Extra $300,000 needed for aid

With tuition skyrocketing and room and board costs right behind, paying for a college education is becoming increasingly difficult for students and their parents.

Marist's new increases mean $500,000 more in financial aid will be needed by students. When will we get help? Don't look to Marist.

"I don't have that money to give," says Gerry Kelly, director of financial aid.

But Kelly says some help will be available from the state and federal governments. He says the Tuition Assistance Program (TAP) for New York State residents has increased its maximum award by $500, of which freshmen will receive up to $1,000 in aid according to need.

For juniors and seniors, TAP has made a $456 increase, making an upperclassman eligible for up to $1,365 in aid, Kelly says.

The Basic Educational Opportunity Grant (BEOG) program has also raised its levels, moving from $1,400 to $1,600 with new eligibility requirements, says Kelly.

Application forms for the awards are in the Financial Aid Office, first floor Champaign Hall.

Tuition increased again

By Maria Troiano
& Larry Striegel

For the sixth consecutive year, tuition and room and board fees for Marist students have been increased.

During the 1978-79 school year students will be charged $96 a credit, or 9% more than this year. Room and board fees for residents will be an additional $225, for a yearly total of $300.

The $25 increase, a 14.2 percent hike, is the largest ever for the cost of room and board at Marist.

According to figures released this week by President James J. Foy, Marist's half-time undergraduate commuter will have to pay $2,760 for tuition and fees. The price represents a 15.6 percent increase over last year and more than $100.

Meanwhile, a resident student will be shelling out a total of nine percent more than he paid last year for tuition, room and board, and fees. The total cost will be $4,402 compared with the figure of $4,168 for the 1977-78 school year, an increase of $245.

In releasing the figures, Foy termed the increase a compensatory move. Part of the reason for the large increase was to offset lower increases in past years, Foy said.

The seven percent increase in the cost per credit was the largest since 1970 when the price was raised from $65 to $85.

In explaining the room and board increase, Foy said several student services would be improved.

"We realized the need to improve living conditions in the dorms and to upgrade the food," Foy said.

Other plans for revenue generated from the increases include improvements in main- tenance, dormitory furnishings, outside walkways and lighting, and non-academic programs.

"Foy said money will also be used to upgrade some programs which suffered from inadequate funding in past years.

This decision to increase the tuition was made last Thursday by the college's board of trustees.

Credits will cost $95 each

The figures were withheld until Monday so that seven of the 22 regular trustees who did not attend the meeting could be notified, Foy said. The chairman of the trustees finance committee was among those absent for the vote.

According to the figures, a resident un- dergraduate who returns for his senior year will be paying roughly $1000 more per year to be educated at Marist than he did as a freshmen in the 1973-74 school year.

Next year's Marist undergrad will be paying 240 more per quarter for tuition than his counter- parts did in 1973-74. The cost of a credit was $360 for a yearly full-time cost of $1,360.

In the past five years tuition has increased 66 percent from $64 in 1974-75 to $105 for next year.

Foy said the trustees predict that future increases will not be of the same proportion. "We expect future increases to remain either at or below inflationary standards," Foy said.

Biscardi wins unopposed

By Ken Healy

Only 100 of approximately 3500 Marist students voted in this week's Student Government elections. While the voter turnout was low the number of candidates seeking office was lower.

Three candidates were on the ballot.

Frank Biscardi was elected president of the Student Government (SG) by a vote of 70 to 21. Liz Nelson won the presidency of the Student Academic Committee (SAC) by a vote of 58-37 and Chris Falls is the new president of Inter-House Council (IHC) by a vote of 49 to 40.

The victors in all three elections un-opposed as did the candidates for the three Com- mander Union (CUSD) offices.

John Hughes was elected director of CU by 19-1 margin, while Deborah Dopp and Robert Rodgers were voted in as vice president and treasurer respectively. There were no candidates for the two chief justice positions that have been vacant since the beginning of the semester.

As the president-elect of the student body, Biscardi assumes leadership of the Council of Student Leaders (CSL), as prescribed by the new constitution. The other members of the CSL are the presidents of the other student bodies.

Following his election, Biscardi said his first priority is to finish his job as SG treasurer. Upon assuming the presidency Biscardi said he would look into areas that may have been neglected this year. He said the main areas of his concern would be the Bruce TV situation and the uncertainty surrounding next year's food service.

Most students don't realize that we may lose the present food service system," he said. "I think most students are satisfied with the food and we may organize something if it looks like we'll lose it."
Manzinii escapes at McCann

By Jeff McLelland

The Marist chapel, formerly damaged by fire last year, is scheduled for renovation. Father Richard Laubert said the changes will make the chapel "safer, more contemporary".

Some of the plans will be revealed during the open house on Saturday. "This is a great opportunity for people to see what we're doing," Father Laubert said.

Candidates night gets poor showing

By Lark Lummis

Only two students attended Candidates Night on Friday. The four candidates running for Student Senate seats in student Government (SG) failed to attract many people.

The four candidates running for student representative on the Student Affairs Committee were summed up as "boring", "uninformed" and "unprepared". There was a lack of enthusiasm among the candidates, but the campaign for the new council does not seem to have much passion.

Attributing the poor showing to the "lack of any campaign" strategy, one student said, "If we had a good campaign, we would have a campaign!"

Another student said, "If it's the fault of the students, then we're not going to have a campaign!"

Others said that the candidates should be more active and involved.

Some said they didn't vote because they didn't see any benefit to it.

Several students who said they didn't vote because they don't believe in the candidates.

Chicago company may check Foy

By Kathy Norton - Maggy Lambertz

President Louis Foy said he and possibly five top administrators and the College's top executive will be leaving soon.

Foy, president of both the College and the independent firm, Marist is considering joining a corporate firm. The decision is expected to be made in the next few weeks.

Foy, who has been at Marist for 26 years, said he is "considering" the offer and that the decision is "on hold".

"I'm not giving a definite answer," Foy said. "I'm simply considering the offer and the decision is on hold."
Manzini escapes at McCann

By Jeff McDowell

Marielle Manzini, a professional dancer, dove into the McCann Center pool Friday while a group of students and several faculty members danced, sang, and several played guitar. She emerged from the edge of the pool and danced and sang into the night.

Chapel set for summer renovation

By Jeff McDowell

The Marist chapel, severely damaged by fire last year, is scheduled for renovation and painting this summer. Father Richard Labethre said the renovation would take place during the summer months.

Tuition justified?

Next year, resident Martian students will have to pay $4,200,000, tuition, room and board for each student in attendance. Many wonder, is this fair? There are those who argue that the cost of attending college is excessive, and that it is unfair to those who cannot afford it. Meanwhile, others believe that the cost of education is a necessary investment in the future of society. 

Apathy again

Once again, the CIRCLE will present an unprecedented event: Apathy Day! This year, Apathy Day will take place on April 15th, the traditional election day. We are calling on all students to participate, but we are also concerned about the low turnout. It seems that there is a growing apathy among our community, which is worrying. Let’s make our voice heard on this important day.

Viewpoint

Loneliness

By Lawrence J. Sullivan

A personal crisis can be an opportunity to explore your own identity and values. The process of understanding your own experiences and feelings can be a powerful one. I’m here to help you navigate through this journey.

Frankly Speaking

Arts, entertainment, and culture

On April 15th, the annual Circle Festival will take place. This event is a celebration of cultural diversity and artistic expression. It is a great opportunity to experience new forms of art and music, and to connect with people from different backgrounds.

Tuition justified?

Next year, resident Marriott students will have to pay $14,000, tuition, room and board. This year, the total cost is $14,500 per year. While these costs may be justified, students must be informed about the activities the college is taking to control these costs. In the past, it has been difficult to see these costs. Recently, students at the university have been given a detailed breakdown of the costs and this has been a positive step.

Another question which must be asked is whether or not MI is pricing itself out of its market. If the costs continue to rise, MI will become less affordable and it is likely that some students will choose other schools. MI must continue to keep its costs in check in order to remain competitive.

Apathy again

Once again, the CIRCLE will present a story about MI students showing apathy. The students are apathetic about their classes, their food, and even their president.

Apathy means that they do not care, or do not care enough to speak up. MI students need to realize that their apathy is hurting their education and their future.

The only way to change this is for the students to become more involved. They need to speak up and express their opinions. MI must take notice and make changes.

viewpoint

Loneliness

BY Laurence A. Sullivan

A popular saying is to ask how a person is, by their psychological needs. One's psychological needs are the desire to belong and to be liked. The character of the relationship depends on the individual's perception of belonging.

Loneliness is a state of being alone, being separated from one another. To offer the feeling of being alone is a part of human nature. The feeling of loneliness is a part of the human condition.

The feeling of loneliness is a result of the lack of certain needs, such as the need for love and affection, the need for social connection, and the need for a sense of purpose in life.

Food services to bid for Marriott

By David Peterson

Note to: MI

Bids for the Marriot College Dining Services contract are being accepted through March 1. This contract covers the provision of food services for the student body and the general public. The bidding process is open to all qualified suppliers.

Dear Dorothy & thank you's

Dear Dorothy,

I thank you were just great and I like the white roses you gave me.

And I like the white tulip you gave me. Thank you for all you sent.

The present was great. She was very pretty and I would have a milestone birthday.

And I like the white tulip. Thank you for all you sent. I love you all.

Marist College Athletic Department

Stands

Would you sign up for a lifetime course in applied Christianity?

Our course will take you deep into the Third World, to some of the most depressed and corrupt areas of the planet. You will learn how to work with the poor, to listen to their voices, and to transform their lives.

As a Marist Missionary, you can share the love of God with these people. You will be able to work on the ground, to be close to the people and to understand their struggles.

Would you like to learn more about our program? Please visit us at www.maristmissionaries.org.
Dear Dorothy & other thank you's

By Beth Weaver

"Dear Dorothy, I think you were just great! I liked the way you frowned at the line and hit the ball..." I think you are cute. And I like the way you tightened up your game."

The pitcher was great. She was healthy. I think the ponytail might probably have a cartoon hyperbola. Thank you for that.

This and many other letters that she wrote are now part of the Mary’s Little Girl collection, housed at the National Baseball Hall of Fame. This is a letter to Dorothy, which she wrote to her sister, Karen, in 1977.

"Dear Dorothy, I think you were just great! I liked the way you frowned at the line and hit the ball..." I think you are cute. And I like the way you tightened up your game."

She was a big fan of the sport and had been to many games and events. She was a great role model for many young girls who wanted to play baseball.

Dorothy was a true Pioneer in the sport, and her legacy will live on through her fans and those who followed in her footsteps. She will be missed by all who knew her.

Brennemacher accomplished objective

By Joe Pard

Junior Governor President Eric Brans, said: "The objective of therecent meeting will be to increase community's communication situation.

"In order to achieve this, the meeting will be held on the afternoon of the 10th of this month at 3 p.m. in the city hall. All citizens are welcome to attend.

"The purpose of the meeting is to discuss the current issues facing our city and to work towards finding solutions. We encourage all citizens to attend and participate in the discussion."

Brennemacher was a very active member of the community, and her efforts were recognized by the city council.

Werenko to 'wait and see'

By Kathy Norton and Gerry Macbey

Because he has not received a long-term contract offer from the team, the player, who is entering his 10th season, said he is going to 'wait and see' before making a decision on his future.

"I've been here for a long time and I love it here," he said. "But I also want to explore other options. I'm not going to rush into anything and I want to make sure I'm making the right decision for myself.

"I don't have a long-term contract offer, which is a concern. I want to be able to focus on my game and not worry about my future."}

Cancer day planned

By Mary Vukelich

The American Cancer Society is planning a day of awareness and support for those affected by cancer. The day is set for the 11th of this month, and will be held at the local community center.

"The purpose of the day is to raise awareness about the disease and to provide support for those affected," said Mary Vukelich, the organizer of the event.

"We have a variety of activities planned, including a keynote speech, a support group meeting, and a bake sale. We encourage everyone to come out and join us in this important cause.

"We need everyone's support to make this day a success. Thank you in advance for your participation."
Stickmen to face tough week

By Gerald Blecher

The young Marist lacrosse team came off a dismal week with losses Wednesday and Thursday to Kenase State and West Point, respectively, and now faces the fourth week of the season with four games in seven days.

Coach Tom Cervoni considered Keenase State which beat Marist 16-10 in one of their toughest opponents this year. Against the far more experienced Kenase team, Marist’s defense was overwhelmed. Goalie Vinnie Barone was bombarded with 16 shots on goal. Louis Marrocco scored Marist’s first goal 11 seconds after the face off and the other was tallied by Billy Carew with one second left.

The following day against West Point the Red Foxes were beaten 17-6 in an exhausting game. Cervoni said the play improved from the previous day, “the passing was crisper, but we made a lot of mental mistakes. We were looking like we should be shooting and shooting when we didn’t need to.” Cervoni said he was pleased with the goals, with only six goals against, as well as the play that did against West Point and was very satisfying with the play off the field. Marist’s Bobby Setze and Russ Beckley. Cervoni now has two seniors, Setze and Beckley.

Upcoming Games

The stickmen played CCNY for the third time in their 3-0 home win. They play a rescheduled game against Weehawken on Wednesday at 3:15 p.m. here and Maristem on Tuesday.

Tennis captains win a match

Walter Brickowski

Seniors John Brittit and Walter Brickowski have been selected as athletes of the week for the week ending April 11. The co-captains of the men’s tennis team were selected for their singles event in Saturday’s match against Quinnipiac.

Athletes of the Week

Brittit, born in Peekskill and now living in New Paltz, started playing tennis seven years ago. He taught himself. A chemistry and biology major based on plans to attend the medical school at the University of Guadalupe, Mexico in May, Brittit was selected as an outstanding objective of a heart surgeon.

For the past three summers Brittit has been teaching tennis in Hopewell Junction to “people of all ages.”

A graduate of John Jay High School, where he played junior varsity basketball for one year. Brittit plays tennis year round. He enjoys tennis because “the game is one-on-one, it takes more than just basic skill to play, there is a lot of psychology involved. The psychology is a lot more of a challenge than the actual physical game.”

The 5’7” 135 pound player says that he is “not a good player” in a tennis match, “you have to work your own game, you can take all the blame.”

Brickowski was born in Yonkers and also lives in Peekskill. Brickowski has been playing tennis for four years, “but we’ve had nothing else to do in the summer.” Also he taught himself. A member of the Marist basketball team for three years, Brickowski graduated from Hastings High School.

As a 4.0 student, Brickowski, like many of his teammates, is a part of the tennis team for free to invite matches at Greenhaven Correctional Facility. He plays softball, volleyball, racquetball and baseball, but doesn’t play tennis year round because “it’s too expensive.”

From club to varsity

Although the football squad is now a new school, the Division III team is the program essentially the same as when the Red Foxes were a club.

Head coach Mike Mela, who replaced 13-year veteran Ron Levine has every reason to be optimistic about the future since the team was reclassified when it made a decision to go Division III. There is an excellent brand of football in the league and the amount of club teams is diminishing. A good division III team will enhance the reputation of Marist College.

A lot of the present players have a misconception that we are planning on going with a new program. The coaching staff is not committed to a one or two year program, we are committed to a solid, outstanding program that will be interested in people who will give us a strong nucleus when it becomes junior varsity and varsity, he said.

“Now we next year will depend on the rise and fall of our present players.” Mela is pleased with these players, most of whom have been injured at one time or another. He said, he is looking to Jeff Hackett, Jim Piera, Pat Laasslie and Cator Francey in the offensive area and Mike Sagan, Brad等特点 and Joe Davignon in defense.

Although Marist now has a Division III football team they will still be playing the same schools: St. John’s, Iona, Pace, Brooklyn, Plattsburgh, St. Peter’s of New Jersey which is an addition, are all varsity teams. The Red Foxes will still play Siena, St. John’s and Mercy College, said the head coach.

Talking with the head coach of Allensky State, Mela thinks he eliminated some of the scheduling problems that Allensky encountered when they made the transition to a varsity level sport.

“We don’t want to jump in full scale with a program that would allow us to fall in the beginning. We’re looking to build a solid foundation,” said Mela in reference to the schedule. The team is surviving with basically no financial commitment from the college when than they were a club sport. If approved the budget will now include the $6,000 insurance fee each player used to pay.

“Next year’s schedule is basically the same, people will see a change in two or three years when we play Kenton West and Mela who “can’t honestly see the team going past Division III.”

Athletic Director Ron Petro said he can’t see the team going any far than Division III because there are too many rules and regulations for a Division II. “We have a good team, we’d have to give scholarships. I don’t see the need for that here. The college is not in the financial situations to make that commitment. Our plan provides some place for good high school players to come,” said Petro.

A resident of Hyde Park, Hallmann is beginning his second year as an offensive back coach at Arlington High School.

A graduate of New York Academy of Arts he also teaches in the Arlington School district.

A native of Hudson is newcomer Frick who will be coaching wide receivers and defensive backs. He has played semi-professional football with Columbia County Viking.
