CASHIN RESIGNS AS VICE PRESIDENT

Edward Cashin, Ph.D. has announced his resignation as Vice President and Academic Dean, and as a Marist Brother. Dr. Cashin expressed his sentiments by saying the religious life is "a process of evolution, and his own period of evolution ended today." He said that he is resuming his work as teacher at the New York State Education Department. View it as "an interesting experience," he said. "I came to Marist in Albany with the Division of the Marist College, and the initial step was to make a speech." This state agency, which deals with the master-planning and higher education in New York, is based in the Mid-Hudson Region by the possibility of a graduate center - pooling faculty and students from this area.

Dr. Cashin expressed his hopes that his resignation would not affect the development of the college, but feels his departure at this time is personally required.

For the past month, Dr. Cashin has been working on the resources of the Associated Colleges of the Hudson Valley to determine what assistance Marist could give in the area. He has been working with an expansion of this study in the area, which overlaps with other aspects of higher education planning.

Dr. Cashin stated, "This decision was made after a great deal of thought in my own religious life, and in no way should be interpreted as to cast doubt or discredit on the Marist Brothers or the work they do. I feel privileged to have been part of Marist College's growth during the past six years."

After graduating from Marist College, Dr. Cashin received his M.A. and Ph.D. from Fordham University. Dr. Cashin recently taught at Mt. St. Michael Academy, Bronx, New York and Christopher Columbus High School, Miami, Florida. He served as a consultant for the new Exchange Program with Fpane College, Augusta, Georgia. Dr. Cashin served as President of the New York Catholic Forensic League, President of the Miami Catholic Forensic League, General Chairman of the National Catholic Forensic League Annual Tournament, Vice President of the Dutchess County Committee for Economic Opportunity and Cont. on page 6

Ad hoc Committee Will Name New Vice President by April

Ad hoc Committee Will Name New Vice President by April

Brother Linus Foy announced that Dr. Cashin's resignation has been accepted by the Board of Trustees to an advisory committee for the purpose of selecting a new academic dean. Since Dr. Cashin, who has resigned as Academic Dean and President of Marist, effective February 1. The ad hoc committee will be named by the Board of Trustees at the February 5 meeting. It is expected to consist of the faculty, students. These administrators will be named by the Executive Committee, the Faculty, Executive Committee, and the students by the Student Council.

Kirk Leaves Order; Remains At College

Bro. Limus Foy announced recently that Bro. Daniel Kirk has submitted his resignation from the Marist Brothers to Bro. Kieran Brennan, Provincial of the Province and member of the Board of Trustees here. Bro. Foy further indicated that Bro. Kirk will continue as full professor and chairman of the psychology department. This marks the first instance in the history of Marist College of the continued tenure of a Marist Brother following his resignation from the Congregation. Bro. Foy expressed deep satisfaction at this turn of events, not only because it clarifies the relationship between Marist College and the Marist Brothers but also because it guarantees the continuation of Dr. Kirk's valuable service to the College.

New Calendar Is Scheduled

The new calendar for the academic year 1969-1970 includes a number of changes from the first semester before Christmas, with examinations scheduled for December 15 through December 20. The Christmas recess will be combined with the semester break resulting in the remittance of classes as late as January 19. The second semester will also be extended, ending a week earlier than usual.

A number of students and faculty members have agreed to the revised schedule, which will be implemented on an experimental basis. According to Academic Dean O'Shay, the new calendar is subject to revision.

Plan Proposed On Registering

T. F. Prentice, Assistant Professor of Business and Consultant to the Computer Center, is continuing work on the planning of a preliminary draft of a comprehensive student registration system which might be introduced into the College by next year. He was preparing a preliminary draft of a computer-based student registration process which has been designed for the introduction of the computer. The project is believed that planning of the schedule can be advanced, giving each student a better opportunity to plan his own program.

Torabella Delivers Findings At Annual Math Convention

Dr. Leopoldo Torabella of the Math Department here, delivered an address on Pluse area at the seventy-fifth annual meeting of the Mathematical Society. His findings, delivered on Sunday, January 26, were end results in a study of "quasi-piecewise flatness, differentiability and surface area." This new geometric theory of surface area brings to a close 100 years of investigation begun by L. A. At the end of his results, which address, which holds wide implications in the mathematical world. Dr. Torabella has been awarded by a professor from Moscow University to deliver his findings at.

Quiet On Campus

Woah! I thought for a while that the Social Committee had fixed up Miami Beach for our Christmas break, but I found out that place was already being used by some other group. So we had to find something else to do. We ended up going to a few movies and eating a lot of pizza. But things are looking better.

If you haven't heard anything from the Student Council, don't panic! They're still here. They're just busy being elected or re-elected to positions in the Student Council. And we're all waiting for the results to come in.

And don't forget to check out the new student center that was built this year. It's got a lot of really cool features and it's definitely worth a visit.

The Search

Warrening in his high seat, centered in the group of the men whose faces were all turned towards the center of the room, was a young man who looked like he could be a part of any of the groups that were gathered there. He was dressed in a suit and tie, and was surrounded by a group of people who were all talking to him. It was clear that he was someone of importance.

The young man's name was John Smith. He was a member of the board of directors of a large corporation, and was well known in the business world. He was also a member of the local political party, and was running for a seat in the upcoming election.

John Smith had been planning his campaign for months, and was confident that he would win. But he knew that there were many candidates running against him, and that it would be a tough race.

He had been working on his campaign for months, and had already put a lot of money into it. He had also been campaigning door-to-door, and had been very active in the community.

"I'm not going to take any prisoners," John Smith said to his campaign manager. "We're going to win this race, and we're going to do it by working hard and by being honest.

The young man's campaign was going well, and he was confident that he would win. But he knew that there were many candidates running against him, and that it would be a tough race.

**EDITORIAL**

**Nixon On China**

President Richard Nixon, after his first presidential press conference, announced that the United States will continue to block the admission of Communist China into the United Nations and the U.N. Apparently, the issue that his membership would be a threat to the stability of the world. The United Nations offers a forum of acceptance of a place among nations, and it is supported by many on the basis that it is the only way to address the global problems of a nation, and thus it is severely criticized. Yet, President Nixon suggests that international borders and policies of nations, or at least the global community, which rule them. If there is no hope for world understanding, we must begin to try to understand each other - the world - we would most likely understand China. It is a beginning. It is a beginning. It is a beginning.

**Paris Talk**

"We're seeing a great danger to ourselfs..." - Robert Kennedy, 1967

For world understanding, there is perhaps the best way to "know the best" hold some important implications. While America is plagued with disadvantage at home, we must now turn our focus to our world's biggest dangers and problems. Robert Kennedy, in outlining the relation of China with America, said, "We are all in a sense, one with China..." This recognition that we live in the same world and move in the same currents of history, seeing the dangers and possibilities, only when we accept the responsibility, this responsibility we can work towards our goal. This is the only fact that it must live with and see other nations of the world.

Hopefully, the reality of China at our doorstep will move President Nixon to form foreign policy more credibly.

**Quiet On Campus**

Worried for a while that the Social Committee had found its way to Miami Beach for a Christmas vacation, but found out that their plans were blocked and they took their way to Ferris. Catch the time gone out on campus - it appears under several banners: "Bolshoy Beach" and "The Beach". But things are looking better.

If you haven't been affected by anything from the Student Council lately, don't panic: you're not dead. (Excluding LUGS, etc.) There is still a possibility that this paper will be under a lot of scrutiny and, if that did not change, there would be no need to speak. Let's cut this talk short, or I will be forced to be more like an instructor. So let's get to the point.

I'm not a student, but the problem of the current generation in the American Church is the lack of education and understanding. The Church is the backbone of our society, and it is the Church that must cut the faith. Science, history and philosophy are the three pillars of our Church. Let's cut this talk short, or I will be forced to be more like an instructor. So let's get to the point.

Peace Corps Shows Rise In Volunteers

WASHINGTON - During the spring of 1969 the Peace Corps will train more than twice as many volunteers as were trained in the same period last year. The Corps is also at work in more than 100 new countries and regions.

Volunteers are needed in a variety of fields, including agriculture, education, and public health. Those interested in serving should apply by the end of the month.

The Peace Corps is a volunteer organization that provides opportunities for individuals to work in developing countries and learn about their cultures.

The Corps aims to promote international understanding and cooperation. It offers a unique opportunity for individuals to gain valuable work experience and contribute to the development of other countries.

Students' Records Are Kept Private

WASHINGTON, D.C. - The Nixon administration has approved a bill that would require colleges and universities to keep student records on microfilm for a period of up to 10 years.

The bill was introduced by Senator Edward Kennedy (D-Mass.) and was signed into law by President Nixon. The law will provide protection for student privacy and ensure that educational institutions maintain accurate records.

Despite this, some critics argue that the law does not go far enough to protect student privacy.

The Washington Disgrace

The March on Pennsylvania Avenue was the largest political demonstration in American history. Protesters filled streets and marched in a demonstration against the war in Vietnam. The march was peaceful, but some clashes occurred with police.

Education Expenses Continue To Climb

IOWA CITY, Ia. - The cost of higher education continues to climb, according to a new report. The average cost of tuition and fees at public universities is up 11 percent over last year, and the cost of room and board is up 7 percent.

The report, released by the College Board, shows that the cost of higher education has increased significantly in recent years. The trend is expected to continue as universities face increased costs for salary, benefits, and facilities.

Free sacrament and the new administrative board for the Music students will continue to meet each week, including the last meeting of the year, on Oct. 17. Students at the Music studio will also have an opportunity to present their work at the Music studio in the fall of 1969.

The Christmas Gifts for Music Students

THE CHRISTMAS GIFT for Music Students has been a tradition at the Music studio for many years. This year, the gift was a special Christmas box containing a set of Classical CD's. The students were thrilled with the gift and were eager to listen to the music.

Next year's Christmas Gifts for Music Students will be announced in the next issue of the newspaper.
FOXES TOPPLE KING’S, MARITIME AND DOWLING, FROSH WIN, GRAPPLERS BOW

Cagers Take Three; Play Home Monday

The year 1969 has been good to our basketball team, at least so far. With some very improved men doing a good job, and a couple of mainstays returning to their old form, Coach Petri can boast of a three game winning streak at the semester break.

Returning to the hardwood at home on Jan. 7, the Hechmen found the going a bit tough as they won a 105-103 squeaker over Kings of New York in double overtime. The hard fought battle was light throughout with no team ever having more than a 6 pt. advantage. The entire game was a basket-for-basket affair until Kings opened up a 6 pt lead with about 3 minutes to go. Marist then closed the gap to gain a tie at the end of regulation play.

The first overtime went much in the same manner and after the first 6 minutes were up, the contest was still a standoff. In the second overtime, however, Ken Thompson and Tom Waldshill hit some crucial free throws, and Bill Spena sank three clutch baskets to give the Foxes a 6 pt. advantage with about a minute left. But King’s scored back as Jim Bergthold, their one man scoring machine, hit four quick points to bring King’s within two. With two seconds left King’s called the time out. E. C. Crawford then hit a shot. But Ray Manning ruined the game for King’s as the in-bounds pass and holding it was turned over to Marist. Bergthold, despite the loss, came out a winner as did the crowd with his fabulous shooting performance. He hit 20 for 36 from the floor as the lights were turned on.

The crowd was outstanding with the lights being turned on by their deadly marksmanship. His 43 points, which he amassed despite the tough defensive work against him, were his personal high for the year.

Leading the Marist scoring were Thompson with 27, Spena with 21, and Manning with 22. Rebounds were distributed quite evenly among the big men.

CONT. ON PAGE 7

Mile Relay At Garden

On Friday, Feb. 7 at Madison Square Garden, Marist’s Mile Relay will be entered in the afternoon preliminaries of the Garden Invitational.

Featured on this relay are four juniors, Bill Kalish and Joe McMahon, and two sophomores, George Rowe and Steve Kopki. While Kalish and Kopki specialize in the quarter, Rowe and McMahon are primarily middle distance runners. However, all four have hit the 52 second range for the 440 distance in previous outdoor seasons, and this is comparable to a 1:53.54 for indoor season on a 160 yard track board, such as that at the Garden.

Each one of the quartets has been running since before cross-country season, and each one has proven that they will provide excellent exposure for the team and should help maintain their sharp edge for the season’s first dual meet at Queens on Feb. 22.

MATH: from page 1

Accompanying Dr. Toraballa, were Louis Alpert, Chairman of the Math Department here, and 16 students (14 of them math majors) from the college. The delegation spent four days at the New Orleans convention, returning to campus Sunday. Over 500 addresses were given at the conference on various subjects of interest in advanced mathematical study and research.

The Marist delegation, being apostles of both work and play, spent most of their evenings in New Orleans. At the end of the first day, the delegation dined with him at the Flying Club. Although most of the Marist students were bureau de change thugs that particular night, Mr. Alpert managed to convince them to accept Dr. Toraballa’s invitation.

At the same time as the American Mathematical Society was the Association for Symbolic Logic, the Mathematical Association of America, and a meeting of the National Council of Teachers of Mathematics.

It was necessary for the Marist delegation to be individually released of any of the meetings in order to see the respective campus, and meet the members.

Because of the overwhelming response by interested students in the various meetings, Mr. Alpert is confident of a visit by his students to their campus at a future date.

Frosh Swamp King’s

With almost one-half of the season over, the Frosh team is averaging a winning average of 20.4, a fine outside corpus. This has been due to the fine defensive work of the team, who have allowed an average of 36.6 points against them. The Frosh team has had only one game, defensive, defeat, and that was against the King’s team. With their fine defensive playing, the Frosh team are now in contention at all as they are 50-20-2 at the half. Joe Scott led the scoring with 22 points as he completely dominated the boards while he was in there. Reserve gave much action as Dennis Curtin scored 14 points and Jim Costello and Joe Wilson grabbed 12 and 11 rebounds, respectively.

The main reason for the success of the frosh team is the tremendous starting five. The big man in the lineup is center Joe Scott. Built along the lines of Pat Riley or Joe May, he is not an ordinary 6'5" center, but rather he relies on his tremendous strength and great height. Joe is averaging 18.18 pts. per game and leads the Frosh team in rebounding with an average of 15.3 per game. Joe’s height gave him a giant Bloomfield when he scored 31 points and nabbed 31 rebounds.!
