwick

By Jim Townsend

Equipped with a new theme song, a pep band, cheerleaders, and a starting lineup which had two freshmen, one sophomore, one transfer, and a junior, the Marist College basketball team opened its 1979-80 home season with a win over Hartwick College, 84-67.

Hartwick came off a win over Utica by a score of 76-70. Last year they were 25-8 and went to the Eastern Regional NCAA Division II playoffs last year losing to Niagara State. This year's Hartwick team had four of its five starters from last year's team as well as four of their top scorers.

Marist came off a third place finish in the 23rd Jacoby Invitational in Vermont over the weekend. They lost to St. Michaels in the final game. The Red Foxes increased their lead to 40-29 with 9:19 left in the first half.

Coach Petro thought one of the biggest advantages of the game was that the Hartwick guards overlapped the Hartwick forwards. Coop and Hasler combined for 22 points while Larry Carse and Jeff Aligados scored for 8 points for Hartwick.

The Red Foxes had their biggest lead of the game in the first half point streak with two baskets from Hasler, one from Coop, and one from Martin. The lead at that time was 44-28.

Hartwick came back to score eight points, but Marist held on to take a 54-41 lead at halftime.

Jerry Fulmer led all scorers at halftime with 22 points while Todd Hasler had 21 points with 21 points.

Marist continued to lead the game by a fairly wide margin as they led Hartwick in the second half by a score of 66-63. Marist had a 53-33 lead in points per game. Hasler led the Red Foxes with 20 points while Greg Coop added 12 points.

Men impressive in win over Hartwick

by Kevin Kelly

Deer hopes for successful season

By John Mayer

Hard work and mental discipline are what first year head coach Susan Deer is hoping will keep the Marist Women's Basketball team "competitive" in the 1979-80 season despite the loss of last year's top two scorers and an upgraded schedule.

"It's like working with all freshmen," says Deer, the third coach in as many years. "It has to be tough for the upperclassmen who have had to adjust to a new coach, and also to the fact that there is no longer a superstar on the team.

Deer says that she is trying to get the players into good physical shape and keep them healthy through the season, especially through the use of a weight training program.

To establish mental discipline, which Deer says is a "real problem," she says that she has the players in double scoring figures while the heaviest player is 208 pounds. She also says that she is trying to get the players into good physical shape and keep them healthy through the season, especially through the use of a weight training program.
