the situation becomes a little more dangerous. Because of the risk, the New York Department of Transportation decided to introduce a relatively new concept in street safety. Two weeks ago, a flashing crosswalk was installed halfway between the Main Gate and South Gate.

On Oct. 22, at 9 a.m., the new flashing crosswalk was dedicated. Located between Donnelly Hall and the temporary library, it is the first crosswalk of its kind in the state of New York. According to Tim Massie, chief relations director, it was installed as a safety measure in hopes of encouraging more students to cross safely.

"It provides another level of warning to motorists," he said. The crosswalk operates twenty-four hours a day. Microwave sensors are located on the ends of the crosswalk. As a pedestrian steps on the curb of the walk area, the sensors set off flashing lights located in the ground. These flashing lights warn motorists of crossing pedestrians. While the crosswalk does provide more safety for those who cross, there are still a few problems.

Flash ing lights now warn motorists of students crossing.

Marist takes on British in debate

by LISA BURKE

Staff Writer

The British Debate Team made a stop at Marist last week on their two-month tour of American colleges.

This was the seventy-seventh year that the English-speaking Union sponsored a biannual trip for their best debaters to come to the United States. Marist debate coach Scott Thompson put in a bid to have the team. They were among several schools in the Northeast that the team visited.

The audience style of this debate was such that there was no winner, which Thompson said he prefers in such an experience-oriented debate.

"I'm a little hesitant to declare winners and losers," he said. "And when the audience votes, it's usually for the side they agree with, not because of the quality of the debate."

The British team consisted of Simon Milnese, 21, a former world champion from Oxford, and Christopher Ruane, 22, a world quarter-finalist from Oxford University of Glasgow.

They took on Junior Mark Smith and Sophomore Brad Stevenson on the topic of Internet censorship. The British were for censorship of this kind, suggesting that a national gateway system of server should be implemented to filter through what many may consider to be unsuitable or offensive material. Teams of censors would personally review each keyword search and eliminate anything that would be inappropriate, according to Milnese.

"Their salaries are a price worth paying for the protection of the dangers available over the Internet," he said.

Smith, on the other hand, said the current system blocks are costly and unnecessary to start this new program.

"There is no need to reform a system that has no flaws," he said. "There is no evidence that anyone's being hurt and the new server is highly impractical."

The debate boiled down to the main issue of government involvement. Do they really have please see DEBATE. pg. 3.
What do you think of the level of cultural diversity on campus?

"I think it's great to have so many different cultures represented here. It's a learning experience every day!"

Chris Knudsen, sophomore

"We don't have very much diversity on our campus."

Christian Muller, junior

"What diversity?"

Chris St. John, sophomore

"I don't think there's much diversity here."

Nina Foster, junior

"We do have a diverse collection of students here."

Ina Hoss, junior

"We're not very diverse at all."

Mike Haigh, junior

"I don't know what you're talking about."

John Smith, senior

"We have a lot of diversity here."

Jane Doe, sophomore

"There's only so much diversity we can have here."

Bob Johnson, senior

"I think we could have more diversity here."

Sara Lee, junior

"Diversity is important."

Sally Smith, senior

"I don't really care about diversity."

Mike Brown, senior

"I think diversity is overrated."

John Doe, senior

"We can't do anything about diversity."

Jane Smith, senior

"I think diversity is important."

Bob Johnson, senior

"I don't really care about diversity."

Hunger Month is focus of November

by KATELLY

Every day, 33,000 children die all over the world due to hunger and hunger-related diseases. That is approximately the number of children who die from hunger (the number could be even higher if the children also die from diseases related to hunger). Hunger is also a major problem in the United States where about one in five children and one in ten adults suffers from chronic hunger and hunger-related diseases.

The Campus Ministry City Plunge, where students go to help and see the harshness in different ways, including working in soup kitchens, to begin this annual event.

According to the Campaign Against Hunger report, it is estimated that about one in five children and one in ten adults in the United States suffers from chronic hunger and hunger-related diseases. Hunger is also a major problem in the United States where about one in five children and one in ten adults suffers from chronic hunger and hunger-related diseases.

The Campaign Against Hunger report also states that the number of children who die from hunger (the number could be even higher if the children also die from diseases related to hunger) is approximately 33,000 children per day.

The report notes that chronic hunger and hunger-related diseases are not evenly distributed across the United States, with some areas experiencing higher rates of hunger than others. For example, the report states that the rate of childhood hunger in the South is significantly higher than in the rest of the country.

In addition, the report highlights the issue of hunger among specific groups, such as low-income families, immigrants, and children in rural areas. It notes that these groups are particularly vulnerable to the effects of hunger and that they often have limited access to resources and support systems.

The report concludes by calling for increased efforts to address the root causes of hunger and to provide effective solutions to alleviate the suffering caused by chronic hunger and hunger-related diseases.
Amusement for all during November in Pough-town

By JENNY LEE

As the fall season comes into full swing, it's time to think about all of your favorite things to do with your friends and family. This November, there are plenty of options to choose from, whether you're looking for something festive or just plain fun.

1. The Circle Art Center is hosting a special exhibit called "Art and the City," featuring works by local artists and photographers. It's open every day from 10 am to 5 pm. 415-222-2222

2. The Poughkeepsie Opera House is presenting a special concert featuring the Poughkeepsie Symphony Orchestra. Tickets are $20 for adults and $10 for students. 845-455-5555

3. The Poughkeepsie Tennis Club is offering tennis lessons for all ages. Private lessons are $25 per hour, and group lessons are $15 per person. 845-454-4545

4. The Poughkeepsie Animal Shelter is hosting a special adoption event every Saturday from 10 am to 5 pm. All proceeds go to support the shelter's operations. 845-455-4545

5. The Poughkeepsie Environmental Center is offering a special workshop on composting. The workshop is $20 per person, and includes all materials. 845-455-4545

6. The Poughkeepsie Public Library is hosting a special reading event featuring local authors. The event is free and open to the public. 845-455-4545

7. The Poughkeepsie Farmers' Market is open every Saturday from 9 am to 1 pm. Support local farmers and buy fresh, locally grown produce. 845-455-4545

8. The Poughkeepsie Dog Park is open every day from 9 am to 5 pm. Bring your furry friends for a fun day of play. 845-455-4545

9. The Poughkeepsie High School is hosting a special art show featuring works by local artists. The show is open to the public and free of charge. 845-455-4545

10. The Poughkeepsie Historical Society is hosting a special lecture on local history. The lecture is open to the public and free of charge. 845-455-4545

Don't forget to check out these events and more at the Poughkeepsie Visitors Guide website for more information. Enjoy all that Pough-town has to offer this November!

That '70s Show

On TV

with Mike Thompson

The Fox network only has two more original live-action comedies currently on their schedule (Olive Live! and That '70s Show), but for now, both shows do well. One of the shows, That '70s Show, has been a solid hit since its debut in September, and has proven itself to be a hit for November and may remain so into the future. In which case, Fox would have only one live-action half-hour sitcom, but that would not be much of a problem for the network as That '70s Show left Fox to "That '70s Show.

As the title negates, That '70s Show is set in the decade of the 1970s. The main characters on the show are the kids of Eric Forman (Topher Grace). It is in the basement of the Forman residence, i.e. Eric Forman's house, that the show is set. The show is about the adventures of Eric and his friends as they play, fight, and socialize in the basement. The show is set in the same location as the real-life basement of the Forman residence.

"This is just the beginning of a wrestling family, and this a great time to be a wrestling fan. The only thing to do now is sit back, relax, and enjoy..."

They also point out that one of the main reasons for the show's success is the chemistry among the cast members. "That '70s Show" is in its second season, and the cast members have developed a strong bond on and off the set. This chemistry is evident in every episode, and it is one of the main reasons why the show is so popular.

"Arguably the most popular and successful sitcoms in television history referenced, DeGeneres and Kutcher's characters are both hyperactive and unpredictable. The show's humor comes from their often hilarious antics, and the audience is never sure what will happen next."

Marist women’s rugby continues dominance

by jeff ibbotson

The Marist women’s rugby team continued their dominance in the New York Metropolitan Tournament after winning the title on November 4, 1999. The team has not lost a single match this season, maintaining their unbeaten streak.

The Stickstreak – continued from p16

Rugby is split into two 40-minute halves. Each team starts off with a kick-off, where the ball is placed in the middle and one team kicks to the other. The objective is to carry the ball past the opponent’s goal line and score a try, or kick through the goal posts.

In rugby there are 15 players on the field at any one time. A team can score a try, which is worth four points, by getting the ball into the opponent’s try area. A try is scored when a player kicks or passes the ball on any part of the field.

The try kicks are attempted by the team that was not awarded the try. The try kicks areFrancois Hougaard, a player for the Marist College rugby team, scored a try and converted a penalty kick against Rutgers in the New York Metropolitan Tournament.

The Stickstreak – continued from p16

Marist is on top of the MAAC standings with a 14-1 record, and they are expected to continue their dominance in the conference.

Men’s rugby completes perfect season

by RYAN MARAZITI

Staff Writer

The Marist men’s rugby team beat Columbia 43-0 to win The New York Metropolitan Tournament at Vassar College this past weekend.

Marist rolled over and outscored their opponents by incredulous margins as they have done all season long, with a fine balance between strong back players and an experienced and well-skilled back line.

The first course on Sunday’s menu was Marist vs. Montclair. Marist hammered them 49-0 back on Oct. 17 at home on the Nittany Lion Field.

Wing Billy Stanton said the team came out ready to beat fourth seeded Montclair for the second time this season.

“We were possessed when we got on the field,” Stanton said. “We were ready to roll over them.”

And roll they did, to a convincing 60-7 thrashing to advance the Red Foxes to the championship round to face Columbia, who had defeated Sacred Heart to advance.

Marist outscored their opponents in the regular season 311-30 (42-21) with victories over Drew (71-3), Hofstra (105-5) and Columbia (36-5). Their closest contest was against Sacred Heart back on Oct. 10, which the Red Foxes won 14-8.

The top-seeded Red Foxes capped a magical season with an undefeated record, the first ever in school history for rugby.

It was also the first time the Rugby team won the New York Metropolitan Division II crown, allowing the Red Foxes to advance to the Northeast Rugby Union playoffs.

Scoring for Marist in the tournament was led by regular season scorers Salegna, Dave Spinato, Andy Peters, Jeff Antenice and Mike Sher.

Stanton said everyone on the field was responsible for the victory.

“It felt amazing,” Stanton said. “Nothing is better than when a team can come together and back the way we did.”

Ten of Marist’s 15 starting players were seniors this year. Dave Sciascia said the win was particularly sweet for him and senior captain Dan Costiglione.

“We and Dan are the only two who have been here for four years,” Sciascia said. “We made it to the tournament our freshman year but we came in fourth place. We were lucky we had enough guys to get it done this time.

Red at Marist is a club sport. In fact, Rugby is not even recognized as a varsity sport in America.

As a club sport, however, it has adopted similar structures as that of the NCAA with its own conferences and divisions.

Without the national recognition many teams rely on themselves for all scheduling, statistics and travel.

Stanton said the team was thankful for the college’s support.

“Marist was really supportive of our team,” Stanton said.

Women find way into MAAC championships

by JEFF DARINCK

Sports Editor

The Marist women’s soccer team has proved that it really is not just a game if you do it right.

After starting the season without a win in their first twelve games, the Red Foxes closed out the year by winning five of their last six Metro Atlantic Athletic Conference (MAAC) matchups.

The late-season rally was good enough to give Marist the third seed in the upcoming conference tournament.

“We believe in ourselves and that’s what makes us strong,” Head coach Jim Parady offered his thoughts in a post-game press conference.

“We played a good physical football game,” he said. “Unfortunately we made too many mental mistakes.”

This time Lafayette utilized the passing game to move the ball downfield.

Quarterback Harry Armstrong (13-21-172, 1 Int.) connected with Phil Yarberough twice for big gains on the drive.

Tuma capped off the drive once again, this time with a two-yard run over the left side, giving the Red Foxes a 24-0 lead with 8:38 left in the opening quarter.

Stanton said the team was thankful for the college’s support.

“We played a good, physical football game. Unfortunately we made too many mental mistakes.”

Jim Parady

head coach

Red Foxes falter against strong Lafayette defense

by PATRICK KEMPF

Staff Writer

Marist College fell to defeat at the hands of Lafayette Saturday, 38-13, in a non-league contest at Fisher Field in Easton, Pa.

The Leopards coupled a dominant defense that allowed Marist only 92 yards of total offense with the three rushing touchdowns performance of Brian Tuma (24 carries, 115 yd.) to roll to the victory.

Marist is now 4-4 on the season, while Lafayette improved to 3-5.

Head coach Jim Parady offered his thoughts in a post-game press conference.

“We played a good physical football game,” he said. “Unfortunately we made too many mental mistakes, along with the fact that during the second half we didn’t get started early enough, something we needed to do.”

Lafayette wasted no time in setting the tone for the game. Damell Anez returned Richard Zaccheo’s opening kickoff 61 yards to the Marist 31-yard line.

Four plays later, Tuma found the end zone from seven yards out over the right side to give the Leopards the early lead.

Martin Brecht’s extra point made it 7-0 with 13:16 left in the first quarter.

After the Red Foxes went three-and-out, Lafayette took over on their own 37-yard line.

The Foxes will play Loyola on Friday evening at Fairfield University.

Men’s rugby has outscored its opponents by a combined margin of 311-30 this season.

“Marist was really supportive of our team,” Stanton said.

“Marist was really supportive of our team,” Stanton said.

Pittsburgh recovered at the Red Fox 19-yard line.

From there Armstrong found Stewart Kupler wide-open in the back of the end zone to cap a six play, 19-yard scoring drive. Brecht’s extra point made it 34-7 Lafayette with 3:44 left in the opening half.

Lafayette left no doubt at the start of the second half, scoring touchdowns on its first two possessions with a fumble recovery in the end zone by Joe Lake and then Tuma’s third score of the day.

Tuma’s four-yard run made the score 38-7 with 4:33 left in the third period.

Stanton made up the score 38-7 with 4:33 left in the third period.

Marist managed to put together a nine play, 43-yard scoring drive, finished off by Reyes’ 22-yard touchdown run. The extra point was failed to close the scoring at 38-13 in favor of Lafayette.

The Red Foxes will be in action Saturday at Fairfield.
