ATITUDES: OUTRAGEOUS
by Mike Venz

The 1984 election has been more than a campaign. It has been a referendum on the issues of our lives. The campaign is not just about selecting a president, but about choosing a future for our country. The issues at stake are not just economic, but social and environmental. The decisions we make now will have a profound impact on the world we create for ourselves and our children.

It is essential that we take a stand on these issues and support candidates who share our values. We cannot afford to be complacent or ignore the issues that matter to us. We must be proactive in our activism and engage with the political process.

The 1984 election is a call to action. It is an invitation to stand up for what we believe in and work together to create a better future for all.

Disabled In Action
by Mike Venz

Disabled In Action is a group of individuals with disabilities who are committed to fighting for equal rights and opportunities. We are tired of being marginalized and we want to be treated with dignity and respect. We demand access to education, employment, and housing, and we reject any form of discrimination.

Disabled In Action is not just for those with physical disabilities, but for anyone who has faced discrimination due to their race, gender, sexual orientation, or any other reason. We are united in our fight for justice and equality.

We call on all people to stand with us and support our cause. Together, we can create a world where everyone is valued and respected.

---

Calvin Klein's KinkyAds
by Mike Venz

Calvin Klein's KinkyAds are a series of advertisements that challenge traditional gender roles and promote sexual liberation. These ads have been controversial, but they have also sparked important conversations about sex, desire, and identity.

Calvin Klein's KinkyAds are not just about fashion, but about breaking down the barriers that have kept people from expressing themselves. We must continue to challenge the norms and push for greater acceptance and understanding.

Bill Baird On Abortion
by Mike Venz

Bill Baird is a pro-choice activist who has dedicated his life to defending women's rights. He has been a leader in the abortion rights movement for many years and has worked tirelessly to protect women's access to safe and legal abortion.

Bill Baird believes that women should have the ultimate say over their own bodies. He is a vocal advocate for reproductive rights and has spoken out against any effort to restrict women's access to abortion.

Bill Baird's work has been crucial in advancing the cause of women's rights and we must continue to support his efforts. He is a true champion of justice and equality for all.

The Future Of The Draft
by Mike Venz

The draft is a system that forces young people to go to war without their consent. It is a violation of our basic freedoms and it must be abolished.

We must work towards a world where all people have the right to live without fear of violence or war. We must push for a world where peace and justice are the norms.

We must support those who are fighting against the draft and work towards a world where everyone can live in peace and freedom.

The Burden Lies Within
by Mike Venz

The burden of history lies within us. It is a weight that we carry with us every day. To lighten that burden, we must learn from the past and work towards a better future.

We must confront the legacies of war, discrimination, and poverty. We must work towards a world where all people have the chance to live without fear and oppression.

We must learn from the mistakes of the past and work towards a better tomorrow. The burden lies within us, but it is up to us to shoulder it and make a difference.
ATTITUDES: OUTRAGEOUS!
by Mr. O'Grady

Skeesh Tink, the Eccentric Editor, asked L. Tink if Tink had any news. Tink said, "I've got some heavy news. You know, like they don't want you to know. They want you to know, but they don't want you to know."

L. Tink, who was sitting on the floor, replied, "Look at you, sitting there like a fool."

Tink, who was standing, said, "I'm not a fool. I'm just not in the mood."
The *Cruises-in-the-Year* Club* might offer special deals for groups where lobster is a must. It's enough to go around.
Hey! The War Isn't Over

By John Keere

The peace books have been a failure. The peace movement has been a failure. The peace movement has been a failure... and yet we keep on going. We keep on going because we believe in the cause. We believe in the cause because we believe in the future. We believe in the future because we believe in the power of love.

And the truth is, we've made some progress. We've made some progress because we've been working hard. We've been working hard because we know that the only way to win is to fight. And we're not going to give up until we have won.

So let's keep on going. Let's keep on fighting. Let's keep on believing. And let's keep on winning.

College Faculty: Bascion Of American Radicalism?

During the recent elections, Vice President Lyndon B. Johnson's administration has been under attack from various sides. The administration has been criticized for its handling of domestic and foreign affairs. There have been protests and demonstrations against the war in Vietnam and the administration's policies on civil rights.

The Trust Fund and Chidboard Pollution

Legislation authorizing the expenditure of Highway Trust Fund money for a non-competitive and shotgun project has been approved by Congress. The bill, which also extends authorization for the Interstate Highway System, provides for the expenditure of $3.5 billion for various construction projects.

A similar bill under consideration in the House authorizes funding for the Interstate Highway System. If the legislation is enacted, it would provide for the expenditure of $3.5 billion for various construction projects.

The bill is one of several that will be considered in the coming weeks. A number of other bills are expected to be considered in the coming weeks. A number of other bills are expected to be considered in the coming weeks.

Letters To The Editors

Misunderstanding

Resolved

I would like to respond to the recent letter from John Smith about the misunderstanding regarding the use of the word "radical". I would like to clarify that I was not referring to the political meaning of the word "radical". I was referring to the meaning of the word "radical" in the context of scientific research.

Love In The 70's?

Dear Sir,

I am writing to you about the topic of love in the 70's. I have noticed that the way people express love has changed over the years. I would love to hear your thoughts on this topic.

Sincerely,

Jane Doe

What Gives Here?

Dear Sir,

I have been contemplating the question of what gives here. I have been trying to understand the motivations behind the actions of individuals and groups. I would appreciate any insights you might have on this topic.

Sincerely,

John Smith

Changes

Dear Sir,

I would like to bring to your attention the changes that have occurred in the last few years. These changes have affected various aspects of our lives, including our personal relationships, our careers, and our community. I would appreciate any insights you might have on these changes.

Sincerely,

Jane Doe

Chuck Here

Dear Sir,

I have been thinking about the importance of changes in our society. I believe that changes are necessary for progress, but it is important to approach them with care and consideration.

Sincerely,

John Smith
One Night
by Richard Ficenec

It was a dark night, beautiful, awe-inspiring, a night when all the stars seemed to be shining down on me. I was standing on the shore of a small lake, watching the fireworks being launched from the opposite shore. For a moment, I was lost in the beauty of the moment, the simplicity of it all. But then I heard a noise, a sound that seemed to come from nowhere. It was a soft, gentle hum, like the distant rumble of distant thunder. I turned to look, and saw a group of children, no more than five or six years old, running towards me. They were holding hands, and their faces were lit up with excitement.

"Look at the stars," one of the children said, "they're dancing for us!"

I smiled, and joined in their joy. We stood there for a moment, watching the fireworks, the children's faces aglow with wonder and delight. And then, as suddenly as it had begun, the noise grew louder, and the children started to cry. They turned to look at me, fear and confusion in their eyes.

"What's happening? Why are the stars dancing for us?"

I looked up, into the sky, and saw the fireworks, growing even brighter and more beautiful. And then I realized. I realized that the children didn't understand. They didn't understand the beauty of the moment, the magic of the night. They didn't understand that the stars were dancing for them, as a gift from the universe.

I took a deep breath, and spoke to the children, my voice soft and reassuring.

"The stars are dancing for you," I said. "They're doing it because they love you. And they want you to know that you are special, that you are important."

The children looked at me, their eyes shining with understanding. And then, one by one, they reached out and touched the sky, their fingers cupping the fading light. And in that moment, I knew that I had understood. I understood that the beauty of the night, the magic of the moment, the love of the universe, was a gift that could only be shared. And I knew that I would always remember the night the stars danced for me.
One Night
by Richard Brownstone

It was a dark night and the moon shone dimly through the mist. It was closing in on the harvest moon, and the stars were out. The mist was thick and heavy, and the wind was howling. The fog was swirling and the trees were swaying. The scene was eerie and the atmosphere was foreboding. It was a perfect setting for a spooky story.

FUTURE OF DRAFT...FROM 1

There are two possible outcomes of the draft: the first is to maintain the current system, and the second is to introduce a new system.

Footballers Finish Flawlessly
Farleigh Dickinson Falls Dead

The Vikings finished their most successful season last Saturday by defeating Fairleigh Dickinson University by the score of 33-4. It was the first time that any Marietta team has gone unbeaten throughout their season. Fairleigh Dickinson's mark fell to 3-3.

For eleven seasons it was their last time in a Viking uniform. Co-captains Jack McDonnell and Dean Gestal, along with Bob Scott, Bill Fascione, Mickey Call, Bill O'Reilly, Bob Roscoe, Mark Novak, and Jack Hinchliff, are the three graduate in the spring and will be missed.

The hard hit by graduation will be the defensive backfield. McDonnell, Roscoe, and Gestal gave the Vikings three good seasons and developed into the best pass defense in Marietta football. Hinchliff and Novak will also be leaving the defensive unit making it the hardest hit unit of the Vikings.

The offensive unit will be without the services of Mickey Call, Jack Hinchliff, and Bob Duro, who played behind the defensive line. This season, gave the Vikings the depth they have in the running backs positions. Both saw plenty of action and always did their job when called upon. Viking fans will be sure to miss Scott and Fascione. For two seasons they have been the communications between the coach and quarterback. The kicking of Bill O'Reilly gave the Vikings good field position throughout the season. O'Reilly was a big factor in the Vikings win over Albany State. His numerous punts kept the team from Albany deep inside their own territory throughout the game.

As for this week's game, it was performance from the Vikings opening up the scoring early in the first quarter. Fairleigh Dickinson University had the ball on their own 35 yard line. Attempting to pass the ball was thrown into the hands of defensive and Don Hinchliff, who took it 35 yards to the Viking five yard line. Jack McDonnell added the extra point as the Vikings jumped to an early 7-0 lead. Later in the first quarter Fairleigh Dickinson forced Marietta to punt. Jack McDonnell put the punt on their 44 yard line. The play later Bob Duro took it 3 yards for a touchdown. Jack McDonnell again added the extra point making it a 14-0 lead.

Fairleigh Dickinson was unable to get moving. Forced to punt the Vikings began to move once more. Some fine running by Hasbrouck and Milligan brought the ball into enemy territory where a Wilkins to Roscoe pass brought the ball to the Fairleigh Dickinson 5 yard line. From there Hasbrouck took it the rest of the way for the touchdown. The PAT was missed making the score 20-0. The Vikings kept moving in the second period. With the ball on the Fairleigh Dickinson 40 yard line Jim Wilkins connected with Chuck Browne, Browne showing some fine open field running, raced 40 yards for the score. Jack McDonnell added the extra point as the Vikings continued to roll along 27-0. In the same period the Vikings were able to score again. Getting good field position thanks to the return by Gestal and McDonnell the Vikings offensive line opened up the hole that Fairleigh Dickinson offensive line could not. Hasbrouck ran the ball 51 yards to the Fairleigh Dickinson 5 yard line. The play later Bob Duro took it 3 yards for another touchdown. Jack McDonnell again added the extra point making it a 33-0 game. The Vikings were able to score one more time in the game. The score was 33-4. The remaining of the game was played with the score 33-0.

Neither team was able to score in the third quarter. Half way through the fourth quarter both teams were forced to punt. Fairleigh Dickinson blocked it and the ball rolled out of bounds behind the goal post for a safety. After that the kick off Fairleigh Dickinson began to move. They moved to the 3 before the Viking defense stopped them from scoring. Taking over the ball on the 5 the Vikings attempted to pass. Coppolino, who dropped back into his end zone, was trapped them for another safety. With the score 33-4 the game came to a close.

Booters Lose To Graduation

The Mariott College Soccer team ended a very long season on a winning note last week with a 1-0 victory over Dowling College. The victory gave the Red Foxes a 4-9-1 record with victories over West Conn., St. Lehman, Nyack and Dowling. With the last game it marked the last appearance for seniors Ray Apha, Terry Green, David Rafter, John Murphy and Duke Snyder. Murphy, co-captain with Pete Walewski will be missed next year. Walewski was the leading scorer with seven goals and will return next year for his third season. Then Walewski and the improved player was goalie Pat Park in the goal. For the second year, Pat was very ineptness and developed with each game earning two shutouts in the last two games. The teams defense will again be solid next year when defensive backs Jim Heilmann and Chief Bergin return. Please get yours in as early as possible.

Harriers Complete Season
At N.A.I.A. Regionals

On Saturday, Nov. 7, the cross country team travelled to Venango County Park to compete in the N.A.I.A. regionals. This was their last meet of the season and the Harriers finished 9th in a field of 14 schools. Patton State won the event and thus earned a position in the N.A.I.A. nationals to be held in Kansas later in the month. Marietta was paced by captain Bob Marolf, pictured left, and Dave Gilliam, 36th. They were followed by seniors Mark Des Jarlais and Dean Gestal, and junior Nolan, a junior. The team thus finished in a respectable 9th place.

In Greg, Greg and Bob this was their last season as cross country runners. Mark had a especially fine season so he came back for one more year to help off to consistently run 3rd man for the team. Steve Kopfl, the fourth runner on the squad, was also looking for a good season until he was unexpectedly sidelined with a foot injury. Steve will return, however, along with Greg. Howe is leading the indoor-outdoor team this coming winter and spring.

Joe Nolan had never run cross country until he came out to try and help the team in September. As it turned out Joe helped the team immensely as he filled in the necessary 5th position on the squad. Possibly the brightest reflection on the Harriers was the performance of freshman Don Gillispie. Don adjusted very early from the line high school courses to the 3.0 mile distance score again in 3.0 mile and to finish first for Mariett in 4 races was an asset for the team. Presently Don has the 4th best score in the beginning of the N.A.I.A. meet on our course (28:03) and seems to be a fine prospect for the next 3 years.

Probably the best team this year was turned in against Queenphile College of High Point as they have broken record was the

HARRIERS took the first 4 positions and missed a breakout by one man. The overall team ranked this years squad as the second best Mariett team ever on its home course.
In approaching the problem of ecological destruction it is generally accepted that the most effective and important action will necessitate sweeping reform of industry. Included in the price of every new factory, of every new road and every power plant must be the price of ecology. No longer can it be ignored as in the past. However each individual must become involved in move to rescue the environment. What follows are suggestions that each person can incorporate into his daily life. Some require sacrifice, others may fit in very well with your present life style. In considering the cost to the environmental destruction these sacrifices are minimal.

**Water**
- put bricks in toilet tank
- don't use colored toilet tissue (eye treatment is resistant to decomposition)
- don't use detergents with phosphates
- boycott enzymes
- fix leaky faucets
- don't use garbage disposals

**Air**
- don't drive
- use public transportation
- arrange car pools
- walk
- bicycle
- get a smaller car with a smaller engine
- use less electricity
- buy few electric gadgets

**Food**
- grow your own
- garden organically
- recycle organic garbage
- don't use persistent pesticides (DDT, dieldrin, aldrin, chlordane, lindane)
- avoid harmful additives

**Solid Waste**
- don't use plastic wrap
- reuse aluminum foil
- avoid paper towels
- collect and sell newspapers
- reuse paper bags and plastic bags
- don't use styrofoam cups, plates, bowls
- read newspapers in libraries
- buy second hand

**Life Style**
- reduce consumption
- borrow and lend
- rely on yourself, make your own, grow your own repair your own
- economize

**Population**
- limit yourself to two children
- adopt

*Encourage voluntary birth control*
*Support legalized and available abortion*

**Aderholt...From 5**

hand in the prime subject being our security system and its director, Mr. Aderholt. Before I turned the letter in, however, I decided to talk directly to Dean Wade and Mr. Aderholt. While my talk with Dean Wade was just that, a talk, my talk with Mr. Aderholt proved to be very enlightening. I found Mr. Aderholt, to my surprise, to be open minded and community minded towards Marxism. As I sat there talking to him I found out a few things not too many people have heard of before. While I was there, Mr. Aderholt, upon hearing of a break and entry into a car, put an extra guard on the lower lot from 10 P.M. to 7 A.M., regardless of his budget. While not agreeing on all points with him, I felt that he was at least concerned. He agreed with my petitioning the Student Government to form a commission to go into the security system and come up with new and better ideas. He is willing to tear down every rule and come up with something we can all agree upon. I am asking the Student Government to take action on this problem and form a commission to come up with new ideas. I, myself, am volunteering. If the Student Government passes over this, not only would they be making a mistake but they would also be neglecting their duty to do as they were elected to do, that is to govern this school and its policies.

I also learned that before one criticizes he should realize both sides of what he is criticizing before making an accusation. The Security System....? needs improvement. How? It is up to the student body how.

**War...From 4**

poisoned. The rate of birth of hideously deformed babies has skyrocketed.

Fact: We live with these facts. Most of us have been able to come to terms with this country's policy of murder and devastation. We make the appropriate responses when forced, put peace signs on our cars, flash 'V's' when it's appropriate. But by and large, we have learned to live with the War.

As long as that is true - as long as those who oppose the American involvement in Vietnam sit quietly and let the War go on, then the Nixon administration will interpret that silence as approval, and ten years from now South Vietnam will still be a garrison state and a whole generation of Americans and Vietnamese will have forgotten what peace is like.

But what can we do? That is the question on which the Peace Movement founders. Marches are out of date; petitions a waste of time; elections don't happen very often, and besides we lose. What is left?

No one knows. The Peace Movement needs new ideas. It needs the commitment of those who have dropped out in frustration. The War is intolerable, yet we tolerate it. We need to remind ourselves that it isn't over. It isn't over for the men who carry draft cards in their wallets, and for those who refuse them. It isn't over for the people of Vietnam, for whom the slogan "Yankee go home!" must burn in their hearts and guts. It won't be over until the masses who organized the one-day marches and the excursions to Washington sign up for the long haul. Only the people can stop the war.

It's time. Now.

—John Kater
Lecturer, Dept. of Religious Study
Chairman, Mid-Hudson Committee to End the War in Vietnam
