The recent spell of winter weather took its toll on the James J. McCann Recreation Center, when a pipe exploded causing an estimated $50,000 in damages, McCann staff said. Close to 250 people had to be evacuated as fire alarms rang throughout the building, employees said.

"I didn't know what happened. We had to go to the second floor," said Srinivas Velamati, a McCann supervisory officer. This included many swimmers from the pool, clad in nothing but their suits.

The pipe, part of McCann's mile-long sprinkler system, froze above the basement office block in the administrative wing. Mike van der Heyden, director of Dr. Howard Goldstein's office was inundated with approximately half a foot deep in areas, which flowed into the foyer and out the front doors.

"There was about an inch of water flowing from the offices into the hallway and out the door," said Mike van der Heyden, the McCann mechanic. "That's why all the ice is out there.

Sullivan, who was in McCann on his day off to play racquetball, was able to fix the pipe to prevent any further damage.

"It may not be as bad as originally thought," said Gene Doris, director of McCann Athletics. "However, you can't put a price on inclement weather.

A Christian Youth Organization basketball game as well as intramural basketball games were cancelled on Sunday night, however, all other events will be held as originally scheduled.

"When I first heard that a pipe had broken I thought we had lost the basketball court floor," said Doris, recalling similar events during his tenure as AD at Fordham.

"Insurance will probably cover most of the damages, but we may have to lease a new copier," he said.

The damages included two computers, books, trophies, financial and medical records, as well as all of the merchandise sold at basketball games.

Most of the original documents are in the financial office, but it still puts a lot of pressure on us," Doris said. "You always have to be prepared for difficult for an extended period of time.

Mike Mallet's office was hit hardest by the flooding. Mallet's desk was directly under the broken pipe.

"Was it like standing under Niagara Falls," said Mallet, assistant athletic director. "It was one of the more interesting things that have happened to me since I've been here.

"Unfortunately, all of the photos and other items I had in my desk have been destroyed," he added. Administrative Secretary Karen Karo also lost many of her belongings.

"My kid's insurance papers are sitting underneath my desk and there was still water in the Pedavolini's desk. "The corner in today to check on it," said Karo.

Like Doris, she was taken by surprise due to the turn of events.

"After I was called about what happened, I expected the ceiling was going to break. I didn't expect to see water coming out," Karo said. "I had to hold a bucket over Mike's desk. I didn't want to lose anything or damage some of the belongings."

Marist may stick needle in Fashion Show's money cushion

by CAROLINE JONAH
Assistant Editor

A pin cushion may be more attainable for the fashion program than the "cushion" requested to finance the 1995 Silver Needle Fashion Show and Awards.

President Dennis J. Murray and Dr. Marc van der Heyden, vice president of Academic Affairs, met with fashion students and the new Fashion Director Moya Donnellan last Wednesday to discuss the fashion program's growing concerns about the financing of 1993. Murray announced that he would be more concerned with the show than in previous years.

"I think the meeting went very well," said Padovani. "We agreed to stand behind us." Padovani, head of the show, said he was not influenced by any one event. Padovani said that Planned Parenthood was not coming to campus to discuss pregnancy or abortion.

"They are coming to campus to talk about sexually transmitted diseases and AIDS," said Padovani. "We didn't feel that the movies portrayed healthy relationships," Padovani said. Organized movies were changed due to the "playing to the crowd." Padovani said that Planned Parenthood would not talk about abortion, said Padovani citing a need for both sides of the issue to be discussed.

Regardless of the tour dispelled that fear by printing, "It's plain and simple: Don't just do it."

According to Kelly, this assured officials that Planned Parenthood was not coming to campus to discuss pregnancy or abortion. "We don't feel comfortable giving students condoms," said Padovani. "If a student wants condoms they can go to a grocery store and put down their money. I think we look at the student as an adult or individual. It's not up to us to dispense condoms.

Condoms will be available during the tour, said Kelly, but R.A.'s and staff members will not be actively distributing them.

The condom twist game, the safe sex information bags and the visit from Planned Parenthood were approved by the administration after a meeting with Kelly on Feb. 1.

"Our concern is that Planned Parenthood wouldn't talk about abortion," said Padovani citing a need for both sides of the issue to be discussed.

Organizers of the tour dispelled that fear by printing, "It's plain and simple: Don't just do it."

Cafeteria Charlie: he isn't just another pretty face by CHRISTY GREEN

The allure of the hill beckons February 11, 1993

The scenery is breathtaking, the 50 mph wind blowing your hair around, and the ice cold air making you feel as though you're about to die. That is the feeling that Charlie the cafeteria dishwasher must be feeling when he looks out at the stone steps and into the brown building. Charlie is a dishwasher, but he is more than that. He is a person who has a story to tell.

Charlie's story is one of struggle and determination. He was born in 1952 in Seaford, N.Y. and grew up in a working-class family. His parents were not college-educated, but they instilled in him the importance of education. Charlie attended Marist College and graduated with a business degree in 1974.

After college, Charlie worked as a dishwasher at the local McDonald's. It was there that he discovered his love for the job. He enjoyed the fast-paced environment and the camaraderie of his coworkers. Charlie worked hard and was promoted to manager.

In 1984, Charlie was hired as the dishwasher at Marist College's cafeteria. It was a dream come true. Charlie had always wanted to work at Marist and he was thrilled to be part of the campus community. He worked hard to make sure that the students had a positive experience when they came to the cafeteria.

Charlie's hard work paid off. He became a popular figure on campus and was known for his positive attitude and his willingness to go the extra mile for the students. Charlie was loved by the students and his coworkers, and he was a beloved member of the Marist community.

Charlie's story is an inspiration. He shows that anyone can achieve their dreams with hard work and determination. Charlie is a testament to the power of education and the importance of having a mentor. He is a reminder that we all have the potential to be successful if we believe in ourselves and work hard.

In conclusion, Charlie the dishwasher is not just another pretty face. He is a person with a story to tell, a man who has overcome challenges and achieved success. Charlie is a symbol of the American dream and a reminder that anything is possible with hard work and determination. He is a true American hero.
Landfills anyway. Those trees die in vain. Give them a try, then they are as worthless are those Valentine cards you’ll throw that they are seemingly unaffected by a campus and a society rife with subtle students who flung racial slurs at a security guard in the same semester, no one College aims to incidents of racism. Tolerance is a tricky thing. Many people try to use it as a counter argument: ‘That will not work, though. Tolerance is what Marist needs most now. This is a reaction story to President Clinton’s proposed lifting of the ban on homosexuals serving in the military. It is an interracial relationship. Thus far, the couple says it is a successful it, preach it or even consider it. I do not expect anything. I am not writing this column to preach, words are wrong, and frankly, it out of our country. Red Foxes upset Mounties, 76-73
by J.W. STEWART
Staff Writer

After Cindy Carroll scored 14 points last week in a loss to Wagner, Head Coach Ken Babineau said of his team's victory against Fairleigh Dickinson: "I'm going to take that. We don't want 20 from her."

Tuesday night, she was more than happy to take a career-high 20 points off of Carroll, known more for her defense than her offense.

The Red Foxes needed all 20 as Carroll and company upset first-place Mt. St. Mary's (8-2) in the Northeast Conference standings, the last NEC school history 76-73. It was the second straight win for the women, both over teams who were in first place in their respective conferences.

Marist also defeated Fairfield Dickinson University on Saturday 62-60. At halftime, more than 27 points, eclipsing her career high of 16 set Dec. 5 against Bucknell.

"Once I hit the first few jumpers, I felt fine," said Carroll. "Even when there were people coming at me, I didn't hesitate to shoot it like I normally do."

Not to be outdone, freshman center Stacy Dengler tied her career high of 17 points using a variety of post moves and short jumpers outside the lane. "Everyone knows I go to my left," said Dengler, also from Penn-Hamlin.

"Now I'm trying to read my defender and decide which way to go," Baloo said.

Baloo was pleasantly surprised with the scoring tandem from the Quaker State. "Special accolades to Cindy," said Babineau. "She was on fire in the first half.

"And Stacy made some unbelievable moves tonight. She's been staying after practice the last two weeks and hasn't been shooting because he was disappointed with it," he added.

Marist led by as much as 12 in the first half, but the Mountaineers cut the deficit to two at the half and stayed close the rest of the way.

Swimmers place third in Metro Champs
by TEL R. STEWART
Staff Writer

Jean Maguire led a weekend of personal bests for the women's swim records.

The women's swimming team placed third in a field of approximately 13 teams from Division I and the Metro Atlantic Conference Championships on Friday and Saturday.

The two teams who placed ahead of Marist were Fordham and Seton Hall. Marist previously lost to both teams during the regular season.

Goldstein said the team gave their best effort. "As far as points, we were a little too close to the second place," he added. "We did not expect to beat Fordham, but the Mountaineers cut the deficit to two at the half and stayed close the rest of the way.

The McCann Center is in the running as the number one contender for a World Championship fight.

And no, it's not Riddick Bowe versus Lennox Lewis.

Tracy Patterson, the World Boxing Council super heavyweight champion, is considering the McCann Center as a possible site for Patterson's next into defense March 15.

Patterson, a resident of nearby Highland, N.Y., and son of former heavyweight champion Floyd Patterson, is pushing for the McCann Center as the venue to fulfill a promise to bring a World Championship fight to Poughkeepsie.

The fight, which will be broadcast on ABC's Wide World of Sports, pits Patterson (62-1-3, 23 KOs), from Corpus Christi, Texas, in either the McCann Center, or at the Friar Tuck Inn in Catakill.

"I figure it will be the best deal," said Steve Griffith of Madison Square Garden Boxing. "We're only going to make a song and dance about the fans, but that's as far as the McCann Center.

"It's about a 50/50 chance that the fight will take place here," said Patterson, who won the WBC crown by beating Thierry Jacob in June of 1992.

"I would be looking at the area since Sept. 27, 1990 at the Mid-Hudson Civic Center.

The Civic Center has a "Home Show" scheduled for the 12 through 14 weekend, and is out of season for a boxing event.

"McCann could also be a problem if the women's basketball team wins the conference.

The Northeast Conference Tournament Championship could be held at McCann the same day, but only if the team has a late run.

"We could make an adjustment to accommodate the fighters," Doris said.

Patterson, whose last fight was in December when he beat Daniel Zaragoza in France, has been turning to past the couple of years here to home.

"It's nice to look back and say 'I did something for myself and I was glad I reached it,'" Maguire said.

Cheryl Daly, a junior, swam the 400-yard individual medley and the 200-yard medley relay to place second in the 100-yard back stroke and the 200-yard individual medley.

"I'm very pleased with the performance of the swimmers," Doris said. "We have a strong team going on now.

The Manhattan basketball team and men's hockey club scored impressive victories in their conference's last two weekend contests.

On Monday the women defeated NEC leader Mt. St. Mary's (now 8-2 in conference) 76-73. Last Saturday, the Red Foxes dealt Seton Hall University, the NEC's only unbeaten team, 62-60.

Junior Cindy Carroll, freshman Stacy Dengler, and senior play off the bench is taking some of the pressure of Carmine Fidda.

The hockey club scored and impressive 3-2 win over rival Wagner College on Saturday and keeps on top of both ends of the conference, 5-1 in NEC and 9-3 in conference.
