Heavy rains spark drainage problems in LT and Dyson

by ILSE MARTIN

Maintenance is repairing an underground pipe that broke last week in the Lowell Thomas Communication Center and caused some water damage to the basement, said Marc Adin, assistant executive vice president.

The pipe may have been broken for some time, but heavy rains signaled its failure. The physical plant will leak water into the basement and soaked carpeting Adin said. Maintenance crews have been cleaning the rug this week.

The pipe leads to the front foundation of the building, and Adin said he is unsure what caused it to break.

The rain did cause flooding in the main entrance to the Charles Helen Curtin last Tuesday night, according to Mark Sullivan, executive vice president.

It apparently came from an underground blockage in one pipe on the east side of the building, which drains water from the roof, said Sullivan.

Water drains from the roof via pipes that run underground to the Hudson River. Adin said someone was most likely working on the roof and some debris fell into the conduit, causing the blockage.

There was no damage to the building, water was mopped up Wednesday from the hard surface in the entrance to the center. And fiber optic cameras have been put underground by the builders to better detect the problem, according to Adin.

“We are glad to see it happen when the building is new, so we can correct these problems,” Adin said.

The pipe break in Lowell Thomas is unrelated to previous problems that flooded the basement of the building, Adin said.

Sophomore scarred in incident as off-campus assaults continue

by CINDY DONALDSON

The face of a Marist sophomore was severely cut by an unidentified man in the City of Poughkeepsie, making him the latest victim of violent crimes against students in the city.

Sean Hynes, from Summit, N.J., said the man approached the car in which he was sitting and slashed his face with what doctors said they believe to have been a bottle.

Hynes received 50 stitches from the middle of his forehead and across his eyelid on the right side of his face on Oct. 20.

The attack occurred at a stop light at the corner of Catherine and Mill Streets at about 2 a.m.

A spokeswoman at the City of Poughkeepsie Police Department said the police did not respond immediately because they knew Hynes was being treated, that the perpetrator would have already fled the crime scene, and nothing could be done immediately since the police had not been at the scene of the crime.

Hynes said he remembers being hit but does not remember much about the attack, the incidents leading up to the attack or the examination at the hospital. He said the doctors attribute his loss of memory to shock.

Both Hynes and Banigan said the attack was unprovoked.

New MIPO poll results out: show Cuomo still has big lead

by JIM SAVARD

The poll surveyed 1,032 registered voters on Oct. 18, 22 and 24 by telephone. Elections are Nov. 6.

Results also show recognition of Cuomo's name is currently at 99.7 percent. His closest opponent, Pierre Rinfret has a name recognition of 73 percent. London and Wein have name recognitions of 53.4 percent and 35.3 percent respectively.

A total of 64.7 percent of likely voters said that they would strongly support a candidate at present and 13.1 percent indicate that they may vote for a different candidate on election day.

Gov. Cuomo has 67.8 percent of the voters firmly committed to him currently, as opposed to Rinfret's 50.2 percent. London and Wein both have stronger commitment from their electorate, they had 63.1 percent and 62.8 percent respectively.

The results show that Rinfret's support is weakening among his supporters and Cuomo, London and Wein have increased support from their electorate.
Classifieds

Education and the Media will be the theme of the Radio Television News Directors Conference, to be held at the Marist Student Center on Saturday, November 3, in the Campus Center.

Vera T. H. White, director of the Voice of America, and Irwin H. Davidson, president of the Library of Congress, will be the keynote speakers at the conference, which will be held from 8:30 a.m. to 1 p.m. Please call 575-3000, extension 2270, for information.

Keeping In Shape

A "Gam-Bel-Fling," sponsored by the Student Activities Committee at the Charles Dining Hall, will be held at 9:30 p.m. on Saturday, November 3, to be immunized against measles, mumps, rubella, and German measles. A $10 registration fee is required, which includes a $5 donation to the Nubian House in Pawling. Tickets may be purchased at the Student Activities office in the Charles Dining Hall. For information, call 575-2146.

A "Maze-Bel-Fling," sponsored by C.A.M.B., will be held at 9:30 p.m. on Friday, November 2, at the Student Activities Center. Tickets are $10 at the door. Reserve your spot through Prof. Albert Stridsberg, in Lowell Thomas.

Football Follies

The annual Radio and Television News Directors Conference, to be held at the Student Center on Saturday, November 3, from 9 a.m. to 10 a.m. in the Student Center. The conference will feature several national figures, and speakers will include "The President's Press Conference," "The President's Press Conference," "The President's Press Conference," and "The President's Press Conference."

Liberian crisis has Marist connections

Civil War closes high school, violence worries native student

While the Marist Catholic community continues to monitor the political and military situation in Liberia, the campus has been affected by the civil war in the country.

Joseph Camara, a Liberian native, has been living in the Marist College community since 1988. He has been a member of the Josephite community at the Charles Dining Hall, where he has been a valuable asset to the community. The school has been affected by the war in Liberia, and the community has been trying to support the Liberian people.

The Circle

In the last article we focused on the need for support and understanding of sexual diversity in our college community. The College has taken several steps in the past year to address the issue of diversity, but there is still much work to be done.

The majority of students at Marist College are comfortable in their new post. More and more students are involved in organizations and clubs that represent different aspects of diversity. This is a positive step for our college community.

Is life incomplete without a mentor?

by JANET DESIMONE

I learned in psychology class back in sophomore year that finding a mentor is essential in order for a person to develop fully. So when I was looking for a mentor this summer, I decided to approach the outstanding leader that I admire very much - yourself. I am sure that you would never have said that you have no time for a student, and I am happy that I was able to make an appointment with you.

I am a junior at Millerton High School and I am very interested in psychology. I have read all of your books and I continue to be inspired by your work.

The reason I am writing to you is to express my gratitude for taking the time to meet with me and to share your insights with me. I feel very fortunate to have had the opportunity to learn from you.

Thank you again for your time and for your generosity in sharing your knowledge with me.

Sincerely,

[Signature]

**Further debate on abortion**

**Human rights is the issue**

**What about the victim?**

**Editor:**

I believe that Nathan Strong should have put aside his personal feelings of guilt (The Circle, Oct. 18, 1990). The fact that he was able to come up with a solution to this ethical problem, no matter how distasteful, shows that he is truly a man of integrity.

**Editor:**

I was a reader of the March 27th, 1990 issue of The Circle and was disturbed by the article on the recent debate on abortion. While I agree that human rights is the issue, I believe that the victim of abortion should also be considered.

**Editor:**

I agree with the statement that the victim of abortion should be considered. However, I believe that human rights is the issue. The right to an abortion should be protected and not take into consideration the victim of the procedure.

**SYNOPSIS**

This is a synopsis of Dr. Key's presentation on subliminal advertising.

Dr. Key has a Ph.D. in psychology and is a leading authority on subliminal advertising.

He presented evidence that subliminal advertising can work in a small group of around 50 students and that it is effective at conditioning people in a group setting.

The demonstration, which incorporated castration projections, was designed to illustrate the need to reconsider the issue of subliminal advertising.

Dr. Key explained that people are conditioned to make unconscious judgments when choices present themselves, and that these unconscious judgments are based on subliminal stimuli.

Therefore, it can be argued that subliminal advertising is a tool that can be used to influence people's decisions.

However, it is important to consider the ethical implications of using subliminal advertising.

Welcome EEE Pledge!
Hockey ties in season opener

By MIKE O'FARRELL

The Marist Hockey Club open­
erd its season with a 2-2 tie
against Fordham University at
Coffey Rink Tuesday night.
Head coach Bob Martin said
that the game was a good
learning experience for his team.
"We got a lot of teaching
out of it," Martin said. "The
score was not important to
us," he said. "We wanted to
learn from the game."

The Red Foxes scored first in
the second period, when senior
John St. John scored after a
defensive mishap by Fordham.

"They're a really strong
defense," Martin said. "They
played really well."

The Red Wolves tied the game
in the third period, when
defender Joel Sanders scored
on a penalty shot.

Martin said the tie was a
bit of a heartbreaker," said
Martin. "We had a good
tournament and we were
able to win some games."

The Marist Hockey Club
will play again Saturday
night against St. Francis
College at 7 p.m. at Coffey
Rink.

Women’s tennis ends in win over St. Francis

By MIKE O’FARRELL

The Marist women’s tennis
team won its final match of
the regular season on Sunday,
defeating St. Francis College
by a score of 5-0.

The Red Foxes won all five
doubles matches, with the
number one team of Sarah
Critelli and Jodie Moore
winning 8-5. The number two
pair of Sarah Solin and
Kerry Brown won 8-1, and
the number three pair of
Laura Aiken and Laura
Cenicola won 8-4. The number
four pair of Melanie Faust
and Lou Adams won 8-3, and
the number five pair of
Jessica Cenicola and Nancy
Covello won 8-2.

The Red Foxes ended their
season with a 9-2 record,
which was their best record
in school history.

"This was a good showing for
our team," said Doris.
"The scholarship money will go
towards the best benefit packages
in the nation for our athletes,"
said Doris.

Each school will also receive
an assist from Doris.

"We are stronger than last
season," said Doris. "We are
playing well, and we are in
the stronger division this
year."

We’re NOT JUST
AMERICA’S BIGGEST
INSURANCE COMPANY.

MOONEY

Became Marist has expanded its
athletic program to include
ice hockey and a new Division
I program in the fall of 1990.

"The only problem we have is
how to market the program,"
said Doris. "We are getting
some interest from the campus,
but we need to find a way to
market the program.

Marist will be adding football,
softball, and indoor and outdoor
track beginning in 1991.

Each school will also receive
opportunities that take you
through management.

"We can’t be real upset," said
Doris. "We are getting some
interest from the campus,
but we need to find a way to
market the program."
College is for learning, not just for athletics...
Red Foxes rich with talented newcomers

by MIKE O'FARRELL
Sports Editor

When the men's basketball team opens its exhibition season Saturday night, there will some players on the bench who haven't played in a game in years. Gone from last year's squad are Curtis Celestine, Jackie O'Neil and Steve Paterno. His replacements this year are the two Prop21 players from last year.

Leading the list of newcomers is 6 foot 7 inch guard Fred Ingles, who played at Allegheny College in Pennsylvania in 1989 before transferring to the Northeast Conference Newcomer of the Year. "He is a tremendous athlete," said Magarity. "He has the ability to be an instant scorer and makes the defensive play." Ingles' 19 points and 8 rebounds against Vegetarian in his senior season were the type of performance that he will provide the Red Foxes with this year.

The other 6 foot 7 inch新 entrant, Chad Weikert, a 6 foot 2 inch forward from the Netherlands, is still learning, but he has shown that he is a player and that he has a good chance to be a key player for the Red Foxes. "He is a hard worker and a good role player," said Magarity. "He is a bit rusty but he is getting better every day. He is a big asset in the starting lineup." Magarity added: "He gives us another scorer." Ingles and Weikert will provide the Red Foxes with a solid front line and quickness in the back court.

Circle photo/Laura Soricelli

Newcomers Kurt Buchanan and Wibert den Ouden work out in a recent practice. The Red Foxes will dress seven newcomers for the 1990-91 season.

Silent seniors providestability on court

by MIKE O'FARRELL
Sports Editor

When basketball season ends in March, much of Marist's success will fall on the shoulders of George Siegrist and Danielle Galarneau. The 6 foot 3 inch Reasbeck, who stands 6 foot 9 inches at the free-throw line, will provide the Red Foxes with a solid front line and quickness in the back court.

George Siegrist, who started all 33 games, is the heart of the team. "He is a hard worker and a good role player," said Magarity. "He is a bit rusty but he is getting better every day. He is a big asset in the starting lineup." Magarity added: "He gives us another scorer." Ingles and Weikert will provide the Red Foxes with a solid front line and quickness in the back court.

When basketball season ends in March, much of Marist's success will fall on the shoulders of George Siegrist and Danielle Galarneau. The 6 foot 3 inch Reasbeck, who stands 6 foot 9 inches at the free-throw line, will provide the Red Foxes with a solid front line and quickness in the back court.

George Siegrist, who started all 33 games, is the heart of the team. "He is a hard worker and a good role player," said Magarity. "He is a bit rusty but he is getting better every day. He is a big asset in the starting lineup." Magarity added: "He gives us another scorer." Ingles and Weikert will provide the Red Foxes with a solid front line and quickness in the back court.

Last year was senior's best effort. Able to play forward and guard, she was more effective offensively in the forward slot. She is one of the better all-around athletes on the team and arguably the most well-rounded player. For the Lady Red Foxes to have any kind of success at all this year, Babineau must do the brunt of the inside scoring to open up the outside shooting for the guards.

"Danielle does so many things well for us," said Babineau. "She will be a key part of our success. Not only does she score and rebound, but she does the little things like drawing a charge, too."

When you think of outside shooting on this team, one name should come to mind — Nancy Holbrook.

For the second straight year, Holbrook led the NEC in three-point shooting. She drained shots from behind the line at an astounding 40 percent. Holbrook had a higher shooting percentage from behind the three-point line, than in front of it. Although much of her time was spent at point guard, Holbrook was third on the team in scoring, averaging 11 points per game.

This year, Babineau hopes to allow Holbrook the opportunity to see more time at the shooting guard position. Her natural and most effective position. However, this plan will depend mostly on how effective the other point guards play. Last year, besides being the best three-point shooter, Holbrook was at times the best point guard. For Marist to win 20 games this year, someone else will have to play an adequate amount of point guard position to allow Holbrook to shoot more often.

The person to assume the point guard slot will most likely be Claudia Butler. Butler, a junior, saw action last year after sitting out a year due to her transfer from Boston University. She averaged almost 12 minutes of playing time last year, usually backing up either Maureen Dowe or Holbrook. Since Dowe has graduated, the job seems to be Butler's. Last year, Butler averaged 2 points and 2 assists per game.

Other key members of a very deep backcourt include senior Mary O'Brien, and freshmen Janice Awas and Cynthia Carroll.

Last year, O'Brien played both the point and shooting guard positions and will be called on to do so again this year. A shooter with good three-point capabilities, O'Brien is a natural shooter but fills in at the point guard slot very well. Last year, she averaged five points, two rebounds and two assists per game, despite playing with a torn quadriceps muscle and in a knee brace.

Red Foxes unveiled new kids on the court

Jeanine Radice (assistant coach) — Ok, so Radice will not actually be a student this year, she is still an integral part of the Marist basketball family.

Radice came to Marist from Fordham University where she graduated with a psychology degree and a master's in education.

Jeanine Radice — Collins may well be the best all-around athlete on the team. She will see a great deal of playing time. Collins comes to Marist from Mitchell College in New London, Ct. She brings with her an impressive resume.
