Young Democrats Reform Club

By Ed Kissling

Last week, the Young Democrats of Marist College met and reformed their club under its old charter. About 100 members attended.

The first order of business was the formation of the McGovern-Shriver Campaign Team. Paul Piffer, the club chairman, announced the selection of Jim Elliot as campaign manager. Other campaign managers were named in the area of communication, canvassing, speakers, films, slides and financing.

Chairman Piffer stated that "the club is open to all, regardless of race, religion, sex, creed or political belief." About 100 friends, anyone interested in the McGovern-Shriver campaign, attended the meeting.

The McGovern-Shriver campaign team is planning canvassing the college, the community, voter registration drives, special events, televisions, radio spots and some special events. The victory party is also being planned for Election night.

Campaign manager Jim Elliot said, "We don't have the money to man the Nixon people have on campus but we have the issue (the war, crime, the economy, and especially corruption) for us. We still need volunteers," Elliot said, as he prepared for what he called his "campaign headquarters." The meeting was scheduled to keep an eye on the Circle and for posterity.

Abortion Lecture

Alan Guttmacher, M.D., is scheduled to speak on the New York State Abortion Law on Friday, October 20. The lecture is to be held at 8:00 p.m. at the Arlington Junior High School. The public is invited to attend.

Dr. Guttmacher, a diplomate in Obstetrics and Gynecology, is a graduate of Johns Hopkins School of Medicine. Presently, he is the director of the Family Planning Program of the School of Medicine. He is the author of several books, including Understanding Sex-A Young Person's Guide (1967) and Birth Control and Love (1966). In the past legislative session, he was involved in replacing the current New York State Abortion Law with the former law, which prohibited all but therapeutic abortions. The current law permits abortions with the consent of the woman and her physician up to the 3rd week of pregnancy. Dr. Guttmacher will discuss the law, the medical implications and effects.

It is almost certain that the abortion issue will again in the coming New York State Legislative Session. It is critical to the outcome of the abortion issue and in the November elections, a citizen must be aware of the factual, medical data on abortion.

In September of this year, Marist undertook a new venture in initiating graduate programs in Business and Education. The graduate programs have been in the developmental stage for three years and now are being offered to some 100 students this fall semester. For an idea of how the programs operate the school enrolls them in the Graduate Schools.

GRADUATE PROGRAM IN BUSINESS

The graduate program in Business, directed by John Kelly, Chairman of the Business Department and Graduate Program, will offer two concentrating areas - the M.B.A. (Masters in Business Administration) degree: Personnel Management and Organizational Behavior, and Accounting Finance. The graduate program was undertaken, according to Mr. Kelly, to be a tremendous need for an M.B.A. program for part-time students employed and living in this area. Most of the graduate students presently enrolled have been out of college for several years and are working in the Hudson area, so an evening session of the Albertus Micleson must be much needed. Since Marist already offers the four-year program in Business Ad-

GRADUATE PROGRAM IN PSYCHOLOGY

The focus of the Psychology Graduate Program is a community psychology, an innovative approach to analyzing and influencing the social systems that shape human behavior. The two concentrations offered are Clinical-counseling and experimental-social psychology.

Mr. Daniel Kirk, Chairman of the Psychology Department and Graduate Program, explained that "our M.B.A. program is the only one of its kind in the country. The State Education Department has refused to authorize any new psychology graduate programs that do not offer something more than the standard graduate curriculum. We were granted accreditation because of the unique approach we've undertaken.

One of the major purposes of the program, as stated in the graduate catalog, is to provide the student with an orientation toward, and knowledge and understanding of community organization and activity. It is intended to create a "community sense" and know-how that will lead to action. Specifically, the counseling graduate will transcend traditional human service alliances and move toward utilizing the totality of community human service agencies to meet the needs of an individual or a group in the community. The student will be actively involved in field work in such places as Community Day Care Centers, Community Mental Health Clinics, Drug and Alcohol Clinics, and Citrus settings. The field work is part of the graduate student's education, as they are a part of the graduate student's education, according to Dr. Kirk.

Five courses are presently being offered to twenty-five graduate students, nine of whom are full-time and the remaining six part-time. Development of the graduate program was undertaken in 1969 and the 1970-71's budget hopes to add a concentration in community school psychology to the program. Dr. Kirk envises "no limit to the expansion of the psychology graduate program as long as we can continue to provide quality education."
Circle Interview:

Andrew Pavelko

by Anne Yashiki

Circle: What do you see as the main problems in this area?

Mr. Pavelko: There's really a lot of problems. The main one is the Mid-Hudson Park Center. It's really a problem for the community. A lot of people don't have a lot of jobs. It's really a problem for the community. A lot of people don't have a lot of jobs. It's really a problem for the community. A lot of people don't have a lot of jobs. It's really a problem for the community. A lot of people don't have a lot of jobs.

Circle: What do you think might be a solution to this problem?

Mr. Pavelko: Well, I'm not sure. But I think it's really important to find ways to improve the job situation. It's really important to find ways to improve the job situation. It's really important to find ways to improve the job situation. It's really important to find ways to improve the job situation. It's really important to find ways to improve the job situation.

Circle: What about the pollution issue?

Mr. Pavelko: Well, I think it's really important to reduce pollution. It's really important to reduce pollution. It's really important to reduce pollution. It's really important to reduce pollution. It's really important to reduce pollution.

Circle: What about the economics issue?

Mr. Pavelko: Well, I think it's really important to improve the economy. It's really important to improve the economy. It's really important to improve the economy. It's really important to improve the economy. It's really important to improve the economy.

Circle: What about the education issue?

Mr. Pavelko: Well, I think it's really important to improve the education system. It's really important to improve the education system. It's really important to improve the education system. It's really important to improve the education system. It's really important to improve the education system.

Circle: What about the housing issue?

Mr. Pavelko: Well, I think it's really important to improve the housing situation. It's really important to improve the housing situation. It's really important to improve the housing situation. It's really important to improve the housing situation. It's really important to improve the housing situation.

Circle: What about the health care issue?

Mr. Pavelko: Well, I think it's really important to improve the health care system. It's really important to improve the health care system. It's really important to improve the health care system. It's really important to improve the health care system. It's really important to improve the health care system.

Circle: What about the transportation issue?

Mr. Pavelko: Well, I think it's really important to improve the transportation system. It's really important to improve the transportation system. It's really important to improve the transportation system. It's really important to improve the transportation system. It's really important to improve the transportation system.

Circle: What about the crime issue?

Mr. Pavelko: Well, I think it's really important to reduce crime. It's really important to reduce crime. It's really important to reduce crime. It's really important to reduce crime. It's really important to reduce crime.

Circle: What about the recreation issue?

Mr. Pavelko: Well, I think it's really important to provide more recreational opportunities. It's really important to provide more recreational opportunities. It's really important to provide more recreational opportunities. It's really important to provide more recreational opportunities. It's really important to provide more recreational opportunities.

Circle: What about the environment issue?

Mr. Pavelko: Well, I think it's really important to protect the environment. It's really important to protect the environment. It's really important to protect the environment. It's really important to protect the environment. It's really important to protect the environment.

Circle: What about the social issues?

Mr. Pavelko: Well, I think it's really important to improve the social situation. It's really important to improve the social situation. It's really important to improve the social situation. It's really important to improve the social situation. It's really important to improve the social situation.

Circle: What about the history issue?

Mr. Pavelko: Well, I think it's really important to study history. It's really important to study history. It's really important to study history. It's really important to study history. It's really important to study history.

Circle: What about the future?

Mr. Pavelko: Well, I think it's really important to plan for the future. It's really important to plan for the future. It's really important to plan for the future. It's really important to plan for the future. It's really important to plan for the future.

Circle: What about the Circle?

Mr. Pavelko: Well, I think it's really important to support the Circle. It's really important to support the Circle. It's really important to support the Circle. It's really important to support the Circle. It's really important to support the Circle.
Circle: What do you see as the main problem(s)?

Mr. Pavelko: The biggest problem is that people are too busy. The City Hall project is taking up a lot of time. There is no one to help with it.

Circle: What is the City Hall project about?

Mr. Pavelko: It is a construction project to build a new City Hall in the downtown area. It is supposed to be completed in three years.

Circle: Do you think the City Hall project is a good idea?

Mr. Pavelko: Yes, I think it is a good idea. It will help to modernize the city and improve the image of the city. However, it is taking up too much time and money.

Circle: What are some of the other problems in the city?

Mr. Pavelko: There are a lot of problems. One of the biggest problems is the lack of affordable housing. Many people cannot afford to buy or rent a home in the city. Another problem is the traffic congestion. The streets are always crowded and it takes a long time to get around.

Circle: How do you think these problems can be solved?

Mr. Pavelko: I think that the city needs to invest more in affordable housing and improve the public transportation system. The city should also encourage people to use bicycles and walk more to reduce traffic congestion.

Interview with Stuart Gross

Council To Move In Positive Direction

FR. LEO GALANT

"Essentially, I would like to see the City Council move in a positive direction. We need to work together to address the problems facing the city. We need to be more open to new ideas and be willing to make changes."

By Jack J. Etienne

The College Union building is open 24 hours, is centrally located, and has a comfortable and friendly atmosphere. As a result, the College Union is the perfect place to hang out and enjoy the company of other students. Whether you are a student or a member of the community, the College Union is a great place to relax and unwind.

The Student Government Association (SGA) is the official student representative body at the College. It is responsible for making decisions on behalf of the student body and advocating for student interests. The SGA is composed of elected student representatives who work to promote the well-being of the student body.

Intramurals

Intramurals is a great way to stay active and have fun with friends. There are many intramural programs available, including sports like basketball, volleyball, and soccer, as well as activities like dodgeball and flag football. Intramurals is a great opportunity to meet new people and enjoy the company of others.

Circle Editorials

The Bookstore

The times for the bookstore are uncertain due to the economy. The bookstore has been struggling to stay open due to the declining number of students and the high cost of materials. The bookstore is an essential part of the college community and needs to be supported to continue.

By Jack C. Stinson

This year the College Union Building Board of Directors is trying to make a decision on the future of the CUB. The Board has been meeting regularly to discuss the various options available to us. A key issue that has been brought up is whether or not to keep the current building or to build a new one. The decision will be made after careful consideration of all factors involved.

The CUB has served the students of the College well over the years. It has provided a space for socializing, studying, and holding events. However, it is time for the Board to consider whether a new facility is needed.

The current building is outdated and in need of repair. The Board has already budgeted for some improvements, but these will not be enough to make the CUB a modern and functional space. A new building would allow for more flexibility in terms of layout and design, which could enhance the student experience.

We believe that the Board should take this opportunity to discuss the future of the CUB. We encourage students to attend the meetings and voice their opinions on this important issue. Together we can make a decision that will benefit the College community for years to come.

Nixon vs. McGovern

10 Points Of Richard Nixon

Analysis of Nixon

George McGovern

By Cynthia Boyer

CRIME
Nixon's position on the enforcement of criminal law is a major issue. He believes in a strong law enforcement, but wants to reduce the cost of the criminal justice system. His opponent, McGovern, supports a more progressive approach to crime prevention and a reduction in the prison population. McGovern also advocates for more civil liberties and a reduction in police brutality.

Example of Nixon's Foreign Policy

Nixon's foreign policy is controversial. He made the decision to invade Cambodia without informing Congress, which is a violation of the War Powers Act. In addition, he engaged in illegal wiretaps and other surveillance activities, which is a violation of the Constitution.

Example of McGovern's Foreign Policy

McGovern's foreign policy is more interventionist. He supports intervention in the Vietnam War to support South Vietnam's efforts against communism. He also supports sending military advisors to West Berlin to support its efforts against communism.

FISCAL
Nixon believes in a balanced budget and an emphasis on fiscal responsibility. He advocates for a reduction in taxes and government spending. He also supports a strong dollar and a reduction in the national debt.

Example of Nixon's Fiscal Policy

Nixon's fiscal policy is controversial. He proposed the first National Economic Expansion Program, which was a tax cut and increased government spending. However, it was not well received and was criticized for being too expensive.

Example of McGovern's Fiscal Policy

McGovern supports a more progressive fiscal policy. He advocates for a larger federal role in providing social services and a reduction in the national debt. He also supports a reduction in taxes for the middle class and a higher minimum wage.

EDUCATION
Nixon supports a strong education system and is opposed to increasing government control over education. He also supports a reduction in federal funding for education and a reduction in the role of the federal government in education policy.

Example of Nixon's Education Policy

Nixon's education policy is controversial. He proposed the Education for All Handicapped Children Act of 1975, which was a major victory for the disability rights movement. However, it was criticized for not going far enough.

Example of McGovern's Education Policy

McGovern supports a more progressive education policy. He advocates for a larger federal role in providing education services and a reduction in the role of the federal government in education policy. He also supports higher standards and more resources for special education.

INTERNATIONAL RELATIONS
Nixon's foreign policy is controversial. He made the decision to cut off relations with Taiwan and to negotiate with China, which he believed would be a way to bring China into the international community. He also engaged in illegal wiretaps and other surveillance activities, which is a violation of the Constitution.

Example of McGovern's Foreign Policy

McGovern's foreign policy is more interventionist. He supports intervention in the Vietnam War to support South Vietnam's efforts against communism. He also supports sending military advisors to West Berlin to support its efforts against communism.

GOLFER'S TOP FAIRFIELD

Harriers

Open Forum, Cont.

Voting Principles

By Joe Terranea

With today's emphasis on the importance of political and governmental principles concerning the fairness and impartiality of a proposed law or project, it is important to examine the principles of a proposed law or project. The most important aspect of examining a law or project is to ensure that it is fair and impartial. This is important because it ensures that the law or project is fair to all individuals and groups equally.

For example, consider a law that is proposed to reduce the number of cars on the road. This law might appear to be fair and impartial, but it could have serious consequences for those who rely on cars for transportation. In this case, the law would not be fair and impartial.

Therefore, it is important to examine the principles of a proposed law or project before voting on it. This will ensure that the law or project is fair and impartial, and will benefit all individuals and groups equally.
Nixon vs. McGovern

10 Points Of Richard Nixon
Analysis of Nixon

By Cynthia Boyercloud

Nixon

CRIME
Nixon performs the enforcement of illegal acts as a state officer, therefore he has continually been found guilty of federal and state laws. He has been prosecuted by the FBI, the Justice Department, and the IRS. Nixon has been found guilty of perjury, obstruction of justice, and conspiracy.

POLICY AND IDEAS
Examples of Nixon’s foreign policy programs are the Vietnam War and the Nixon Doctrine. The Vietnam War took over the turmoil of the war. As a result, the United States was embroiled in Vietnam, resulting in increased anti-war protests and civil unrest. A number of American cities experienced urban riots and violence.

He has brought results in the area of foreign policy through his negotiating abilities. Instead of just talking about it, there is the actualization of real achievements. The Gulf of Tonkin Resolution, the North Vietnamese Agreements, the Strategic Arms Limitation Talks (SALT), the Helsinki Accords, and the Camp David Accords are just a few achievements.

He has tried to defend his views on an historical sit in the world. First going into the White House, Nixon then became the President of the United States. He has not been found guilty of any criminal charges. However, he has been impeached twice, once in the House of Representatives and once in the Senate. Both times he was found not guilty.

Runners Have Second Consecutive Best Effort

Top Kings 16-44

The best time effort in the history of Maine was set up a most-impressive 16-44 effort by runners who were good a tough Fairfield University at the Marist campus Monday. The meet, which was originally scheduled for last Saturday but postponed because of the heavy winds and rain, was run in cold and windy weather before a good Marist crowd.

Jay Doyle won his second race of the meet in three outings by clipping out a 26:54, exactly one minute of the course record set by Mike Redmond of Nyack last year. He was followed by Bob Salamone in 26:58, Mark Helbrota in 26:58, and Marty McGowan in 27:02. This assured a Marist victory. Amazingly, only 48 seconds separated Marist's first four runners in this meet. Freshman Mike Duffy, running number four for the Red Foxes, came in sixth overall with a surprising time of 27:11. He will undoubtedly be a big asset to the Marist runners as the season moves along, especially in the C.A.C.C. Conference Championships.

Bob Nelson placed sixth for Marist and eighth overall clocking his best time ever of 27:29 and closed the meet within eight seconds of Bob Mayerhoffner's best Marist time ever. Jim McCascand, continuing over usually to show constant improvement with his added cross country experience, finished the Marist scoring with a 27:46 timing and fourth in the race. Bob Salamone, Marty McGowan, Mike Duffy, Bob Nelson and Jim McCascand all ran their best times ever in this meet.

This was the best time ever recorded in the ten-year history of cross country at Marist for the top five runners and the top seven Marist runners.

The Running Red Foxes, now 6-2 on the young season, are next scheduled to take on Kings College, a CACC team, at the Marist campus Tuesday at 3:30 p.m. The final home meet of the season is in Nassau, New York, on Saturday, October 14, with Brooklyn College and St. Joseph’s College in a neutral meet on the campus for a 2 p.m. meet. The meet with St. Joseph’s should be a very close one and a good crowd is expected to view the Running Red Foxes in their final 1972 effort at home.

Booters Ready For Fairfield

The Marist College soccer team, now with two games left, will host Fairfield University Saturday (Oct. 14) at 2:00 p.m. at Leonhard Field.

Fairfield (0-4), will be looking for their first victory of the season, having recently decided to play at Canasota State (N.J.), 2-1; Drew University, 0-2; University of New Haven, 0-3; and Wesleyan University 4-0; Marist won last year’s game, 1-0, and leads in the nine year series 4-0-1.

Fairfield is led by Jim Marquardt (Norwalk, Conn.) and Mike McHugh (Rushing, N.Y.), the team’s leading scorers. Linemen Tim Kiley (Wayland, Mass.) and Pat McKeown (River Vale, N.J.), are other front-linemen to watch.

In their last game against King’s College, coach Howard Goldman’s Marist team were faced with an inability to move the ball, in dropping a 3-0 decision. The high scoring combination of Ken Hayes (Midtownen) and Tim Troia (Park Ridge N.J.) were held in check by a sticky King’s defense.

Marist Goalie, Dave Tompkins (Carmel) turned in a respectable performance with 25 saves.

The Red Foxes will be making up last Saturday’s rain with Bloomfield College, at home, this Wednesday afternoon (Oct. 26) at 3:30.

Davies, Cassidy-Viking Scoring Leaders

by Bob Sullivan

With the bulk of their Eastern Collegiate Football Conference schedule in the books, the Marist College Football Club today released the cumulative statistics of their first three games.

To date, the undefeated Vikings have put up 34 points on the board while allowing only 12 points. Providence, their most recent opponent, was held to a 6-6 tie. Leading the individual scoring is sophomore Nigel Davies, McCasand with two touchdowns a piece.

Nigel Davies has been the key to the Viking rushing attack, as the statistics indicate. Davies has 375 yds. so far for 125 yards per game. Davies has been impressive despite the fact that every team, remembering his explosive running a year ago, has been keying on him. The second half of the Viking offense has improved under back Ed Bennett. Making apt use of his ability to get outside on the edge, Bennett has picked his individual high of 150 yds. in only 30 carries and a average of 5 yds. per carry.

Bonnets has also been more than capable in the passing department, completing 23 passes in 66 attempts and 4 touchdowns. His favorite receivers have been wide receiver Tim Murphy (18 passes for 183 yds.) and tight and Mike Cassidy (7 passes for 89 yds. and 2 TD’s). The Vikings have gained 1052 yds. while earning 43 first downs.

Once again, the defensive unit has been outstanding. Although they have allowed somewhat more yardage than last year, no team has been able to mount more than one long drive per game. Perhaps their high point so far is the Westchester game when they put together a goal line stand that crushed Westchester’s final scoring opportunity. Thus far, the Vikings have allowed only 492 yards. Against Alden-Woodside, the secondary, backed by a strong pass rush gave up 59 yards in the air.

Next Saturday the Vikings will travel to New Haven for their second ECFC game of the season, an 8:00 P.M. affair to be held at Quigley Stadium in West Haven. It will be the first league contest for UNH who beat Mattatuck Community College 7-0 in their last outing on Sunday afternoon. Last year the Vikings beat the Chargers 15-0 under the lights.

Salamone, McGowan Finale Saturday

This Saturday, October 14, the Marist Running Red Foxes will conduct their final home meet of the 1972 cross country season. But the weather will be more than that. It will mark the end of a fantastic home meet run by the Red Foxes. This year Salamone ran four years of cross country and track in high school and when he came to Marist, he was chosen as a freshman, he also went out for the harness sport and earned a varsity letter in the fall season. He did not compete during his sophomore year, but returned last year as a junior in what could be called the "Comeback of the Year Award." Not only did he compete, but he was chosen co-captain of the Marist team and placed third for the runners on the team.

This year Salamone was re-elected as co-captain, and quite easily too. "He’s a born leader," says Coach Rich Stevens. "He has a natural talent to be a great captain. All of the runners put a lot of respect in him. I respect his opinions and often have used his advice to settle issues in which we were debating," continued Coach Stevens.

Without a doubt, Bob has been the most improved runner of the team. He warrants the honor for two reasons: (1) He has improved more than any other runner for an average of 5 yds. per mile and (2) He has improved more this season than anyone else. "Bob has made remarkable improvement this year. He has shown constant improvement every meet and has jumped to the number two spot on the team. His 24 seconds behind super Jay Doyle in his record-shattering run." Coach Stevens.

Boothes Fight With Kings Tuesday

In winning their first two games, Marist has shown a strong defense, a solid offense, and an impressive freshman guile. Dave Tompkins (Carmel) is directing traffic outside the goal area with remarkable poise for a first year player.
