Now North Road is the site of a new evaluation of college management and discipline. As part of this process, N. Road residents have complained to the press about the condition of their homes and the maintenance services provided by Marist. In response, students have organized a series of protests and demanded better living conditions.

The Long Island Pet Memorial, a local business that offers pet cemeteries, has also been affected by the attention to the N. Road issue. The business has seen an increase in inquiries about pet burials, causing the owners to reassess their services and policies. The owner, a Marist alumnus, has been in contact with the college administration, expressing concern about the lack of accountability for the quality of services provided to students.

The college administration has responded by issuing a statement, acknowledging the problems and committing to improving the situation. They have also apologized to the residents and promised to take immediate action to address the issues raised. This response has been well-received by the affected students, who have called for continued oversight and accountability from the college.

In addition to the college's response, Marist's paralegal department is conducting research on the legal aspects of the situation. A student intern, N. Road resident, has been working closely with the department to gather evidence and advocate for change.

The situation highlights the importance of community engagement and the need for transparent and accountable governance. It also underscores the value of student organizations in advocating for their rights and the importance of media coverage in bringing attention to these issues.

In conclusion, the N. Road situation is a reminder of the ongoing need for reform in college governance and the importance of student participation in shaping their educational experiences.
Necessary Roughness", the same old thing

By Brian McNelis

"Necessary Roughness" is a new film starring Scott Bakula, a rather unexpected choice for an ex-NCAA football star. The movie is about football, but it's not your typical football movie. It's the story of a former football player who returns to his alma mater to take charge of the football team. It's a story about scandal, drama, and the pressure of high school football.

Soviet professors say education differs

Soviet professors say education differs from American standards. According to a recent report, the Soviet system focuses more on practical skills and less on theoretical knowledge. However, some professors argue that the Soviet system is outdated and needs to be reformed to meet the needs of today's society.

Marist prohibiting weekday guests

Marist College has prohibited weekday guests from staying on campus to prevent disruptions and maintain a safe environment for students. The policy comes in response to a rise in incidents involving guest behavior.

Respected author and professor to lecture at Marist

Professor Jonathan Carroll will be giving a lecture at Marist College on the topic of literature. Carroll is a well-known author and professor, and his lecture is sure to be a popular event among students and faculty.

From weddings and education to fashion, students describe experiences abroad

Students who study abroad share their experiences with others. Some talk about the culture shock, others about the academic challenges, and yet others about the fun and excitement of exploring new places.

Students and faculty question Thomas nomination

The nomination of Thomas to the Supreme Court has sparked debate among students and faculty at Marist College. Some express support, while others voice concerns about his qualifications and past actions.

Letters to the editor

Internships available

Dear Editor:

You could be walking the halls of the New York Times or at the Arab League during the Persian Gulf War. But which are you more likely to do? You may not be able to answer that question, but you can get close to it by making the decision to apply to any of the available internships. The opportunities exist for you to work for a major New York newspaper or to work for the Arab League. In either case, you will be able to gain valuable experience that will prove to be an asset to your future career.

In the past, bass had students working at the Arab League, the United Nations, and the Commission, Senator Joe Biden's Washington, D.C., office. But what if you are a person who wants to work in international relations? Are you aware of the opportunities available? Are you aware of the positions that are available? Are you aware of the benefits that come with each position? If you are, then you can apply for an internship and begin your journey towards a fulfilling career.

The specific charges given to the students who are interested in the positions are available in the Middle States Self-Assessment progress reports submitted in May 1996. The Steering Committee encourages students to ask questions or suggestions for a particular subcommittee to attend the meetings. The Middle States Self-Assessment Steering Committee

Why are you being laughed at?

By AMY ELLEN BENDE

2. You kiss the car seat next to you, imagining that you are the last person who sat on it.

3. Ten years down the road comes a clicky switch for a subcompact.

4. You find out that your pants are wet.

5. People look at you funny while you are driving.

6. It is your second trip of the night to the Donnelly cash market.

7. You know it's time to go home when... (Remember, there are true stories too.)

8. You find out that you have a new roommate.

9. You hear a lot of people talking about you.

10. You lose the car you rent you, imagining that your last visit to the city was in 1996.

11. You tell people that you are going to be a president.

12. You say that you are going to be a president.

13. You agree to drink anything, with anyone, if you're not paying.

14. You tell everyone in the bar, "Look at me now!"

15. You hand your boyfriend a gun.

Gridders romp, streak continues

by MIKE O'FARRELL
Sports Editor

The football team will try to keep its Atlantic Collegiate Football Conference winning streak alive when it hosts St. John Fisher College this Saturday.

Dating back to the 1989 season, Marist, the defending ACFC champion, has won seven consecutive conference games.

Last year, the Red Foxes opened the season with a 17-7 victory over St. John Fisher.

The results this year could be somewhat lopsided. St. John Fisher has been outscored 103-9 in its last two games.

Last Saturday, Marist extended its streak with a 46-21 win over Gallaudet University. The 46 point outburst establishes a new school record for most points in a game.

Marist, Sylvia chose Marist because...
