Sheahan Hall—Next freshman dorm

By Jim Townsend

Sheahan Hall will become an all-freshmen dormitory next year according to Director of Housing Gerty Kelly. Kelly says the decision to transform Sheahan Hall into an all-freshman dorm was made by herself, Dean Gerald Cox, and Father Richard Labonte.

The decision was made, says Kelly, because of the make-up of the incoming class. In 1979, the ratio of resident students to commuters was 4:1. In 1980, the ratio rose to an astounding 8:1, and, because of this increase, it became necessary to be made available for all the students. Kelly says he wants to get all the freshmen together next year and get “an integrated program conducted.” There are approximately 40 freshmen housed in the first floor Sheahan, 24 in the first floor Champagnat and 40 in various other locations.

Kelly plans to move the freshmen presently residing in Leo Hall to the first through sixth floors of Champagnat while the upperclassmen would be moved to the eighth and ninth floors of Champagnat.

Kelly adds that he hopes to improve the environment for the upperclassmen by improving their lounges, making more physical construction changes and possibly installing or creating a kitchenette and refreshment area.

The students wishing to move off campus yet still retain some of the benefits of a university setting can take advantage of the off-campus housing. Kelly adds that there is a “possible independence of the food plan” being worked out for those students who wish it. “The price tag between living off campus and living on campus will be the same,” says Kelly.

Besides the possibility of being independent of a meal plan, the people who move off campus will be provided with a shuttle bus service to and from the college.

The move to relocate the residents of Sheahan Hall has come under a lot of criticism from its residents. Sophomore Walter Miller says, “many people think it’s a ripoff for the upperclassmen.”

Weekend Happenings

By Karen Flaherty

The second largest regatta in New York State, the inauguration of President Murray and the “Junior Ring Ceremony” are all included in the list of Parents’ Weekend activities, April 25 to 27.

The 18th annual President’s Cup Regatta, involving over 500 rowers from 20 schools, is listed for Saturday at 8:30 a.m. at the boat basin. According to Betty Yeaglin, coordinator of college activities, the Parents’ Weekend is usually associated with the regatta.

“Most colleges have a parents’ weekend,” said Miss Yeaglin. “It is usually in the fall and done around a football game. At Marist, it is done around the regatta.”

The regatta itself will be held on the Hudson with the first race at 9 a.m. and the last race at 3 p.m. The regatta will be aired on Poughkeepsie radio station WKIP and the college public address system.

The “President’s Cup Diner,” open only to parents of Marist crew members, and a concert to be held at 8 p.m. in the Campus Center by Josh White Jr., a folk-blues performer, highlight Friday evening.

On Saturday at 1 p.m., spectators can watch Marist face Drew University of New Jersey in a tennis match on the Mariust courts.

The Junior Ring Ceremony, to be held on Saturday at 7:30 p.m. in the James J. McCann Recreation Center, is the traditional ceremony in which rings are presented to seniors, juniors and sophomores as the official symbol of their academic success. The Junior ring ceremony, scheduled for Saturday at 7:30 p.m., is for juniors and seniors.

Shrine dedication

by Jim Townsend

The shrine located in the “grotto” area between Leonidoff field and Champagnat Hall will be dedicated as a student memorial in a service on Friday from 3:00 to 3:25.

The service will include the dedication of a plaque to Ambrose “Benny” Verlin, Marc Toce, and Kathy Sullivan, three Marist students who have died in the past two years. The plaque, which will be presented by Jim Raimo, says:

“Jim Raimo says the idea of the shrine is not to be seen as a solemn place and occasion but one where students, “try and instill in others that there is something greater, something more.” The dedication of the shrine is to be held at 3:00 on Friday.

Inauguration Sunday

by David Metz

Dennis Murray will be inaugurated as the sixth president of Marist College at the James J. McCann Recreation Center, Sunday at 11 a.m.

As part of the inauguration, students, faculty, administrators, and trustees will take part in an academic procession leading into the gymnasium. The procession is expected to draw over 1,200 people.

Delegates from more than 15 internationally affiliated institutions, from forty states, including fourteen college presidents, are expected to attend.

The ceremony, being presided over by H. Clifton Wilson, Chairman of the Board of Trustees, “Marist College,” will be highlighted by the inaugural address and the donning of a presidential medallion to be presented to Dr. Murray by his father, Herbert Murray.

According to Linda Dickerson, Coordinator of Public Information, the student body is not sure how to react to the new president. "It is not something that has been expected."

Sheahan Hall—Next freshman dorm
Dear Friends,

I am writing in the hopes of some assistance. I am an editor on The Student Connection, the student newspaper at LeMoyne College. As a first-year student, I have been appointed as the editor-in-chief of the newspaper.

It is unfortunate when the administration fails to seek input from its students and attempts to move them about without their consent. This is a common problem on college campuses, and I would like to know how other students have dealt with it.

Best regards,

The Student Connection

---

Our proposal for turning Sheahan Hall into an administration building is not a new idea, but it is a great one. The success of Sheahan Hall depends on the interaction between residents and the administration. Our proposal aims to involve the administration in the decision-making process and to work together to improve Sheahan Hall.

Lawrence: Midwesterner turned Marist

By Lesly Kennedy

"Let's go outside," said Lawrence as she slipped her sweater over her shoulder and headed for the outdoors. "It's nice to be out here," she added.

Lawrence is a Midwesterner turned Marist. She came to Marist for the opportunity to attend a university that is well known for its academic programs and athletic teams.

As Lawrence walked through the campus, she couldn't help but notice the beautiful architecture and the well-manicured grounds. She was impressed with the campus and felt a sense of excitement at being a part of such a prestigious institution.

Lawrence is a smart and determined student who is dedicated to her studies. She is involved in several extracurricular activities and has a passion for photography as a hobby. Kevin is also the photography editor of the Circle Board's softball title two seasons ago. Lawrence has been photography editor of the Circle Board's softball for the past two seasons.

Lawrence's goal is to pursue a career in photography after graduation. She hopes to attend graduate school to further her education in this field.

Kevin Kelly

Kevin Kelly is a returning member of the Marist Soccer team. He also played on the Marist Soccer team as a freshman.

Kevin is a dedicated athlete who is committed to maintaining a high level of fitness and training. He is a valuable member of the team and has been a key contributor to the team's success.

Kevin is also a member of the Marist Junior Program. The program is designed to help young athletes develop their skills and prepare for college-level sports.

Kevin is interested in pursuing a career in sports management or coaching. He hopes to use his experiences at Marist to help him achieve his goals.

Kevin's favorite thing about Marist is the community and the support he receives from his teammates and coaches. He enjoys being a part of a team that is committed to excellence and success.

Kevin is looking forward to the upcoming season and is excited to see what the team can accomplish.

SUCCEED In A Job Interview

Learn Simple H.W.O.T. Steps to Instruct Interview and Use It to Your Advantage

New breakthroughs in human communication patterns are now available for practical use in interviews, job interviews, and everyday conversation. With these new skills, you can increase your chances of success in any situation.

In this book, you will learn how to ask the right questions, how to answer the questions you are asked, and how to respond to unexpected situations. You will also learn how to use your body language to communicate your confidence and competence.

By practicing these skills, you can increase your chances of success in any situation. You will be able to communicate your ideas and thoughts effectively, and you will be able to make a positive impression on the people you meet.

Bring a friend or two if you can.

We hope you will take these few minutes out of your life to join in this reflection/Dedication.

Congratulations Class of 1980
Money and Marist

By Ken French

One of the most important factors related to campus stability is the presence of alumni and parents who donate. "L.M. Kuehr, "has before a comprehensive plan for increasing the size of the student body," stated President Paul Welsh. "There has been an emphasis on increasing the number of students over the past couple of years." University officials have been working to increase the size of the student body in order to increase revenue and improve the overall financial situation of the college.

Enrollment among incoming freshmen is expected to increase. The number of applicants has increased by 10% over the past five years. "This is a positive trend," said President Paul Welsh. "We are seeing growth in the number of applications, which is a good sign for the future of the college." University officials are optimistic about the future of the college and believe that the growth in enrollment will continue.

Work—Study

By Ken French

Emphathic requirements are met at the college. "Many students do not want to work," said President Paul Welsh. "However, we believe that it is important for students to work in order to gain experience and develop important skills." University officials have encouraged students to participate in work-study programs in order to gain valuable experience and develop important skills.

The college is working to increase the number of work-study programs available to students. "We are committed to providing students with opportunities to work," said President Paul Welsh. "We believe that it is important for students to work in order to gain experience and develop important skills." University officials are confident that the college will be able to provide students with a wide range of work-study programs in the future.

M.C.C.T.A.-Unifying influence

By Rory Ferguson

"Marist College Children's Theatre is a wonderful opportunity for students," said President Paul Welsh. "It is an important part of the college's mission to provide students with opportunities to develop their skills and talents." University officials are proud of the college's Children's Theatre and believe that it is an important part of the college's mission.

The Children's Theatre is located in the college's Performing Arts Center. "It is a wonderful facility," said President Paul Welsh. "We are proud of the college's Children's Theatre and believe that it is an important part of the college's mission." University officials are confident that the college will be able to provide students with a wide range of opportunities in the future.

Crews sweep races to stand at 13-2

By Chris Egan

Meyn says they're ready for Pres. Cup

After having their meet cancelled two weeks ago the Marist men's team took advantage of a make up meet scheduled on Saturday and two races on Sunday. In their third annual Manhattan College Invitational Saturday the Marist junior varsity eight, junior varsity lightweight eight and the varsity lightweight eight participated against five other Metropolitan area schools and swept all three races. In the races on the Harlem River were Lafayette, Fordham, Iona, Maritime and Sacred Heart.

The junior varsity heavyweight eight boat were Bill Graham, Dom Calabro, Steve Torigo, Mike Chung, Dave Ryan, Joe Fox, Paul Pless and Frank Kozakiewicz, Joe Fox, Paul Pless and Kevin Wilson with cox Mary Manley. The Marist men's crew
ded "we're right back in the thick of things this year, so I feel good about this win." He added "they're a tough team, but we're confident and ready for the President's Cup.

Crews sweep races to stand at 13-2

President's Cup Regatta set for Saturday

Marist is hosting the 11th annual President's Cup Regatta Saturday, a invitational which feature 300 oarsmen from twelve schools. The meet is hosted in the regatta is on the University of Rhode Island, Holy Cross, Villanova, Iona, Lafayette, University of Lowell, Manhattan, Maritime, St. Joseph's, Stockton State, Fordham and Marist. They will all be competing for the Haight trophy, which is awarded to the team which leads the overall point standings at the conclusion of the competition.

According to crew coach Andy Meyn the team lifted its conference record to 2-1 and the heavyweight boat went to 2-1. The heavyweight boat covered the 2000 meter course in 6:34, more than 18 seconds faster than George Washington. On that day the varsity heavyweight and lightweight eight each received impressive victories over George Washington University on the Harlem River. With the wins the Lightweight eight boat were Bill Graham, Dom Calabro, Steve Torigo, Mike Chung, Dave Ryan, Joe Fox, Paul Pless and Frank Kozakiewicz, Joe Fox, Paul Pless and Kevin Wilson with cox Mary Manley. The meet is scheduled to start at 8:30 on Saturday and two races on Sunday.

Commuters describe residents

**Off-campus**

A change

By Phil LeGare

Perhaps you are a student existing last your third, fourth, or fifth year in college. You've been on campus, living in dormitories and needing a change of scenery. You do, drive around the local area of Paulus Hall, listening to the city, saunter through different parts of town. There are no restrictions. This is what you can call the off-campus life. Commuters, to some, are like a bunch of vandals who can come and go as they please. To others, they are an inconvenience, but for those of us living on campus, the off-campus experience is a way to enjoy the different view.

Off-campus students have more freedom, but there are certain rules that must be followed. For instance, personal cars are allowed on campus during certain hours. However, it is important to remember that the off-campus life is not without its drawbacks. The cost of living is usually higher, and there are more responsibilities. Commuters must manage their schedules and meet deadlines, all while maintaining a balance between school and personal life.

Off-campus living can be a challenge, but with the right mindset, it can be a rewarding experience. Commuters who choose to live off-campus are often more independent and self-sufficient. They are forced to take control of their lives and make important decisions on their own. This is an opportunity to develop skills that will be valuable in the future.

**Residents' view of commuters**

Contrary to popular belief, commuters are not all alike. Some students may find it uncomfortable living next to a commuter, while others may not feel any difference. It is important to remember that each resident has their own way of life, and it is the responsibility of the residents to be respectful towards their neighbors.

**Reflections of a graduating senior**

By Michael McCarty

What was it like to be a RA at Marist College? This is a question that many students may ask themselves. For me, it was a combination of both challenges and rewards. As a resident assistant, I was responsible for ensuring the safety and well-being of my residents. I worked closely with the administration to create a positive environment for everyone on campus.

As a RA, I had the opportunity to work with different residents and help them navigate their college experience. I also had the chance to contribute to the overall community and make a difference. It was a great honor to be a RA, and I would definitely recommend it to others.

When people ask me what it's like to be a RA, I usually tell them that it's not easy, but it's worth it. It's not just about the money, but the experience you gain. It's a way to make a difference, to help others, and to grow as a person.

**Two views on a RA's Function**

By David Merz

Perhaps it is different by any other name, but the RA's role is the same at Marist College as it is at any other college. It is to help the students who are in transition from college life to the more independent life of college living. The RA's job is to provide support, guidance, and advice to the students in their dormitory.

During the school year, the RA's responsibilities may include organizing events, helping with move-in and move-out, and providing a safe and welcoming environment for the students. The RA may also be involved in counseling and advising, as well as helping students with academic and personal issues.

The RA's job is never easy, but it is rewarding. It is a way to make a difference in the lives of others, and it can be a great experience. If you are interested in becoming a RA, I would highly recommend it. It is a challenging but fulfilling role.
Masric: A historical perspective

by Kevin Flaherty

"One of a long list of unfamiliar names, I heard my assignment, authored by Sister Sally," said Brother Kevin Thomas in his introductions at the beginning of the semester.

"Sister Sally" was the name of a new project where Marist Brothers were checking acres of forest for a key leaf. This project was initiated in St. Mary's computer center by the Marist College Campus.

According to an interview with the College, Brother Zoepfen, an instructor on the 6th floor, said, "I heard the name of Marist College, according to Brother

Zoepfen, offered his leads for gathering the leaves. The leaves were gotten at a small call of making them that the temple was not in a short broken time.

Now, a large portion of the Marist College was a desolate spot in humanity that there ever was. But when World War II reached our shores, the Brothers had quite a farm here, says Brother Zephriny, vice president of the order's headquarters in France.

Three years later, the adjacent Beck Estate was purchased by the Marist Brothers.

Zephriny and his sister purchased the 44-acre plot of "St. Ann's Hermitage." When I first came here I didn't know I would be staying here, says Brother Nilus Donnelly, as he leans back and starts to reminisce. "On Saturday mornings, all the students spent time finding stones and having them crushed at the stonecrusher, there were no nails, it was all fitted stones were used to make the campus halls and dormitories. Then Brother Donnelly constructed the building which is named in memory of Brother Donnelly, after whom the structure was named.

"There was a brook running through the woods on a drizzle day, he was built with a water wheel. The brook was dug down through the hill to an area where the water would not freeze from the winter water, the water was drawn by a pump for the use of the factory. This building is dedicated to the memory of the Marist community. Brother Donnelly constructed the building with a water wheel and, when summer came, they couldn't do anything. So many things come back," says Brother Donnelly.

"There were wonderful things. The apple farmers raised almost all the apples for the students. Brother Donnelly, as he leans back and starts to reminisce. "On Saturday mornings, all the students spent time finding stones and having them crushed at the stonecrusher, there were no nails, it was all fitted stones were used to make the campus halls and dormitories. History cont.

Gregory House
Gregory House and Benoit House were both abandoned in 1968 and are slated to be demolished in 1980. Gregory House was named in memory of Bishop Gregory Menachem, who was chairman of the Physical Education Department from 1900 to the day of the fire in 1911 and 1919 at age of 39.

Gymnasium/Auditorium
The oldest structure on campus, Gymnasium, dates back to 1900 and was added to a carriage house. Originally a gymnasium and carriage house, the carriage house has since been covered in blackboard, and the original gymnasium has been converted into classrooms, laboratories, offices, and the media room for radio and television broadcasts. The building now contains lecture rooms, an indoor bowling alley, weight room, and a media room. The gymnasium has been turned over to the Beck Estate, St. Peter's serving until 1964, when it was returned to its original use as gymnasium.

Sheahan Hall
Sheahan Hall was constructed in 1946-47 at a cost of $1,000,000. The building is named in memory of Rev. Sheahan, a Marist Brother, who was the first president of St. Peter's College from 1930 to 1939. The building contains lecture halls, laboratories, and office rooms for academic departments.

Mccann Recreation Center
The James J. McCann Recreation Center was constructed in 1928 to accommodate the needs of the Marist Student Body. The center was designed to provide a communications and fine arts center for the students. The center has undergone several additions and renovations since its construction.

The James J. McCann Recreation Center was the first building to be constructed by the Maris Brothers, 1921-1930. The building was designed to accommodate the needs of the Marist Student Body, and it was intended to serve as a communications and fine arts center. The center has undergone several additions and renovations since its construction.

NBC: An intern(al) view

By Michael McCarthy

During summer vacation, Marist students usually engage in some type of job to help pay their expenses. But that is no ordinary summer job. All of the students have been working at NBC, a multimillion-dollar television station.

Living in New York City has been the highlight of Al Alfieri's summer. He has learned how to clean up his game, his backhand. "The owner is a friend of mine, and it's good that they pay me," says Alfieri. He has also been assisting Chuck Larsen, Program Director for WNBC-TV, Chris. During summer vacation, Marist students usually work in a variety of jobs in order to help pay their expenses. Alfieri has been working at NBC for the past six weeks.

So much for my meeting Fred Silverman. I think Marist has a good future." Piatt stated that Marist has been "moving ahead in the right direction. I have been very pleased with my department." Piatt also felt that the communication arts department has been successfully upgrading. Piatt further commented that his optimism is due to the many new programs and courses that have been added, and facilities have been upgraded. Piatt also feels that the communication arts department has been successful in preparing students for the job market. Piatt has taught at Marist for over 20 years.

By Timothy Breuer

John Black, who will be the acting chairman of the Communications Department at Marist College, has been at Marist for ten years. Black has been teaching at Marist in the area of communication since 1980. Black has also been involved in the planning and implementation of the new communications program.

Languages

Carmine Norkeliunas is deeply devoted to modern languages. He explains just how important modern languages are to modern society. Norkeliunas feels that modern languages are essential because many of them have other languages in common. "If you learn a foreign language, you are learning a new culture," he says. "You are learning about the people who speak that language." Norkeliunas feels that modern languages can greatly help an individual in the job market. Norkeliunas went on to say that a language can be used as a tool in business, and it can be a valuable asset to students.

Dr. Richard Platt

Dr. Richard Platt, who will be the acting chairman of the Mathematics Department at Marist College, has been teaching at Marist for 20 years. Platt has been teaching at Marist in the area of applied mathematics. Platt has also been involved in the planning and implementation of the new communications program.

Kelly has been teaching at Marist in the area of business administration. Kelly has also been involved in the planning and implementation of the new communications program.

Dr. D. E. Piatt

Dr. D. E. Piatt, who will be the acting chairman of the English Department at Marist College, has been teaching at Marist for 20 years. Piatt has been teaching at Marist in the area of composition. Piatt has also been involved in the planning and implementation of the new communications program.

By David Shaw

Ever since I started working at NBC, I always wanted to meet Fred Silverman. I grew up in the heart of New York City, and I have always been fascinated by the television industry. I have always wanted to meet Fred Silverman, the head of NBC, and I was determined to get his attention. I called him up one day and asked to speak to him. Silverman was quite impressed by my enthusiasm and agreed to meet with me.
