Break-in at townhouses thwarted; police still looking for suspects

by CHRIS LANG
Staff Writer

Officials are still searching for the three men who attempted to break into a townhouse last Wednesday, according to Joseph Leary, director of safety and security.

Leary said that at approximately 1:30 a.m. on Oct. 10, a student from Townhouse A-7 called security and said three men were attempting to break in.

Two security vans and two foot­patrols responded to the call along with two Town of Poughkeepsie Police cruisers, Leary said.

When security and the police ar­rived at the townhouse, they found no sign of forced entry and immediately conducted a check for the men.

A campus search by security and a search of the local areas around the campus by police came up negative.

The men were each described as tall, black and wearing a baseball cap.

According to Megan Flanagan, a resident of Townhouse A-7, the incident was awakened shortly before 1:30 a.m. on Oct. 10 by her roommate, Cathy Mahland who told her she heard noises outside their sliding glass door in the downstairs section of the townhouse.

When they looked outside, they observed two men bounding up onto the balcony of their apartment.

When they heard the sliding glass door open, Flanagan called security. After an outside light was turned on, the men fled the area.

"I definitely feel threatened by something like this," said Flanagan.

"You should try to patrol around this area more, especially the darker wooded areas behind the Townhouses," she said.

Leary said that security will give special attention to the area in the future but that extra patrols cannot be added because security doesn't have the necessary manpower.

Edwards, '86 LT Award winner and CBS anchorman, dies at 73

by STACEY MCDONNELL
Managing Editor

Douglas Edwards, the first net­work television anchorman with CBS and a Marist College Trustee since 1987, died of cancer Sunday morning at his home in Sarasota, Fla. He was 73.

Edwards was also the 1986 recip­ients of the college's Lowell Thomas Award for his excellence in broadcast journalism, and helped dedicate the Lowell Thomas Communications Center in 1987.

The award was established to recognize an individual whose life and work reflect the imagination, courage and humanity of Lowell Thomas.

"Mr. Edwards was keenly aware of the large interest in communica­tions among our undergraduates, and he wanted them to make broadcast news better," said Presi­dent Dennis J. Murray. "His ad­vice and counsel for Marist College will be sorely missed."

Edwards started his 56-year broadcast career as a World War II radio correspondent, and had anchored about 14 different net­work television news broadcasts from 1948 until his retirement in 1988.

Besides being the first network news anchorman, Edwards was also one of the first to use on­location cameras for a broadcast, to report on-the-scene from the cham­ber of the house of Represen­tatives soon after it was shot-up in March 1954, and had an exclusive eyewitness account of the sinking of the Italian liner Andrea Doria off the coast of Nantucket in July 1956.

Edwards also conducted ex­clusive interviews with Eleanor Roosevelt, Adlai Stevenson, AlvaEbuan and Herbert Hoover. In February 1952, he covered the cor­ruption trials of Queen Elizabeth II in London.

"Douglas Edwards was known the world over for his pioneering work in broadcast journalism," said Murray. "He remained a powerful voice for integrity and professionalism in reporting the news for a half-century. He loath­ed the shallowness and sensa­tionalism of some of the new­est television news shows, and he con­tributed to aspiring journalists a reverence for thoroughness and ob­tects.

"There have been no previous inci­dents of this kind this semester," said Leary. "In most cases like this, its a one shot deal."

However, Leary added that Marist has an open campus, so there is always a possibility that a dangerous element can come onto campus. "He said if people see something out of the ordinary, they should report it to security right away.

"I definitely feel threatened by something like this," said Flanagan.

"You should try to patrol around this area more, especially the darker wooded areas behind the Townhouses," she said.

Leary said that security will give special attention to the area in the future but that extra patrols cannot be added because security doesn't have the necessary manpower.

Registered parties catch on; lively up North End social life

by SCOTT DAILY
Managing Editor

"Jell-O spots, potent punch and Village People records all add to a good time on a college campus," said Jay Murray, a resident of Townhouse A-1.

"It doesn't change what I have to do," said Murray, "I'm just not going to be there."

Another senior, Cadet Henry Armstrong, said he was looking forward to the weekend with the freshmen and the sophomores.

"People who really wanted to do ROTC can't now or who had just gone doing it," said Armstrong. "I'd hate to be in their shoes."

"At first it was definitely a shock," said Russell. "When I found out about it, I was at Ft. Bragg (in North Carolina). It was like some of the freshmen, 'Hi, your school's closing.'"

However Russell maintains his work has not been influenced by the situation. "It doesn't change what I have to do."

Radio station expanding, 'looking forward to big year'

BY CINDY DONALDSON Staff Writer

There was spent defining New York on the position of making the things where the field and unique has a few more years of the Manhattan. Allowing the movement of the station's position and before changes this year. The station is about to move the radio station's new home to Marist. A new building expansion will be completed in 1990, and the station will move to the new location.

The expansion of Marist radio station (WMCR) is a major event for the station and its listeners. The new facility will provide state-of-the-art equipment and a larger studio space for the station's programming. The station's new location will also allow for more community involvement and greater accessibility to students, faculty, and staff.

Changes at WMCR began last summer when the station purchased $1 million in new equipment and broadcast equipment to prepare for the new facilities. The station has been in operation for 35 years and has been an important part of the Marist College community. The station is currently seeking additional funding to complete the expansion project.

The station's new location will provide additional studio space for the station's programming. The station is currently seeking additional funding to complete the expansion project.

Marist College has made a commitment to support the station's expansion project, which will be completed in 1990. The station's new location will provide additional studio space for the station's programming, which will be increased to accommodate more programming and increase the station's audience.

Buy an IBM PS/2 before December 31 and you can really take off.

Anywhere in the continental U.S. or Puerto Rico for only $149.

The sky’s the limit when you purchase an IBM Personal System/2 before the end of the year. You receive:

• TWA® Certificate good for a round-trip ticket for $149 off-peak and $249 peak season**
• Free TWA Getaway® Student Discount Card
• Special offering on PRODIGY

Use your TWA Certificate to travel to any TWA destination in the continental U.S. or Puerto Rico. Head for the beaches. Take off for the slopes. Or visit the folks back home.

Save on future trips, too. Apply for a free TWA Getaway Discount Card to receive a 10% discount on future TWA travel. TWA has waived the annual application fee.

In between trips, tap into a wide world of information whenever you want with the PRODIGY service. For only $99 you receive the PRODIGY Start-up Kit, a software connection package and three months of service.

So buy an IBM PS/2 before December 31, 1990...It’s the right time to get on board with a PS/2.

Dominic Guadagnoli
Collegiate Representative
(914) 575-4205

There’s an IBM PS/2 made for every student body.

IBM PS/2
Model 30 286 (US)
IBM monochrome 4MB fixed-disk drive 8513 Color Display Preloaded software: IBM DOS 4.0, Microsoft Windows 3.0**, hDC Window’s Utilities*, hDC FirstApps
$649

IBM PS/2
Model 55 5SX (US)
2MB memory 30MB fixed-disk drive 8513 Color Display Preloaded software: IBM DOS 4.0, Microsoft Windows 3.0**, hDC Window’s Utilities*, hDC FirstApps
$2,349

IBM PS/2
Model 55 5SX (W61)
2MB memory 60MB fixed-disk drive 8513 Color Display Preloaded software: IBM DOS 6.0, Microsoft Windows 3.0**, hDC Window’s Utilities*, hDC FirstApps
$2,599

Whether you need a computer to write papers or create graphics, charts and spreadsheets, there’s an IBM Personal System/2 that’s right for you.

The IBM PS/2 family of computers has everything you asked for...including preloaded software, a special student price and affordable loan payments.** All models come with IBM DOS 4.0, Microsoft Windows 3.0, 3.5-inch diskette drive and an IBM Mouse.

Try one on for size. We’re sure you’ll find one that fits just right.

And if you buy before December 31, 1990, you’ll receive a TWA® Certificate entitling you to a round-trip ticket for $149/$249. Plus a free TWA Getaway® Student Discount Card application. You’ll also get a great low price on the PRODIGY service.

$60 Handling Fee.

*This offer is available only to qualified students, faculty, and institutions that purchase IBM Selected Academic Solutions through participating campus locations. Prices quoted do not include sales tax, handling and/or processing charges. Check with your institution regarding these charges. Orders are subject to availability. Gartland needs phones

With the implementation of the new telephone system this semester, the college’s communications and technologies have taken another step forward. Brought on line in just a few months over the summer, Marist’s office of information services, IBM, New York Telephone and Rochester Telephone have provided the community with a faster and more efficient system.

By this mid-term period students and faculty have adjusted to some of the added features, most notably the phonemen function. This allows callers to leave messages on a built-in answering machine service, eliminating the need to deal with answering machines.

Now that the novelty is wearing off, the next step must be taken: booking up the extra lines. Houses of the former system in these areas are in bad shape, and need to be replaced. Both lines and service above the years has made a permanent mark, and some phones may sound as if they used to be here for good.

And along with that, the initial take-off of the Gartland Commons Apartments have been made. As the community of the Gartland Commons Apartments is now available, more than to students, there are more than a dozen phones that can be dialed to New York Telephone to install these lines.

Typically, residents of those apartments dial Marist’s main number, and are connected to the proper extension. We can expect that a few weeks each fall, these students, who have a severe lack of communication with the college since they are without regular phone service until New Years Eve, will be able to use these phones.

The College has chosen to install these phones. The Commons Apartments are the residence of the Commons apartment residents are the residents of the Commons Apartments.

The Commons Apartments are comprised of two or more floors. These apartments have been modified to include the following amenities: Hot Water, Lighting, Telephone, Television, and Internet Access.

The apartment is designed to accommodate all the students in the community and provide them with a comfortable environment.

Environmental trouble claims more victims

Many of us have to struggle with the reality of environmental pollution. The problem is not just about the immediate impact on the people and the land. And probably the most important thing we can do is to make sure that the problem is not ignored.

The term "environmental pollution" is used to describe the condition of the environment. This condition is caused by human activities such as industrialization, transportation, and agriculture. These activities have been responsible for the degradation of the environment.

One of the main challenges we face today is to make sure that people are aware of the problem and that they take initiatives to improve the environment. It is important to remember that the environment is a shared resource, and that we all have a responsibility to protect it.

Thinking Between the Lines

Olympics make for a special weekend

by CHRISTIE HOGRASS

Last Friday night I went to a place where I didn't really want to go. I was tired, I was bored, and I was hungry. But I went because I knew that it was something I had to do. I put on my best clothes and made my way to the city center, where I knew there would be a lot of people.

We arrived at the arena and found our seats. The crowd was already starting to gather, and I could see the excitement in everyone's eyes. I sat down and waited for the show to begin.

The athletes had already started their warm-up routines, and I could see them preparing for the performance of a lifetime. I watched as they stretched their muscles and focused their minds, ready to give their best.

Before the start of the event, I stood up and announced the names of the athletes who would be competing. The crowd roared in excitement, and I knew that this was going to be a special night.

The first event was the 100-meter dash. I watched with bated breath as the athletes took off down the track, their bodies moving with grace and power. It was a close race, but I was thrilled when the winner crossed the finish line.

Next came the long jump, and I was amazed by the distance the athletes were able to jump. It was a thrilling event, and I couldn't wait to see what would come next.

As the night progressed, the events continued to amaze me. I watched as the athletes pushed themselves to the limit, their bodies covered in sweat and tears.

The most令人印象深刻的 event of the night was the men's 4x100-meter relay. I stood up and announced the names of the athletes who would be running for gold. The crowd was electric, and I knew that this race would be a highlight of the evening.

The relay started, and I watched as the athletes took off down the track. Each runner gave their all, pushing themselves to their limits. It was a nail-biting race, and I held my breath as the last runner crossed the finish line.

The crowd erupted in applause as the gold medalists were announced. I felt a sense of pride and joy as I watched the athletes receive their hard-earned medals.

As the night drew to a close, I reflected on the incredible events that had taken place. The athletes had given their all, and their performances had left a lasting impression on me. I was grateful to have had the opportunity to witness such a special event.

As I left the arena, I felt a sense of satisfaction knowing that I had been a part of something truly remarkable. The Olympics had made for a special weekend, and I was honored to have been a part of it.
Gridders winning streak snapped by Coast Guard

The United States Coast Guard Academy downs Marist 29-0 last Saturday, handing the College football team its first loss of the season.

"As a group, we just didn't come together," said Pardy. "They were a solid team that had a strong ground game.

The Cadets finished the game with 304 yards on the ground. Marist, on the other hand, had 46 yards rushing and only 90 total yards on defense. The O'Donnell completed just 11 of 28 passes for 147 yards, and five interceptions. On the defensive side, Kevin Talley rambled in from the one-yard, fourth-and-goal situation to make the score 15-0. Talley scored again in the third quarter when he scampered 10 yards to make the score 29-0.

Coast Guard wrapped up the scoring late in the third quarter on yet another running back carry. This time it was Rick Werner who scored on a 14-yard run with 2:41 left in the third quarter giving Coast Guard a 29-0 lead.

"We were really at full force," he said. "We were a lot like us, they played a game that matched ours.

The University at 3 p.m. Results of conference foe Fairleigh Dickinson were not available at press time. The Red Foxes return home on October 27, when they will play host to perennial power St. John's University. Marist will finish the season with games against conference foes Siena and Brooklyn.

World Series thoughts... among other things

There is times when it is hard to come up with one particular issue to talk about for 900 or so words. Because of mid-terms and various other reasons, this is one of those things. For so the next 875 words I will tell you about various things in the world of sports as they pop into my head.

Despite losing game one, Oakland appears to be the wild card still in the Fall Classic without. "The A's have a lot of heart," said one sports editor. "It is going to have to be a solid effort." Speaking of awards, what about the American League MVP? There are those that say Rickey Henderson should get it because he is the "most valuable" to his team, the A's. Then there are those that say it should go to the league's all- star management. This year the best player happens to be Cecil Fielder of the Detroit Tigers.

Gridders winning streak snapped by Coast Guard

"We felt we could have won last year's game," he said. "They were able to put the game away late in the fourth quarter. Our whole game will be fine against them. We feel that we have a good shot again this year, but they are a very solid team all-around." "We need to get back to doing some good things," said Pardy. "We are going to straighten out some mistakes and hopefully, everyone will come together on the field. It is going to have to be a solid effort." Despite losing to Coast Guard, Pardy said it is too early to start worrying about an end-of-the-season collapse.

"It's not time to push the panic button," he said. "We're a good team, we'll turn it around." Last year, after opening the season with a 3-1-1 mark, the Reds finished the season 4-5-1. The Red Foxes return home on October 27, when they will play host to perennial power St. John's University. Marist will finish the season with games against conference foes Siena and Brooklyn.

The point-two conversion made it 8-0, Cadets.

"They were a real fine football team," said coach Rick Pardy. "We needed to play mistake free football in order to best them and we were unable to do that.

Coast Guard wasted no time scoring its second touchdown. On the next possession, Kevin Talley rambled in from the one-yard, fourth-and-goal situation to make the score 15-0. Talley scored again in the third quarter when he scampered 10 yards to make the score 29-0.

Coast Guard wrapped up the scoring late in the third quarter on yet another running back carry. This time it was Rick Werner who scored on a 14-yard run with 2:41 left in the third quarter giving Coast Guard a 29-0 lead.

The United States Coast Guard Academy downs Marist 29-0 last Saturday, handing the College football team its first loss of the season.

"As a group, we just didn't come together," said Pardy. "They were a solid team that had a strong ground game.

The Cadets finished the game with 304 yards on the ground. Marist, on the other hand, had 46 yards rushing and only 90 total yards on defense. The O'Donnell completed just 11 of 28 passes for 147 yards, and five interceptions. On the defensive side, Kevin Talley rambled in from the one-yard, fourth-and-goal situation to make the score 15-0. Talley scored again in the third quarter when he scampered 10 yards to make the score 29-0.

Coast Guard wrapped up the scoring late in the third quarter on yet another running back carry. This time it was Rick Werner who scored on a 14-yard run with 2:41 left in the third quarter giving Coast Guard a 29-0 lead.

"We were really at full force," he said. "We were a lot like us, they played a game that matched ours.
