Mayor hopes student registration policy will be phased out
by Ben Acors
Asst. News Editor

The mayor of Poughkeepsie risked a citation from Marist security last Wednesday night when she parked her vehicle in the Riverview lot and rushed to her scheduled lecture. It ended with serious discussion about her responsibilities and various city-wide problems.

One problem she discussed was student rowdiness off campus, including the new ordinance requiring landlords to register with the city if they rent to college students. The city council adopted the ordinance in February after a more stringent measure that would have required the number of college students that could live on a certain block was tabled in Nov. 1996. The current ordinance carries a $250 fine for those who do not register. Lafuente said the measure stemmed from complaints over a small group of atypical students.

"There is a real problem with a few students," she said. "Loud parties; they come, they go; they urinate on the streets. When you are not in your own hometown, who cares?"

She said the city wants to have good relations with Marist students, but she said she needed to address the complaints she was receiving.

"I've had calls late at night with people demanding, 'What are you going to do about this?','" she said.

Since the ordinance passed, Lafuente said students have been arrested for disturbing the peace, something that generally never occurred before.

The reason there have been more arrests is because the police department has a list of student names and where they live. When the police respond to a disturbance, someone can be officially charged.

Lafuente said the measure is now new to know its effectiveness, and she said she hoped there will soon be no need for it. "It's too early to evaluate the ordinance," she said. "I would like to get rid of the thing if it works successfully."

According to Marist President Dennis Murray, students should take responsibility for their off-campus actions.

Campbell named Intern/Co-op Student of Year
by Stephanie Mercurio
News Editor

Marist College is becoming more competitive. According to Kent Rinehart, assistant director of admissions, Marist's number of applications has increased in the past year. Rinehart said according to U.S. News and World Report, Marist is ranked in the top tier of competitive schools, rating 20th in academics.

"We have gotten about 5,100 applications this year; compared to last year's 4,710," he said. "We have kept our admission number stable, however."

Rinehart said Marist is "stalking" students from more well-known, competitive schools than before.

"We are starting to get students from schools such as Villanova, Boston University and Loyola, among others," he said. "We are enrolling the best students possible."

Freshman Jen Ferris said she did not realize Marist was so competitive.

"I'm really excited, because when I look for a job, and people see that I went to such a competitive school, it will look better for me," she said. "I think it is something to be proud of."

Rinehart said the average SAT score is rising also.

"Last year, the average SAT score was 1,080, and this year we will be pushing 1,100," he said. "It is a slow process, but the scores, as well as grade point average and class rank, are increasing." - Alyson Travis, a sophomore, said she thinks the competitiveness will be incentive for more people to apply to Marist.

"I think more students that like to be challenged will apply when they see how competitive it is," she said.

Kerry Peterson, a junior, said she did not know how the new status would affect her.

"I think it is great, but I don't know how I will be affected as a senior," she said.

Travis said she agrees with this statement.

"I don't think it will make much difference to the students who are already here," she said. "Everyone has their own focus already and are already going in their own direction."

Rinehart said the increase in applications has led to more selectivity in student choice.

"The quality of students has increased because we can now be more selective," he said.

Peterson said the increase in

Panelists debate rights to die

by Ana Strong
Staff Writer

Do we have the right to die? The legislation known as physician-assisted suicide (PAS), was the topic of the third annual spring forum in McPhee for the press conference for the Marist College Human Rights Forum held on Tuesday, April 17, 1997.

The lecture was entitled "Making Choices: The Right to Die" and was co-sponsored by the Curneen Hartland Chadwick Center for Human Rights and Human Development. The lecture was held in the Curneen Hartland Chadwick Center in the Charles Geary Hallway.

The forum has spoken about race relations in the past, this year, the forum will be addressing the issue of physician-assisted suicide. It was decided to bring together experts and professionals in the field of medicine and law to address important questions that we all will have to consider in the near future.

The forum is an opportunity to bring together people from different backgrounds and disciplines to discuss these important issues. The event is open to the public and is free of charge.

The forum will be held on Tuesday, April 17, 1997, at 7:30 PM in the Curneen Hartland Chadwick Center in the Charles Geary Hallway. For more information, please contact the Center for Human Rights and Human Development at 518-437-4591.

Upcoming events include the 1997 Spring Forum on Race Relations, which will be held on Tuesday, May 15, 1997, at 7:30 PM in the Curneen Hartland Chadwick Center in the Charles Geary Hallway. The forum will address the issue of race relations in the context of the ongoing conflict in the Middle East.

The forum is an important opportunity to bring together people from different backgrounds and disciplines to discuss these important issues. The event is open to the public and is free of charge.

The forum will be held on Tuesday, May 15, 1997, at 7:30 PM in the Curneen Hartland Chadwick Center in the Charles Geary Hallway. For more information, please contact the Center for Human Rights and Human Development at 518-437-4591.
President Murray urges support for more student financial aid

by Ben Acuna
April 17, 1997

Murray is hoping to influence more year-round faculty and students by urging them to help the Marist community. President Murray signed everyone of those interested in their representing Marist to make a financial difference.

The second proposal being considered is $1.7 billion increase in federal Pell Grant spending. Since 1997, the number of students who qualified for the grant has increased by 20 percent, and it would mean the maximum award would rise from $2,400 to $2,900 a year.

In a recent memorandum to the Marist community, President Murray sent a letter to college president's and other college administrators. "We have to reach out to our students and help them make a financial difference," Murray said.

One of the proposals that would be included in this year's budget is $10,000,000 for the Tuition Assistance Program (TAP), Direct Institutional Aid (DIA), and the Higher Education Opportunity Program (HEOP). According to the Commission on Independent Colleges and Universities, if the state legislature increase the maximum TAP award to $4,800, and the state legislature increase the maximum TAP award to $4,800, and the state legislature increase the maximum TAP award to $4,800, and make the eligibility cut-off point for students to be covered by the maximum award.

In 1996, the number of students who qualified for the grant has increased by 20 percent, and it would mean the maximum award would rise from $2,400 to $2,900 a year. Murray said that many people make their college choices by looking at the grants that are available. Murray said that the maximum award would rise from $2,400 to $2,900 a year. Murray said that the maximum award would rise from $2,400 to $2,900 a year.

One of the proposals that would be included in this year's budget is $10,000,000 for the Tuition Assistance Program (TAP), Direct Institutional Aid (DIA), and the Higher Education Opportunity Program (HEOP). Reynard criticized for alcohol content

Editor

Proactive students should gain a greater appreciation for Marist by reading the Renyard. Unfortunately, some students who look at the last 1996 yearbook should be reminded that Marist is a bar, not a college.

This ludicrous caption is found on page 42 of the Renyard.

The caption for the picture reads, "THE REAL DEFINITION OF CRUSIN':

THE CIRCLE

Class of 1997, you are about to be ripped off enough to finish on time. But, that is a topic for another time. Until then, I guess there will always be Nerf Hoops.

As you can see, Marist did not utilize my money in the fashion expected. After many

Quick fixes to legislative gridlock will never replace the abilities of politicians well-versed in American politics. The fast fixes of yesterday have not worked. Ito

The line-item veto would greatly speed up the legislative process

If a federal government operated by perpetual gridlock, the line-item veto measure would significantly improve the legislative process. Indeed, legislative gridlock is the result of the same process in which the dispute is often settled by the line-item veto, the only way to get back to a legislative consensus.

In both Congresses, the partisan climate is bisexual. Republicans and Democrats fight with a tenacity that is often described as the result of the country's changing demographics. The gridlock is not the result of any ideological differences, but the result of real differences in power and influence between the parties.

CIRCLE SEX SURVEY RESULTS

by Michael Conte
Managing Editor

The Circle surveyed a total of 500 students randomly by com­puter on March 21, 1997. Each survey was accompanied by a letter explaining the purpose of the survey and how it was to be filled out and where it was to be returned. The survey itself was comprised of 26 questions, some of which had more than one choice. Each survey was accompanied by a letter explaining the purposes of the survey and how it was to be filled out and where it was to be returned. The survey was anonymous. All survey respondents were 18 year olds or older. The results are here. Some of the percentages do not add up to 100 due to rounding.

For the purposes of explaining some of the results, the survey was split into seven different categories: age, gender, relationship, religion, decision-making, condom use, and consent.

Students and athletes need to be given more praise.

Sports With Smitty

After watching pro golf sensation Tiger Woods on TV during the Masters, I started thinking how important it is to consider the student-athlete as one of pressure that must be endured in today's world at this time.

Watching Woods on television, one can see an obvious concentration, focus, and mental discipline. He has had the same type of success as an individual before the sea­son, when he was selected as a first-team All-American and had a successful game. He is able to win important games because of all his hard work and dedication.

Chris Smith is the Circle's Sports Editor.

The National Scene

While many student-athletes work hard in the classroom, there is one student-athlete who has been working in the classroom and the classroom. While most of these student-athletes work hard in the classroom, they must also work hard in the classroom. Woods is an example of how important it is to consider the student-athlete as one of pressure that must be endured in today's world at this time.

Chris Smith is the Circle's Sports Editor.

Women's lax beat UConn in OT

In the last three games of their season, the Red Foxes have won every game by at least 10 goals. Currently, the team has 31 goals in 19 games, ranking 13th in the nation. Woods has led the team in scoring with 20 goals.

Leading the team in scoring against UConn, Woods had 8 points on 3 goals and 2 assists.

The win over UConn showed the team's desire and determination.

Men's lacrosse defeats Niagara; improve to 2-6

The win over UConn showed the team's desire and determination.

Men's lacrosse defeats Niagara; improve to 2-6

Women's lacrosse was not as successful as the refrigerated game against the Purple Eagles. The Red Foxes suffered a loss early in the season to the number one team in the conference. It was a 12-6 defeat.

Leading the team in scoring against UConn, Woods had 8 points on 3 goals and 2 assists.

The win over UConn showed the team's desire and determination.

Baseball

In the last three games of their season, the Red Foxes have won every game by at least 10 goals. Currently, the team has 31 goals in 19 games, ranking 13th in the nation. Woods has led the team in scoring with 20 goals.

Men's Track - continued from page 14

Field hockey was a solid team this year, scoring many goals and taking the top spots in the nation. Woods is an example of how important it is to consider the student-athlete as one of pressure that must be endured in today's world at this time.

Chris Smith is the Circle's Sports Editor.
Baseball split with Wagner; now 16-10

by PHILLIP WHITE

The baseball team finished another weekend series with a stateame against Wagner. Wagner won the first game 8-6 and then Marist was crowned the victor in the second with a score of 12-10. The Red Foxes victory was credited to senior George Santiago. Santiago belted out a deep fly homer in the bottom of the seventh breaking the 4-4 tie.

"Santiago's homerun must have given at least 350-360 feet," Assistant Pitching Coach, Al Harrelson said.

Santiago felt very confident going up to the plate. "I knew as soon as I hit the ball that we won the game," senior George Santiago said.

Apples from Santiago's homegrown, the Red Foxes made the victory a team effort. Offensively Marist was very productive. Freshman Andrew Russell made his starting appearance and with a score of 5-1 in the fourth inning ran for Marist in the fourth inning of the second game. Marist's other productive players were freshmen Anthony Cervini and Philip Thomas. Wagner's offense was picked up at the hands of the Red Foxes split even, Sophomore Doug Connolly lost the first game.

Head Coach John Szefc was not overly concerned about Connolly losing the first game.

The reason for Sefc's opinion is that Connolly is having a productive year with a 3.38 ERA and a 5-2 record. Also, this is Connolly's first loss since March 8 after winning five in a row. Connolly is ranked second in the Northeast Conference for his ERA.

Senior Mark Barron (ERA 0.60) won the second game. Barron is currently ranked first in Division I for pitchers. Senior Chris Welbel took both Barron and Connolly in both games, and we pitched both games, and we pitched.

"We played good defense in both games, and were pretty much strikeout," senior Mark Barron said.

Wagner was not as much of a pushover as they were last season.

"Wagner has dramatically improved since last season. I have a lot of respect towards Wagner," Sefc said.

Wagner has improved both offensively and defensively. Freshman David O'Donnell of the Red Sox hit the smoking bats of Wagner. Wagner backed up their production with some offensive fire with the strong arms of Mark Nugent and Barron.

"Wagner's pitching kept us off balance, they hardly walked anyone," Sefc said. Marist has improved since their last conference meeting.

Please see Baseball on p.15...

Bad conditions hurt track

by CHRIS O'DONNELL

One of the many men's track team showed their strength in long distance running at the Coaches Invitational in New York City this past weekend.

Despite poor weather conditions, the Red Foxes still had some of their runners mentioned for their performance.

Sophomore Chuck Williams said the weather definitely had an effect on the meet.

"The track was soaked and slippery which led to runners having problems with the course all day," Williams said.

Junior Matt Pool agreed, "With it being so cold and wet, you just wanted to run your race to get it over with," Pool said.

The high point of the day came from senior Pat Casey who placed second in the 3,000 steeplechase even though the meet was non-scoring.

The Red Foxes strongest event in terms of most runners was the 5,000 run which had sophomore Ben Helfer son placing third and Matt Pool finishing in eighth place.

Pool commented that the inclement weather did not hinder a lot of runners from having their personal bests. In the 1,500, the Red Foxes had three runners mentioned in freshman Peter Stetz who finished in ninth, senior Eric

Women's track led by Woodson

by DAVID MCBRIDE

Coming off of last Saturday's meet at Connecticut, Woodson, Kathleen Woodson still has two records left that she can still break this season.

This past Saturday, Woodson broke the Marist school record in the 5,000 meter run that had stood since 1992. Woodson ran an impressive 18:36 as she captured her second consecutive record.

"I was surprised; I wasn't expecting to break it, I have never been a very competitive sprinter," Woodson said. "I was excited.

"Coach Phil Kelly had nothing but good things to say about her," said Kelly.

"She ran really good," Kelly said.

"Kelli felt that the 5000 was the team's strongest showing with over 4000 ladies," said Kelly. "There was not much of an effect for us.

"Freshman Jen Glover finished first with a time of 19:36, senior Mary McQuillan finished fifth, and Karen Donovan placed sixth.

Kelly added that the 5000 was run before the last time.

"And the weather took its toll on the competitors. "I was feeling cold and wet," Kelly said. "It was really raw.

"Most Marist runners came in the 5000's and 3000's, but that was too much for the shorter distance runners." Kelly added.

"A lot of respect towards the competitors in the 5000m," Kelly said.

Senior Kathleen Woodson throwing one of her many strikeouts.
