Water emergency ends; tap water safe again

by CHRISTOPHER THORNE

Water, water everywhere, and not a drop to drink. However, on Monday, the health warning condemning the local water supply was lifted, putting an end to a week and a half of inconvenience.

Last week, Marist College stu­dents and local residents were told to boil their drinking water for two minutes because the area water supply may have been contaminated by the recent bliz­zard melt-down and heavy rain­storms. Not all the water could be ade­quately filtered by the Poughkeepsie Water Works. Tell Cramer, a junior at Marist, said the precautions students had to take were a nuisance.

"It live in the townhouses so I can boil water, but it's been such a hassle," she said. "Everyday I brush my teeth, I had to boil water."

On a college campus like Marist, it is difficult for everyone to boil their own water, especially the freshmen who are not al­lowed to have hotplates or mini­crowaves in their dorm rooms.

Man carrying gun arrested in townhouse incident

by MERYTH KENNEDY
Managing Editor

There is a stranger standing in your townhouse waying a semi­automatic tech-nine gun with 36 rounds of ammunition. What do you do?

If you are senior Jessica Cormier and she calls Pollard you take the gun and run, which they did when she realized Juanita

Vanderpool, a Poughkeepsie resi­dent, had entered her A5 townhouse with the weapon, on Monday, Dec. 18. Vanderpool, a Marist graduate in 1993, was reportedly standing in the lower level of the townhouse in a common area argu­ing with Marist junior Eureka Higgs. Joe Learry, director of safety and security, said Cramer probably sawed lives by her actions.

"She's a hero to have the pres­ence of mind and intestinal fortui­tude to get the gun out of the house," Learry said.

Cramer said it did not happen quite that way. She said that she came out of her room and saw Vanderpool and Higgs arguing. Vanderpool put the gun down, after taking the clip out. Cramer added that she made

"It must be emphasized that it has not been positively proven that the water was contami­nated," said Glass. "It is a pre­caution based on the strong be­lief that the water could be con­taminated."

The cause for alarm is the pos­sible presence of Giardia and cryptosporidium. "It is a precau­tion to prevent the possibility of the bacteria causing illness," Glass said.

"They could drink bottled wa­ter, juice, or soda," said Rule. "I couldn't pour the water over my head to take a shower." Cormier said. "So, I still had to shower in contaminated water." John Glass of the Environmen­tal Health branch of the Dutchess County Health Department said that there may not have been any problem.

Water fountains on campus were hanged up to prevent anyone from drinking contaminated water.

Make way for the shoppers

Mid-Hudson Center to open in the fall with Wal-Mart & Hoyts

Editor-in-Chief

One-stop shopping is on its way to the Marist area with the arrival of the Mid-Hudson Cen­ter. A 250,000 square foot shopping center, anchored by Wal-Mart and an 11-screen Hoyts Cinema, is being built at the current site of the Mid-Hudson Business Park.

The center will be located across Rt. 9 from the college's north entrance. Ninety-five percent of the cur­rent building will be leveled to make way for the retailers. According to Dagar Group Ltd. President, David Livshin, who is in charge of finding tenants for the center, demolition on the business park will resume this month.

About half of the 500,000 square feet being torn down has not been positively proven. Livshin said.

"There was a lot of hesitation because it has the theater, which will be the integra­tion of the existing building," he said.

Hoyts Cinemas and a few small retailers are the only tenants who will use part of the existing busi­ness park rather than construct­ing new buildings.

Livshin said he is in the pro­cess of "working on the possi­bility of adding another large store between Wal-Mart and the center. Demolition on the business park will resume this month. Livshin would speculate on were fast food and sit-down restau­rants.

"I would like to see a coffee shop or a sit-down cafe," Livshin said.

Clintons asked for graduation

by BEN AGORS
Staff Writer

Every year, Marist College helps prepare its seniors to face the outside world by inviting a motivational speaker for the com­memorative ceremony. This May, the college hopes to cele­brate its 50th anniversary by having President Clinton speak at graduation.

According to Senior Class President Nicole Montiagni, the seniors met in November and generated a list of 15 people the class wanted to speak at com­memoration. The list included musicians, politicians, business people, and media personalities.

Tim Massie, chief relations off­icer of Marist College, said he received the list and began the final selection process.

"There were dozens of names out there to chose from," said Massie.

"Clinton was the most attractive choice, since this is Marist's golden anniversary. The college sent Clinton an in­vitation on January 4, but it will not receive his response until the spring. However, Massie admitted that the president usually accepts commencement invitations only from military colleges and universi­ties.

"This may be a long shot," he said, "but New York is an impor­tant state in terms of presidential elections."

"I would like to see a coffee shop or a sit-down cafe," Livshin said.

"He must have realized we had alterna­tions to boiling water. It is a precau­tion based on the strong belief that the water could be con­taminated."

Aides testify to Senate how Whites Paper apparently sundered

By KADIO GILLO
Associated Press

WASHINGTON (Feb. 11, 1996) - Congressional aides have testified before the Senate on how paper apparently sundered during a 1994 snowstorm.

The Senate voted 92-2 to confirm the nomination of William S. Cohen as secretary of defense.

Rutland, Vt., Feb. 11, 1996

Sen. Joseph I. Lieberman, D-Conn., has been elected the Senate's new president.

Mishima was arrested for

Japanese police have arrested a man suspected of raping hundreds of women over the past 10 years.

The suspect, identified only as Yelnin, was arrested at his home on the outskirts of New York City on Wednesday.

Yelnin is alleged to have raped more than 1,000 women in the past decade, according to police.

The suspect is scheduled to appear in court on February 12.

Floods ravage towns from Virginia to New York

By James Martz
Associated Press

Spilling through a rainy landscape, the South Fork of the New River burst its banks yesterday and flooded several towns and villages.

The river, which normally flows through fields and forests, overflowed its banks and flooded homes, businesses and vehicles.

The water reached a peak of 50 feet in some areas, causing widespread damage.

The disaster, which left at least 12 people dead and hundreds more homeless, is expected to cost millions of dollars in repairs.

The National Weather Service has issued a flash flood warning for parts of Virginia, West Virginia, Pennsylvania and New York.

The floodwaters have destroyed homes and businesses, washed away roads and bridges and forced people to evacuate their homes.

The South Fork of the New River is one of several tributaries that feed into the Potomac River, which flows through Washington, D.C., and into the Chesapeake Bay.

The river is expected to continue to rise for several days, and the Federal Emergency Management Agency has urged people to stay away from flood-prone areas.

Mishima was arrested for

Mishima, a 29-year-old man, was arrested for raping hundreds of women over the past 10 years.

He is accused of raping at least 1,000 women in New York City and other areas.

The suspect is scheduled to appear in court on February 12.

Champagnat girls forced to move to alleviate overcrowding in Leo

by Michael Gross Staff Writer

Days of cramped living have come to an end for many Marist students.

The housing office reduced the number of buildings inhabited to one--converting a female wing on the fifth floor of Champagnat to a male dormitory. Many female students can move to alleviate overcrowding in Leo, which should be broken down to make way for new residents.

While there was an excess of students, many female residents of the hotel were able to accommodate the extra population. Many students stated that the move was going to cost them a lot of pain and a lot of stress.

"I think it's a good move for the college," said one student.

Many female students plan on moving in to Gartland and have difficulties about why they have to leave their dorms. The move was going to cost them a lot of pain and a lot of stress.

"It's a good move for the college," said one student.

Raimo said he decided to inform students who wanted to leave because he wanted them to be aware of what was going to happen. According to Raimo, the housing office to question what the move was going to cost them.

Some students had problems with the move, but many understood it.

"It's a good move for the college," said one student.

Aiossa said he was in a class that was going to be broken down.

"I thought it would be better for us to move to a place where there were no crowds," said one student.

Costa Rica trip an experience one student says she’ll never forget

Nora Mozzone Staff Writer

This winter break I did something a little different than returning to my job at a bank after a six-hour flight to Baltimore the day before.

During registration I signed up for the new science course tropical research. The seminar began at 9:30 a.m. on Jan. 3rd at the American Museum of Natural History. It was followed by flight. Destination: flight through the air and comical tourists from around the world and nature.

I feel better for the trip a day through the clouds where the chimps climbed through my hands and hug-waving hands. This small town was became bound past my ears. I whispered with excitement into my conversation's home for my parents for five hours through rock piles and read up to her knees to gain stability in the base of an active volcano.

I was mesmerized, as bright blue skies and cows were awooo. The students were required to write a paper, and I finished it on time. "The adventure could go on forever." At least I completed quite a bit. "What do you mean there is no water? It's all dirt." I did do the rest of my assignments, but all in all I was very experienced to say the very least.

I laughed, I screamed, I laughed, I screamed. I don't want it to go again. The list of adventures could go on forever.

Marist students discover a home away from college while surfing the Internet

Charlotte Bartel Staff Writer

January 1996 is one month that will forever be etched in the memory of many students. The biggest buzz of the year for the students of Marist was the “Blizzard of ’96.”

The storm covered almost all the states from the West Coast to the East Coast. It was a snowstorm the size of a typical hurricane, with winds up to 100 mph. The storm was so intense that it forced airlines to cancel flights, and it was estimated that over 10,000 people were stranded in airports.

Many students had the opportunity to experience the snowstorm firsthand. They were able to stay in their dorms, watch the snow fall, and enjoy the company of their friends. The storm created an atmosphere of camaraderie, as students worked together to survive the blizzard.

In addition to the snowstorm, the Internet was also a popular destination for students. Many students used the Internet to stay connected with family and friends, and to access news and information about the storm.

The Internet was a key resource for students who were stranded in airports. Many students were able to use the Internet to find flights, and to communicate with their families.

As the storm began to subside, students continued to use the Internet to stay connected. Many students used the Internet to find ways to get home, and to purchase flights.

The “Blizzard of ’96” was a time of both challenge and opportunity. Students were forced to adapt to unusual circumstances, but they also had the chance to make the most of their time away from college.

The experience of the “Blizzard of ’96” is one that students will never forget. It was a time of both challenge and opportunity, and it helped to shape the lives of many students in a unique way.
That is why Pat Buchanan will be begging CNN for his old job back in a couple of months, and Jerry Brown's spent the last four years working at a hash bar in Amsterdam.

Since polls show that many Americans consider themselves neither liberal or conservative, the middle ground is a good place to be. New York Senator Al D'Amato found Clinton's call for no further government shutdowns

noteworthy event was the coverage of the address by Fox News. Fox News is a concept I had always chalked up

It is painful to hear this man utter phrases like "big government", oppose the entertainment industry

In fact, Dole even did an interview with MTV's Tabitha Soren. In an attempt to prove he is not out of touch with the youth of America, he said he wanted to speak to the youth

While Clinton touched on some very important issues, there was very little substance to his speech.

It was an evening full of surprises.

Unfortunately, for the incumbent, most of them had little to do with his presentation. Probably the most noteworthy event was the coverage of the address by Fox News. This News was almost as laughable as any American feud D'Amato's to a Senate Ethics Committee. Meanwhile, 50-year-old Senator Dole was just another by the bright lights. But, that is understandable considering he is almost as old as Bob Dole.

While Clinton stated no very important issues, there was very little substance to his speech. He barely has the time and respect the lighting crew and improving educational standards. It is anybody who is supporting convincing many children.

Contrariwise, Clinton responded to the Republican's that on the Congress and oppose the entertainment industry

It appears that the expenses of

In the film, Conductor Holland is the most beloved member of the Marist College Billiard Room. The Marist band has grown considerably in size since its humble beginnings in 1987. Students who attend basketball games at Marist may notice the Pep Band, which plays at athletic events. Said she noticed the band increased in size. It now has many different members. There were few members and leaders who divide the responsibilities. There are a lot more students.
Can McCann handle the dream season?

The Marist women's basketball team finished fourth in the NEC, which was never their goal. But the team did have a remarkable season, coming within one game of winning the NEC tournament and making a strong push for an NCAA tournament berth. The question now is whether they can maintain this level of success in the future.

Women's basketball drops 10 of 14 during intersession as record plummues to eight Thursday

The Marist women's basketball team suffered a big loss this past week, dropping four of their last five games. The team was hoping to make a run for the NCAA tournament, but now they are looking towards next season.

Women's track looks to spring

The Marist College Women's Indoor Track team is looking to improve upon last season's performance. They are hoping to qualify for the nationals and do well in the conference.

Battle with Mount St. Mary's tested students' emotions too

The battle with Mount St. Mary's was a tough one, but the Marist students were able to come away with a win. The game was one of the tightest of the season, with both teams battling to the end.

Even with all the yelling, chanting, and bleacher shaking, it was not meant to be.

It was the end of the season for the Marist women's basketball team. They had worked hard all season long, and it was finally over.

Marist being swept at the conference championships, but they had their moment of glory. They will be back next year, stronger and more determined than ever.
The Mount keeps Marist from standing alone atop NEC

by MARTY SINACOLA

The nine game winning streak came to an end for the Men's Basketball team last Saturday with a 55-61 loss to Mount St. Mary's, but still remain in first place in the Northeast Conference.

According to head coach Dave Magarity, MSM kept the Marist guards guessing all night.

"They confused them (the guards) with changing defenses," Magarity said. This was obvious in looking at the statistics of the guards from Saturday night.

Danny Basile was scoreless after the first half and only adding three points by the end of the game. Randy Escanciano went 2 for 7 from the field rushing with a total of six points. Tomer Karafi, off the bench, didn't even attempt to take his first twenty minutes of play.

Magarity made it clear that he wasn't pleased with his team's hard work but that they didn't do everything needed to beat a team that was well coached.

"It wasn't from a lack of effort. I think our defense was good but we just weren't sharp offensively," said Magarity. "We obviously didn't do what we had to do."

Out of the sixteen games played so far this year, this was the second lowest amount of points Marist with the Siena game taking first (39-47). MSM head coach, Jim Phelan, who received a standing ovation at the McCann Center for becoming the sixteenth winningest coach in the one with the team's pressure on the outside shot.

"We shut down the perimeter game," Phelan said. "We hoped to shut off all the outside guys and I think we did a pretty good job."

The big men from Marist, Kareem Hill and Alas Tomic, helped keep the margin respectable. Hill made 8 for 12 from the field with one three-pointer and finished with 20 points and 12 rebounds. This was Hill's fifth double-double of the year.

Tomidy went 8 for 14 from the field and total 22 points, 13 rebounds, and 4 blocked shots. Despite attaining his tenth double-double of the season, Tomidy still didn't thoroughly play well but got MSM credit.

"They were well coached, very quick, and kept forcing to rush our move," he said.

Magarity also gave credit to the MSM team but has a positive outlook for the remainder of the season.

"They did a terrific job of keeping us off balance," Magarity said. "We're hoping to bounce back."

Basile might not have been able to be a big distributor point wise against MSM but he did score 25 points to lead the Red Foxes over St. Thomas, 81-75, last Thursday in West Long Branch, New Jersey.

The Red Foxes are now 14-2 overall and 8-1 in the NEC. Marist took on Robert Morris yesterday in Pittsburgh, Pennsylvania. Results were not available at press time.

The Red Foxes will travel to New York City Saturday to take on Fairfield University in Madison Square Garden.

Swimmers start new semester competing at West Point Open

by GIANNA PINO

Six weeks without organized competition has the Men's Indoor Track team feeling like their season has started all over again.

After a month and a half break, Head coach Pete Colaizzo said this meet seemed like the second season opener.

"We were just getting our feet wet again, it was like the first time," Colaizzo said.

The Foxes competed against teams such as Lafayette, Lehigh, Rider, St. John's and the University of Pennsylvania.

Colaizzo was pleased with the first meet of the new year.

"It was a good meet for us. The bodies were fresh but it was exactly what we needed," Colaizzo said.

Highlighting the Running Red Foxes' efforts was sophomore Mike Melfi, who ran a personal best, 4 minutes, 23.5 seconds to finish fifth in the one mile run. Furthermore, Melfi competed in a race over the winter break and ran within one second of the school record, he said he still felt flat going into the West Point race.

"After not competing for six weeks it's hard being in it mentally to race, it was tough," Melfi said.

Another highlight for the Foxes was a 4:00.30 relay team. The relay comprised of Eric Foxes, overall with the time 8:22.

Brendan has trained very hard and I think we did a pretty good job," Magarity said.

The team was lead by freshman Jennifer Jaeger, who along with seniors Eileen Bubel and Lloyd Goldstein, coach Melanie Bolstad, Leddy and McNeese were the only first year people in their third victory of the season.

"The body has to be able to deal with the statistics of the guards from the intense workouts is freshmin Griffin McNeeso who has already set three personal best records and established a school record in the 1,000-meter freestyle on January 25 at St. John's University's pool.

McNeese won the 200 individual medley (1:59.82) and the 1,000 freestyle (10:06.05).

According to Men's Diving coach Melanie Bolstad, Leddy had never won two meets in a row.

"I think our defense was good but we just weren't sharp offensively," said Magarity. "We obviously didn't do what we had to do."

The competition was strong, it was scoreless after the first half Saturday night. Danny Basile, but had never won two meets in a row.

"I think our defense was good but we just weren't sharp offensively," said Magarity. "We obviously didn't do what we had to do."
