Students tuning their radios later this month will find a new station on their dial when WMCR abandons its cable transmission system in favor of FM airwaves.

The change, expected to take place March 18 at 7:30 a.m., results from the efforts of students and faculty who said the cost of running a frequency of radio transmission by cable hook-ups to individual radios is outdated. After corresponding with the Federal Communications Commission, WMCR obtained permission to broadcast on the FM band at 88.1 on the dial.

The station will not be FCC licensed because it will be broadcasting with only one-tenth of a watt. This will be just enough power to allow the station’s signal to reach the outer perimeters of the college campus, according to Tom Morgan, station programming director.

Morgan, a junior communication arts major, had been trying to get WMCR on the FM dial since he became involved with the station in his freshman year.

“When I got here, the college had already purchased the necessary equipment but there was no money to pay for licensing so it was just sitting around,” Morgan said.

Morgan said William Ryan, a professor and director of instructional technology, was instrumental in helping WMCR handle the process of getting permission to go on the airwaves.

“He contacted the FCC and was always there to answer my questions,” Ryan said.

Ryan, who has a first-class, radio broadcasting license and is also an antenna technician, operator set up the station’s equipment. He said he was impressed with the quality of equipment the station had.

“My eyes lit up,” he said.

With the help of Steve Sansola, dean of student activities and housing, Ryan installed the antenna on top of Champagnat Hall.

“Even though there were no available licenses in the Hudson Valley region, the FCC will permit WMCR to broadcast undergraduate radio programs so long as it doesn’t interfere with any commercial stations,” he said.
Stone, who employed thousands of extras. These extras are seen as background players, adding to the realism of the film. The film is distributed by Columbia Pictures and has been widely acclaimed for its evocative portrayal of The Doors and their era.

The other campus couples: When spouses work together

by Terry Savletz

You asked for a computer that’s real college material.

We heard you.

The ideal computer for college needs certain things. Like a mouse, to make it easy to use. Preloaded software, that'll let you create impressive papers with graphics and spreadsheets. And great tools, like a notebook, calendar and cardfile. It should also be expandable, so it can grow with your needs.

The IBM Personal System 2 has all this at a special student price and affordable loan payments. And on a different note, you can get a great deal on the Roland® Desk Top Music System that transforms your IBM PS/2® with Micro Channel™ into an exciting, comprehensive music maker.

The PS/2 is perfect for college because you told us just what you needed. And no one knows what it takes to be real college material better than you.
**RAPE MYTH # 9**

**MYTH:**
Most rapes are interracial, black men raping white women.

**FACT:**
This misconception reinforces racism in our society. 13% of rapes are interracial. Of these, more involve white men raping black women.

There's no excuse for saying no to condoms anymore

The Guy Lombardo Alumni Association, which has raised its issue clean for years, has now been granted its request to ask. They are the one college community in the world of our time that is concerned about the availability of contraceptives on campus.

Administrators have told us to condoms but promises to do something about it so that we not be forced to hold the baby. Some have tried and others have failed. It is now the time for some action to be taken.

But considering the New York City Board of Education has just given in high schools the right to distribute contraceptives, there is no longer any excuse for this in upstate New York.

The Marist students are the availability of contraceptives on campus, and they have a right to demand this now.

Condoms are the primary means of preventing AIDS, which is the number one disease that affects college students.

Administration supports them, but they are silent on condom availability.

The facts are:

- Some Marist students are sexually-active.
- Some say they have problems getting condoms from campus.

The answer was given by Jeanne Earle, Advertising Manager, and Laura Sottile, Photography Editor.

"We have been informed that the availability of contraceptives is not an option on campus. It is now time for some action to be taken.

All students, and especially those who are sexually-active, need to have access to contraceptives. It is not just a matter of personal health but also of public health. It is time for us to demand this now.

The Marist community should hear our voices and act on this now."
Senior class sets dates for 1991 river festival by MICHAEL FUREY Staff Writer

This year's River Festival, scheduled for April 27, has been set as an understanding, said Don Reilly, chairman of the Student Affairs Committee for the 1991 River Festival. However, River Festival will be held in three main ways to shelter a safe rain. It is to be held every year under the Rainy Day Fund.

There will also be organized events which include the annual River Festival, which is scheduled for April 27, and the annual River Festival, which is scheduled for April 28.

Back again: Recent grads find jobs at Marist by MARILYN FUREY Staf Writer

For Gary Lavinger, the three years of his undergraduate career at Marist weren't enough. After graduating in 1987, Lavinger began working as a nurse on the Marist campus and quickly rose through the ranks of the administration. Today, he finds himself working as a dean of students at Marist.

"I've had four years of practical experience," Lavinger said. "After the three years at Marist, I knew I didn't want to be a nurse. Instead, I took a job as a dean at Marist's annual River Festival." Lavinger said the festival is a great way to interact with students and the community.

Eight faculty members seeking knowledge outside the classroom

"It is a work of uninterrupted reading and studying." - Milton Teichman

"I am interested in creating my original handling of the material," said Teichman, who wrote the book. "I am interested in how I can combine the book with the original material." Teichman said the book is a study of literature and the way it is used in the classroom.

"It is a big area that only has the problem of the classroom," he said.

Teichman said he will continue to work on his book, which is a study of literature and the way it is used in the classroom.

Marist campus to march in parade by ERIE SYLER Staff Writer

Members of the Marist campus community will participate in a parade on Saturday, March 1, 1991, in honor of the late president, John D. Marcellus.

All Marist alumni, students, faculty and staff are invited to walk in the parade, and bus service, at the end of S2, will be provided on Saturday. The bus will depart from the front of the Main Campus at 1 p.m., from Marist.

The parade will start at 11 a.m. on Broadway Street between 5th and 6th avenues.

For more information about the parade, call 796-5173.

Panelists debate war at WTZA-TV forum; show to air Saturday

**by PETER O'KEEFE**
Staff Writer

"It seems like it always happens that the news it was the greatest news I ever heard," Lucille Thitchener told an audience of two members upon hearing the president had declared an end to the Persian Gulf War.

Thitchener, whose son is in the Marines and serving in the Middle East, was interviewed by Marist College, in cooperation with WTZA-TV, participants in a discussion of the Persian Gulf War.

Entitled "Homefront/Hossein Valley," the forum, held last Thursday, focused specifically on the impact of the war on local residents.

Even though at the time of the show the war was coming to an end, many still felt obliged to discuss it. "There are still many lessons that need to be learned from this war," Thitchener said.

"The show was taped in anticipation of the peace agreement," said Lee C. Mobile, professor of history at Marist College. "In light of the many interested people, we felt it appropriate to call for this program and discuss the impact of the Persian Gulf War on the residents of this area.

"I'm not sure that there is an immediate impact on us," said Mobile. "But we are all aware of this situation and the impact it has on our lives."

"Guilt over the treatment of civilians and our response to the war," said University President John F. D'Amico, said. "We are all aware of this situation and the impact it has on our lives."

"The resolution holds President Ford fully responsible for all war crimes committed during the Vietnam era," he said.

"I couldn't believe it when I heard the president's decision. It's just not right," said Mobile. "We should have paid more attention to the war and its impact on the residents of this area.

"In the future, we should be more aware of the impact of war on local residents," said Mobile. "We should be more aware of the impact of war on local residents."
Laxmen gearing up for season

by MIKE O’ARRELL
Sports Editor

When the Marist men’s lacrosse team begins its first game of the season on Saturday, they will be a new team on the sidelines. Tom Deibl, assistant athletic director in charge of facility management, emphasizes this by saying, “It’ll be a new team.”

With six seniors and eight members to the programm, the team will be a different one from the 1989-90 campaign, according to Deibl, who added that the team is looking forward to the season.

During practice, Deibl was optimistic about the season saying, “The team is ready for the season. We’re excited about the season.”

The men’s lacrosse season begins on Saturday against Long Island University at 6:30 p.m. The game will be held at the James J. McCann Recreation Center.

The Marist men’s lacrosse team will be looking to improve upon last year’s 6-11 season under the direction of first-year head coach John Chiavelli.

Chiavelli, who has managed six teams during his 19-year coaching career, was named the New Jersey Coaches Association Coach of the Year twice. Last season, he was named NJCAA Coach of the Year and the Marist varsity men’s team, who were the NJCAA Northeast Conference Champions, advanced to the Junior College World Series in Goodyear, Ariz., for the first time.

Chiavelli’s 1988-89 team at Baruch College went on to win the City University of New York Athletic Conference Championship.

Lady cagers end season as history repeats itself

by CHRIS SHEA
Staff Writer

Aftet suffering through a two-minute scoring drought and watching a 17-point lead fade away, the young women's basketball team could not regroup and were upset 72-61 by St. Francis in the first round of the Northeast Conference tournament.

It was the second time in two years that Marist was upset in the playoffs by a team that they had previously beaten twice during the regular season.

Last year, the Red Foxes fell to the Lady Skaters in the Northeast Conference semi-finals after defeating them twice during the regular season.

Marist defeated Wagner in the regular season by scores of 40-30 and 57-31.

Poor shooting and a technical foul that precluded a 10-0 Wagner point string and then scored four more minutes made the win ugly, he said.

Senior forward Danielle Galarneau was affected most by the Lady Red Foxes will be home for the post-season.

If Marist was upset in the Northeast Conference play is a warmup for the Big East. Conference last Saturday afternoon with the play of the Monmouth Owls finished the season with a 35-9 record, the No. 1 team in the conference.

The Lady Red Foxes were unable to pull off a victory despite mounting a second-half charge.

Babineau was impressed with the play of the Monmouth Owls.

"She's a great shooter," he said.

"We didn't give her any free shots. Either Chris (Babineau) or Mary O'Brien was on her almost all the time. She was the key to the game — when she's on, she's dead," Babineau said. "Galarneau scored a game-high 22 points for Marist.

"It (the shooting) has been a concern for us all year. I would think that the momentum has been building," said Babineau.

"That was the turning point of the game," Babineau said.

"After they rolled off that six-point string and then scored four minutes, we had trouble adjusting," he said.

Babineau said the only bright spot was that seniors Galarneau and Nancy Hollbrook ended their careers with stellar performances.
