Mandela out; trouble stays — journalist

by LENNY KLEIE Staff Writer

Despite the recent release of Nelson Mandela from prison, apartheid is still alive and well in South Africa, said South African journalist Desimani Kumalo in a speech he delivered Saturday night in the Theater.

Kumalo spoke to about 200 people for almost two hours on the nature of apartheid in South Africa, stressing that there has been no change of condition for the black majority there. "Mandela's freedom, I hope and think, will signal some end to apartheid," Kumalo said. "When it comes down to it, black and white South Africans are doomed to live together.

Kumalo spoke of his own childhood as a black in South Africa, where he was separated for months at a time from his migrant-worker father. "The way the government controls the people is like the family institution," he said.

Kumalo began his career by writing for several papers now banned by the apartheid government. As a journalist, he exposed the working conditions of black migrant workers in the mines and abuses of police power, such as detentions without charge and death in detention.

He was one of the founders of the now banned Union of Black Journalists. Because of his writings, he was chosen to be a participant in the Multi-ethnic Foreign Journalists' Project in the United States. Kumalo also became the executive director of the office of the Ford Foundation Human Rights Fellowship and has spoken to U.S. audiences everywhere about his country and urged divestment by American companies doing business in South Africa.

Kumalo was recently given permission to return to South Africa by the government under F.W. deKlerk, and plans to return soon. "I am uncertain about what lies ahead when I get there, but look forward to going back so I can get rid of this cold," he said with a laugh.

"Mandela's freedom, I hope and think, will signal some end to apartheid," Kumalo said. "When it comes down to it, black and white South Africans are doomed to live together.

Minors give students a boost in job market

by LAURIE AURELIA Staff Writer

Some Marist students will not only become accountants, bankers and broadcasters; they will double as psychoanalysts or advertisers. As the college's faculty and students, minors comple- ment a student's educational background, as well as provide a way to explore other areas of interest.

The college provides 25 minors in fields ranging from accounting to philosophy, the most popular being psychology, said Linda Evenson, registrar.

Declaring a minor is a good way to discover where your abilities lie, said Deloris Seip, director of career development and field experience.

However, minor students are a more marketable candidate when hunting for that first job, said Seip.

"Employers look for expressions of academic in- volvement in their applicants," she said. "Students who have completed a minor give evidence of this because they have committed to both a major and a minor.

"Figures for the class of 1990 were not yet available, but of about 600 graduates in the class of 1989, only about 100 declared minors, and of those, only half actually met the requirements," Ivenson said.

"That low number is not surprising because many students have a hard time just choosing a major," she said. "They don't have time to worry about a minor as well.

Students cited several reasons for choosing a minor but the most popular one was that it related to their major.

Amy McCane, a junior from Racquet Lake, N.Y., is majoring in communication arts and minoring in fine arts. She said she recommends the combination because students interested in a career in advertising. "I plan to go into advertising after graduation, but I'm more interested in design than in writing copy," she said. "My fine arts minor has taught me a lot about layout, design and good composition." Other students said they take a minor because it looks good on a resume.

Each minor requires a specific number of credits in order to complete the course work. While only 12-15 credits are required for a psychology minor, 39 credits are required for a minor in environmental science.

"It was very interesting in philosophy but didn't want to major in it," said Rauselinas. "I liked the classes and I also found that they improved my writing skills."
Radicals raise spectre of music censorship.

Joe McCarthy would have been proud.
We’re reaching a new era in fascist sophistication. The new conditions is just beginning, except this time, we’re all being told to put our lives at risk.

For the first time in history, music is a means of subversion.

A group of radicals is on the verge of taking over the music industry. They claim to represent the voice of the people, but in reality, they are using music as a tool for oppression.

According to a recent report from the underground music revolutionaries, there are over a million people involved in this movement. They have established their own news network, mapping out strategies to spread their message and control the music industry.

But there is a group of us who are fighting back. We are music fans who believe that music should be a source of joy and freedom, not a tool for oppression. We are standing up to this radical group and demanding that our voices be heard.

Together, we can make a difference. Join us in the fight against music censorship. Together, we can take back our music.

Spring Break is only three weeks away…

by TYLER GRONBACH

Saigon, two words frequently synonymous with sex, sun and plenty of partying. But there’s more to three weeks on the streets than just your standard beach party.

I recently spoke with a group of friends who have been to Saigon before, and they all had glowing reviews of their time there. They described it as a laid-back, relaxed atmosphere with great food and drink options.

So what should you expect for your trip to the city? Here are a few tips to get you started:

• Saigon is a great place to try authentic Vietnamese cuisine. There are plenty of street food vendors in the city, so be sure to try some.

• The climate in Saigon is tropical and humid, so be prepared for hot and sticky weather.

• The nightlife in Saigon is vibrant and exciting, with plenty of bars and clubs to choose from.

So get ready for your trip to Saigon and make sure to experience everything the city has to offer.

Radical raise spectre of music censorship

Joe Mccarthy would have been pleased.
We’re reached a new era in fascist suppression. The only difference is just beginning, except this time we don’t blame it on the communists. No, it’s the 90s. You can’t pin anything on that anymore. D-Pop, heavy metal and soap operas are the new reds.

According to a recent issue of Billboard magazine, there are currently 99 active music censorship groups throughout the US. This is up from just 8 last year. The Onion’s Faking News Service reports that the Lisa Marie Presley Songwriting Group, the Metallica Motocross Group, and the Aerosmith Anti-Dietary Council are just a few.

This was probably not what Joe McCarthy had in mind, of course. But the above groups are just the tip of the iceberg. In fact, there is a new group just formed in the Middle East, the ‘Saudi Rock & Roll Censorship Group’.

Tippin’ may not be as stylish as the 1950s, but it is just as important today. We need to protect our youth from the dangers of music and literature. It is our duty as parents to ensure that our children are not exposed to harmful and subversive materials.

Kleen Fagan

Rites of Spring with a new fire

With the fresh scents of spring slowly but surely breaking through the final echoes of the winter’s tempest, our minds begin to drift with the weather into a state of relaxation. In our minds, we visualize the rebirth, growth and hope for a new beginning.

The season of growth inspires thoughts of new beginnings, and so it is fitting that amidst the blossoming of flowers, our thoughts turn to the future and the promise it holds.

Construction worker injured in fire

A construction worker suffered from smoke inhalation and minor cuts on his hands and face Thursday after a fire struck a trailer in The Circle Cottages off College Ave. according to Lt. Col. Dan Lindsey, director of safety and health.

He said that smoke and heat were the main concerns of the fire, which was reported at 10:45 a.m. by a neighbor.

The worker, who was a member of a construction crew that was working on the site, was transported to St. Francis Hospital in Poughkeepsie.

Lindsey said that several units were on hand to fight the fire, and that the worker was treated for smoke inhalation and minor cuts.

Briefs

The Office of Admissions has recently completed its annual admission presentation which will be shown to prospective students.

The presentation, which lasts approximately two hours, is aimed at attracting students and is expected to be attended by students visiting the college during the fall 1990 semester, and Carol Mabry, director of admissions.

She said that the program stresses the importance of attending college, the cost-benefit ratio of attending college, and the overall value of a college education.

60 Student members named Who’s Who

Sixty Marine students have been included in the 1990 edition of Who’s Who Among College Students. The publication is designed to honor and recognize the achievements of outstanding students.

The students were chosen by a panel of experts from various fields, including education, business, and industry. The selection process is based on academic achievement, leadership, and service to the community.

The publication is distributed by the National Association of Colleges and Employers, which is the official publisher of Who’s Who Among College Students. The publication is available exclusively to members of the National Association of Colleges and Employers.

Rites of Spring with a new twist

With the fresh aroma of spring slowly but surely breaking through the final odors of the winter equip- ment plan, our minds begin to drift with the weather into a state of anticipation. In contrast to the dank, dreary, wet, and freezing winter, spring brings rebirth, growth, and hope back.

Kings and spring seem much like dogs and mules, you can't have one without the other. An armload of mules might be replaced by irrigated, sandy fields where we not only pasture our heavy college herd, but also our heavy college herd drivers.

Kings are useful, functional members of a society that would be quite different and being without the same. As an inside source states that money remains in the Northwest Conference only for the sake of building a division one big four, and when the school was microwaved a sports day the King Olympics which was at the time, basically just outside of Milwaukee.

The site you choose is the perfect and convenient location just 10 miles away from the beer pond. However, the site is in the King Capitol, and the race for the field of play has yet been determined.

The Olympic rings are very likely in danger in a week and, with individual comers as well as roleys. That shared kings is comers of joining the East Coast Conference, the school would have been ob- served on the air and seen a division one baseball program. A new administration thought it better to go with the sport it could offer the most competitive to.

Though we're occasionally get- ting all the attention, the majority of the booming athletes active with us like Bill or is Corrected visions of a na- tional power baseball teams, a sport that has the potential to really showcase the overall talents of the entire market half, as well as as the threat of an expansion into a new land of national prominence.

At the recent press conference revealing the plan, President Matthews, citing a national TV audience, was quoted saying, "With the Olympics we have the chance to showcase our school and are the chance to make our school well known.

The plan consisted of bringing in a brand new basketball team, the basketball team, the basketball team, the basketball team, the basketball team.

As a result, the field of play had yet been determined. Among the scheduled events are a new basketball, a new football, and a new baseball.

Some might feel the pressure of not being able to do too much. But there are hopes for the future. That is the planning.

"Summer, that's the season we show the world we have a good team," the President added, "Summer, that's the season we show the world we have a good team, that there is a good team, that there is a good team, that there is a good team.

A day in the life

Briefs

Construction worker injured in fire

A construction worker suffered from smoke inhalation last Thursday after a fire struck a trailer next to The Circle Apartments. According to an investigator, there were 100 workers on the site at the time of the fire, and one of them, a construction worker, was taken to the hospital. The fire was said to have been due to electrical problems. The hospital did not release the name of the injured worker but said that he was expected to recover.

The Office of Admissions is currently reviewing the possibility of creating a new scholarship program which would be available to prospective students. The program would provide $5,000 to $10,000 to students who apply for admission before the deadline. Students are required to have a minimum GPA of 3.5 and to submit a letter of recommendation from a teacher or professor.

It’s true that, as the editorial states, the Circle College
student body is apathetic in the college and it’s activities. It’s
true that the student body is apathetic in the college and it’s
activities. It’s true that the student body is apathetic in the col-
lege and it’s activities. It’s true that the student body is apathetic
in the college and it’s activities.

But what is a radio station without a tremendous amount of
effort put into it. Only a few students have ever done so much
in the past. What is the point of any of these endeavors if
they are not fulfilled? What is the point of any of these
efforts if they are not fulfilled? What is the point of any of
these efforts if they are not fulfilled?

Without sufficient exchange, much has been
lost in the process. There is a need for more con-
scientiousness. The need for more conscientiousness.
The need for more conscientiousness.
The need for more conscientiousness.
The need for more conscientiousness.

To say that this is a revolution as complete as Lenin’s
was to say that this is a revolution as complete as Lenin’s
was to say that this is a revolution as complete as Lenin’s
was to say that this is a revolution as complete as Lenin’s

The policy of the student body is to work tirelessly
and courageously on this vital issue. It is a vital issue. It is a vital
issue. It is a vital issue. It is a vital issue.

Nicola Mandela is in hospital for the first time in
years. The news of his health problems is con-
cerning to many. The news of his health problems is con-
cerning to many. The news of his health problems is con-
cerning to many. The news of his health problems is con-
cerning to many.

In 1964, as an integral part of the African National Congress
(NAC), a group which challenged South Africa’s apartheid
system, was founded. NAC was around for 16 years. The
nachache, was around for 16 years. The
nachache, was around for 16 years. The
nachache, was around for 16 years.

It seems that the combined efforts of the
students, the faculty, and the administration
at the college are working. It seems that the combined
efforts of the students, the faculty, and the administration
at the college are working. It seems that the combined
efforts of the students, the faculty, and the administration

a change. I couldn’t wait on my upper deck for
a change. I couldn’t wait on my upper deck for
a change.

I didn’t know what to expect. I didn’t know
what to expect. I didn’t know what to expect.
I didn’t know what to expect.

But I knew that there would be rain. I knew
that there would be rain. I knew that there
would be rain. I knew that there would be rain.

In Ireland, spring means rain...
Editorial

Killing “Intro” is a good move

By MARK S. AIDORCH

So what if the idea of a college student living under the threat of violence is not true? It seems that most college campuses are now considering implementing new policies to address the issue. Schools are thinking about banning certain types of weapons on campus, or restricting student access to certain areas. Is this an effective solution to the problem of campus violence, or are we just redefining the problem? What about the right of students to bear arms? These are important questions that need to be addressed.

Ritter controversy shows lack of faith

By TINA LAVALLA

The Ritter controversy has shown that there is a lack of faith in the political system. People are skeptical of politicians and their promises, and this has led to a decrease in voter turnout. It is important that politicians are held accountable for their actions and that they are transparent about their decisions. This will help to restore the public's faith in the political process.

The Circle

Letter Policy

Deadline for letters is noon Mon.-Thurs. Letters should be no more than 300 words long.

Letters to the Editor

No support

By MARK S. AIDORCH

The current political climate is one of lack of support for traditional values. Politicians seem to be more concerned with pandering to their base than with the needs of the American people. This is evident in the recent Supreme Court decision on same-sex marriage, which was supported by a majority of people but opposed by many politicians. The courts are now stepping in to fill this void, as they have in the past.

Letters to the Editor

Gorbachev stays in command

By TINA LAVALLA

The Gorbachev era has come to an end. The Soviet Union disintegrated and the Soviet Union was dissolved. This was a momentous occasion that will be remembered for years to come. The fall of the Berlin Wall, the end of the Cold War, and the collapse of communism were all significant events. It is important to remember that these events were not the result of any single person, but rather the culmination of a series of events that had been building up for years.

Much work remains in S. Africa despite the release of Mandela

By TINA LAVALLA

The release of Nelson Mandela was a key moment in the fight against apartheid in South Africa. However, the work is far from done. There are still many challenges that need to be addressed, including poverty, inequality, and lack of access to education and healthcare. It is important that the world continues to support the South African government in its efforts to build a more just and equitable society.

In Ireland, spring means rain

By TINA LAVALLA

In Ireland, spring means rain. The weather is typically wet and windy, and this can make gardening difficult. However, there are many things that can be done to prepare for the wet weather, such as planting bulbs and seeds in pots. It is also important to make sure that the garden is well-drained and that there is good drainage around the plants.

"People have a tendency to look at me as the fashion Valley and would say to me 'you live in the country, there is no style, which is absolutely not true, my children bring style to attention," said Porcelli. Fashion Valley magazine appeared, but the other magazines in the 80's, nineteen ninety-one issue. They wanted my style and image to be published at each of the magazines, said Porcelli. Porcelli encouraged them to cultivate their thoughts and ideas of what is alive in the publishing layout of the future.

Marisa fashion student Stacey Tapson, Croatian Cells and Cherly嫣红 assisted Porcelli in his first edition this month.

Porcelli speaks chic in fashion feature

By JENN JOHANNESSEN

Staff Writer

Caroline Porcelli has added a new dimension to her line. "Chic to Chic" with "Chic to Chic Porcelli" is a new monthly column in Fashion Valley magazine to the fashion feature of the fashion program at Marisa.

"It's a style page with an attitude," said Porcelli, whose section is published in the Princess issue magazine.

Porcelli's style is one of the most unique, bohemian, and sophisticated. Her style is a reflection of her love for fashion and her desire to inspire others to pursue their own style. She carefully selects and mixes her clothing pieces, creating a unique and fashionable look. Her style is a combination of chic and casual, perfect for any occasion.

Life

May Begin

At Forty.

But

Heart Disease

Can Begin

At Four.

A study of more than 8,000 children lasting 15 years suggests that it's especially prudent to encourage kids in the right eating habits. A diet low in saturated fats and cholesterol is associated with a lower risk factor for heart disease and stroke.

Foxes take tourney

There is one word that best describes the performance of the Neat's volleyball team in last Saturday's Invitational Tournament — domination.

After losing its first game to Lehman, Moris was every game it played each in two out of three sets of matches and improving the team's overall record to 12-3.

Moris dropped the first game to Lehman College, 15-7. Moris went on to take the next two sets by winning the next two games, 15-6, 15-13. Lehman's strategy of blocking the ball over Moris' first set of defense caught Moris off guard, giving the win to the Red Foxes.

In the second game, Moris' attack was stopped by Lehman's defense, which caused Moris to lose the second set, 15-9. Moris' chances of winning the game were nullified when they were blocked by Lehman's defense.

In the third game, Moris' attack was stopped by Lehman's defense, which caused Moris to lose the third set, 15-9. Moris' chances of winning the game were nullified when they were blocked by Lehman's defense.

Moris, with the help of Junior Steve Hoffmann, started picking up those shots and ended up hitting the Red Foxes to the wall.

Moris then went on to defeat Adelphi, 15-10, 11-15, and Pratt, 15-15, 11-15. Moris' attack picked up, but they showed some signs of rust in the first set.

—Jim Doherty

Volleyball gets even

After last season's tough loss to the Baruch City College tournament, the Neat's men's volleyball team has won back Baruch, 15-11, 15-8, 15-5.

This was the third time the two teams met in the tournament, with the first match being a 3-1 victory for Baruch.

The Baruch team attacked strongly against the Neat's defense, which led to the first set going to the Red Foxes, 15-11.

In the second set, the Neat's defense was on target, and the team scored 15 points to Baruch's 8, winning the second set.

In the final set, the Neat's defense was on target, and the team scored 15 points to Baruch's 5, winning the final set.

This year's tournament is a 1-3 victory for the Neat's men's volleyball team.

Mermen ready to be champs

By CHRIST SHEA
Staff Writer

Last year the Marist men's swimming team won the conference dual meet title, but lost the team championship.

This year the team went on to the Invitational meet at the University of Connecticut.

The squad took 1-12 place in the meet, the first time that the team has been able to reach the championship.

The 400-yard relay team consisting of Jeff Flittner, Trent Burnham, and Scott Tinnin caps off their win with a 2-12 finish, and a conference record in the process.

Marist with 26 corollaries and scores— wins the title on its eighth win—chasing the conference meet championship.

The team's performance was a 1-2-3 victory for the team.

The team's time for the 400-yard relay was a 3:39:47, setting a new record for the team.

The 400-yard relay team consisting of Jeff Flittner, Trent Burnham, and Scott Tinnin caps off the win and sets a conference record in the process.

Next meet: Saturday at the New Paltz pool. The Maisto men's swimming team will be looking for another dual meet title.
Cagers head to MSG to face tough challenge

by MIKE O’FAFFLE

The Red Foxes face a tough opponent tonight when they take on the James Madison University Dukes in Madison Square Garden. Coachied by Leffy Dirselle, James Madison is the Colonial Athletic Association (CAA) team, but is in as tight a spot tonight between the two clubs.

The Dukes, who played at East Carolina on Monday night, entered that game with a 1-5 overall record and a 1-1 mark in the CAA. James Madison has also won a school record nine games in a row prior to Monday’s game.

Coach Dave Magarity said he is excited about the opportunity to play in Madison Square Garden. “Not too many people thought we’d be doing as well as we have been and it would be nice to go there and keep it going,” Magarity said.

“They are a strong team, however, coming from a conference game, we can’t let this game hurt us, we have to go in there and have fun...take advantage of the opportunity,” he said.

However, this isn’t Wagner’s first night against James Madison. Magarity entered that game with a 1-5 mark and posting a 7-4 Northeast Conference mark. The Red Foxes defeated Wagner earlier this year at the McCann Center by a score of 81-70. In that game, six Red Foxes scored in double figures and Curtis Colissant scored 15 rebounds.

Last Tuesday, Marist traveled to New Jersey for a conference battle against the Monmouth Hawks. The Red Foxes entered the game with a 4-1 win over the winning streak on the line only to see it snapped by a score of 80-70 in favor of Monmouth.

Tied 26-26 at the half, Monmouth exploded in the last 4:35 when they outscored Marist 15-2 to come away with the victory.

The Hawks turned the tables on the Red Foxes by applying a defensive press late in the game to start the scoring spur. Marist was unable to handle the pressure and had two quick turnovers in the game. The Red Foxes committed 17 turnovers in the game.

Another factor in the loss against Monmouth was lack of production off the bench. Led by Andy Lake and Rod Henderson, the Red Fox reserves have been averaging 32 points per game. Against the Hawks, the non-starters could only muster 10 points.

Junior Steve Potemski led the Red Foxes with 13 points in the game, while senior point guard Joey O’Connor chipped in with 11. In the last four games, O’Connor is shooting 50% from the floor (14-28), and 69 percent from three-point range (9-13).

After tonight’s game against James Madison, the Red Foxes return to the McCann Center for three conference games.

The Northeast Conference race is on as Robert Morris and Monmouth share the spot with 9-3 conference marks. Marist and St. Francis (N.Y.) are tied for second with 7-4 marks.

The Red Foxes host St. Francis on Feb. 17, Robert Morris visits McCann on Feb. 19, and LIU comes to town on Feb. 22.

Marist wrapped up the regular season Feb. 24 with a 95-93 win against St. Francis (N.Y.). The Northeast Conference tournament begins on Feb. 27 and the winner of that moves on to the NCAA championships.

The site of the conference tournament is determined by who wins the regular season conference title.

Icemen split in weekend action, loss comes on last-second goal

by JANET RYAN

The Marietta hockey team defeated Stoneybrook Saturday at the Civic Center but was unable to hold off a second loss Sunday — literally — at Southern Connecticut State University on Sunday.

On goal by John Walker, Scott Brown, Scott Doyle and Kevin Walsh, the Red Foxes outscored Stoneybrook 4-3.

Junior Scott Kendall racked up three assists in the game, and Scott Madison and Scott Rybka also tallied goals in the game.

“Stoneybrook was the best team, but it was a good game because they had an excellent goalie,” said Scott Madison, and assistant captain, “but the team really pulled together in the second period.”

“We weren’t as sharp as we wanted to be,” said the junior goalie. “Rybka played a great game, but we had a very hot goalie,” said lead coach Jeff Doerge. “No matter what was thrown, he wasn’t stopping it.”

The game went well and the players played a great game, he said.

Lady cagers extend streak

by CHRIST SHEA

Five straight points by Monica O’Halloran with six minutes left in the game boosted Marietta to a 71-58 win over C.W. Post.

O’Halloran converted a layup and then hit a three-pointer off a steal of the rebound pass to put the Lady Red Foxes up by seven in a sloppy game marked by 52 turnovers.

Marist held a slim 23-22 lead at the half and the senior battle continued until the six-minute mark when the Lady Red Foxes went on a big run.

Freshman Charlene Fields had the only other player to reach five points with 14 and added five rebounds coming off the bench.

Marietta outscored their opponents 46-38 in the third quarter and 26-23 in the fourth for the win.

The win is the Lady Red Foxes’ third in a row and it boosts the overall record to 12-7 (7-2 in the Northeast Conference).

Prior to the C.W. Post victory Marietta scored an even better win over Monmouth College.

Nancy Holbrook buried six out of nine 3-pointers to lead the Lady Red Foxes to a 69-49 win.

Holbrook finished with 21 points to lead the team in scoring. O’Halloran also added 19 points. Ruth Hailey was high rebounder with six.

The Ladies team now has a stretch in schedule where it plays two key conference games.

On Tuesday Marietta matched up against Wagner College. Results of the game were unavailable at press time. Marist defeated Wagner earlier this season at home 61-58 with O’Halloran scoring 20.

Tonight the team hosts Robert Morris at 7:30. The two teams met Jan. 20 at Robert Morris with Mariett pulling out an eight-point win 67-59. Danielle Galloomen led the team in scoring with 16 points.

Iron Mike lost, the world goes on but...

Unbelievable! That is the only word that describes last Sunday’s events. Unbelievable, that a tragedy could have happened, check your pulse. There aren’t too many things left that are even remotely as bad as the Super Bowl won’t be close and Miami is showing that whenever they meet.

They went one to fall — literally — was that Mike Tyson would demolish anything gets in his ring.

I would hate to be in James’ position. Viewership numbers will be down. The rematch happens. Someone’s got a lot to lose. And the boxing community — they were also right in awarding the senior spot to Douglas.

Although his decision turned out to be the right one, the Internation — now known as the World Boxing Federation acted too much too quickly in awarding the title to Douglas — they should have been more certain than they were.

Not to take anything away from what Douglas did after he was knocked down, the fight should have ended in the eighth round. The referee should have done the right thing.

Douglas being something like this to reinforce the idea that there needs to be a single governing body for boxing, rather than three.

The different weight classes are hard to compare. Many boxers, multiplying those by the three organizations, MC, WBA and WBC, must be done next to impossible to top.

One governing body, one set of rules, one decision to be made —

that’s all it takes to avoid a controversy like the Tyson-Douglas one.

I must admit I’ve seen the fight replayed in the round rounds especially — dozens of times, mainly because I couldn’t believe that I saw it, and not from the front view.

Douglas deserves loads of credit for fighting on. For fighting to try, let alone knocking him out.

Douglas says he and his team feel that they never should have been able to get up from the Tyson punch.

Of course Douglas says he could have hit Tyson with the true 10 count but the fact still remains that he didn’t.

Since the fight continued and Douglas wound up knocking out Tyson, it would not have been right for either of the boxing organizations to award Tyson the title.

Incidentally, and just to be fair to referee Octavio Meyran, he did count at the same speed for Tyson. If you use the same working speed, Meyran’s count of 10 occurred at an actual 14-second mark. This may not be the quickest guy on the earth, but at least he’s consistent.

Getting back to the title situation, Douglas should have the belt — for now — but there should be a rematch.

As far as the differences in the judges’ scorecards; well, that’s a subjective situation.

One judge had Douglas winning 90-82 at the point of the knockdown. Another had Tyson winning 87-86 and the third had the fight tied at 86. Not only is that matter, but I was keeping score at home and had Tyson winning 87-86.

Something tells me that Douglas needs to be needed too much for the rematch.
