Marist Aﬀected
By Fuel Shortage

By Maryanne McQuade

Marist, like other places, is beginning to feel the affects of the fuel shortage, which is plaguing homeowners, businessmen, and government officials across the nation. The shortage, due primarily to a lack of oil being exported from the Middle East, is greatly taxing our own oil supply, and has caused serious cutbacks on the amount of fuel which is available.

The administrators of Marist are seriously concerned as to how the shortage will aﬀect Marist. As it stands right now if we consume fuel at the normal amount we will be out of oil by February. Recently the Interim Council held an emergency meeting to discuss what possible solutions there were to this problem. The major alternative given was the shortening of Christmas vacation from three weeks to two weeks. This solution would get us through the largest part of the cold period. Lengthening the vacation would mean the addition of four to six days at the end of the school year. Since this was deemed unacceptable by all other possible alternatives had to be suggested and discussed.

The ﬁnal decision came with a conservation program suggested by the Council. The school will remain open during February with a possibility of closing for three days during the month if necessary. The decision was based on the hope that the following suggestion for conservation will be followed:

Beginning Monday, November 19, the temperature in the dorms was lowered to 65 degrees.

- All windows and common doors will be shut in order to keep the heat within the building.

- Radiators are to be kept on continuously to provide heat even on ﬂow of heat throughout the buildings.

- Finish out the system during vacation. This will mean that the dorms will be closed during Christmas so the heating system can be turned oﬀ and then back oﬀ so that all rooms will be receiving adequate heat.

- Turn oﬀ the bathroom lights when not in use.

- Keep one-half of the hall lights out.

- Shut-oﬀ stereo, radios, etc. when not in use.

- Christmas lighting will be shut oﬀ.

The Council believes that if the suggestions are followed that the dorms will be able to remain open through the winter.

One of the consequences of school, a check will be made to see if any funds are available by these actions. If not, another alternative which seems more favorable than the closing of school for the additional time. The Council and the Administration urge you to participate in their conservation plan and rely on your good sense in following these suggestions.

Petition For Boycott Grows

By Tom Page

The petition for the boycott of all lectures which does not have the United Farm Workers Union seal has been going around among students. Thus far there have been approximately 10 resident signatures accumulated. This work has been done by a group of concerned students here at Marist. Their goal is to get enough signatures which will represent a majority of the resident students. This petition will then be presented to Jim Ladura, manager of Saga Food Service. In speaking to the students who helped to canvas all the dorms, it was discovered that most of the students were resistently willing to give their signatures for the support of the United Farm Workers Union. There were isolated cases of resistance toward the boycott. Approximately twenty residents out of 400 did not wish to sign the petition.

It is hoped that the petition can grow in its number of signatures to about 300. This would represent a major portion of the approximate 900 resident students. To achieve this, certain areas of the campus will be covered again since the main objective was to ﬁnd people when they are in their dorms and not alone. Students in the dorms are optimistic in reaching enough signatures.

Jim Ladura has stated that if a substantial amount of the residents sign, it will be hard to refuse any petition, he will honor it. However, the boycott will probably not go into effect until next semester. With the current sales of Saga’s food orders go out one month ahead of time.

Marist Participates In Blood Bank

By Gregory Con cach

On November 15, Marist students, faculty and staff once again participated in the semi-annual blood drive sponsored by the Greater New York Blood Program and the Greater New York Chapter of the American Red Cross. The program sponsored by the greater new york blood program operates in the seventeen counties of greater new york. New Jersey comes to Marist twice a year. The program represents the eﬀorts of the two groups combined collect annually an estimated 300,000 pints of blood, and together with the community blood centers of Greater New York to provide three services in the area of blood processing, they are:

1. To obtain an adequate supply of donated blood
2. To collect it in the area centers
3. To provide an orderly system for making it available where and when needed

In collecting 300,000 pints of blood yearly this makes the organization the largest in the world. While it also operates one of the foremost research centers in the United States which carries on the continuing research on the many components that make up human blood and process five of them, is the treatment of hemophilia, anaemia, leukemia, burns, and still other specialties and for special uses in surgery. The beneﬁts derived from donating blood not only aﬀect the donor, but members of the donor’s immediate family. By making the donation annually a donor can increase his family unlimited blood transfusion credits which are good for one year from the date of donation. There is never a charge for the blood. For those interested in donating blood the next blood drive will be one month ahead of time.

Despite an energy crisis, Champagnat Hall managers to laminate the campus.

All-Rolled Out

By Jeanne Calliglani

A sudden realization that all the anticipation, planning and enthusiasm that culminated on the weekend of Nov. 16-18th, has now settled into a sigh of relief. More than 60 exhausted students of House I had been anticipating the relief gained by the Thanksgiving Vacation and thrilled on the relaxation offered after successfully achieving the plans of rolling a beer barrel 300 miles.

There were many highlights for the students individually but collectively there were few moments which would have been memorable for quite a while. One incident which will be remembered was the generous hospitality by Anhausser-Busch as marking the mid-way point of the beer barrel sojourn. Although there was a late arrival of the barrel by about two and a half hours, food and drink still awaited the weary rollers of the barrel as well as the rest of the House I participants.

One other event that not only House I, but the whole Marist College campus was able to participate in was the last half hour of the roll-a-thon. As the barrel was rolled down Route 9 toward the campus a police escort obligingly assisted all who joined in the massive parade of cars and students to Roosevelt’s Estate in Hyde Park. Although it was anticipated that the barrel would arrive at approximately 3:00-3:30 p.m. on Sunday, it did arrive at Roosevelt Estate at 3:15 p.m. on Sunday. This delay was due to the trouble they had in the Bronx with a broken axle. There were also several other occasions in which the axle gave the rollers trouble in the frame, on the verge of breaking, was at fault. Also, the fact that Bergen County, New Jersey, would not allow the barrel to be rolled in the county hindered somewhat a time lapse. Hence, a reconversion to an addition to the route in order to fulﬁll the designated mileage to break the world’s record.

On another occasion, the ﬁnal of the previous event, the victory party which occurred on Tuesday night, Nov. 26th, was the visually and prophet of the feelings and excitement that House I. At this event the money collected from the pledges was given to the American Cancer Society. Likewise, the American Cancer Society awarded, each participant of the beer barrel roll-a-thon for their courageous efforts in their ﬁght against cancer. The festivities began when the first of the one and half kegs was tapped. A good time was had by all.

SAGA Surveyed By Students

By Mary Bob Phillips

The Fred Committee, headed by Edward James, has been looking at the food service operations at the Fred. The committee has been reviewing the food service operations at the Fred on a regular basis and considers the food service to be very poor, according to their standards. They are considering putting the food service up for bid in order to improve the service. The committee feels that the food service is not meeting the expectations of the students and that the improvements are needed.

Committee On Blindness Acts

By Joanne Collette

It’s about time facilities were considered on campus for the visually impaired. The committee met last week to discuss the issue and agreed that more needs to be done. The committee decided to present their findings to the administration.

200 Club Arrives To Aid Handicapped

By Deborah Turner

The 200 Club, an organization that helps students with disabilities, has arrived on campus to aid handicapped students. The club is made up of students who have disabilities and they are here to help their peers.

Bureau Looks At Consumer Fraud

By Gregory A. Galloway

Consumer fraud is a common problem on campus. The Bureau looks at the issue and tries to find ways to prevent it. The Bureau has noticed an increase in consumer fraud cases on campus.

Epidermal Proportions Reached

By Lyndie Llana

It has been referred to as a "miracle," but the truth is, there's no such thing. The skin on our bodies is a complex system of living cells that work together to keep us healthy. The skin is made up of several layers, each with its own function. The epidermis is the outermost layer, which protects us from the environment. The dermis is the middle layer, which contains blood vessels and nerves. The subcutaneous layer is the innermost layer, which contains fat and connective tissue. Each layer plays a crucial role in the overall health of the skin.

By Students

By Mary Bob-Webber

The Fred Committee, headed by Bill Johnson, won the contest by completing the four SAGA Survey forms which were sent to each of Marist's five food services which included St. John's, St. Mary's, The Towers, and at dinner but not lunch. The forms were set to gauge the feeling of the food services and to find which ones needed improvement.

Committee on Blindness Acts

By Joseph Capello

It's about time facilities were concentrated on curb appeal for the visually impaired. Facilities, such as Marist and schools within the St. Louis region, are overlooking the needs of those who are blind or visually impaired.

The Fred Committee, whose advisor is a...
In Response...

In response to a letter from the Teacher Education Department, the CIRCLE editorial board is happy to see an example of what can be done in our communities. We agree that the future generation of teachers needs to be educated in a way that will prepare them to teach in the real world. It is important for educators to be aware of the needs of their students and to work collaboratively with them to achieve their goals. We believe that the program outlined in the letter is a step in the right direction.

Letters To The Editor

Teacher Education

To the Editor, The letter to the Teacher Education Department is open and honest, and we are happy to see an example of what can be done in our communities. We agree that the future generation of teachers needs to be educated in a way that will prepare them to teach in the real world. It is important for educators to be aware of the needs of their students and to work collaboratively with them to achieve their goals. We believe that the program outlined in the letter is a step in the right direction.

CIRCLE, Volume 7, Number 15, Spring 1977

Solidarity Workshop

A Solidarity Workshop was held to discuss the strength of our Union. We believe that solidarity is essential to the success of our Union, and that it is important for all members to work together to achieve our goals. We hope that this workshop will help us to strengthen our Union and to continue to grow.

CIRCLE, Volume 7, Number 15, Spring 1977

Safety at Marist

On December 30, 1976, the Occupational Health and Safety Act was passed. This act was aimed at improving safety and health standards in the workplace. The act requires employers to ensure that their workplaces are safe and healthy for all employees. It also requires employers to provide training and education to employees on the risks and dangers of their work.

CIRCLE, Volume 7, Number 15, Spring 1977

Prison Gates Open

One of the most significant developments in prison reform has been the increasing recognition of the need for systematic and comprehensive prisoner education. Prisoners are often isolated from the outside world, and education can help them to understand their rights and responsibilities as citizens. It is important for prisoners to have access to education, as it can help to prevent repeat offending.

Letters To The Editor

To the Editor,

The door to the Teachers Education Office is open, and this fall "would mean any answer." The open door is a symbol of Program and Middle States accreditation.

On the occasion of this fall, we might perhaps discuss the program's "inadequate." Our students need to have people spotlighting on both the positive and negative aspects of the program.

If the premise is that a neighborhood high school is a valid concept, then our students will be leaving the program without much needed experience under the rubric of "cover-up." By the same token, if the premise is that our students are not being educated, then the program is not educating our students.

Participants in this program include our students, their parents, our teachers, our administrators, and their peers. Our students need to be educated in order to be able to contribute to the community.

We should not forget that our students are the ones who are learning, and they should be the ones who are making the educational decisions.

Sincerely,

[Signature]

In Response...

In response to a letter from the Teachers Education department, the letter is written to express the students' view that there has been much discussion about the program's "inadequate." The letter continues by acknowledging the program's "open door," which it sees as a symbol of accreditation. The letter then proceeds to discuss the program's positive and negative aspects, raising questions about whether the program is adequately educating its students. The letter concludes by urging the program to consider the students' needs and make decisions that benefit their education.

Solidarity Workshops

BROTHERS & SISTERS,

As an employee of a corporation, you are a member of a class, and the wages you earn are a part of that larger class. There are other employees who are members of the same class. Your union is trying to organize a new union for these employees, a union that will represent all employees in the company.

We are writing to ask you to join us in this effort. Our union is called the CIRCE Teachers Education Union. It is a union of all employees who work in the CIRCE Teachers Education program. We are working to make this program a fairer place for all of us to work.

Thanks To BSU

By Richard Morris

We are writing to express our solidarity with the Black Student Union, a group of students who have been active in the CIRCE Teachers Education program.

We would like to thank the student union for their hard work and dedication to the students.

We understand that the Black Student Union is facing some challenges, and we are committed to supporting them in any way we can.

By Michelle Wos

When was the last time you went to see a movie? Last time you visited a museum? Last time you went to the zoo?

I can't remember when I last went to a movie, and I'm not sure I can even remember going to the zoo. I don't think I've been to a museum in years.

But why? Is there something wrong with me? No, just a lack of time and money.

To the Editor,

The days of the open door are numbered, and the decision is hard to be tamed. In order to fight for our rights, we must stand together.

For as long as the Right to Education Office is open, there will be no "inadequate." The open door is a symbol of opportunity, and it must remain open.

Sincerely,

There are three topics affecting the country today, as concerned with the politics of the United States as they are with the economy of the United States. The three topics are: 1) The current political situation in the United States; 2) The economic situation in the United States; and 3) The social situation in the United States.

The political situation in the United States is characterized by a strong divide between the Democratic and Republican parties. The Democratic Party is generally associated with progressive policies and social justice, while the Republican Party is associated with conservative policies and economic growth. The current political situation in the United States is characterized by a strong divide between the Democratic and Republican parties. The Democratic Party is generally associated with progressive policies and social justice, while the Republican Party is associated with conservative policies and economic growth.

The economic situation in the United States is characterized by a strong divide between the federal government and the states. The federal government is responsible for regulating the economy, while the states are responsible for providing public services. The current economic situation in the United States is characterized by a strong divide between the federal government and the states. The federal government is responsible for regulating the economy, while the states are responsible for providing public services.

The social situation in the United States is characterized by a strong divide between the wealthy and the poor. The wealthy are able to access high-quality education, healthcare, and housing, while the poor are not. Injustices Exposed By Boycott

By Carl Dennis

Three strikes affecting the country today, were concerned with the problems of the McDonald's Empire, the American Manufacturing Corporation, Governmentality, and the United States. The protest is a group of workers in the McDonald's Empire. If the United States is the government, it is in the interest of the people to organize a boycott against the company. If the government is not the government, it is in the interest of the people to organize a boycott against the company. If the government is the government, it is in the interest of the people to organize a boycott against the company.

Shout It Softly

By Byrd Nelson

Even the day I arrived I was excited, because I knew I had a ticket to the Grand Canyon, which is one of my favorite places. I have been on a few previous trips, but not this one. The Grand Canyon is very beautiful, with its red rock formations and cliffs. The view is breathtaking and awe-inspiring. I hope to see more of the Grand Canyon in the future.

Third Year View

By Bob Ritter

As the academic year comes to a close, I am reflecting on my third year of college. This year has been challenging and rewarding. I have gained a deeper understanding of my field of study, made valuable connections with classmates and professors, and experienced personal growth. I look forward to the opportunities and challenges that the future holds.

Theatre Guild Promotion: Mourning Becomes Electra

By Mary Beth Jeffrey

The plot centers around the character of Electra in the original Greek tragedy. Electra is played by Annette, an actress who has been praised for her portrayal of the role. Annette's performance is impressive, with her ability to convey the character's emotions and motivations. The play runs for several weeks and is performed at the Theatre Guild. If you are interested in seeing Electra, I highly recommend attending.

Announcements

For those interested in working with the Guild on various projects, an open house will be held on Saturday, October 1st, from 3-5 pm at the Guild's offices. This is an opportunity to meet with the Guild's leadership and discuss potential involvement in upcoming events.

FORGET, continued from page 5

"Interstellar" is a science fiction novel by Arthur C. Clarke. The novel explores themes of space exploration and the search for extraterrestrial life. Clarke's writing style is known for its depth and complexity. The book was published in 1973 and has since become a classic of science fiction literature. It remains popular among readers and is considered a must-read for anyone interested in science fiction.

The Marist College cagers opened their season on a sour note Saturday with a tough loss to rival Iona College, 76-74. A six-point surge in the final minute and a half of the game brought the Iona Gaels from a 67-44 deficit to 70-74 triumph.

The game started out lured bad for the Red Foxes. Iona had the taller team with three excellent frontcourtmen Ray Hyland, Bernie Socha and Kevin Bass. Hyland and Socha were returning stars from Iona's team last year. Marist was hurting in the frontcourt with the absence of returning letterman Roy Williams, out with tendinitis, and Mike Hart, leading scorer of last year's varsity seeing limited action because of a leg injury early in the season.

The Marist frontcourt had to rely on two inexperienced men in the front court. Three sophomores shared the front court action, Joe Cirasella, Ron Glacklin and Ray Murphy. These three played especially well on defense and rebounding. Cirasella was Marist high scorer with 12 points and he and Ray Murphy both had 9 rebounds for the lead in that department with senior Jim Oiska.

The second half was a sea of Battle as the lead changed hands many times. Tenacious defense and percentage shooting kept the Red Foxes close. It was a low scoring half ending with Iona on top 36-34. Freshman Kevin Bass scored 12 of the Gaels first half points. Marist's scoring was balanced by the two leading

Little Red Foxes Romp

The Marist College J.V. cagers look like they are heading for an excellent season. They easily defeated the Iona J.V. in their opening game 76-61. Excellent execution of their offense and tough defense kept the Red Foxes in control all the way. The biggest moment of the game was the spark plug of the team. He scored 19 points drawing right through the Gaels defense. The boards were controlled by the Red Foxes with Walt James pulling down 12 rebounds and Bob Lawrence pulling down 9.

The J.V. showed great promise in its first game. They showed a well-drilled attack, hitting the open man, good shooting and strong rebounding marked the offense. They control the ball well and also play very good defense. They had good balanced scoring with 4 men in double figures. Phil Palladino, 19, Walt Janacek, 15, Greg Giles, 13, and George Ptasin, 12.

The squad is also looking forward to return of promising guard Tom Coughlin, a former John Jay High School star, who missed the Iona game with the flu. The J.V. plays King's College at 6:30 tonight.

High On Sports

By John Tkach

IS THIS WRESTLING'S LAST YEAR?

Dedication and self sacrifice are two qualities that wrestlers can attribute to nothing else to their success. Great wrestlers apparently that wrestlers didn't attribute anything to their success as athletes at Marist this season, for the time may have come when wrestling is finally abolished and given up. Surprisingly the reason is not financial. The budget has not been cut, but rather it has been increased, so why is wrestling in danger?XT

The daily routine of a wrestler can be best described as "hell". It consists of two morning practice hours of wrestling in an 11x9 room, doing physical exercises and calisthenics, (pushups, sit-ups, the whole routine). Then in for good measure running in place for fifteen minutes, before practice begins to start to wrestle. The workout is topped off with more exercise. Another added attraction of being a wrestler is when you stay yourself for three days before a match to make weight.

Right now, the first six matches of the season have been cancelled. Hopefully the weight will start fresh in the second semester, or maybe they will never start again.

RED FOX HOOPSTERS FACE BIG TEST TONIGHT

Marist collegiate basketball play resumed again in the Poughkeepsie area tonight with the Red Foxes testing the 2nd ranked Lady of Lourdes High School, with varsity action starting at 8:00 p.m. led by the junior varsity at 6:30 p.m., with the Lady Lourdes.'

King's which has four starters back from last year's 13-4 squad, trails lie in an almost unknown territory. A few players to watch for are Joe Cirasella, Mike Hart, who is coming off a pre-season injury, Jim Oiska, and Ron Glacklin in front line along with the backcourt duo of Ceri and Small. Iona is looking for a second straight year at King's. Reaching to King's for a second straight year, it's two meetings. King's has a new coach in Hal Smith, who has been announced as a successor to the retired coach, the late Bill Humes. The two teams are 6-2 Karl Collision, who averages 18.5 points per game, 6-4 Jerry Slocum at guard, sophomore center Bob Edelman and 6-1 Dave Watson.

HAYES, MCGRAW CHOSEN TO C.A.C.C. ALL-STAR TEAM

-Sr. Ken Hayes of Middletown, N.Y. and freshman John McGraw of Levittown, N.Y. have been selected to the 1973 Central Atlantic College Conference (C.A.C.C.) All-Star Team. Hayes is a lineman, while McGraw is a halfback.

Hayes, a former Orange County Community College star, pumped in 12 goals this season, giving him a two-year total of 46 goals in 27 games. This season Ken was the Red Wolves scoring leader with 13 goals and 4 assists. In the conference scoring race, Ken was second with 4 goals and 5 assists. Ken's finest conference performance was against Dowling College in which he scored three goals in leading Marist to a 2-1 victory. In only two seasons, Hayes has stamped his name all over the Marist record books. During the 1973 soccer season Hayes was the Marist soccer co-captain. The 1973 conference selection was a repeat of the 1972 team for Hayes.

McGraw is a product of Island Trees High School, Levittown, N.Y. John's finest conference game came against King's College (N.Y.), in which he scored the game tying goal. John was fourth on the team in scoring with a total of four goals in 27 games.

OSCAR GOLDMAN

Of McGraw and Hayes, Coach Howard Goldman calls them: "...a pair of fine football performers. Both Ken and John have the ability to rise to the occasion against tough competition. Named as honorable mention selection were junior fullback Tom McDonald of Rochester, N.Y. and sophomore halfback Paul Nystrom of Buffalo.

THIS WEEK IN MARIST SPORTS

TEN YEARS AGO ... Coach Tom Wade's Marist College Basketball Red Foxes won their initial game of the season by dumping visiting Western College by a score of 97-87. The North Road Raiders went into the contest with an 8-2 record, having lost to King's College. Later in the week, Marist defeated the Queens College from Brooklyn with a score of 64-66. Later in the week, a basket by Ed Straylor and a free throw by Jerry Findley in the final minute gave Bloomsburg a 77-76 victory in the Central Atlantic College Conference game. Also Iona rushed to a 33-point halftime lead and coasted to a 66-64 victory in a nonconference game at Mt. St. Michael's High School in the Bronx.

ONE YEAR AGO ... Marist ripped King's 110-77 in a conference basketball game. Later in the week Brooklyn beat Marist 82-76, Iona cut King's nine of his 13 points within a seven minute period late in the second half. Later in the week the Red Foxes defeated C.C.N.Y. 66-56 at Dutchess Community College, and beat King's 77-67 at home. King's College won three matches by forfeit and went on to defeat Marist in wrestling 45-14.

Two Marist College players, forwards Tim Trotta and Ken Hayes were selected to the Central Atlantic College Conference All Star Team.

PALLADINO NAMED MARIST ATHLETE OF THE WEEK

Phil Palladino, a freshman from Kingston, N.Y. has been named College Athlete of the Week for the week ending Dec. 2.

Palladino, a middleweight wrestler, varsity a 70- 78-75 win over Iona by scoring 19 points. Led by Palladino's performance, the Little Red Foxes opened their 1973-74 season and will face the Kingston College and Lourdes High School and City College of New York (C.C.N.Y.) away on Sat. Dec. 8.

Hoopsters Lose Heartbreaker

By Jim Donnelly

This past week Marist's Intramural Basketball program began

Sports Bulletin

On Tuesday, the Varsity cagers lost their second straight game to Union, 72-25, a cold shooting second half dropped a 2 point half time lead to a loss, Jim Oiska led Marist in scoring with 19 points and 12 rebounds while Sophomore guard Joe Neibahl hit for 14 points.

Tonight the Varsity will meet King's College at Our Lady of Lourdes High School. The game will start at 8:30 p.m.

INTRAMURAL NOTES

On Sunday, Nov. 18, New Paltz State defeated Marist 3-0 in the first annual Mid-Hudson Intramural Tennis Football Bowl. The teams included Post Mortem of the intramural football champs of New Paltz and the Zekekeepers, Marist's own intramural football champs, to score the Used Bags defeated Third Floor Leo 3-4 in the Intramural Soccer League Championships. Fred Krampme of the U.B.'s was named most valuable player.
