Advisor: The Financial Board made up of five voting members and the president would be responsible for the treasurer, presiding over the vice president, the secretary, and two other members. This year the two are Maureen Daly and Pat Macnamara. The Financial Board handles all financial matters. It consists of the president, treasurer, and five representatives from each of the major college committees. When an issue arises, the Financial Board will investigate by means of student meetings, polls, and fact in order to make a decision, or, in cases of major importance, make recommendations to the Student Government.

Mulligan hopes that the impact of the Financial Board will relieve the Treasurer from the "pressure of special interest groups," according to Mulligan, the power of the Treasurer is also increased, according to Mulligan. The acquisition of a work-study assistant will relieve the burden of paperwork, thus freeing the Treasurer to research and report on campus matters. Mulligan also plans for the vice president to broaden his role to include "the direction of some of the special interest groups in campus affairs," added.

Financial aid has increased that by increasing the powers of the Financial Board. It can be required to spend more time investigating campus problems. Thus, they will become "more responsive to the students." He states that "the only work of the Student Government will be involved either by presidential appointment or by elections." In this way, the Government will be "representative, yet still workable." Mulligan concluded, "The Government's work is only half if there is continued effort on the part of officers and increased cooperation and interest on the part of the student body. The new structure will achieve this, allowing the Student Government to attain its objectives, rather than petty interests."
College S. O. S.  "We’re Willing To Help"

Heavily, you spend College S.O.S. advertised in places that are
and elsewhere around campus, it’s not exactly certain where, but
you have at least a few chances at what they are about. We want
everyone to be aware of the program and its services, since its aim to
reach everyone who in need. The program offers emotional, personal,
and intellectual help in service which become a problem. To college
students, in the college community, and everyone else around campus.

Latisha is a perfect example of how the program works. She is a
senior at the college, and she has been trying to make ends meet for
school and work. She was having a tough time managing her time
and balancing everything, so she decided to seek help.

Shaping The Shapeless Into Community

by Fathie Lou Gafni

The whole idea behind S.O.S. is that when you’re having problems, you
ought to find an understanding person with whom you can work
out your problems.

Registration

by Pete Peck

This last week of registration and changing of classes has been
a trying experience for many people. Some who plan their
courses for the term, some who don’t, and some who don’t even
plan their courses for the term. There was a reason for this
broad spectrum of interest in the program, and that was the
case that many people, on the whole, are not very interested in
their classes.

Sag’s Jim Ladota

by John Sau

Here at Sag’s, Jim Ladota is the editor responsible for serving students in all cases involving an argument with information.

Jim is not new to this kind of activity. He has served many years as a student leader and has held similar positions in his career. He is a leader in his community and has held similar positions in his career. He is a leader in his community and has held similar positions in his career.

Throughout his interview, Jim expressed his Hamilton as he would like to see increased. Jim is not one to sit back and watch things happen; he is the type of person who will get what he wants. He is also not one to sit back and watch things happen; he is the type of person who will get what he wants.

Jim’s job is to serve the entire student community. He wants any student or customer to feel like he is in college with the help of other students.

Ronald Aderhold

Guns On Campus

I wish to congratulate this opportunity to welcome you back to N.Y.U. I hope you had a happy and pleasant vacation and are glad to see you. For the rest of the year, please continue to be safe and enjoy your academic experience.

We have had a problem in the past that I would like to clear up in this memo. With the reinstatement of the college police force, N.Y.U. Police will return to the campus. This will be a change in the way the police operate on campus. We are in the process of creating a new campus police force.

There is a need for this because of the recent events that have occurred on campus. We have been concerned about safety on campus, and we need to take action to ensure that everyone is safe.

This will be a major issue for any students you have on campus. It’s important for you to keep your eyes out for any suspicious activity. If you see anything unusual, please report it to the police. This will help us keep everyone safe.

The Free University

In this year’s Gregg, the Free University will be offering free Tuition. This year, the Free University will offer free Tuition. This year, the Free University will offer free Tuition. This year, the Free University will offer free Tuition.

By John Sau

The Free University is an annual event that provides students with an opportunity to explore different subjects and learn new skills. This year, the Free University will offer a wide range of courses, including art, music, dance, theater, photography, and more.

The Free University takes place over several weeks, with classes scheduled in the afternoon and evenings. The program is open to all students and faculty members of the college.

The Free University is a great opportunity to try something new, learn new skills, and interact with other students. If you’re interested in attending, please check the schedule and register in advance.

G. R. E. Deadline October 10th

by John Sau

This year’s G.R.E. deadline is October 10th. This year’s G.R.E. deadline is October 10th. This year’s G.R.E. deadline is October 10th. This year’s G.R.E. deadline is October 10th.

The Graduate Record Examination (GRE) is a standardized test that is widely used for admission to graduate programs in the United States.

The GRE consists of three sections: Verbal Reasoning, Quantitative Reasoning, and Analytical Writing. The test is designed to measure your ability to analyze and evaluate written material, interpret data, and draw conclusions.

The Verbal Reasoning section measures your ability to understand written material, use logical reasoning, and analyze arguments.

The Quantitative Reasoning section measures your ability to interpret and analyze data, solve problems, and understand mathematical concepts.

The Analytical Writing section measures your ability to express ideas and arguments coherently and effectively.

The GRE is administered several times throughout the year, and you can register for the test at any time. The deadline for the October test is October 10th.

The Other Free test dates are as follows:
- July 17, 2022
- September 17, 2022
- November 19, 2022
- January 7, 2023
- March 11, 2023
- May 13, 2023
- July 15, 2023
- September 16, 2023
- November 18, 2023
- January 10, 2024
- March 10, 2024

For further information on the GRE, please visit the official website of the Educational Testing Service (ETS). For more information, visit the ETS website or contact a local testing center.

The Financial Aid Office may be contacted at the College of Arts and Science, N.Y.U., New York, New York 10003. The Financial Aid Office can be found in the Gumberg Student Center. The Financial Aid Office provides financial aid information for students who need financial assistance.

To be eligible for financial aid, you must be a full-time student at the College of Arts and Science. This means that you must be enrolled in at least 12 credits per semester.

Financial aid is available in the form of grants, scholarships, loans, and other programs. The Financial Aid Office can help you determine which type of aid is best for you.

The Financial Aid Office can help you understand your financial aid options and how to apply for aid. The Financial Aid Office can also help you understand your rights and responsibilities as a student.

To contact the Financial Aid Office, you can visit the Gumberg Student Center or call the office at 212-998-1234. The Financial Aid Office is located in the Gumberg Student Center, 1234 University Avenue, New York, New York 10003.

To learn more about the College of Arts and Science, visit the College’s website at www.cuny.edu.

Thank you,

Joseph Dieno

The Circle  

By Edward O'Connell, Anne L. Haiduk, and Richard J. Streczyk  

The Circle is a weekly newspaper published by the students of Marian College. It serves as a platform for student voices and provides information about campus events and issues.
By Bob Creeden

Last spring Mariat freshmen crew team reached a goal never before achieved by their predecessors or their opponents. Mariat. They proved to be the best crew team in the country by winning the Davidson Vail Regatta which represents this title.

The opening day, Mariat was a win and orange heat. Mariatella was the only team to defeat them all year. Here was their chance for revenge. This they gained by defeating Marietta by 0-6 seconds advancing to the semi-finals.

The semis were rowed on Saturday, the same day as the finals. Mariat rowed easily in for second place, earning the right to compete in the finals later that afternoon.

Coach Lenahan was upset at his team's performance in the semi-finals. This year's team featured a new complacency was setting in. So, before the finals, he sent out a few choice words to inspire them before they rowed up to the starting line.

On the start, Mariat experienced one of the starts of its season. The public address announcer called them in fourth off the line. Yet with the mark of champions they did not like their cool, something all the best crews strive for a race of this caliber. With 1000 meters to go they had gained third. With 500 meters to go they were almost even with #1 Coast Guard for first. With 100 and 500 meter mark, with a beautiful combination of grace and power, they came into the last 500 meters with a substantial lead. No one would catch them in the remainder of the race. They crossed the finish line 2 seconds ahead of their nearest rivals, Bob Stvven, Tom Duffy, R. K. O'Connor, Joe Gunther, John Tracey, Dave Drew, Pat Dufuy, Jim Browning, and Willie Crawford were FIRST.

On the shore, coach Lenahan fainting for joy for his team were champions.

In the Mariat competed against such schools as Penn. In contrast, Penn, rowing on a University level. They again proved the point by holding their own and being competitive against schools innumerable times its size.

Three "All-Leaguers" Lead Foxes

By Jim Kegan

On August 26, twenty-six of the better Foxes rowed an extensive training twice a day. The morning practices consisted of running, swimming and physical training in general. The afternoon session was the rowing, speed, ball control, defensive and offensive movements.

A soccer team can expect to play "in the most difficult conditions. During the course of the game a player, with the exception of the goalie, can be expected to run anywhere from two to five miles. According to Coach Goldstein, "the average piece has the most potential of any team that he has ever coached here at Mariat."

The team is looking for its first conference championship this season. Coach Goldstein has just finished a 6-6-1 record and a second place conference finish.

Running Foxes Top Albany J. V.

By Marty McGowan

Last Saturday, the Mariat Crew Country team entered upstate to have a scrimmage with the Albany State J. V. Bigger, this meant a chance for our new runners to test out this meet would serve as good experience for the new runners.

Jay Doyle, last year's freshman who didn't run, has taken on additional duties this year. He is the Senior class representative. This year, Jay took the lead on the course and "watched" the course. Dan Shaner of Albany was so impressed with our running that he and white of Mariat took charge by taking the next four places. Most impressive was Mark Heterilla, a freshman from Pennsylvania, who finished as the team's number two man.

Last year's co-captain, Marty McGowan, won the race along with Rob Salomon (9) and Bob Nelson (12), two more of the future. From last year's 11th place team finished before the fifth place team at Albany running the host school's score higher. In the end, the Albany State final scoring runner crossed the line in second place. Two other Mariat runners who raced well were Jim Weber, another local and Dick McCullard, a sophomore running for the first time took fifth and sixth respectively.

Although this meet will not count on the record, it was quite evident that this year, barring any unforeseen injury, the cross country team should be running its best season ever.

A New Look At Intramurals

by Jim Kegan

This year Mariat College will have a totally new concept concerning the Intramural Program. Under the guidance of Coach Bill Austin (Director of the Program) a six man board will have virtually full control of all the activities for the coming year. In previous years one student has been appointed to oversee the whole program. It is hoped that by having a six man board that the Intramural Program will be more efficiently run and will reach out on a wider scale in the campus.

Most of the problems involved with Intramurals in the past have been due mainly to the lack of manpower and facilities.

The board will consist of six students who possess a certain amount of good will in just about every sport, but at the same time a strong emphasis will be placed on their ability to keep in touch with the rest of the community.

By establishing contact with the students, it is expected that a more active role in participation will be visible with both student body and administration. Another important means of communication to be fulfilled by this board will be that of "The Circle." Unlike the past, the paper will be able to keep all interested informed many signs of the student body, including commuters, will be posted on upcoming events involving intramurals.

Presently the six man board consists of the following students: James Landolle - Chapp, James McGowan - Fontaine, Bob Whitney - Fontaine, Greg Garvill - Champ, James Keegan - Gregory, and Wayne Vasilas - Fontaine. There will be an important meeting Thursday September 13, in room C-118 for all interested people. New faces and ideas will be graciously accepted. Ideally speaking, the board would like to see as much of the student body as possible to be represented in the board. The board is open to the students of Mariat College, and the board will be run with the active participation of any interested parties.

Intramurals," the Intramural Program will have virtually full control of all the activities for the coming year. The purpose of this program is to give the students a chance to participate in any sport they feel like joining. The board is open to the students of Mariat College. Any interested party is encouraged to sign up for the Intramural Program.

Frosh Win First "DAD VAIL" Gold

J. Redmond & L. Keegan

In many ways the Mariat College Vikings began their season this past Saturday. In their first intra-squad scrimmage of the season the Vikings displayed both their offensive and defense. This year, the team will face the most difficult schedule of their eight year existence.

In the scrimmage on Saturday, the small but experienced Vikings showed many signs of past greatness on both sides of the field. In the opening minutes, the Vikings offense all but abolished the renovated defense. However, the victory was short lived. True to its reputation the defense, called to order by veterans Russ Humes, John Sullivan, and Dan Fainan soon took command. What followed over an hour, a hard hitting, constricting scrimmage with neither side showing dominance. One of the problems that plague the Vikings throughout the long season will be the lack of depth on both the offense and defense. In the past two years when the team exhibited greatness in just about every aspect of the game, they were always able to fill in certain positions in key situations. This year, however, the team is relatively small in number and many new faces will be asked to perform in some difficult situations in the course of the season.

Some of the teams that will show Mariat a tough line up are Manhattan, State, Iowa, West- chester, and Providence. These are the so-called big time schools that Mariat welcomes in order to establish any kind of name for itself and attain its first Metropolitan Collegiate Club Football title.

Harsh serious injury or a sudden downshifting of abilities, the Vikings have in their possession the personnel to make this the most exciting season ever. In order to assure this success there will be extra attention a dedication of both defensive and offensive units. Aspect goes a long way in determining the dominant role in the future of the Vikings this season and seasons to come.
