By RHODA CRISPPELL

Andre Green, incumbent student government president, was re-elected by narrow margins in three elections held March 4 - March 5. Green received 234 votes while Woodin received 216 votes, and 45 abstained.

"I'm very happy that I won. I knew it was going to be close since I didn't do any personal campaigning," Green said. "We expect some pretty beautiful things for the rest of this year and next semester," said Green.

According to preparations Green wants to accomplish are the formation of a student senate, a student written course advisor, and a student union center which would be a recreational and study area for students.

James Dashier, a sophomore communication major, defeated David Livshin, who was vice-president by receiving 225 votes as compared to Livshin's 186 votes with 87 abstentions.

"Naturally, I'm very happy that I won. As soon as I get back from the semester break I'm going to check into the situation about getting the food manager to meet with students... in gripes sessions," Dashier said.

John Hannekin, the incumbent student government treasurer, ran unopposed and was re-elected in his bid for re-election. He received 382 votes while 56 voters abstained.

Green Wins By Margin, Dashier V. P.

By CANDI DAVIS

The CIRCLE referendum which now gives the CIRCLE editorial board the power to appoint the editor was passed as an amendment to the student government constitution in elections Mar. 4 and 5. The proposed Student Senate was not placed as a referendum on the ballot.

The CIRCLE referendum won by 244 votes. Ms. Mary Beth Pfeiffer, editor of the CIRCLE, said she is pleased the referendum went through. "A newspaper which is independent of student government is less likely to succumb to external pressures, and this adds to a more professional newspaper," said Pfeiffer.

Andre Green, re-elected president of student government said the Student Senate referendum was not submitted to the Judicial Board in time for the election. The referendum had to be approved by a two-thirds majority vote of the Judicial Board.

Green Wins By Margin, Dashier V. P.

"I was unanimously accepted by the Executive Board of student government," said Green.

He thinks the student body could have benefited from the referendum if it was placed on the ballot. The Judicial Board would have considered the referendum "unconstitutional," said Green.

Election Results In Dispute

By TINA TRACA

A question of ethics dealing with the election last week for student government has arisen.

John Woodin, defeated by Andre Green, in the race for president, says "there appears to have been some hanky-panky at the polls." He charges that some members of the election committee who handed out ballots told voters "who to vote for."

He has submitted a formal letter of complaint to the judicial board. "They will make a ruling probably by the end of the week," he added.

Andre Green maintains that, "Woodin accused them of slating votes. They didn't ask people to vote for me." Green nominated David Livshin, who was the vice-presidential candidate defeated by Jim Dashier, of being at the polls asking people to vote for him and bothering Debbie Allione, the election commissioner. "He kept telling Debbie how he wanted the votes cast in a central area because he didn't trust her," said Green.

Livshin and Woodin ran together as a team. "Woodin's mistake was running with Livshin," he added.

"I'm active in politics. It's this continued on page 3
Students Taught By ‘Influential’ People

Every Saturday night at the University of California at Los Angeles, a group of students, many of them from the business school, gather at the Student Center for a special event. The gathering is called the “Influential Group.”

The Influential Group is comprised of students who have had the opportunity to learn from influential mentors. These students are chosen based on their academic and professional achievements.

The group meets to discuss topics such as career development, leadership, and social responsibility. The aim is to foster a sense of community and encourage students to think critically about their future endeavors.

Students Subject To Search

Even though a Michigan court recently ruled that dorm rooms are constitutionally protected by the Fourth Amendment, many students still report being searched by school authorities.

The Michigan Supreme Court ruled that the search of a student’s room is a “search” under the Fourth Amendment, even if the search is conducted by university officials.

However, the court also ruled that searches of dorm rooms must be conducted in a reasonable manner and that the university must have a valid reason for conducting the search.

Marist Has More B And C Students

According to a recent study by the Marist College of Business, there has been an increase in the number of students who are classified as “B” and “C” students.

The study found that the percentage of students with grades in the “B” and “C” range has increased significantly over the past decade.

The school’s president, Dr. John J. DeGioia, said that the increase in the number of “B” and “C” students is a positive sign, as it indicates that the school is doing a better job of supporting its students.

Results Disputed From P. 1

The results of a recent study on student satisfaction at the University of Illinois are being disputed by some faculty members.

The study, which was conducted by the university’s Institute for Educational Research, found that the majority of students were satisfied with their experiences.

However, some faculty members have criticized the study, saying that it was biased and that the results do not accurately reflect the students’ experiences.

Marist Business Deans’ Office and the School of Business Administration are currently investigating the dispute.

Lights On Blink

If you are having difficulty finding your way between Adena Hall and California Hall, take advantage of the lights on the ceiling.

The lights are set to turn on and off at specific times, and they are visible from both hallways.

Students Arrested Con’t

Two students were arrested last week for violating university regulations.

The students were charged with possession of marijuana and were released after posting bail.

The university is currently reviewing the incident to determine if additional disciplinary action is warranted.

Absenteism Low

A teacher at the Absenteeism Low School has been identified as the department head who is responsible for the decline in absences.

The teacher, who has been at the school for several years, said that she has found a way to keep students interested in learning.

Dinner Dance Slated

The College Union Board has announced plans for the annual Dinner Dance, which will be held on Saturday, March 12.

The event will feature live music and a variety of food options.

Students Taught By ‘Influen
tial’ People

By Rhoda Chippell

Every Saturday night at the Marshall School of Medicine, a panel of professors and students come together to discuss a recent journal article. But what if the real interest in this gathering is not the journal article itself?

“The theme for last night’s panel was the recent death of a renowned psychiatrist,” said Prof. Paul Korey, a graduate student in medical ethics.

“Korey told us that Dr. Jeremiah L. Bloch, a pioneer in the field of psychiatry, had recently passed away. But we were all more interested in the discussion that followed. Korey said that Bloch was a ‘great teacher and scholar’ and that his work had had a profound impact on the field.”

The panelists agreed that Bloch was indeed a powerful influence, and they shared stories of how his work had shaped their own careers. Prof. David Hume, who knew Bloch personally, said that he was “a brilliant teacher and a kind soul.”

“But it was more than just his teaching that made Bloch influential,” said Prof. Sarah Hughes. “His research was groundbreaking, and his insights have had a lasting impact on the field.”

The evening ended with a round of applause for Bloch’s legacy. As the panelists dispersed, the conversation continued among the audience, reflecting on the profound influence that Bloch had had on their lives.

Marist Has More B And C Students

By Phil Palladino

At Marist College, the Office of the Dean of Students and the Department of Counseling are working to increase the number of students earning B and C grades. The Dean of Students, Dr. John N. Farkas, has outlined a series of initiatives aimed at improving student performance.

“Many students who are currently receiving D or F grades are struggling to meet the academic expectations of their program,” said Dr. Farkas. “We believe that by providing additional support and resources, we can help these students improve their grades and achieve academic success.”

The initiatives include: increased tutoring and academic coaching, early intervention programs for students who are performing below expectations, and a new program that provides additional academic support for the 5% of students who are struggling the most.

“By focusing on these students, we can ensure that they are getting the help they need to succeed,” said Dr. Farkas. “We are committed to providing the support that will help our students achieve their goals.”

Marist students are encouraged to take advantage of these resources and to speak with their academic advisors about any concerns they may have about their academic performance.

Absenteism Low

At the College Union Board, the Absence Committee has reported that absences among students are at an all-time low. In fact, the committee has noticed a significant decrease in the number of students who are consistently absent from classes.

“This is a positive development,” said Dr. Jane Smith, Chair of the Absence Committee. “We believe that the success of our students is directly related to their attendance. By ensuring that students are present in class, we can help them to achieve their academic goals.”

The committee attributes the decrease in absences to a number of factors, including increased access to online resources, improved communication between faculty and students, and a renewed emphasis on the importance of attendance.

“By focusing on these factors, we can continue to make improvements to the student experience,” said Dr. Smith. “We are committed to providing the support that our students need to succeed.”

Dinner Dance Slated

The College Union Board has announced that a Dinner Dance will be held on February 14. The event will take place at 6:30 p.m. in the university’s Biedenharn Ballroom.

“The Dinner Dance will be a wonderful opportunity for our students to celebrate Valentine’s Day,” said Dr. John Smith, President of the College Union Board. “We encourage all students to attend and enjoy the evening.”

The event will feature live music, dancing, and a buffet dinner. Tickets are on sale now for $15 each. For more information, please visit the College Union Board’s website or contact the Office of Student Life.
The Great Train Robbery'

Martial College was the scene last week of a weekend train heist that went very well for the students involved. While most students are still drunk with the memories of the actual heist, some are already looking forward to the next adventure.

While many students are still drunk with the memories of the actual heist, some are already looking forward to the next adventure. The theater department is already planning for next year's event, which is sure to be a bigger success than this year's.

Review: Barefoot In The Park

By Mary Beth Pfleifer

When you take a well established stage play and combine it with the talents of a group of Martial College students, the result could quite possibly be disastrous. Fortunately, the chemistry of the cast and the director's guidance produced a well received play.

The play is a hilarious and imaginative story of two people who meet and decide to share a room in a New York City apartment. The chemistry between the two is electric and the audience was left in stitches by the end of the performance.

The students' performances were excellent and the director did a great job of keeping the pace of the show moving along. Overall, it was a great night at the theater and the play was well received by the audience.

STUDENTS WORKS WITH 'TOTS INJEOPARDY'

By Linda Crispell

The students of Martial College are currently working on a project to help prevent childhood obesity. The project, called 'Tots In Jeopardy,' is designed to educate parents and caregivers about the importance of healthy eating and exercise.

The students are working with local health organizations to develop educational materials and conduct workshops for parents. They are also collecting data on the prevalence of childhood obesity in the area.

Plant Of The Week

The watermelon (Citrullus lanatus) is an excellent beginner plant for those new to gardening. It grows quickly and produces large yields of fruit. It is a good choice for a beginner because it can be grown in a variety of climates and soil types.

Researching upcomingorg, led by the National Organization for Research and Education, has been working to increase awareness of childhood obesity. They have been conducting studies and developing educational materials to help prevent this problem.

Woodin has been working with the students on this project and has been impressed with their dedication and hard work.

Review: Barefoot In The Park

By Mary Beth Pfleifer

When you take a well-adapted play and combine it with the talents of a group of Mount St. Joseph students, the results could possibly be disastrous. That is exactly what happened with Barefoot In The Park, written and directed by Neil Simon. The story is about a homeless Puerto Rican named Charlie (played by Juan Ortega), who is picked up by a woman (played by Cindy Brown) and brought to aapid apartment, where he eventually得出s a job and is able to make a new start. The play was well received by the audience, who laughed at the many humorous moments. However, some critics felt that the play was too long and that the characters were not fully developed. Overall, it was a success and a show that I would definitely recommend to anyone who enjoys a good laugh.

Woodin Sees Govt In Action

By Nilda Cripeel

President Woodin's recent actions have been a topic of discussion among the student body. Many students have criticized Woodin's decisions, arguing that they are not in the best interest of the students. However, others have praised Woodin for his leadership and dedication to the school. As a student, I have noticed a change in the school's atmosphere since Woodin came to power. The new administration has made an effort to improve the facilities and the educational programs. Overall, I believe that Woodin is doing a good job and that the students should support him.

Student Works With 'Tots In Jeopardy'

By June Kennedy

Charlie Turckney, a senior psychology major, is working at the Tots In Jeopardy program. The program, which is sponsored by the Mount St. Joseph Student Council, is designed to help young children develop their problem-solving skills. The program consists of various activities, such as puzzles, games, and art projects. Charlie is responsible for the group's publicity and coordination of events. While the program is intended to be fun and educational, some students have expressed concern about the program's potential impact on children's development. Charlie believes that the program is important and that it helps young children grow and learn.

Plant Of The Week

By Phil Frank

This week's plant of the week is the Watermelon Pepper. This plant is native to the Caribbean and is known for its large, juicy fruit. The plant is easy to grow and produces a bountiful harvest. It is a great addition to any herb garden. The Watermelon Pepper is also a great source of vitamins and minerals, making it a healthy choice for snacking.

BUNK!

In last week's CIRCLE, an article entitled, "Student Suspended," appeared on the front page. This was the second incident of its kind in two weeks. The first incident occurred last Monday, and the second on Wednesday. These incidents are disturbing to the students, parents, and faculty. The students are concerned about the possibility of another similar incident occurring. They feel that the administration is not doing enough to prevent this from happening. The parents are upset about the lack of communication from the school. The faculty is concerned about the safety of the students.

"The Great Train Robbery"

The Great Train Robbery was the last word in the history of train robberies. The train was carrying a large amount of money, and the robbers were well-armed. The police were able to catch the robbers, but the money was not recovered. The train was carrying a large amount of gold, and the robbers were well-armed. Bettencourt Earns Ph. D.

By Claudia Balfe

Dr. Joseph Bettencourt was one of the two Harvard alumni honored last week for their influence on education. The other was Frank B. Dye, a president of the Boston Symphony Orchestra. Bettencourt, a 47-year-old educator, was the winner of the Harvard Medal for his work in education.

"If you are going to naively claim that Frank B. Dye is a professional educator," Bettencourt said, "then you should be aware that he has also written a book on education."

For Dr. Bettencourt, a teaching career of 40 years, education has been the focus of his life. As the first of the two Harvard alumni honored last week, he was presented with a gold medal and a book on education.

"The reality is that education is not just what you teach," Bettencourt said. "You have to teach it and live it."
Bettencourt
Ears Ph. D.

By Claude Budor

Dr. Joseph Bettencourt recently was heard to say, "Losing! The eight years I was in Congress were all wrong."

But the New Hampshire congressman, a native of the North End, was a workstation one. "If you are going to try to be a PDA, it's a professional one." He said.

For Dr. Budor, Bettencourt's career, a single-minded dedication to toiling away in the cause of science, was presented as a few photographs. His minor passion, however, was as an equally serious disease. Its presence, N.H. who the booted his heels to the floor, could not be described in the words of the New Hampshire congressman.

Bettencourt was born in Boston on Oct. 19, 1875. He was the son of a merchant who died of heart disease in 1882. Bettencourt was a medical student at Harvard Medical School when he was drafted into the army in 1898.

"I was a little bit out of my mind," he said. "I was in love with a girl and I was drafted into the army."

Bettencourt was discharged from the army in 1899 and went to Europe, where he studied science at Oxford University. He graduated with a degree in medicine in 1902.

"I was really the first American to study medicine in Europe," he said. "I was really the first American to study medicine in Europe."

Bettencourt then returned to Boston and opened a private practice. He quickly became known as a dedicated and skilled physician.

"I was really the first American to study medicine in Europe," he said. "I was really the first American to study medicine in Europe."

Bettencourt was particularly interested in headaches before he began his research. He heard that there was a new disease called "headache," and he decided to study it.

"I was really the first American to study medicine in Europe," he said. "I was really the first American to study medicine in Europe."

Bettencourt's research led him to the discovery of a new medicine for headaches, which he patented and marketed.

"I was really the first American to study medicine in Europe," he said. "I was really the first American to study medicine in Europe."

Bettencourt's medicine was a huge success, and he became wealthy. He continued to study medicine, and he eventually became a professor at Harvard Medical School.

"I was really the first American to study medicine in Europe," he said. "I was really the first American to study medicine in Europe."

Bettencourt was a dedicated and skilled physician. He was a leader in the medical community, and he was known for his dedication to the art of medicine.

Fred Kolthay will be honored at county’s “Night of Champions” March 11.

“Old Boys” Cop Intramural Title

By THOMAS MCTERNAN

Steve Sullivan may be listed on the roster of the “Good Old Boys” but he certainly didn’t play like one last Thursday as he scored three points in leading the “Old Boys” to a 54-74 runaway victory over “Return to Forever” in the final Intramural Championship.

The new champion, coached by varsity forward Ray Murphy, went undefeated over 15 games, including a 47-38 win over Benoit in the week before and a 50-45 decision over “Sprockets” in Tuesday’s semifinal. Defending champ Benoit was eliminated in the other semifinal by “Return to Forever” when John McGraw came a free throw with 14 seconds left to pull out a 70-69 triumph.

Murphy said the emotion of the Benoit win affected “Return to Forever” in the final but the way the “Old Boys” were ripping the cords, it wouldn’t have mattered much.

Joe Nebbia and Jim Dirscherl were on target right at the start and gave the “Old Boys” a 10-10 lead after seven minutes. Bart O’Sullivan then came off the bench to score seven points in the next two minutes for “Return,” including a three-point-play that tied the game at 21-21.

Foul shots by Nebbia and Sullivan followed by Sullivan’s first of several “Bombo” restored the lead to 30-21. “Return” fought back again, however, as Greg Giles made two straight tap-ins which gave them a 33-30 lead with 6:09 remaining in the half. But when Kevin McGhee hit from outside on the next play, the “Old Boys” had the lead for good.

Giles and Ron Glickstein combined for the losers last 19 points of the half but it wasn’t enough and reserve Phil Cotene started it 44-40 at the half with a steal and layup with five seconds left. The victors’ hot shooting continued in the second half. Giles, who finished with 14, converted another rebound to make it 46-40 but the “Old Boys” led by Sullivan and Larry Stenger (14 pts.) scored the next 15 points for a 54-40 margin with 13:13 remaining. It was then up for the subs to seal the game and they did just that, never letting the margin fall below 10 points. Glickstein, whose 28 points was instrumental in the Benoit win, scored 13 points before finding out midway through the second stanza. But he was neutralized inside by the strong play of Dirscherl and McGhee, who, countered with 10 and 6 points, respectively.

The real disappointment for “Return” however, was in the backcourt, where starters John McGraw and John VanDeVoorre managed just five points. One of the shooting of Peter Wilderoff (26 points) and O’Sullivan (14) and the boardwork of Giles and Glickstein prevented a runaway in the first half. Nebbia, the leading scorer on the “Old Boys” ended with 16.

For the champions it was certainly a great ending to a great playoff. But for the losers, well, they’ll have to go through the whole “Bombo” thing again.

The Naitza duo - Firmino (left) and Zenos, who scored all six goals for Marriott at RPI Saturday.

High On Sports

By Thomas Mcternan

TWIN PACES BROTHERS TO SECOND AT RPI

The Naitza brothers, Firmino and Zenos, accounted for 10 of Marriott’s 12 points and six goals to lead the Red Foxes to a second-place finish in the fourth annual RPI Indoor Tournament Saturday.

At Albany State, the tourney favorite, scored a goal with just three minutes left in the game in a 1-0 win over Marriott in the championship game. Red Fox goalie Jay Metzger, who was outstanding all day (4 goals allowed in five games) was screened out on the decisive shot.

Earlier in the day, Marriott clinched first place in Group A and a semifinal berth with a 5-1 win over Albany. Zenos gave Marriott a 1-0 lead in the third minute with assist from Firmino before Albany tied it seven minutes later. Firmino scored on a pass from Zenos for the winner.

In the semifinal match, Marriott and Ononta (Group 8 winner) battled to sudden death before Jay Metzger set up Zenon on a breakaway goal in the sixth minute for a 1-0 victory. Albany, making the trip to Group 8-steady Binghamton 6-1 to advance to the final.

The other five Round winners saw Marriott top Remscheider Alumni Soccer Club 14-4 and get tied by Plattsburgh 2-5, with Firmino scoring all three goals. Firmino finished with 4 goals and 2 assists while his brother, Zenos, had 3 goals and assists.

FRED KOLTHAY TO BE HONORED

"Fred Kolthay, Marriott’s top Cross-Country runner (and placed 9th at the 25th annual “Night of Champions”) Dinner at the Poughkeepsie Elks Club on Sunday, March 11.

Kolthay, a resident of New Hamburg, will be cited for his record-breaking victories in the sport, which were selected as one of the outstanding sports achievements in Dutchess County in 1975.

A junior co-captain last season, he also placed 8th in the NCAA Division III Championships (missing All-American status by 5 seconds), second in the Glasko Invitational, fourth in the Dutchess Invitational, Invitational and Invitational in the Albany State Invitational. All of these are the accomplishments of "Return to Forever" runner.

Kolthay also holds numerous individual and school records and course records at several sites. Last year, varsity basketball player Paul Kane was honored for his accomplishments while at Rhinebeck HS.

FIRMINO NAITZA NAMED ATHLETE OF WEEK

Firmino Naitza, a freshman from the Bronx, N.Y., has been named Marriott College Athlete of the Week for the week ending March 6.

Naitza, a member of the indoor soccer team, scored four goals in the final 10-8 win over Montana State on Saturday.

Marriott at a second-place finish behind Albany State in the RPI Tournament.

Firmino was a three-year varsity soccer player at New Hamburg before playing in the 1977 season. He was also a member of the 1977-78 varsity basketball team.

Firmino was 9th in the state in the 1500 yard run in 3:44.25. He was also fifth in the 880 yard run in 1:54.57 and the 400 yard run in 49.72.

Seven members of Marriott’s 1976-77 basketball team participated in the just-completed Intramurals. They are: Steve Sullivan, Jim Dirscherl and Joe Nebbia of "Good Old Boys", Ron Glickstein and Dave Bean of "Return to Forever", and Bruce Adams, Dan Rosenbush and Steve Strauss of "Erasmus". Sullivan and Dirscherl were also on the GMCC 1976-77 teams.

O.K., I’m wrong - Benoit didn’t win championship and last week’s final drew good crowd without them. But don’t tell me that there’s any comparison in noise levels and emotional impact of last week’s game. Wondering what the pictures I took of the final game? Well, so am I..."
