New engineering degree proposed at Marist

by Ellen Hayes

Marist is currently working with two other colleges on a proposal that would bring an engineering degree program to campus.

The program, if approved by the New York Board of Regents, will offer degrees in electrical engineering under a cooperative agreement involving Marist, Polytechnic Institute of New York of Brooklyn and Rensselaer Polytechnic Institute of Troy, N.Y.

President Keith Galanti said the CSL is putting together a committee to create a relatively bias-free evaluation form. "This (form) would be a more objective basis for students to find out which professors are more preferable," he said.

James Barnes, president of the college union board, said the CSL's evaluation forms would be filled out by students in classes with the instructor's permission. He said it is hoped that all teachers will use the CSL's evaluations over time.

The CSL originally considered trying to obtain Marist's instructor evaluations, according to Galanti, but the administration's cooperation seemed doubtful.

Vincent L. Toscano, dean of academic programs and services, said that if the CSL officially asked for access to evaluations, it would make a "no touch" reservation at Academic Vice President Andrew A. Moley, who would ultimately make the decision. "It would be inappropriate to reveal such sensitive information," said Toscano. "Both custom and law are behind that." Toscano further said that if the people who provide feedback in evaluations knew their comments would be made public, their input could be "poisoned.

The survey stated that students and faculty do not take part in the evaluation of administrators. Toscano said this was in error, because students and faculty do have input in this area.

Staff supervisor said Toscano, are responsible for conducting evaluations in an "effort to let the (Marist) community give feedback on college operations — the library. He said that every five years there is a "step scale" evaluation, which also involves student and faculty input.

In response, Galanti said this would most likely occur, but there is much that goes unheard. "A lot of students have complaints but won't complain to the division chairman because grades are at stake," he said. "An anonymous survey will serve this purpose."

According to Galanti, the CSL's evaluation forms would be made public, their input could be "poisoned."

"The idea of transforming instructor evaluations into a magazine for student advisement on course selection is not a new one," said Galanti.

Instructor evaluations are published and made available to students at State University of New York at Buffalo and Bingman, according to Charles Angeletti, dean at the student association of the state university in Albany, New York.

Galemmo said the publications are organized by the student evaluation officers. Professors and teaching assistants are able to "review" the publications, titled Scate (Student Course and Teacher Evaluation), rate courses and professors with additional information on prerequisites.

"It is a positive development, and would likely have input in this area."

According to Maher, the CSL's evaluations would be used by the CSL, 500 students were polled with 96 percent supporting the CSL, 500 students were polled with 96 percent supporting the CSL.
Bridges hang signs; suicide attempts drop

by Leslie Hallock

You've never seen quite this same the Mid-Hudson Bridge.

"With the exception of three years during the peak of the drug epidemic, the suicide rate on the Bridge is very low," said Kevin Maloney, director of the Bridge Authority. "It's a very quiet bridge in most respects."

Though the bridge is quiet, the suicide rate has dropped dramatically. According to Maloney, the number of suicide attempts dropped by 60% from 1981 to 1983.

Dear Seniors:

For Dad:

Honeycomb cereal.

What more could any father want than to receive a souvenir from his son or daughter? And here’s my recommendation for a truly thoughtful gift: a six-pack of Christmas tree ornaments. Our personal favorite is the package put together by Broadway’s hottest designer, the show’s costume decorator. It comes complete with six different styles, including a Santa, snowman, reindeer, and classical figure, and all for the price of $2! Or perhaps you would prefer a more traditional gift? Then consider a subscription to The Pretenders for their new LP. It’s expected to open for Pretenders on tour this year, and it’s certain to be a hit among music lovers everywhere. And who doesn’t love a good deal? This LP is available for only $2.

Dear Editors:

If a student has reason to believe, however, that whether it is, as stated, a distressing experience or not, little is being done to prevent it, let him or her speak up! The administration, sanction such an incident known immediately to the proper authorities, there should be no report in the CIRCLE. The only persons who will enjoy working with up to 1500 children from the New England area. No experience is necessary, and all Marist students are welcome.

The Registrar’s Office

Dear Editors:

As the director of the 1983-84 Children’s Theatre Program, I feel it my duty to announce the audition for the play, The Frog Prince. Auditions will be held Sunday, December 11 from 6 to 11 p.m. in the Student Center.

We are looking for actors, actresses, and directors who will enjoy working with up to 1500 children from the New England area. No experience is necessary, and all Marist students are welcome.

The play will be produced the second week of January. The Frog Prince will begin next season. If you have any questions, please call the hotline at (914) 555-1234.

The play is open to all students and will be directed by John O’Brien, assistant professor of theatre.

Stanley C. Swedlin, Department Head of Children’s Theatre

The race is on

Shop right

It’s that time of the year! Pleasant thoughts of the holidays are drowned out by the sounds of bells and deadlines and upcoming finals. But I have an idea that might lift your spirits—why not treat yourself or your son or daughter to their favorite watering hole? Here are a few suggestions:

1. For Dad:
   - A gift certificate for a round of golf at the local country club. For the golfer on the go, a gift certificate for a round of golf at the local country club.
   - A six-pack of Christmas tree ornaments. Personalized with a message from you, this gift will be cherished for years to come.

2. For Mom:
   - A spa day. Treat yourself to a day of relaxation and pampering without the hassle of cooking dinner.

3. For Your Little Brother:
   - A toy football. Perfect for a young football fan.
   - A gift certificate for a round of mini-golf. A gift certificate for a round of mini-golf.

4. For Your Little Sister:
   - A gift certificate for a round of mini-golf. A gift certificate for a round of mini-golf.

5. For the brown bag:
   - A gift certificate for a round of mini-golf. A gift certificate for a round of mini-golf.
   - A six-pack of Christmas tree ornaments. Personalized with a message from you, this gift will be cherished for years to come.

To the Editor:

Dear Editor:

“Degrading” III

I am an editorial writer for The Forum. I would like to address the issue of “Degrading” in the December 9 edition of The Forum.

I believe that the article was written with good intentions, but it failed to take into account the feelings of those who are affected by the comments.

The article focuses on the use of derogatory language in advertising and media. While I agree that this is a serious issue, I believe that the article fails to acknowledge the importance of education and awareness.

I suggest that the article be revised to include information on how to combat this issue and what steps individuals and organizations can take to promote a more inclusive and respectful society.

Sincerely,

[Signature]

The Forum
END OF THE SEMESTER CLOSING PROCEDURES

The college residence halls will be closed and no services will be available from December 22 to January 23, 1984.

The residence halls will close at 11:00 p.m. on December 22, 1983.

The last meal of the term will be lunch on December 22. Dinner will be served on Sunday, January 2, 1984.

On or before December 22, rooms must be taken home or placed in off-campus storage, except those that can be left in a dresser drawer or in the closet. The college will not assume any liability for lost or stolen items. Your direct responsibility is to check your belongings at least once a week during the semester and to have your items delivered to our main residence hall by your parents or designated parents.

Students who have been denied a room for the next semester will be notified by January 6, 1984, if they have verified their eligibility.

If you do not intend to return to the residence halls in January, please be sure to return your key to the residence hall staff.

Failure to leave your room in a clean state can result in a $25 fine.

Failure to leave on your day of your last exam can result in low housing priority for fall 1984. As well, an authorized early return to the dorm can also result in low priority.

DEPARTURE PROCEDURES

Each R.A. must inspect each room and file a room inspection form. Students must make an appointment with their R.A. to have their room inspected. Upon leaving, you must secure the room (lights off, windows and doors closed and locked). Trash bags will be distributed by the residence hall staff.

You are encouraged to do your part to make this period enjoyable for all.

On behalf of all the residence hall staff, we wish you a safe, enjoyable and Happy Holiday Season, and offer our Best Wishes for the coming New Year.

See you in January!

DWI accidents drop 16% since drinking age change

By Jeff Kirby

It was a year ago this week that 18-year-olds in this state legally stopped being "kids" and were given the right to drive. By that time, the total number of alcohol-related accidents in New York State had reached a total of 1,400. In 1980, the total number of alcohol-related accidents was 1,300. Since that time, the number of alcohol-related accidents has dropped by 16%.

Marist students' mission to aid W. Virginia's poor

by Dean Burger

A small group of Marist students will spend one week of the winter break assisting those less fortunate in the poor area of Appalachia. The group is sponsored by the Office of Religious Life, the Student Ministry, and the Campus Ministry. It is the second year that such a group will depart for the trip. The group will leave on Jan. 31 and return Feb. 7. It consists of a freshman psychology major, a junior English teacher, a junior Latin professor, and a group of twenty students, both male and female. The trip is open to all Marist students. However, if more than twenty people sign up, the Student Ministry will screen applicants to choose those they believe could benefit the most from the trip. The group will be under the direction of Eric Halloran, who has participated in the trip in the past.

The purpose of the trip is to aid the poor in the area surrounding Nazareth Farm, which is located in the Shawangunk National Forest. Students will work in groups of eight and are assigned to different missions throughout the region. Some missions include: painting, digging, and washing of vans, which will be sent to the farm. Other missions include: cooking, driving, and painting, which will be done on-site. The group will be able to experience the type of environment the students work in, according to Eric Halloran, the group leader.

The group will depart on Jan. 31 and return on Feb. 7. The students will spend one week working at Nazareth Farm, which is the only one of its kind in the United States. The farm is located in an isolated area of the Shawangunk National Forest, and is sponsored by the Diocese of Scranton in cooperation with the Diocese of Davenport, Iowa. The farm is open to the public, and students who work there will be able to experience the type of environment they work in at home.

Honor society seeks to become more active as campus group by Caroline Kerst

The Alpha Chi Honor Society is not the most active group on campus. With only 70 members and 86 waiting for membership, few people have heard of it, according to Mike Miller, president of the group, who said its activities have been increasing recently.

At an induction banquet held in the Student Union Ballroom last Tuesday night, the 148th class of Alpha Chi was inducted. "It’s nice to have potential members. It’s going to be nice to have a larger group,” Mike said.

Mike also said that the film made a definite contribution by provoking talk about nuclear war because "it makes you think about the issue." The film also was a method of reaching out to the public instead of just reaching out to Alpha Chi members, said Mike.

Also present at the induction banquet were student advisor, Bruce Pinney, and professor of political science, William Howard.

Bruce Pinney, advisor of Alpha Chi, said that "in the past, Alpha Chi has done little in the way of reaching out to members. I think this is a significant step in the right direction."

William Howard, professor of political science, said that "it is much easier to reach people through Alpha Chi than through the political science department."

Bruce Pinney also said that "the film made a definite contribution by provoking talk about nuclear war because it makes you think about the issue."

Petro out as coach in '84

by John Bakke

Ron Petro, Marist's basketball coach since 1981 and athletic director since 1983, has announced his decision to resign his positions as both basketball coach and athletic director after the current season concludes.

Petro, who has been a staple of Marist athletics for nearly two decades, said his decision was made in the best interest of the university and the basketball program.

"This is a difficult decision for me, but after much consideration, I have decided that it is in the best interest of Marist College and the men's basketball program to step down," Petro said in a statement. "I want to thank the players, coaches, staff, and fans for their support over the years."
