Phone investigation uncovers credit card abuse at Marist

by Amie Rhodes

Illegal credit card charges totaling approximately $15,000 have been reported to authorities by Margarette Pakodi, residence director of the freshman dorm. The name of the agency to which the credit card abuse has been disclosed is not known.

Art by Robert Heywood, director of housing, said that he first learned of the telephone misuse in early November when a New Jersey lawyer, representing the company involved, called to notify Marist of the problem.

Heywood stated that he immediately referred him to Marist's lawyer, Paul Sullivan. Sullivan was not available for comment. Pakodi said that she did not know the breakdown of calls made from each floor in Leo.

The Rev. Richard LaMorte currently serves as the assistant dean of student affairs and the chaplain. His position is not held by any of the students before the end of the semester to direct the chapel.

The 1981 report states: "Campus Ministry personnel, who are charged with administrative responsibility, can easily compromise, and are often pressured to compromise on the autonomy and integrity of the Campus Ministry goal and program."...

For game fanatics, it's all in the mind

by Karen Croce

It's all in the mind. Wizards, battle axes, both lightning, golden dragons and tinkling cloud spools.

And it's all part of a growing interest at Marist in the fantasy role-playing game called Dungeons and Dragons.

This game offers players a chance to get away from the problems of everyday life and to relax, said Daniel Huston, president of the Marist Red Dragons, a club for those interested in playing D & D.

"You can become a hero and defeat evil while exercising your imagination to the fullest," said Huston.

"Dungeons and Dragons is a fantasy role-playing game for four to eight players. The dungeon master (DM) sets up a world based on medieval technology and society. The DM creates the universe, the political system, cities, towns and the creatures that populate the land where the fantasy will take place," Huston said.

Each player prepares a character and takes it into the environment which the DM has set up. The DM states the specific goals for an adventure and the players carry it through during the course of play.

The game is governed by rolls of specially designated dice, which determine what happens to each character. A character proceeds...

Straight from the Fox’s mouth

by The Red Fox

I used to think the San Diego Chicken was a jerk. I couldn’t believe that anyone could be crazy enough to dress up in an animal suit and run around like a fool during sporting events.

But the 1981-82 season at the Marist College Red Fox. Six. was a different story. The equivalent of a heavy fur coat in all kinds of heat, it’s been quite an experience for the last few years.

How many other 20-year-olds can say they’ve spent more than a quarter of their lives doubling as a fuzzy animal?

Looking back, I have few regrets. The man probably most responsible for the Red Fox is former Athletic Director and head basketball Coach Ron Petro. And if this paper ever makes it to Alaska, I’d like to say Thanks with a capital T for the great experience, Coach.

Somehow, my reputation that Marist create a mascot back in 1979 got back to Petro, and he helped me get back to me. The job was mine. I was a true Freshman in high school back then, so the idea of being chosen mascot of a Division I basketball team was rather mind-boggling. I’ll never forget the night of my first game. I was just sitting in the living room chair with all the lights out and a party in the yard away all the butterflies that were throwing a party in the pit of my stomach. Believe me, it was an all-time low for those butterflies.

I’ve been through it all in six years. I’ve seen players, coaches and many others come and go. In fact, with the exception of the radio broadcaster for the team, Robert Norman (who’s also the internship Director Marist), I’m the only person left this year who travelled with the team back in ’79. I came in when Steve Smith was a freshman.

There have been so many exciting moments in the past six seasons that I can barely squeeze them all into one article. There have been so many exciting moments in the past six seasons that I can barely squeeze them all into one article. I’ve had the chance to be a part of one of the most grueling basketball games for me was the double overtime loss to Mercy College back in the 1980-81 season. The game was played at the McCann Center, and I vividly remember hitting a top-of-the-key bank shot as the buzzer went off in regulation and into OT. By the end of the second overtime, we had lost by three points, and it was one fox.

The 1981-82 season was memorable in that it was the first NCAA Division I season ever for Marist basketball. We made a name for ourselves that year by having two NABC academic all-Americans in Steve Smith and Daryl Powell. Smith was an All-America...
END OF SEMESTER CLOSING PROCEDURES

The Residence Halls will close at 11:00 p.m. Thursday, December 20, 1984 and will reopen on Sunday, January 20, 1985 at 12:00 Noon.

STUDENTS ARE TO LEAVE THE RESIDENCE HALLS ON THE DAY OF THEIR LAST FINAL EXAM. Failure to leave on the day of your last exam or to return early can result in low housing priority points for the Fall 1985 semester.

On or before December 20, rooms must be cleaned and most belongings must be taken home, except those items that can be left in a dresser, desk, or on the floor. The college will not assume any liability for personal belongings.

Students must make an appointment with their R.A./U.C. to have their room inspected. R.A.'s and U.C.'s will inspect each room and file a room inspection form with the Residence Director. Upon leaving rooms must be secured (lights off, trash removed, appliances disconnected, curtains closed and doors locked).

Trash bags will be distributed by the R.A./U.C. to each resident on December 12th and 13th. Due to the large amount of refuse at the end of the semester, students are requested to bring garbage to the dumpster themselves.

ARNOFF STORAGE

An off-campus storage service will be available to all residence hall students. Students will be able to store up to five pieces for $25.00 and up to ten pieces for $50.00.

The storage service will be available on Wednesday, December 18, 1984 from 8:00 a.m. to 5:00 p.m. in front of Champagnat. Delivery of the items should be Monday, January 21, 1985 from 8:00 a.m. to 5:00 p.m. in front of Champagnat. Students must present a receipt to receive their belongings.

This service will be a great help if you have requested a room change and must vacate your room or if you do not want to bring all your belongings home.

Sign up with your R.A. or U.C. today!

If you have any questions or concerns, please contact the Housing Office. Thank you for your cooperation.

On behalf of the Residence Staff we wish you a safe, and enjoyable holiday season.

Dear Editor,

I am a member of the Phi Eta Chi, the national honor society of freshmen. A proposal for the inclusion of a senior class period to complete the liberal arts requirement before graduation has been approved by the Faculty Senate and is now being considered by the student body. The proposal was submitted by a student who was concerned about the limited number of credits required in the core curriculum, the inability of some courses to be counted in the core, and the lack of opportunity for students to develop a coherent liberal arts major.

Sincerely,

[Name]

Fraternity

Dear Editor,

I am a junior at the University of Pennsylvania. As a member of a fraternity, I have observed firsthand the importance of the liberal arts curriculum. Many of the skills and knowledge that I have gained through my participation in extracurricular activities have been developed in the context of an education that values the humanities.

Sincerely,

[Name]

Tissue

What is it that makes one of our nation's more prominent professors, William Lipshutz, such a cut above the rest? I think it's his ability to make his courses relevant and interesting to all students, regardless of their majors. His lectures are engaging and thought-provoking, and he has a talent for simplifying complex concepts. His approach to teaching has inspired me to pursue a career in education and I hope to one day teach like him.

Sincerely,

[Name]

Scholarship

Dear Editor,

I am writing to express my gratitude for the financial aid that I have received from [Scholarship Name]. The support has been instrumental in enabling me to continue my education and pursue my academic goals.

Sincerely,

[Name]

DUI

Dear Editor,

I am writing to express my concern about the increasing number of drunk driving incidents on campus. As a student, I feel that it is important to be aware of the potential consequences of impaired driving.

Sincerely,

[Name]

Fraternity

Dear Editor,

I am a member of the fraternity, and I would like to express my support for the proposal to require that all members complete the liberal arts requirement before graduation. As a student, I have benefited greatly from the liberal arts curriculum and believe that all students should have the opportunity to develop a well-rounded education.

Sincerely,

[Name]

THE SCENE

We see a small group of kids gathered in a circle, engaged in what appears to be a game or activity. One of the boys, who seems to be leading, speaks to the others.

Boy 1: Alright, let's play this game. I'll pick a number and you'll all have to guess if it's odd or even.

Boy 2: Sounds fun! What's the number?

Boy 1: (thinking) 17.

Boy 1: (reaching into his pocket) I've got it. 17.

Boy 2: (guessing) Odd.

Boy 1: No, it's even.

Boy 2: (laughing) Oh, well, I thought it was odd.

Other Boys: (smiling) Ha ha! It's always good to have fun.

The scene ends with the group continuing to play and joke around. It captures the essence of a carefree childhood playtime, filled with laughter and camaraderie.
**Straight from the mouth of the Red Fox**

**The old Butterfields is now... Butterfields**

According to Bostick, Butterfields is now going to have a new look, with some changes in the menu and atmosphere. The original Butterfields building on Main Street will be renovated and expanded, and a new wing will be added to the back of the building. The new wing will feature a larger dining area, a new bar, and a new lounge area for customers to relax and enjoy their meals. The menu will be updated with new dishes and specialties, and the kitchen will be modernized to improve efficiency and reduce waste. The overall goal is to make Butterfields a more inviting and enjoyable place for customers to visit.

Ron continued:

"...and the dishes were served promptly and efficiently. The atmosphere was warm and inviting, and the staff was friendly and attentive. Overall, I had a great experience at Butterfields and would definitely recommend it to others."
Nursing program takes on a high-tech look

By Witty How

With a growing emphasis on learning how to care for the elderly, the nursing program at Marist College has taken on a high-tech look.

According to How, the program is designed to prepare students for the future needs of the health care field.

The program includes the use of visual aids, which allow students to practice decision-making skills in a simulated environment.

The novel life of writer Lewis Eisenberg

By Maureen Ryan

Lewis Eisenberg, a writer who has been published in numerous magazines and newspapers, is the author of the novel "The Great American Novel." Eisenberg is best known for his unique approach to writing, which combines elements of fiction and non-fiction.

Eisenberg's work often explores themes of social commentary and personal experiences. He has been praised for his ability to blend the two genres, creating a unique style that has earned him critical acclaim.

In his novel "The Great American Novel," Eisenberg explores the life of a young man named Jack, who is struggling to find his place in society.

Black Student Union seeks a new image

By Maureen Ryan

The Black Student Union (BSU) at Marist College is working to change its image and attract more students.

The BSU, which was founded in 1970, has struggled in recent years to maintain its relevance and connection to the student body.

BSU President Keith Shipley said the group is working to re-brand itself and reach out to a wider audience.

"We want to be more than just a club for minority students," Shipley said. "We want to be a club for everyone."
**Tuning in on Funhole**

By Amelie Barnes

As the lights dimmed over the upper campus, the Marist College Pub came alive with the sound of rock music and laughter. Hundreds of students could be seen as they were preparing to attend a performance by the band Funhole. The band's lead singer, Joe D'Orio, said, "We're just a group of people who like to have a good time, and we want to share that with others."

Funhole, which consists of Brian Farm, Pat Barry, and Jim Bronner, is one of many student bands that perform at the Marist College Pub every Pub Night. The band's members said they are thankful for the support they receive from the students who come to their performances. "We're just a group of people who enjoy music, and we're glad to have an audience," said Farm.

The Marist College Pub is one of the few places on campus where students can gather to socialize and enjoy music. The college has taken steps to promote a more inclusive atmosphere for students who want to participate in extracurricular activities. "We want to make sure that everyone feels welcome and included," said a spokesperson for the college.

**Alcohol on campus: 2 different approaches**

By Brian Thompson

**Editor's Note:** Campus alcohol policy is a hot topic this year, with Marist College and other universities nationwide adopting new policies. The Marist College Student Senate recently voted to ban alcohol on campus, but the decision has sparked debate among students and administrators.

**Marist College's policy:***

Marist College's new policy bars all alcohol on campus, including in residence halls, fraternity and sorority houses, and other areas where alcohol is typically consumed. The policy also prohibits the sale, possession, and consumption of alcohol on campus.

"This policy is necessary to ensure the safety and well-being of our students," said Mark O'Connell, Marist College's vice president for student affairs. "We want to create an environment where students can focus on their education without the distractions of alcohol use." 

**Student reaction:**

The policy has been met with mixed reactions from students. Some students have praised the policy for its emphasis on safety and responsible living, while others have criticized it as an overreach by administrators.

"I think the policy is a step in the right direction," said Michael O'Connor, a junior at Marist College. "I don't like the idea of being surrounded by alcohol all the time, and I think it's a good thing for students to be able to focus on their studies." 

"I don't see why we need this policy," said Sarah Smith, a junior at Marist College. "I think it's fine for students to drink responsibly, and the policy is just going to take away our freedom."

Freshmen key to X-C season

by Joe D'Aniello

One of the keys to the improve-
ment of the 1994 cross country
program was the heavy, recruit-
ing efforts to come to the
school. The crop of the seven
members of the cross country
school he could get into with
the school he could get into with
the only one that provided inter-
collegiate sports. Likewise, the
men's hockey team entered last
night's game
the Foxes entered last night's game
against the team of 3-2 and
42-22 margin, the Foxes
did not play because
we thought we had a realistic
chance to gain or defend a spot on
the team, and we just
gave the upperclassmen a sense of
responsibility and gave them a
chance to gain or defend a spot on
the team.

The team entered last night's game
by a 42-22 margin, the Foxes
entered last night's game
against the team of 3-2 and
42-22 margin, the Foxes
did not play because
we thought we had a realistic
