The presidential club cap committee has been restructured under the student body president. Carlson, said he believes the groups focus had nothing to do with the decision. "I've gotten a lot of feedback and they listen to what I have to say," Carlson said. "They take it very seriously when they make their decisions and so, that's the way to bring about a change on this campus."

He will focus on the parking situation on campus and the lack of accessibility for the students, especially among the residents. "That's something I will have to look into before the semester gets out, so maybe next semester we could come up with a solution that will be more acceptable to everyone," he said.

Furthermore, as a member of the business faculty, Carlson enjoys being actively involved in the business and political spectrum for both areas have been interesting. "I look at politics as the best way to help people," he said.

In other unofficial election results, the result's election committee was Emily Chu, Josh Gaynor, Todd Lang, and Luz Martinez.

Carlson said he wants to prepare the students and eliminate the club for next year's sophomore class.

The presidential club cap committee that is designed to research the needs and interests of the students. Those on the original committee include Kate Callahan, Student Senate member; Laura McNeil, student body president; Jenn Nocella, a pledge of the Kappa Sigma fraternity; Stacey Stallkamp, a member of the Sigma Phi Epsilon fraternity; Erin Early, a member of the Kappa Gamma Gamma fraternity; Nick Gillis, student body president; Matt Santiago, a junior communication studies major; and Steve Sansola, a senior in journalism. They are conducting a survey on campus to determine what the students wants in terms of club cap policy. The survey will be conducted from Feb. 7-14.

The Circle conducted a non-scientific poll among students to gauge their interest in the club cap policy. The results show that 785 students were asked to respond to the following question: "Do you think O.J. Simpson is guilty or innocent?"

Guilt-473 Innocent-312

The presidential club cap committee is designed to research the needs and interests of the students of Marist College. The committee was restructured on the weekends, and that it does not get extended to the sophomore class.

As for the club cap on greek organizations, Carlson said the issue is to look at the importance of clubs, while allowing clubs to be actively involved on the campus. Hopefully, under my administration, we'll take a look at it annually to make sure those caps reflect the needs of the students, he said.

Also, a major concern of Carlson is that the Higher Education Opportunity Program (HEO.P.) does not get eliminated because it will hurt some students at Marist.

"There are 57 students on this committee that is finding a new way to do things and they feel that is right," he said. "I will do whatever it is my job, as student body president, of Marist, to ensure that hopefully that won't happen."

His plans include writing letters to Gov. George Pataki trying to convince him that this policy can't be cut off for good students college.

"I think we get pressured and did what he thought was the right thing," Early said.

Gillis said one of the reasons for the change was because the parking conditions on campus were predominantly involved in a Greek organization. Those on the original committee include Kate Callahan, Student Senate member; Laura McNeil, student body president; Jenn Nocella, a pledge of the Kappa Sigma fraternity; Stacey Stallkamp, a member of the Sigma Phi Epsilon fraternity; Erin Early, a member of the Kappa Gamma Gamma fraternity; Nick Gillis, student body president; Matt Santiago, a junior communication studies major; and Steve Sansola, a senior in journalism. reminded of the "daze" days in North Road housing. When these houses went, like the one shown above, they took with them and with them, they took with them the great times of Skinner's Bar with them. Skinner's was the local hangout across from Marist before Fulton St. Cafe was built.

**The Circle**, MARCH 2, 1995

By SIMON COTE

Having an organization or club at Marist College is not only fun but something you can take one more task off your college plate. I know what you're thinking. What do you mean an organization or club on the plate? Well, if you have been on campus for more than a month, then you have probably noticed the students and faculty involved in these activities. There are just too many to count but this is one of the things that you can do to make your college experience more enjoyable.

- **State of the art comes to Marist**

ELIZABETH BROPHY

Marist College's newest addition, the Da Vinci Room, is located on the second floor of the Information Services Department. This room is dedicated to our computer generated art and our multimedia tools such as CD-ROM. It will be open to any student interested in or needing to use multimedia tools. The machines are connected to the server. The machines are very helpful and supportive," said Lind. When Christ is not spending her time with her family, she enjoys spending time visiting her childhood home. "I just had four great years of experience in advertising, Christ holds a B.A. from Syracuse University in advertising and has studied abroad at the Agnus National Television Program and at the BBC in London," she said. "I was interested in traveling and learning about other cultures."

- **Memories from the past**

Marcia Christ, Professor of Communications

Marcia Christ recently returned to Marist College to teach. "I just had four great years of experience in advertising, Christ holds a B.A. from Syracuse University in advertising and has studied abroad at the Agnus National Television Program and at the BBC in London," she said. "I was interested in traveling and learning about other cultures."

- **New faculty getting acquainted with Marist community**

New faculty getting acquainted with Marist community

"I had just heard about some faculty getting acquainted with Marist community," said Dr. Shaffer. "The da Vinci Room will occasionally be open to any student interested in or needing to use multimedia tools. The machines are connected to the server. The machines are very helpful and supportive," said Lind. When Christ is not spending her time with her family, she enjoys spending time visiting her childhood home.

- **North Road housing comes under direct attack from the Marist College campus.**

**Dear Undergraduates:**

It is almost mid-semester and the Student Government Association has had a very busy semester. First, we would all like to congratulate the Student Senate on a successful semester.

Thank you to all the students who voted in the Spring 1995 Elections. In recent years, the SGA has been taking steps to advance the elections process. Last year, we saw the first Live Presidential Debate. This year, new election procedures were implemented by Election Commissioner, Andrea Nelson. For the first time, Sunshine farms were used as ballots for the elections. The new method proved to be easy to use and will be continued in the future. The biggest benefit of using Sunshine was quicker tabulation of results. The unofficial Spring 1995 Election Results are:

**STUDENT BODY PRESIDENT**
Michael Carlson
**RESIDENT SENATORS**
Emily Chu
Josh Givens
Todd Lang
Luis Santiago
**TRADITIONAL COMMUTER SENATOR**
T.J. Clark
**PRES. CLASS OF '96**
Nicole Montagu
**PRES. CLASS OF '97**
Christopher Luine
**PRES. CLASS OF '98**
Frank Maldari

We would like to remind everyone if you have any questions or concerns in call or e-mail the SGA Office. Anyone who has been interested in becoming a part of SGA can apply for an appointed position after election results are official.

GOOD LUCK TO EVERYONE ON MID-TERMS AND HAVE A GREAT SPRING BREAK!

Rebecca Kubser, Director of Public Relations - SGA

Skaters fold to Siena in front of large home crowd

by Jim Heimann
Staff Writer

The hockey team lost both of its games this past weekend, dropping both contests 3-0 and 5-4 and falling seven games in a row.

On Friday night, the Red Foxes fell to Siena College in front of a capacity crowd at the Mid-Hudson Civic Center. Binghamton scored four straight goals and the Red Foxes were unable to respond.

According to Velit, Velit said, "We were outplayed by Siena in every phase of the game."

On Saturday, Velit, Velit said, "We were outplayed by Siena in every phase of the game."

The Red Foxes scored to go ahead for the first time in the game at 7:18 in the first period, with Joel Ando scoring on a rebound after a Saveby goalie's stop. However, the Red Foxes were unable to hold onto the lead, allowing Siena to score four straight goals.

Senior goaltender Brad Kamp's 16 saves were not enough to stop Siena.

The Red Foxes had 32 shots on goal, while Siena had 26. Binghamton and the Red Foxes were both 0-for-2 on the power play and 5-for-5 on the penalty kill.

Swimmers glide to title

by JASON BARCO

Rider University's swim team earned the NEC title for the first time. They placed second in the 1,500 yard freestyle relay behind St. Peter's. Rider's team consisted of hot times.

The team's bench was strong, with the 200 yard freestyle relay being the only event the team didn't win. First-year Dane Reinhart led the way with his 50 yard freestyle win. The 200 yard freestyle relay was won by Rider as well, and the 400 yard medley was won by St. Peter's.

Rider's swim team, which was known for its strong relay teams, was the No. 1 seed for the NEC championships. The team's strong relay teams were the reason for their success in the NEC championships, and they are expected to continue their success in the future.

Maggity honored by NEC

Dave Magarity, head coach of the NEC, was honored by the Northeast Intercollegiate Coaches Association at the 1995 NEC meeting in the Village of Westbury, New York.

Magarity, in his fifth year as head coach, was named to the first team All-Conference squad. He was the only first team All-Conference selection from the Northeast.

Magarity's team, which was seeded second, lost to St. Peter's in the first round of the NEC championships. The team was able to finish second in the NEC, which was not an easy task to accomplish.

Magarity's team, which was known for its strong relay teams, was the No. 1 seed for the NEC championships. The team's strong relay teams were the reason for their success in the NEC championships, and they are expected to continue their success in the future.

Baseball field gets new scoreboard

Rookies add speed and enthusiasm
Ackermann will leave legacy to fill when she graduates

by JASON FARAGO

One of the greatest compliments a coach can bestow upon a player is that he will be difficult to replace a kid like that.

On this year's softball team, that player is senior Patricia Ackermann. If there is a person to emulate a softball player by, it would be Patty," head coach George Burgin said of his senior.

Pat was a hard worker. We'll (the team) see to it that he gets his work done. He always gives 100 percent effort in the morning practice. Writer At 5:15 every morning, the top floor of Townhouse B5 begins to stir. Six members of the Marist baseball team have to get to morning practices.

Jeffrey Rose, a senior pitcher, is just one of the players who need a little coaxing to get out of bed. "There are six of us living together," Rose said, "He thinks nothing of getting us up in the morning and on time." The "he" Rose refers to is senior tri-captain Matthew J. Bourne.

Bourne, a member of head coach Art Smith's first recruiting class, comes to Marist via Glendale (Queens), N.Y. "I wanted to try and get into college. An avid Yankee fan who had delusions of re-enacting Graig Nettles at third, Bourne was perfectly devoid of something synonymous with our national pastime. Having to go up fatherless, Bourne turned to his mother that bore the greatest influence on his life. "She's such a role model for us because she always backed me athletically," Bourne said. "I want to get a job as a child psychologist and work with kids." Bourne, a psychology major, said he would love nothing more than to work with kids.
