Induction Notices Given to Students

The Selective Service System, December 30, formally issued most of the regulation changes proposed to the public last month but withheld pending further review. The new regulations which implement the recent amendments to the draft law were first published in proposed form in the Federal Register of November 4 and 5.

Selective Service Director Curtis W. Tarr said that he has decided to reevaluate in their entirety those provisions which deal with the procedures for appearances before local boards, the guidelines for establishing local boards, the new classifications, and the procedures for appeals to appeal boards other than the Presidential appeal board (effective Dec 31) and parts 2 through 7 of the proposed regulations which were published on November 3.

Tarr's response to the proposed regulations focused on several issues contained in the sections being withheld. "The depth of thought which is indicated in the comments we received from the general public and Members of Congress warrants our careful reevaluation of these policies," Tarr said. "Until the regulations on these policies are final no local boards will not conduct any personal appearances nor will the appeal boards, other than the Presidential appeal board, hear appeals. We do not want to deprive registrants of the new procedural rights legislated by Congress. Therefore, we will continue the suspension of these actions until the new regulations governing these procedures are formally issued." Tarr noted however, that local boards are continuing to register classify and examine young men and when requested by the Department of Defense they will issue registration notices to young men who are no longer eligible for personal appearances or appeals.

Tarr said that he plans to publish the regulations under review in the Federal Register for further public comment probably in late December. The provisions currently delayed will not go into effect until 30 days have elapsed since their publishing in the Federal Register.

The regulations formally issued today contain many significant changes in draft policies, including the end of undergraduate student deferments for those who were not eligible for the last quarter or semester of the present or any academic year, the establishment of a Uniform National Call System for issuing draft calls so that all men with the same information will receive induction notices at approximately the same time, and the establishment of a national database for the Selective Service System for automatic checking for registrants not currently subject to active processing for induction.

Faculty on College Council

A faculty colloquium to deal with the question of whether or not to accept the recommendation of the College Council that it be made permanent, was held on Friday, January 21, 1972. The colloquium was scheduled and conducted by the Faculty Policy Committee for the purpose of providing the faculty with information and clarification on the resolution that a permanent College Council be established in the Spring of 72. Members of the Governance Committee presented statements on the composition, scope and responsibilities of the proposed Council, which the faculty reached to both pro and con responses.

The faculty raised questions regarding the rationale for the stated composition of the College Council, the connection between the various affairs committees and the College Council, how the Council would take on both advisory or mediating in case of confrontations among the various groups and factors represented. The aspect that created the greatest discussion was whether the faculty and the Governance Committee were on the limitations or lack of same that would or should be placed on the Council. Without adequate assurance of what the implications and resultant that would or could be, of a Council without limitations in scope, the faculty is hesitant in wanting to have a Council. The Governance Committee maintains that it would be impossible to forestall just what the implications can or will be, but adds that the proposal is not an ultimatum and can be modified or discarded upon witness of its feasibility and if the committee wishes for presently, is the acceptance of the proposal by the Plenary Faculty Senate, potential that it be held, sooner for the purpose of testing out some of the questions in practice rather than in rhetoric.

Easter In Ireland

by Pat Brooks

Tuesday, February 1, the Gaelic Society will have an Irish Nite in conjunction with its annual Easter in Ireland show. An Irish nite will take place in room 209 in the Campus Center at 8:30 p.m. A representative from the Irish Tourist Board will be on hand to show a film and answer any questions.

The tour is scheduled to leave March 29th and return April 5th. The eight-day tour, which will visit castles,的是 highlights by visit to Blarney Stone, the Rock of Cashel, and the Tower of London. All accommodations will be at the Lake of Killarney, Guinness Brewery, Abbey Tavern, and the Medieval Banquet at Bunratty Castle. More information will be announced by the group who will see.

The price, which includes round trip fare, all hotels, breakfast and dinner, transportation and all other fees is three hundred and fifteen dollars ($315).

In past years the groups were made up of students from Marist and Mount St. Mary's plus residents from the community. For information see Pat Brooks, Room 804-C.

Graduation

Dear Editor,

Ladies and gentlemen of the senior class, you are about to celebrate your graduation. As you prepare for this momentous occasion, I encourage you to reflect on your journey and the various challenges you have faced and overcome.

Your Achievements

Congratulations on reaching this significant milestone. You have demonstrated resilience, dedication, and determination throughout your academic and personal endeavors. Your accomplishments are a testament to your hard work and the support of your family, friends, and educators.

Looking Ahead

Graduation is not merely an end but a beginning. As you embark on the next chapter of your lives, remember to embrace new opportunities, seek knowledge, and pursue your passions.

Join the Alumni Network

Stay connected with your alma mater and the broader alumni community. Your network can provide guidance, mentorship, and support as you navigate your future.

Best Wishes

On behalf of the faculty and staff, we wish you all the best in your future endeavors. May your achievements continue to inspire others and may you find joy in the experiences to come.

Sincerely,
[Signature]

The Lay Volunteer Program

The Lay Volunteer Program is an initiative that aims to provide opportunities for individuals to serve their communities in meaningful ways. The program offers various volunteer positions across different sectors, including healthcare, education, and social services.

Position Selection

Volunteers can choose from a wide range of positions, from tutoring students to assisting in local hospitals. The program also offers opportunities for individuals to volunteer abroad, providing them with valuable cross-cultural experiences.

Volunteer Benefits

Participating in the Lay Volunteer Program offers numerous benefits, such as gaining valuable work experience, building a network of contacts, and contributing positively to a cause.

Conclusion

The Lay Volunteer Program is an excellent opportunity for individuals to make a difference in their communities. By volunteering, you not only enhance your own personal growth but also contribute to the well-being of others.

For more information or to apply for a position, please visit the Lay Volunteer Program's official website.
Letters To The Editors

Dear Editor:

In your recent issue, you mentioned the importance of volunteering and how it can benefit both the volunteer and the community. I would like to share my experience with volunteering at the local animal shelter.

Volunteering at the animal shelter has been a rewarding experience for me. Not only do I get the opportunity to help animals in need, but I also feel a sense of fulfillment knowing that I am making a difference in the lives of these creatures. The shelter is always in need of volunteers to help with various tasks, such as cleaning, walking dogs, and helping with adoption events.

In my role as a volunteer, I have had the chance to meet and interact with people from all walks of life who share a passion for helping animals. It has been令人 exciting to see the joy on the faces of both the volunteers and the animals when successful adoptions have taken place.

I would encourage anyone who is interested in volunteering to contact the local animal shelter and ask about the different ways they can contribute. Whether it's through animal care, event planning, or even just财务 donations, every little bit helps.

Sincerely,

[Your Name]

Dear Editor:

I am writing to express my concern about the increase in plastic waste in our community. As a community leader, I believe it is our responsibility to take action and reduce our plastic consumption.

Plastic waste has become a major environmental issue, causing harm to wildlife and pollution in oceans and landfills. It is time for us to be more mindful of our plastic usage and find alternatives.

One way to reduce plastic waste is by using reusable bags, bottles, and containers. There are many resources available online and in stores that offer eco-friendly alternatives to plastic products. We can also support businesses that prioritize sustainability by choosing products with minimal packaging.

I urge all members of our community to take action and make a commitment to reduce plastic waste. Together, we can make a significant impact and contribute to a cleaner, healthier environment.

Sincerely,

[Your Name]
**Red Foxes to Face Nyack, Monmouth and Sacred Heart**

The Red Foxes take on three opponents this week as the season reaches the halfway point. The Foxes will play at home tonight, January 27, when they travel to Montclair. Missionary College in an important Central Atlantic College Conference game.

On Monday, the Foxes will travel to West Long Branch, N.J. to take on the Bears of Monmouth College in the non-conference encounter. Manhattan College will complete the week at home with an out of conference game against Sacred Heart on Mon. Jan. 31st.

Marist is 8-2 after defeating Dowling College, 79-74, at home last Saturday, and is 3-2 in the Central Atlantic College Conference. The Red Foxes are currently being coached by Dwayne O’Neal, who was named by the MAAC as the league’s head coach of the week.

Senior captain Joe Scott, who posted 1,000 point mark against Dowling, leads the team in scoring with a 17.4 point average. Senior Brian McGowan is next with 12.0 and another senior, Ray Clarke, is also in double figures with an 11.9 average. Fresh Mike Hart is also averaging better than 10 points a game with a 10.4 point average.

Marist’s average attendance is 1,634 and the average size of the team is 17.3. The Foxes are in the top 10 of any important C.A.C.C. game. Marist is in the top 10 of the MAAC in scoring with 79.9 points per game, and in rebounds with 39.5 per game.

On Thursday night, the Red Foxes will continue the winning ways at the Fighting Parsons of Nyack Missionary College. The Parsons came into the game with a record of 3-13, and in first place in the conference. The Parsons are led by senior forward Chuck Cardia, who is currently averaging 17.8 points per game. This will mark the eighth meeting between these two clubs with Marist holding a 7-0 advantage. Earlier in the season the Red Foxes defeated the Parsons on their home court 86-82.

On Saturday night the Red Foxes will return home to face Sacred Heart. This will be the biggest test of the season for the Red Foxes, with Sacred Heart coming into the game with an impressive 13-3 record. The Hawks are led by All-American candidate Efren Cordero, their 6’9” Senior center. Cordero is the nation’s third leading scorer with a 33 point average and is also the team’s leading rebounder with a 21 point per game average. Battling out the front court with Cordero are a pair of 6’6” forwards, Mike Eiring and Kevin Kelly. The Red Foxes will also have to deal with Joe Blacker and Bob Gehr. Marist is in a must win position with a Sacred Heart encounter with Sacred Heart holding a 3-0 edge. Last Saturday the Red Foxes were defeated at Bridgewater by the Pinchers 86-78.

**Frost Defeat Dowling**

Last Saturday night the freshman basketball team defeated the Dowling College yeowlings 70-61 in a conference game.

Most of the first half was marred by sloppy play on the part of the Dowling team. Late in the half Coach Bill Foter began to substitute freely giving the starters a rest while he was wearing the Dowling team down. Sue Bruce White and Steve Murphy hit key baskets in leading the little foxes to a 31-29 halftime lead.

The second half was all Marist as the little red foxes utilized a devastating full court press which broke the game open. When Dowling tried to press, the good team play of the foxes enabled them to score on a number of easy baskets.

The high scorers for Marist were Tim Murphy with 17 and Steve Murphy with 15. Joe Cressella added 13, Al Fairbaird added 11 and Bruce White whipped in with 10. High scorers for Dowling were Larry Heine with 24, Senior Ramar with 24, and Tom Blaire with 11.

The next game on the team’s schedule will be Thursday at Lourdes against Notre Dame. It is their first meeting of the season. Marist won 76-63.

**Wrestling by John Redmond**

Injuries Plague Team

Sure 2-4 sounds like a poor record, but consider the story about the Marist grapplers.

Right after a dominating Southhampton, the wrestlers suffered their first injury loss. The jinx started when undefeated Freshman, Bob Barattari had a crutch on crutches. Soon after, it seemed as though the team wanted to get into the act. Injuries ranged from broken bones to sprained necks. By Jan. 15, Marist was featuring as many with concussions as they were wrestling. In the Atlantic State meet last week only Coach Lescomb, George Balzer, Warren Griswold, Tim Lemire, and John Redmond saw action.

New Semester, New Wrestlers

Since then, however, the pendulum seems to be swinging the other way. The team which is that magnificent man ‘William’ has given his weight up to the four men.

In the future, the wrestling picture will still be clouded with the number of injuries. However, the student support always shows forth the doubts of yesterday with the hopes for tomorrow.

**Marist Gets 5 Berths on All-Conference Squad**

Five members of the Marist College Soccer Team have been named to the All Conference Squad of the Central Atlantic Conference.

Peter Walasack, a senior business major, is a former Roosevelt High Graduated and the Atlantic County Soccer Player. This is Peter’s second year on the All C.A.C.C. roster. Head coach Dr. Howard Goldman rates Pete as, "the dominant figure on offense. His 200 pounder dribbling with speed and aggressive play helped to set up shots for his teammates. During the season Pete primarily played center half, but at times was needed as a wing or halfback. Pete is a hard worker and it won’t be easy to find an adequate replacement."

Patrick Farrelly, another senior selection to the squad was starting back and captain for the Red Foxes during the 1971 season. Farrelly is credited with 170 saves during his college game performance. Coach Goldman feels, position last year as a right half and his lack of background in the position by sheer desire and determination to succeed. His quick hands and sharp reflexes earned Farrelly the title of "Mr. Goalie" on the All Conference Goalie in the C.A.C.C. squad. Without saying that Pat will be very hard to replace next year, it is a tribute to N.J. and plans to go on to Medical School after graduation.

Charles D’Ercina, a junior half back and a starter for the All C.A.C.C. Squad is one of the members who will be returning to the squad next year. In summing up Charlie’s ability Dr. Goldman says, "continuous hustle is the mark of Charlie’s game, he’s always moving and anticipating extremely well on the field. Although he didn’t play last year while studying in France, Charlie didn’t lose any of the speed he possessed as a freshman. I’m really looking forward to Charlie’s return next year because he’s one of the most consistent and dependable players on the team."

Charles is a native of the Bronx but originally moved from the West Indies.

Thomas McDonald, a Rochester, N.Y. native is one of the freshmen members of the All C.A.C.C. Squad. During the 1971 season Tom started for the Red Foxes in the center full back position. In evaluating Tom’s tenure at Marist so far, Dr. Goldman feels, "he was tough, strong and aggressive throughout the season. His excellent heading and playing in the sweeper position anchored the defensive line of the Red Foxes. Tom’s performance in the college game very well and should do great things for the squad in his next three years of soccer play."

Timothy Tverta, a freshman and final selection to the All Conference Roster from Marist is a native of Deer Park, N.J. When the season began, Tim was starting in the wing position but was then moved to center half-back after the second game. Coach Goldman elaborates, "after moving Tim he become the central figure in our mid-field game. Tim is a very fast, excellent dribbler and possesses an eye for the goal. As a result he scored 8 goals during the season (first 19 out of 22) and was 5 for 5 on penalty kicks. As Tim learns the short pass game more thoroughly he will be an outstanding player."
