Alum makes his return as a hero

by Chris Landry and Helen Gardner

In 1967, senior captain Paul Rinn and the crew team traveled northeast to the waters of Boston College to represent the 800 students of Marist College and win the Head of the Charles regatta.

Rinn has not forgotten the value of dedicated teamwork he learned at Marist. Twenty Commanders later, U.S. Navy Commander Paul Rinn was on the undermanned team again when he and his crew of the Samuel B. Roberts fought against much worse odds to avoid three mines and successfully avoided three mines when it struck a fourth. Rinn banded his crew of 224 [flagged oil tanker], found itself [broadside] and opened the door of their apartment.

The Roberts, returning from its Persian Gulf patrol, found itself [flagged oil tanker], found itself [broadside] and opened the door of their apartment.

The widening of the road next to Donnelly Hall will allow for two-way vehicular traffic. When the work is complete, the other roads around the building will be restricted to pedestrian traffic.

Dorm phone service to ring in this fall

by Bill Johnson

Most Champagnat Hall residents should get telephones in their rooms next month, according to Carl Gerberich, vice president for information services.

New York Telephone will bring phone service to 175 rooms in Champagnat when conditions are instated to carry phone wires from Donnelly Hall to the dorm. Gerberich said he hopes to have the service available in five weeks.

Technical restrictions prevent the entire dorm, which has about 225 rooms, from receiving phones. Sophomores, who occupy 177 rooms, will be offered phone service first. First-year residents are on a first-come, first-served basis, according to Steve Samoza, director of housing.

Gerberich said he doesn't know when the rest of Champagnat or the other dorms will receive wires. Rapid growth on Route 9 has taxed New York Telephone's ability to meet the demand for telephone service, Gerberich said.

"I have talked with New York Telephone, and I know they have gone out of their way to help Marist do this," Gerberich said. Administrators hoped to bring phones to Champagnat rooms before school started, but other construction projects over the summer delayed the service, Gerberich said.

Work continues on the installation of six conduits between the switchboxes in the Donnelly Hall basement and Champagnat. The conduits enter each building via large concrete pool boxes, which the college recently installed.

New York Telephone's paging system will not be used on campus.

Tow trucks are coming

by Steven Murray

Marist Security is going to start towing cars in an effort to step up the enforcement of the school's parking regulations, Joseph Leary, director of security, said earlier this week.

This action is a follow-up to the issuing of parking tickets that Security has been giving since the beginning of the semester.

Leary said the towing of cars will start by the end of this month. Leary said that any car parked in a handicapped zone or a fire zone, or a student car parked in the Donnelly lot, will be towed.
After Class

**Entertainment**

Catch a Rising Star

Carnegie Hall, 153 W. 57th St. The free concert will begin at 9 p.m. Monday. The concert will feature the New York City Opera and the New York City Ballet.

**Jazz and Classical Symphony**

The O'Neill's Town Hall Brass Band will perform at the Metropolitan Museum of Art on Thursday at 8 p.m. Tickets are $5, $10 and $15 and are available at the O'Neill's Town Hall Box Office or by calling 212-794-8100.

**Lectures**

Alcohol and Drug Addiction

Jeffrey C. Schonberg, associate professor of medicine, will speak on the topic of alcohol and drug addiction at 4 p.m. at the Wadsworth Westinghouse Building. The lecture will be followed by a Q&A session. The event is sponsored by the Department of Psychiatry.

Superiority of Oceans

The Wari and man return to Marist College to speak on the importance of the marine environment. Admission to this sponsored event is free.

**Theater**

Spring Break in Boise

Dr. Arthur P. Shanks, associate professor of history, will present a lecture on the history of the West during the Spring Break in Boise. The lecture will be held at 7 p.m. in the Thomas Communications Center.

Dr. Arthur P. Shanks, associate professor of history, will present a lecture on the history of the West during the Spring Break in Boise. The lecture will be held at 7 p.m. in the Thomas Communications Center.

Donnelly facelift starts this month

By Paul O'Sullivan

After delaying work on the dormitory for six months, the college has decided to move forward with the renovation project. The dorm, which will be called Donnelly Hall, will begin this month, said college officials.

Mark Sullivan, executive vice president of the college, said the project will cost the school $4.5 million and will take approximately 16 months to complete. The college has put aside for renovations an estimated $2.5 million.

The first phase of the project will involve the construction of a new dormitory, said Sullivan. An additional $2 million will be used to renovate the current dormitory, which is located across the street from the new dormitory.

The second phase of the project will include the construction of a new feature, including the removal of the old dormitory and the installation of a new heating, ventilation and air-conditioning system. The estimated cost of this phase is $2.5 million.

This summer, the college will begin the renovation project. The renovation will consist of the removal of the old dormitory and the replacement of it with a new building.

Lloyd and Dan serve up a good time
by Mary Seiter

The 40 adult students at Marist are now due to lack of time and interest by adult students.

The 60 adult students — most part-time students — do not have time to participate in other Marist activities because they are working.

College asks who's who

The Marist Student Union at Marist is in the final phase of its set-up and the committee for the Marist Student Union is the first phase of the Marist Student Union.

Focus: They’re Back!

Listen up, Marist students: Alumni offer words of wisdom

by Karen Crum

Four or five years ago, four years of being an alumnus and four years of not writing about entertainment, I'm so very happy to see you here. I'm so very happy to see you here.

Although Alumni Weekend is known for its entertainment, the main focus is on the campus activities that students can participate in.

The main activities during the weekend included alumni, friends and family members joining in on some fun and games.

The Alumni Weekend brings emotions, not only for the alumni, but also for the students too because it is a great opportunity to reconnect with old friends and meet new ones.

No nickel and dime charges for writing checks and using money machines.

Cash 24 hours a day at hundreds of convenient Chase and NYCE® money machines.

Three times as many

Three times as many students at Marist are now due to lack of time and interest by adult students. It's really embarrassing for the students when they find out about the part they're playing. It's really embarrassing for the students when they find out about the part they're playing.

Adult education at Marist is in the final phase of its set-up and the committee for the Marist Student Union is the first phase of the Marist Student Union.

It was Thursday, 9:30 p.m. The weekend included Skinners, those gaps in the friendship, and this weekend helps to close those gaps in the friendship.

INVESTMENT WHEN WE SEE ONE.

Vassar College chose to cut off funding for one of the college’s four student newspapers — The Spectator. This action cuts off the expression and exchange of ideas and philosophies. Isn’t this exchange one of the reasons that students attend liberal arts colleges such as Vassar and Marist?

Alumni Weekend: a moron a minute

Alumni weekend hit the campus, and Brian Bailey, a senior in engineering and a member of the Spectator’s editorial board, agreed to speak at campus events. "I would have loved to do it," he said. "I think the students and the faculty are incredibly special here at Vassar."

Jenthea, a new Vassar graduate, was in attendance. "I was surprised when they took away the funding," she said. "But I think it’s a step in the right direction. I’m glad they’re doing it because it’s now the right time."

On the contrary, Jennifer, another graduate, was more critical. "I think they should have given them more money instead of taking it away completely," she said. "I don’t think it was the right decision."

Anyway, the students were upset, and the faculty was upset, but the administration was only happy. They were happy because the Spectator was being shut down, and they didn’t have to worry about it anymore.

The Spectator's editors were furious. "We were shocked," said Paul O'Connell, one of the editors. "We were just starting to make a name for ourselves, and now we’re not going to be able to do it anymore."

"We’re going to fight this," said another editor, Jennifer Fragomeni. "We’re going to fight this all the way to the Supreme Court."

The administration, however, was unimpressed. "We’re not going to let anyone get away with this," said President Davis. "We’re going to make sure that the Spectator never publishes another issue."

In the end, the Spectator was forced to shut down. The students were angry, the faculty was upset, and the administration was happy. But no one was happy about the loss of the student newspaper.
Vassar station may boost signal

by Karen Goulet

The Vassar College radio sta­ tion, WVKR-FM, has applied to be­ come a full-time station under a new connection with the Federal Communications Commission to increase its broadcast signal from 1,000 to 10,000 watts—a change that would increase the station’s range in the area. According to station manager, Judy Giuffrida, WVKR-FM has applied twice before to the FCC before the application is approved.

The application was submitted to the FCC in May, and the process takes approximately eight to 12 months. During the audit, FCC representatives will visit the station to check its operating and programming, according to Giuffrida.

"If we pass this audit, we'll stay out of our way," Giuffrida said. "They're trying to wind us off guard." she said. "They're trying to catch us, according to Giuffrida.

The station’s clients include students checking stories to be put into The Reynard. The station’s clients include students checking stories to be put into The Reynard. The station’s clients include students checking stories to be put into The Reynard.

Giuffrida said about 20 percent of Vassar students listen to the station, and providing communication is the service that the station provides.

"We want to send a message of self-defense when the station is infringing on its area and interfering with Josten's, the company in proofs (trial prints of negatives) with Josten's, the company in proofs (trial prints of negatives).

Rugby seeks better ties with college
by Michael Hess

The Marist rugby club is looking to become more involved with the college administration, said Yeaglin, director of campus communications. Although only two players are currently on the Men's Rugby team, Yeaglin said, "It's the team's responsibility to involve rugby in the school so that there is a better public image."

Yeaglin said that the rugby team is trying to gain the support of the student body, particularly through the Student Association and the Marist College Council for the Arts and the Humanities. The Marist College Council for the Arts and the Humanities is a student organization that is responsible for organizing cultural events on campus.

The rugby team is also working on creating a club for the community, and Yeaglin said that he hopes to have a rugby club set up by the end of the academic year. He added that the rugby team is also interested in having a rugby field on campus.

Yeaglin said that the rugby team is having trouble gaining support from the administration, and that the rugby team is looking for ways to improve the relationship between the rugby team and the administration. He added that the rugby team is also looking for ways to improve the relationship between the rugby team and the student body.

Yeaglin said that the rugby team is looking for ways to improve the public image of rugby on campus, and that the rugby team is also looking for ways to improve the relationship between the rugby team and the community.

The football team travels to the U.S. Coast Guard Academy on Saturday for the fourth of five consecutive games after exploding for a 42-10 victory at Siena last Saturday.

The Red Foxes (2-2) will be looking to avenge last year's 13-0 loss to the Seahawks. Red Foxes have lost all four of their games with the Cadets.

The Red Foxes have picked up three players this week over 100 yards as it overcame a three-point halftime deficit with 35 points in the second half.

Coach Mike Maler said he does not think the string of road games will hurt the Red Foxes. "I don't think the road will be as much of a factor as Coast Guard." He added: "In order to beat Coast Guard, we have to go out and play the whole game like we did in the second half (against Siena)." Maler said: "They are a big, strong and quick team. We've got to play smarter and play harder than we did in the first half." He added: "We did not play well at all in the first half. In the second half, though, they did what they had to do." One of the keys to the victory, according to Maler, came in the third quarter when defensive end Mark Schatzman blocked a Cadets' quarterback Bob Facio in the end zone for a safety to cut the Indian's lead to 10-10.

Running backs Kelly Stromon and Brian Richards carried the Marist rushing attack with 131 and 115 yards respectively and one touchdown. Quarterback Jason Thomas ran for 100 yards and three touchdowns.

Stromon scored Marist's first goal in the second overtime period with a 25-yard run with 7:12 left in the first quarter. Kevin Kerr's extra point put Marist in front 7-3.

Indian quarterback Pete Eisenberg found wide receiver Dwayne White in the end zone with just 45 seconds left in the first half following a Marist fumble. The extra point by Charles Tanosio gave Siena a 16-0 halftime lead.

The Red Foxes, however, did not allow a point in the second half. Thomas led the offense in the second half, scoring three touchdowns on runs of 9, 10 and 27 yards each. Only one point on third touchdown put Marist in front 27-12 at the half.

The Red Foxes held Siena to 150 yards of total offense, just 31 on the ground.

Gridders rip Siena, take aim on Coast Guard by Jay Reynolds

With a two man advantage, Colgate broke through a 0-0 deadlock with less five minutes left in the second overtime period to defeat Siena 1-0 in a non-conference game. Colgate improved to 7-6.

The loss dropped the Red Foxes to 3-7 overall and 1-0 in conference.

The winning goal was scored by Colgate's Dog Riffen, a freshman from Gloversville, N.Y., on a loop shot over goalie Kyle Muncy. Muncy, a freshman from Amsterdam, was standing just a little too much in front of the goal as the looping shot was just out of his reach.

Colgate improved to 7-6. Marist was working on drills with the other coaches and forwards on the team when the ankle, injured in a pick-up game at the McCann Center, bothered him to the point that he had to stop playing.

The Pacers said they think a five-man advantage.
