Fire code raises questions about Marist East

by Bill Johnson

Fire code violations that persist in Marist East could mean the loss of a trial run. The building's main north-south corridor is not wide enough, and the walls around it are not flame retardant as required, according to Sullivan and fire officials. Widening the corridor toward the front wall would make the small space too narrow for classroom use, Sullivan said.

New honors course to get a trial run

by Stacey McDonnell

The Division of Humanities will offer a one-credit honors course to a group of incoming freshmen this fall as a pilot project for possible honors programs in other divisions.

Tuition was $700 for last year's 12th-hour seminar, which Sullivan and fire officials. Widen­
end next year.

The humanities honors course will revolve around the normal freshman curriculum and will focus on current events; said Richard Atkins, chairperson of the Division of Humanities.

Members of the division will evaluate the course after the fall semester and decide whether to off-

er it again in the spring. Permanent approval by the faculty's Academic Affairs Committee is not necessary until after the course has been taught for one year.

Atkins expects. at least 15 to 20 students to register for the class, which will be taught jointly by Sullivan and Enid A. Thomas, chairperson of the Division of Humanities.

Enid A. Thomas is the second-highest recipient of the allocating budget, according to Sullivan.

Atkins, chairperson of the Division of Humanities, said Students become assassins in latest college craze

by Lori Bopati

After the Student Activities Office recently turned down part of a funding proposal by the Black Student Union, BSU president says their budget is not only 185 for a budget stimulation as the BSU.

Jennifer Peifer, treasurer of the Student Government and Financial Board chairperson, said the BSU asked too much, so an itemized budget was needed.

BSU is asking for $1,000 for a lecture by Bill Duke, director of a television version of "A Raisin in the Sun," which aired during Black History Month. Lightner said the proportion of the cost was presented to Stu-

Entertainment Activities and turned down.

Student Activities approved the $1,500 appearance but refused all the additional fees: $700 for airfare, $60 for meals, and $3 for board. The $1,500 is included in the amount of $300 for the BSU budget, but, according to Director of Student Activities Mary Yeaglin, BSU needed to justify the other

amounts.

Yeaglin said $700 was high for any type of transportation and BSU should have considered a travel agent for a more precise amount.

She also said the $185 request for "The Tenth Victim" and "Got­

ing Lehman in the heart. He
died instantly as Wing fled the scene.

"The game takes its toll on their daily lives, since they live in constant fear of being killed."

"You get a satisfaction out of killing your friends in a civilized fashion."

However, many participants said the game takes its toll on their daily lives, since they live in constant fear of being killed. The game comes as a surprise to many players who have never seen it before. The game is a variation of "The Assassin Game." The $1500 is included in the amount of $250 for the BSU budget, but, according to Director of Student Activities Mary Yeaglin, BSU needed to justify the other amounts.

Yeaglin said $700 was high for any type of transportation and BSU should have considered a travel agent for a more precise amount. She also said the $185 request for "The Tenth Victim" and "Got­

in Poughkeepsie and the $60 request for a trip to the Midtown Hotel, Sullivan said.

"We have limited resources, but all students deserve the best instruc-

in Marist. Sullivan said a storage room for computer equip­

ent is being built there, he said. The remains of the former office will be converted to open space.

The humanities honors course will revolve around the normal freshman curriculum and will focus on current events; said Richard Atkins, chairperson of the Division of Humanities.

Members of the division will evaluate the course after the fall semester and decide whether to off-

er it again in the spring. Permanent approval by the faculty's Academic Affairs Committee is not necessary until after the course has been taught for one year.

Atkins expects at least 15 to 20 students to register for the class, which will be taught jointly by Sullivan and Enid A. Thomas, chairperson of the Division of Humanities.

Atkins, chairperson of the Division of Humanities, said, "I have a problem with pulling the best instruc-

or to teach one special group." The course will meet one hour a week on a pass/no credit basis and will require students to write short papers, present oral reports and participate in field trips, said Atkins.

Many colleges and universities offer honors programs to provide additional academic challenges to students.

2 added to fund-raising staff

by Jackie O'Brien

Vice President for College Advancement Paul Brown announced the appointments of Patricia Clark as director of development and Karen Kopec as director of development in early February.

Clark, who has worked for New York City State Senator Marc Molinaro, replaces Mary Ellen Moynihan, who left Marist in January. Clark will join the staff at William College. Kopec is presently the director of enrollment communications and will also become the advancement staff on May 1.

As director of development, Kopec will be responsible for the Annual Fund and other fund-raising efforts, including alumni and the other development programs, including the alumni and development activities, and annual and capital campaigns.

Kopec's new position will combine the jobs of director of development and director of the Student Assault Prevention program. Kopec has had 13 years of experience in the field of development.

For the past 15 years Kopec has been an employee at Marist in the office of development, admissions, and alumni and public relations.

Running on empty: Those college car blues

by Michael DeCosta

"We decided to use a new car for the first time," said the 19-year-old senior from Waterbury, Conn. "The first car was a '59 Mercedes-Benz," he said. "I'm just glad we didn't have it long enough to be a major hassle.

"We finally decided to sell the car when I needed a new one," said the student. "I just sold the car the other day."
College is facing its growing pains

College administrators have tough decisions to make. Faced with a college population that is growing faster than the campus can accommodate, the administration must decide whether to build new dormitories or find an alternative site. The decision is not an easy one, as the college is already saddled with a number of fire code violations. The administration must also consider the impact of growth on the surrounding community.

Cafeteria responds

I was pleased to hear from the editor in the Feb. 23 issue of the Circle concerning the problems that students face when eating in the cafeteria. I believe that the lack of organization and variety is the main issue, and I think the administration should address this problem. On a personal note, I would like to thank the staff of the cafeteria for their hard work and dedication. They do an excellent job of providing a nutritious and appealing menu.

Would she leave women out?

by Paul McGarrity

If Jesus were alive today, and he saw the way we live, he would be horrified. In fact, he would probably say, "What have you done to my children?" He would see the suffering of women and feel the pain of a mother who has been raped or beaten. He would hear the cries of a woman who has been denied equality and respect.

I believe that Jesus would have been a similar advocate for women's rights. The Roman Catholic Church, with its doctrine of the Immaculate Conception, would not exist without the help of women. Women are the ones who have given birth to Christ, and it is through them that he came into the world and showed us the way to salvation.

The Church must recognize the importance of women in society and give them the same respect and dignity that they deserve. Women are just as important as men, and they should be given the same rights and opportunities.

Viewpoint

Illegitamacy abortion would mean catastrophe

by Mary Sticker

Some years ago, the Roe vs. Wade decision was made. At the time, I could not see how this would affect the future of America. But now, as I look back on my family's history, I realize that this decision has had a profound impact on our lives.

The Roe vs. Wade decision was a turning point in American history. It was a time when women were finally given the right to make decisions about their own bodies. This decision has allowed women to control their own lives, and it has given them the chance to have the children they want.

But the Roe vs. Wade decision was not the end of the story. There are still many women who are struggling to make ends meet. They are faced with the choice of having children they cannot afford to raise or choosing to have an abortion. This decision has given women the chance to choose, and I believe that it is the right choice for many women.

The Roe vs. Wade decision was a turning point in American history. It was a time when women were finally given the right to make decisions about their own bodies. This decision has allowed women to control their own lives, and it has given them the chance to have the children they want.

Over a semester you, the residents of Marist College, have the opportunity to elect the student government to represent you. The student government is responsible for managing the student body's concerns and interests, and it is your right to have a say in the decision-making process.

Kevin Emerson

For the new president and student government, the number one problem is effective communication. The connections among students, faculty, and administration must be improved. Effective communication is essential for maintaining a strong student body. It is important to have open lines of communication with the administration and with the students.

In my sophomore year, I became a Residents Assistant and Vice President for Finance of the student government. It was my job to work with the various clubs and organizations on campus to ensure that their goals were being met.

In my junior year, I became a Resident Assistant and Vice President for Finance of the student government. I had the opportunity to work with the administration to improve the quality of life for all students on campus.

I have been an active member of the student government for the past three years. I have served as a Resident Assistant and have been appointed to various committees. I have been involved in the development of the student government and have played an active role in its decision-making process.

My second reason for running is that I believe I can make a difference on campus. My goals are to increase the level of student involvement in the decision-making process and to improve the quality of life for all students on campus.

"You have to go to school here.

We're sorry to say that we won't be able to continue with the faculty seminars. After a 1981 fire in Champagnat Hall, the Marist women's basketball program was temporarily suspended. A panel discussion on the latest research in the field is planned. We will be joined by Dr. Reynolds, and other experts in the field.
"HOW I MADE $18,000 FOR COLLEGE BY WORKING WEEKENDS."

As soon as I finished Advanced Training, the Guard gave me a cash bonus of $2,000. I also get another $5,000 for tuition and books, thanks to the New GI Bill.

Not to mention my monthly Army Guard paychecks. They’ll add up to more than $13,000 over the six years I’m in the Guard.

And if I take out a college loan, the Guard will help me pay it back—up to $1,333 a year, plus interest.

It all adds up to $18,000—or more—for college just for my little time. And that’s a heck of a better deal than any car wash will give you.

THE GUARD CAN HELP PUT YOU THROUGH COLLEGE, TOO. SEE YOUR LOCAL RECRUITER FOR DETAILS, CALL TOLL-FREE 800-638-7690, OR MAIL THIS COUPON.

By Nile Yakovlevich

"The Army gives us the tools to get a good education," said Vicky Clinton, a centerman from Louisiana. "Having the不管你 are a student or just want to explore, the Army Guard can help you get ahead."

We know it was wise when it became part of the Guard, said Vicky Clinton, a centerman from Louisiana. "Having the right education can make a big difference in your life."

The Army Guard has been in the forefront of educational programs since it was founded. "The Army Guard was the first to offer educational assistance to its members," said Clinton. "We provide training in a variety of fields, both military and civilian, to help you succeed in your career.

Campuss flu cases decline after rough month

Campus flu cases have declined after a rough month for the health services department. Students have been urged to stay at home when sick, and to use hand sanitizer and cover their mouths when sneezing or coughing.

The flu season has been severe, with 17% of students reporting flu-like symptoms in the past week.

"We have seen a decrease in flu cases since we started implementing these precautions," said Dr. Jane Smith, director of health services. "We advise students to continue practicing good hygiene to prevent the spread of the flu.

Across the campus, students have been seen wearing masks and using hand sanitizers, with many reporting improved symptoms.

The flu season is expected to continue into March, so students are urged to continue taking precautions and seeking medical attention if necessary.

Military Affairs Office

The Student Affairs Office is committed to supporting the academic and career development of students. We offer a range of programs, including career counseling and graduate school preparation resources.

"We are here to help students navigate the college experience," said Director Mike Johnson. "We offer a variety of programs and resources to help you succeed.

Students, profs upset about financial aid plan

By Kathleen Orms

Students should not have to make public records for the college financial aid plan.

The proposal to increase the financial aid plan at Marist College by $6 million is not acceptable, according to the Marist College Financial Aid Office. The plan was introduced in 1987 and is expected to continue through 1989.

“The plan is not acceptable because people would be unable to discuss the plan if they are not aware of it,” said Professor Louis D. Morano, director of financial aid. “The plan is not designed for every student.”

Morano said the plan is designed to help students who need financial aid. The plan is being discussed among the students and the Marist College Financial Aid Office.

The plan is designed to help students who need financial aid. It is not designed for every student.

Morano said the plan is not acceptable because people would be unable to discuss the plan if they are not aware of it. The plan is being discussed among the students and the Marist College Financial Aid Office.

In addition, the plan is not designed for every student. The plan is designed to help students who need financial aid. It is not designed for every student.
Basketball
team gets its grades
by Jay Reynolds

With the final buzzer of last Thursday's 109-87 win over Loyola (Md), the men's basketball team ended its season and the team's three seniors ended their careers.

In the win, the Red Foxes set a school record for points (109) and most successful season ever by finishing second in the NEC Division.
