by Bill O'Reilly

Upon investigating all of those virtues of life one partially finds satisfied the self-righteous attitude of a Socrates, a Confucius, a Mahatma Gandhi, who will remain anonymous, and a President Clinton. The Socrates was found near the top of the image. The Confucius was found near the bottom of the image. The Mahatma Gandhi was found near the middle of the image. The President Clinton was found near the center of the image. The Socrates was found near the top of the image. The Confucius was found near the bottom of the image. Disability In Action

by Mike Reed

It is the right of every American citizen to be treated fairly and with equal respect. Yet, in the majority of the nation's schools, students with disabilities are often ignored or overlooked. This is particularly true in the educational pyramid, where students with disabilities are often denied equal opportunities to learn and grow.

The fact still remains that many students with disabilities are not treated with the care and respect they deserve. Many schools and programs are not equipped to handle the unique needs of these students. This is a problem that affects students of all ages and abilities. It is important that we work together to address this issue and ensure that every student has the opportunity to reach their full potential.

For more information, please visit the Disability In Action website at www.disabilityinanction.org.
Wade, Averbodrt, Student Gov. Discuss Security Problems

"Not enough people on this campus are aware of the security threat," said Director of Security Ronald Averbodrt. "Averbodrt told reporters that the Department of Security was concerned about the current state of security on campus. The recent incident at a concert between Averbodrt and a student led to a discussion on this issue.

The incident was a result of a concert between Averbodrt and a student who was found in possession of marijuana. According to Averbodrt, the student was not aware of the security threat and was unaware of the charges against him.

For many people actually witness acts of vandalism but not realize it. They feel that perhaps they should do something to help, but would rather prefer to keep the problem to themselves.

Such discussion in the community is important, as the facts the community, as such, has not yet appreciated how they want to deal with the issue. To this end, Averbodrt has instructed his men to notify the police upon finding any instances of vandalism.

Averbodrt said that the security problems could be solved if more people were aware of the threat.

Averbodrt concluded by saying that he hoped the community would take the threat seriously and work together to address the issue.

Cops and Robbers?

The most interesting thing to come out of the recent meeting between the President of the United States and the President of the Soviet Union was the agreement on the future of the SALT II negotiations. Although Mr. Averbodrt's policy has been to inform the public of the potential dangers of nuclear war, the President has not yet made a public statement on this issue.

The President's decision to inform the public of the potential dangers of nuclear war is a positive step in the right direction. However, the President has not yet made a public statement on the current state of the SALT II negotiations.

Wade, Aderholdt, Student Gov. Discuss Security Problems

"Not enough people on this campus are aware of the situation," said Director of Student Activities Wade Aderholdt. "No one would reflect on campus that there are any problems."

Aderholdt went on to say that many people have not noticed the threat which the neighborhood has become.

Tensions are high as students and faculty members fear for their safety. "I think we should be making more of an effort to help people." said Aderholdt. "It's a problem that needs to be dealt with now."

Aderholdt went on to discuss the possibility of a police presence on campus. "I believe that would be a good idea," said Aderholdt. "It would make people feel safer."

Surveillance is also an issue that Aderholdt feels needs to be addressed. "We need more cameras and better lighting," said Aderholdt. "It's important to keep the campus safe."

Aderholdt also mentioned the importance of education. "We need to educate people about the dangers," said Aderholdt. "It's important to be aware of what's going on."
**SYMPOBOLIC AMERICAN**

The circle and the spiral are symbolic representations of American memory and identity. The circle, a timeless symbol of unity, completeness, and infinity, represents the enduring spirit of the American people. The spiral, a dynamic figure of movement and evolution, symbolizes the historic journey of America through time and change. Together, these symbols encapsulate the essence of America as a nation of continuous progress and collective memory.

**GRAPPLES ERRATIC**

by George Ryno

Three weeks ago, the Food Committee completed a survey of the men's dorms. The survey included questions such as where students store their food, how they like their roommates, and what they would change if they could. The results showed that many students value the independence fostered by living on their own, but others miss the camaraderie of dorm life. The committee is considering the possibility of creating more communal spaces in the future. The survey also highlighted the importance of open communication and transparency in the decision-making process. Overall, the committee's goal is to improve the living conditions for students and ensure a positive experience for all.

**FOOD COMMITTEE SURVEYS SAGA**

by Charles E. B. Pashuyt

The Food Committee conducted a survey of the students, asking about their preferences for food options and experiences. The survey revealed that students value a variety of food choices and appreciate a balance of healthy and indulgent options. The results also showed a high demand for more vegetarian and gluten-free options. The committee is considering implementing these changes to better meet the needs of the student body.

**MASTERS AROUND THE WORLD**

by Robert Joyce

Several international students have shared their experiences and insights on living and studying in the United States. Themes include navigating cultural differences, making new friends, and adapting to the academic environment. The students highlight the importance of cultural exchange and the challenges of adjusting to a new environment. Their stories offer valuable perspectives for others considering international study or work in the United States.

**MAINTENANCE: THE FORGOTTEN MEN**

by Clifford D. Cutler

The role of maintenance workers is often overlooked in the daily lives of students. These workers, known as the "forgotten men," are responsible for ensuring the functionality and safety of the campus facilities. They work tirelessly behind the scenes to maintain essential services, from cleaning and repairs to emergency response. Their dedication and hard work contribute significantly to the smooth operation of the campus.

---

**STUDENT ACADEMIC COMMITTEE**

by George Ryno

During the past two weeks, the Academic Committee has focused on the future of the Classical Languages. A new program in German is being developed, and the committee is considering options for a track in Japanese. In addition, the committee has initiated discussions about the role of the Academic Senate in decision-making. The committee is committed to balancing the interests of students and the faculty in shaping the academic curriculum.

Ditch Information

By Curtia Turn

Eight major policies that the new administration will implement include:

1. A new Youth Police Committee was established.

2. The National Advisory Commission for Youth Information was created.

The new policies are in line with the goals of the American Youth Movement, aiming to improve the service delivery and promote youth participation in the decision-making process.

Album Reviews

Notes On What's What

By William Park

I got here before daylight, just in time to see some new tonight! It's a real album, good for a friend of some friends. It's a fun record, lots of different sounds. It's a great album, good for a friend of some friends. It's a fun record, lots of different sounds.

Cynthia: Good night. I hope you have a nice time.

All: Good night. Thank you for coming.

Track eleven: "The Eyes of Love"

The song is about love and relationships. The main theme is about the ups and downs of love. The lyrics are about how love can be beautiful and painful. The singer expresses the emotions of love, but also acknowledges the challenges that come with it.

The music is composed of various instruments, including guitar, drums, and piano. The vocals are melodic and emotional. The song has a strong rhythm that keeps the listener engaged.

The harmony is well-balanced and contributes to the overall mood of the song. The lyrics are meaningful and resonate with many listeners.

The production quality is excellent. The sound is clear and the recording is professional. The mix is well-balanced, allowing each instrument to shine.

In conclusion, "The Eyes of Love" is a great song that is sure to please fans of the genre. The combination of emotional lyrics, strong rhythm, and well-executed production makes it a standout track from the album.

Maintenance: The Forgotten Men

By Robert Salon

The time has come when the working class has to take control of its economy. The workers must decide how their work will be performed. The workers must decide how their work will be performed. The workers must decide how their work will be performed.

The song is about workers' rights and the importance of a democratic workplace. The main theme is about the need for workers to take control of their economy. The lyrics are about how workers can empower themselves and take control of their lives.

The music is composed of various instruments, including guitar, drums, and piano. The vocals are melodic and emotional. The song has a strong rhythm that keeps the listener engaged.

The harmony is well-balanced and contributes to the overall mood of the song. The lyrics are meaningful and resonate with many listeners.

The Varsity Basketball Team ended their season on a high note Monday night with a win over Bloomfield College 74-51. Over a period of seven years the Hooper's played four games in which they won one, lost two. The Bloomfield game was of the utmost importance for two reasons. First, it was an important C.A.C.C. league game and second it stopped a two game losing streak.

BilL SPENLA

Redmen Puncture Balloon: 30-20

by Steve Van Buren

The Voughts of Marist were defeated by St. John's University Redmen Nov. 28 by a score of 30-20. It was the first loss of the season for the Maristmen who had compiled an outstanding regular season record of 8 wins and no defeats. Close to two thousand Marist fans traveled to the Metropolitan Bowl at the request of Coach John Verano to witness one of the most exciting games in club football this year. The Redmen played under the guidance of Bill Laidlaw, a gram -12-0 first quarter lead on two TD passes to back Carberry and O'Donnell. Finding themselves behind for only the second time this year, the Vikings came roaring back to take the lead. The first Viking touchdown came on a beautifully thrown 60 yard TD pass from quarterback Jim Wilkens to Chuck Browne. Bill O'Reilly converted and the total was increased to 15-0 in the game 13-7. Later in the second quarter Wilkens once again teamed with Browne for another 6 point O'Reilly again converted, and Marist led 14-13 to the half, the longest unbroken season of St. John's and delight of the Marist fans.

In a game of thrill with the Viking defensive unit playing a perfect game, St. John's lost. Lastlaw for a loss and putting him out of the game with an injury. Kaiser took over for St. John's only to find All-State and the days MVP (most valuable player) favorite, Harry Now, dogging him to the turf with a crushing tackle for a 8 yard loss.

An attempted field goal was blocked by Dean Gentil at this point and ended Hinchee's streak.

Football Season A Tribute to The Players

by Bill O'Reilly

Football Season

The Football Vikings closed the season with a last minute loss to powerful St. John's University 27-20. The season was the best an athletic team at Marist has ever had.

For the most part the football team pulled together. There were great representation and these two things pulled us through rough games at Pace and Providence. This year I know I cannot pull together so well is amazing in itself. We're a young team who played here the team was much older. We were not as individual and was very cliquish. The results were mediocre seasons.

One of the reasons for the success of the team this year was the field. Coach R. J. Levine. When Levine is a known football coach and a man who has been successful in football, any team will be successful. He did a good job of treating the footballs as people.

Heinzen's philosophy, borrowed from Vince Lombardi, is that winning isn't everything—it's the score. Iona's tenacious defense jumped out to a 4-0 lead. The Red Foxes quickly ran off a twelve point lead to take a lead that never relinquished throughout the course of the game. The first point lead was soon stretched to a 13 point halftime advantage, 30-20. The halftime lead was maintained until six minutes to go in the game when the Hoopseed suddenly exploded, jacking the lead to twenty points. Using the subs freely, Coach Ron Petro guided his team to victory. Fancing the attack was Joe Scott with 20 points. Other players to the cause were Ray Manning (13 points), Bill Spens (2 points) and Ray Clark (10 points). The Red Foxes with fine performances: Iona's winning streak ended against USF (11 points) and Joe Scott (10 rebounds). Marist's win was also their season opener.

RAY MANNING

points, along with Hanes (15 points), Bob Greens (11 points), Ray Vyno (11 points), and Bill Gendler (13 points).

On Thursday night December 3, the Red Foxes traveled to New Rochelle to take on arch rival Iona. The Gaels quickly jumped to a 3-3 lead after two minutes and fifty seconds. Marist then hit a drought and before it ended Iona was in front 16-2. The main reason for this inability to score was the inability to get to the field (14 points, 12 rebounds), Ray Clark (14 points) and Joe Scott (10 rebounds). USF's win was also their season opener.

Redhof's Floor Fall

Frosh fell apart. They had led halftime, but soon gave the game away—to Sacred Heart, 84-85. Once again Frosh was high man with 16 points and 11 rebounds. Sacred Heart was led by Center Mike Eisenberg who had 23 points.

A few days before the Frosh had cut 12 points short against a strong Iona team. The Frosh were on a winning streak at the half. But soon Iona used a full-court press, and the Frosh couldn't keep up. The result was a 76-58 loss to the Gaels. Terry Martin led all scorers with twenty points while Center Ray Hyland netted 17 points for the Frosh.

In the season opener against Vassar, the Frosh scored big. The young Red Frosh showed some promise for the season. The Hoopsters stretched a 12 point lead at half, 34-19. To the 92-38 victory however, was led by Bruce Porter (18 points) and ten rebounds, Ray Donowitz (11 points), 12 rebounds, Joe Couch 14 points and Jim Hanks, 10 points.

Injuries played a key role in the Frosh Floor. Bruce Porter was recorded by the Frosh Basketball Team. After an early game loss, Young Red Frosh returned teams once again. This resulted in a loss to Bloomfield College. This marked the first time in five points that the Frosh have lost a conference game. Bloomfield led 80-60 after a 33-25 lead. They expanded their lead to a 68-35 victory. Bruce Porter was high man with 16 points and 11 rebounds.

Last Saturday night the Young Frosh traveled with the Varsity to Sacred Heart University. Due to an injury to John Dahlen and a first break offense, the
