Marist Year
At Home

Marist College is still a young enough school to have to worry about whether it will "sink or swim." A group of deeply interested students are trying to see to it that Marist not only swims, but is able to walk on water! We do not mean to say that Marist plod along as an average American College. Marist has the potential to be exceptional but only if the Marist Community becomes involved, and makes full use of the available resources. We think Marist needs to revolutionize its attitudes toward education. One of the plans we see as being valuable is that one which is being referred to as the Marist Year at Home Program.

The Marist Year at Home Program involves a restructuring of the means by which knowledge is realized. It demands a conscientious effort, on the part of students, faculty, and administration, to constantly widen their awareness of the fields which they are studying. It is not so much a course, as it is a philosophy - a way of life which determines the nature of all courses.

The philosophy of the Marist Year at Home Program is, basically, two-fold. First, it encourages experiential learning by means of not only the traditional lectures, readings and so forth; but also by a personal involvement and commitment to the subject being studied. Secondly, there is a new emphasis on inter-departmental study by which a course would be approached from different perspectives.

The Marist Year at Home

Attend Workshop Tomorrow

Perhaps one of the most important levels of communication between faculty and students because its very nature demands participation on the part of both. Students would be more interested in their education because of their personal involvement in it - i.e., their personal evolution of it. More importantly, both students and faculty would be involved in a process of learning which would truly have to be ignorant not to sense the seriousness of these problems which confront our community daily in and out of Donnelly Hall. It is imperative that your voice be heard tomorrow - attend the workshop!

The schedule is as follows: 9:45-11:30, Panel Session in large lecture hall in Donnelly. Speakers - 1. Dr. D.A. Drennen - Lecture Method 2. Mr. Pat Parello - Meaningful

Field Trip To Russia Planned

During the Spring recess of 1969 33 students visited the Soviet Union for a fifteen day tour, of traveling and exchanging views with Russian people. The trip was a complete success, resulting in an increase in language majors and the interest in learning the language at Marist.

Chemist To Lecture

Dr. Clapp is the visiting lecturer for the American Chemical Society's division of education. He was chairman of the organization in 1969. Prof. Clapp received a B.Ed. and a D.Ed. from Eastern Illinois University and a Ph.D. in chemistry from the University of Illinois. He has been affiliated with Brown University since 1941. During the day, Prof. Clapp will be giving lectures in some chemistry departments. He will speak on "The Influence of Geometry in Chemistry Structure" and an organic lecture on "Chemistry of Covenal Halides."

Interest Sought For Fontaine's Future

Students who walk through the doors of Fontaine Hall may be entering the Library, the business office, a faculty member's offices, or faculty member's apartment, or their own dormitory room. All these possibilities and a few scattered others are being considered by the administration, faculty and various student groups, for the future of this building. A final possibility is, of course, that due to financial considerations, nothing will be done and the doors of Fontaine will remain closed for another year.

If an extensive project is undertaken, the three leading possibilities seem to be student housing, faculty housing, or the library. Brother Nils Donnelly. The Planning Director, has been instructed by President Foy to study and draw up tentative plans for all three options. Within the next two weeks, President Foy plans to call an open meeting for all students interested in living in Fontaine to meet with himself, Brother Nils, and an architectural consultant to present their ideas and suggestions as to the best possible living arrangements. Options are also being solicited from faculty members in their interest in on-campus faculty housing - probably apartment style. These two moves could be done indepen-"dentely - that is, without significant changes to other buildings on campus.

The third possibility - the use of Fontaine as a library - would have a significant impact on the rest of the campus. The gap in Donnelly would have to be filled - probably by some alignment of faculty offices, the business office, and other academic services. This would leave room for an expanded Computer Center, and possibly faculty offices for those involved in the Computer Science area.

As, if is entirely possible, no renovation is done to Fontaine, the options become provisional faculty offices or a new business office while existing faculty offices along the outer rim of Donnelly are renovated.

CIRCLE EDITORIALS

Dynamics In Education

The circle, a right which we often abuse, has been criticized for its role in American education. The circle has been a dominant force in education, and the idea of the circle has often been caught up in sexism and stereotypes. This is not the case. Education is all about education. Education, however, is the product of a person, body, mind, and personality and all these factors influence the education system. The main objective of education is to develop a person’s critical thinking and to solve social problems. This is done through the study of the circle.

NEW ELECTIONS PROPOSED

In a special meeting of the Student Council, under the leadership of Mr. de la Rue, a new student council will be established. The members of the new council will be elected through a direct representation of the Student Government Constitution.

The elections for members of the new council will begin on September 15. The new council will be in charge of the student affairs of the school.

Children’s Theatre

Searls Seeks Credit

In accordance with recent moves across the country to free education of the sometimes offensively surrounding the classrooms, the Marriott College’s Children’s Theatre will be released from the约束 of the college’s departmental politics.

Letters To The Editors

Aug. 31

Pulled

Student-assisted reservations would be available to nonstudents, however, some students have said they will not accept the pull.

Carry It On

For eight years, eight long frustrating years Americans have been pressed to do their best. Americans have been asked to cut back on spending, to conserve energy, and to live within their means. They have been asked to sacrifice, to make do with less. These are not easy requests, but they have been necessary.

The students’ voice is heard and appreciated. In every issue of the Farmington High School student newspaper, you will find a place where students can express their opinions, hopes, and concerns. The students’ voice is not only heard, it is valued.

Dear Editors

Mrs. Mary Silkwood has written a book, "A Trip to the Moon," which has been very popular with students. The book is a science fiction thriller that takes place in the year 2024.

Thank You, Maris

Dear Editors

I would like to extend my appreciation to the staff of this newspaper for the excellent work they do. Your coverage of local events and issues is invaluable.

Without a doubt, the students are the heart and soul of our school. The students’ voice is important and their concerns are valid. The students should be heard, and their opinions should be respected.

The siege and conquest of the night show

Last Tuesday evening March 26, this writer will attend a party in a city of 20,000 people. He will be dressed in his finest attire and will attend a private party in the home of a local businessman. He will be expected to stay only briefly but will enjoy himself thoroughly.

Children’s Theatre

Arrests Over Tingle

As they were leaving the house, the writer looked out the window and saw a group of children running around the yard. He immediately jumped out of the car and ran over to them. He started playing with them and they seemed to really enjoy themselves. The writer decided to stay a little longer and help the children with their playtime.

Disabled in Action

BY MIKE HARR

When a disabled person goes to a place of employment, he is usually turned away because of the employer’s imagination. They range from the person who is physically handicapped to the person who is mentally handicapped.

America: Great And Free

BY SAL MAZZA

The United States was the first country in the world to grant freedom to all of its citizens. It is a country of freedom and democracy. The American people have fought and died to maintain their freedom. And they have not been let down by their government.

Letters To The Editors

The results of the election were announced on Tuesday morning. The three main candidates were running almost neck-and-neck, but the polls showed that the incumbent was slightly ahead. The winner was decided in the final minutes as voters cast their ballots. The victory was celebrated with speeches and parades. However, there were also accusations of voting irregularities, which caused some controversy.

CIRCLE EDITORIALS

New Elections Proposed

In a special meeting of the Student Council, under the leadership of Mr. John Smith, the issue of new elections was discussed. The council will hold a special meeting on Wednesday to finalize the details.

Carry It On

For four years, eight long frustrating years America has been fighting a war on two fronts. The war in Vietnam and the war with the United States. The war in Vietnam has been a losing battle, but the war with the United States has been fought to the hilt.

A Blessed Event

By Joe Keighly

On March 16, 1971, millions of people around the world witnessed an unprecedented and free display of affection on a network television show. The event was so overwhelming that it is still remembered today. The show starred Bill and Ollie Bolyce of "Circle" fame.

At the time I'm not sure that Dobby Bishop realized whose company he had just signed up for. It was an odd turn of events, quite a different experience than anything he had been through before. Anyway, just think of all the kids who watched the show and have now grown up with these two words as "rippin'" into their vocabularies. It was incredible to watch.

Marist Ecology Action

Marist Ecology Action is a recently formed cadre of the Student Government. Although concerned with Marist's association with organized labor, a number of actions projects have been organized, such as petitioning to stop the B.S. in Music program. Many, many more things have, or will be, beginning with the club concentrating its efforts on campus. The purpose of M.E.A. is to work prevent and amend the ecological destruction in the community.

The club already boasts a membership of about seventy students. The club would also like to interested faculty and administration and resources to join. Membership is open to all students.

For the most part the action was peaceful, and there were some outstanding performances turned in by the students. Joe Frittierer as Augus. The director, including Frittierer and the rest of the cast, turned up and made sure the performance was a success.

The performance I attended was on March 16, 1971, and it was very exciting. I was surprised because many people feel that Elridges is no longer a place where it's at as far as action is concerned. The play related heavily on long after that segment of the show, which was about people who were told to watch a tall young fellow with a beard. I called it a "friend of mine in the show," and it was at the end of the show, off-stage during the fight. He reported to me that the man had turned up earlier with calls of one nature or another. The show that had already packed the lobby. Also, some places where Bill is not known, and some of the specific instructions had already been given to the title of the program for this night only to "Bill O'Boyle Speaks." I assured him of the originality of the title and it was then that he informed me that the title had been bought up by sponsors for a program that was coming sometime in the near future.

Also, some early Wednesday morning rumors had circulated that some of our Appalachian Club was thinking of dropping its re-cycle program minority report. The rehabilitation program, a "Recycle" Billy program with the purpose of keeping from here and having run opposed for president of next year's freshman class.

It has become apparent that the role of President-elect Joplin on election defeat has been to ship all of theCoal and keep nonchalant to sheepskin acceptance of the results. One idea is lost in vote tabulations, the other too often measured by that which is little more than flaky. I do believe we have a right to express our ideas of a "co-opted minority," and I further find that imperative that these ideas be represented. We have not just returned from a campaign—but have begun one. With the help of past Student Government elections, it would be significant to note that we have progressed past the "poppy talk" stage of the Civil War, and "Romney to Mixers themes." There does however remain that fund of potential enthusiasm, and it is readily as the concept of Student Government a "inauthentic right," it has the capability for becoming "unwinnable." Fort".

Conservative critique of student government has itself become matters of course. The text is becoming more than an experienced representation. Inquiries with governmental political systems have themselves in direct effectual forced toward concrete accomplished action. We present concrete individual relations for the people of Bill, Bill, Bill, and the structural system.

The success of projects such as Marist Ecology Action and Mid-Hudson Coalition for Peace is based on the co-operation of students having tuned.

And a Blessed Event

By John Keighley

The weekend of March 20th saw the Marist College Athletic Club present a new adaptation of Euripides' Medea. The production was well received professionally and the set was impressive. Unfortunately, the play was excruciatingly dull. For the most part the acting was poor and there were some outstanding performances turned in by the students. Joe Frittierer as Augus. The director, including Frittierer and the rest of the cast, turned up and made sure the performance was a success. The performance I attended was on March 16, 1971, and it was very exciting. I was surprised because many people feel that Elridges is no longer a place where it's at as far as action is concerned.
